Information for your safety and comfort

Read these instructions carefully. Keep this document for future reference. Follow all warnings and instructions marked on the product.

Turning the product off before cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Caution for plug as disconnecting device

Observe the following guidelines when connecting and disconnecting power to the external power supply unit:

- Install the power supply unit before connecting the power cord to the AC power outlet.
- Unplug the power cord before removing the power supply unit from the projector.
- If the system has multiple sources of power, disconnect power from the system by unplugging all power cords from the power supplies.

Caution for Accessibility

Be sure that the power outlet you plug the power cord into is easily accessible and located as close to the equipment operator as possible. When you need to disconnect power to the equipment, be sure to unplug the power cord from the electrical outlet.

Warnings!

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface.

This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.

- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.

- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use it under sporting, exercising, or any vibrating environment which will probably cause unexpected short current or damage rotor devices.

Using electrical power

- This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
- Do not allow anything to rest on the power cord. Do not locate this product where people will walk on the cord.
- If an extension cord is used with this product, make sure that the total ampere rating of the equipment plugged into the extension cord does not exceed the extension cord ampere rating. Also, make sure that the total rating of all products plugged into the wall outlet does not exceed the fuse rating.
- Do not overload a power outlet, strip or receptacle by plugging in too many devices. The overall system load must not exceed 80% of the branch circuit rating. If power strips are used, the load should not exceed 80% of the power strip's input rating.
- This product's AC adapter is equipped with a three-wire grounded plug. The plug only fits in a grounded power outlet. Make sure the power outlet is properly grounded before inserting the AC adapter plug. Do not insert the plug into a non-grounded power outlet. Contact your electrician for details.

.....
Warning! The grounding pin is a safety feature. Using a power outlet that is not properly grounded may result in electric shock and/or injury.

.....
Note: The grounding pin also provides good protection from unexpected noise produced by other nearby electrical devices that may interfere with the performance of this product.

- Use the product only with the supplied power supply cord set. If you need to replace the power cord set, make sure that the new power cord meets the following requirements: detachable type, UL listed/CSA certified, VDE approved or its equivalent, 4.5 meters (15 feet) maximum length.

Product servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.

Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- the power cord or plug is damaged, cut or frayed
- liquid was spilled into the product
- the product was exposed to rain or water
- the product has been dropped or the case has been damaged
- the product exhibits a distinct change in performance, indicating a need for service
- the product does not operate normally after following the operating instructions

.....

Note: Adjust only those controls that are covered by the operating instructions, since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.

.....

Warning! For safety reasons, do not use non-compliant parts when adding or changing components. Consult your reseller for purchase options.

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

Additional safety information

- Do not look into the projector's lens when the light is on. The bright may hurt your eyes.
- Turn on the projector first and then signal sources
- Do not place the product in following environments:
 - Space that is poorly ventilated or confined. At least 50cm clearance from walls and free flow of air around the projector is necessary.
 - Locations where temperatures may become excessively high, such as inside of a car with all windows rolled up.
 - Locations where excessive humidity, dust, or cigarette smoke may contaminate optical components, shortening the life span and darkening the image.
 - Locations near fire alarms.
 - Locations with an ambient temperature above 40 °C/104 °F.
 - Locations where the altitudes are higher than 10000 feet.
- Unplug immediately if there is something wrong with your projector. Do not operate if smoke, strange noise or odor comes out of your projector. It

might cause fire or electric shock. In this case, unplug immediately and contact your dealer.

- Do not keep using this product to break or drop it. In this case contact your dealer for inspection.
- Do not face the projector lens to the sun. It can lead to fire.
- When switching the projector off, suggest to ensure the projector completes its cooling cycle before disconnecting power.
- Do not frequently turn off the main power abruptly or unplug the projector during operation. The best way is to wait for the fan to turn off before turning main power off.
- Do not touch air outlet grille and bottom plate which becomes hot.
- Clean the air filter frequently if have. The temperature inside may rise and cause damage when the filter/ventilation slots clogged with dirt or dust.
- Do not look into the air outlet grille when projector is operating. It may hurt your eyes.
- Always open the lens shutter or remove the lens cap when the projector is on.
- Do not block the projector lens with any object when the projector is under operation as this could cause the object to become heated and deformed or even cause a fire.
- Do not attempt to disassemble this projector. There are dangerous high voltages inside which may hurt you. Refer servicing only to suitable qualified professional service personnel.
- Do not stand the projector on end vertically. It may cause the projector to fall over, causing injury or damage.

Caution for Listening

To protect your hearing, follow these instructions.

- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

Disposal instructions

Do not throw this electronic device into the trash when discarding. To minimize pollution and ensure utmost protection of the global environment, please recycle. For more information on the Waste from Electrical and Electronics Equipment (WEEE) regulations, visit

<http://www.acer-group.com/public/Sustainability/sustainability01.htm>

First things first

Usage Notes

Do:

- Turn off the product before cleaning.
- Use a soft cloth moistened with mild detergent to clean the display housing.
- Disconnect the power plug from AC outlet if the product is not being used for a long period of time.

Don't:

- Block the slots and openings on the unit provided for ventilation.
- Use abrasive cleaners, waxes or solvents to clean the unit.
- Use under the following conditions:
 - In extremely hot, cold or humid environments.
 - In areas susceptible to excessive dust and dirt.
 - Near any appliance that generates a strong magnetic field.
 - Place In direct sunlight.

Precautions

Follow all warnings, precautions and maintenance as recommended in this user's guide to maximize the life of your unit.

Warning:

- Do not look into the projector's lens when the light is on. The bright may hurt your eyes.
- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- Please do not open or disassemble the product as this may cause electric shock.
- When switching the projector off, please ensure the projector completes its cooling cycle before disconnecting power.
- Turn on the projector first and then the signal sources.
- Do not use lens cap when projector is in operation.

Introduction

Product Features

This product is a single-chip DLP® projector. Outstanding features include:

- DLP® technology
- 1280 x 800 WXGA resolution
4:3/16:9/Full/L.Box aspect ratio supported
- Versatile display modes (Bright, Presentation, Standard, Video, Picture, Game, User) enable optimum performance in any situation
- NTSC/PAL/SECAM compatible and HDTV (480i/p, 576i/p, 720p, 1080i/p) supported
- Compact size projector facilitates business purposes and home entertainment.
- Acer EcoProjection Technology delivers Intelligent power management approach and physical efficiency improvement
- Empowering Key reveals Acer Empowering Technology utilities (Acer eView, eTimer, e3D, ePower Management) for easy adjustment of settings
- Equipped with HDMI™ connection supporting HDCP
- Advanced digital keystone correction delivers optimum presentations
- Multi-language on screen display (OSD) menus
- 1.67x digital zoom and pan move function
- Environmental light source and longer life by LED solution.
- Enjoy media playback via USB, RAM and Micro SD card reader.
- Microsoft® Windows® 2000, XP, Vista® Windows® 7, Macintosh® OS compliant

Package Overview

This projector comes with all the items shown below. Check to make sure your unit is complete. Contact your dealer immediately if any thing is missing.

Projector

Power cord

AC to DC power adapter

3.5 mm jack A/V cable

Universal to D-sub and Audio out cable

Remote control

Battery

Getting Started

Connecting the Projector

| # | Description | # | Description |
|---|------------------------------------|----|--|
| 1 | AC to DC power adapter | 6 | 3.5 mm jack A/V |
| 2 | Power cord | 7 | HDMI cable |
| 3 | USB disk/stick USB WiFi adapter | 8 | Universal to D-sub and Audio out cable |
| 4 | Micro SD card | 9 | Universal to RCA cable |
| 5 | Adapter for iPod/iPhone/iPad | 10 | Audio cable Jack/RCA |

Note: To ensure the projector works well with your computer, please make sure the timing of the display mode is compatible with the projector.

Turning the Projector On/Off

Turning on the Projector

- 1 Ensure that the power cord and signal cable are securely connected. The Power indicator LED will flash red.
- 2 Turn on the projector by pressing "**Power**" button on the control panel, and the Power indicator LED will turn blue.(Illustration #1)
- 3 Turn on your source (computer, notebook, video player ,etc.). The projector will detect your source automatically.
 - If the screen displays "No Signal", please make sure the signal cables are securely connected.
 - If you connect to multiple sources at the same time, use the "Source" button on either control panel or the remote control or direct source key on the remote control to switch between inputs.

Turning the projector off

- 1 To turn the projector off, press the power button. This message appears: **"Please press the power button again to complete the shutdown process."** Press the power button again.
- 2 The LED power indicator will turn RED and blink rapidly after the projector is turned off, and the fan(s) will continue to operate for about 30 sec to ensure that the system cools properly.
- 3 Once the system has finished cooling, the LED power indicator will stop blinking and turn solid red to indicate standby mode.
- 4 It is now safe to unplug the power cord.

Warning indicators:

- **"Projector Overheated. Will automatically turn off soon."**
This onscreen message indicates that the projector has overheated. The projector will automatically shut down. Contact your local dealer or service center.
- **"Fan failed. Will automatically turn off soon."**
This onscreen message indicates that the fan has failed. The projector will automatically shut down. Contact your local dealer or service center.

Note: Whenever the projector automatically shuts down, contact your local reseller or service center.

Adjusting the Projected Image

Adjusting the Height of Projected Image

The projector is equipped with tilt adjusting wheel for adjusting the height of image.

To raise/lower the image:

- 1 Use Tilt adjusting wheel to fine-tune the display angle.

Tilt adjusting wheel

How to optimize image size and distance

Consult the table below to find the optimal image sizes achievable when the projector is positioned at a desired distance from the screen. Example: If the projector is 1.34 m from the screen, good image quality is possible for image sizes 41.5".

Note: Remind as below figure, the space of 56 cm height is required when located at 1.34 m distance.

| Desired Distance (m) <A> | Screen size | | Top |
|-----------------------------|------------------------|-----------------|---------------------------------------|
| | (Min zoom) | | |
| | Diagonal (inch) | W (cm) x H (cm) | From base to top of image (cm) <C> |
| 0.97 | 30.0 | 64 x 40 | 40 |
| 1.07 | 33.2 | 71 x 45 | 45 |
| 1.34 | 41.5 | 89 x 56 | 56 |
| 1.61 | 49.7 | 107 x 67 | 67 |
| 2.14 | 66.3 | 143 x 89 | 89 |
| 2.58 | 80.0 | 172 x 108 | 108 |

Zoom Ratio: 1.0x

User Controls

Installation menu

The installation menu provides an onscreen display (OSD) for projector installation and maintenance. Use the OSD only when the message "No signal input" is displayed on the screen.

The menu options include settings and adjustments for screen size and distance, focus, keystone correction and more .

- 1 Turn on the projector by pressing "**Power**" button on the control pad.
- 2 Press the "**MENU**" button on the control pad to launch the OSD for projector installation and maintenance.

- 3 The background pattern acts as a guide to adjusting the calibration and alignment settings, such as screen size and distance, focus and more .
- 4 The Installation menu includes the following options:
 - Projection method
 - Menu location
 - Auto Keystone settings
 - Manual Keystone settings
 - Language settings
 - Reset to factory default function

Use the up and down arrow keys to select an option, the left and right arrow keys to adjust selected option settings, and the right arrow key to enter a submenu for feature setting. The new settings will be saved automatically upon exiting the menu.

- 5 Push the menu button anytime to exit the menu and return to the Acer welcome screen.

Acer Empowering Technology

Acer Empowering Key provide four Acer unique functions, they are "Acer eView Management", "Acer eTimer Management", "Acer ePower Management" and "Acer e3D Management" respectively.

Press "e" key to launch the Onscreen display main menu to modify its function.

When the Empowering Menu is displayed, use the "e" key to select the main menu.

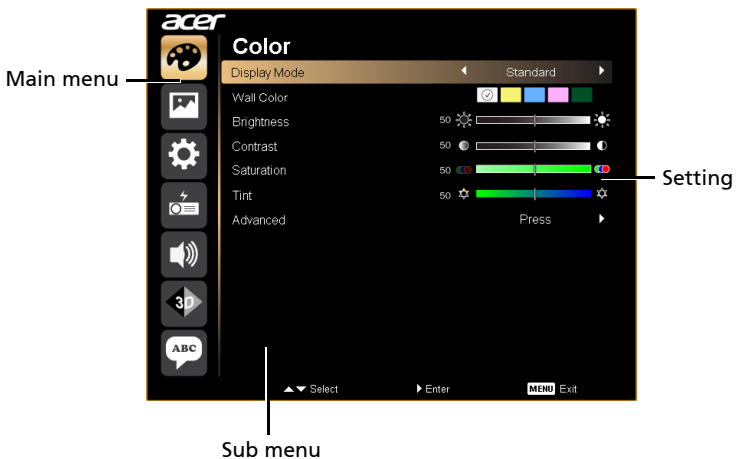

| | |
|--|--|
| <p>Acer eView Management</p>  | <p>"Acer eView Management" is for display mode selection. Please refer to Onscreen Display Menus section for more detail.</p> |
| <p>Acer eTimer Management</p>  | <p>"Acer eTimer Management" provides the reminding function for presentation time control. Please refer to Onscreen Display Menus section for more detail.</p> |
| <p>Acer ePower Management</p>  | <p>"Acer ePower Management" provides user one shortcut to save the projector life. Please refer to Onscreen Display section for more detail.</p> |
| <p>Acer e3D Management</p>  | <p>"Acer e3D Management" provides the 3D functions. Please refer to Onscreen Display Menus section for more detail.</p> |

Onscreen Display (OSD) Menus

The projector has multilingual OSD that allow you to make image adjustments and change a variety of settings.

Using the OSD menus

- To open the OSD menu, press **"MENU"** on the remote control.
- When the OSD is displayed, use the   keys to select any item in the main menu. After selecting the desired main menu item, press  to enter submenu for feature setting.
- Use the   keys to select the desired item and adjust the settings by using the   keys.
- Select the next item to be adjusted in the submenu and adjust as described above.
- Press **"MENU"** on the remote control, the screen will return to the main menu.
- To exit OSD, press **"MENU"** on the remote control again. The OSD menu will close and the projector will automatically save the new settings.

Color

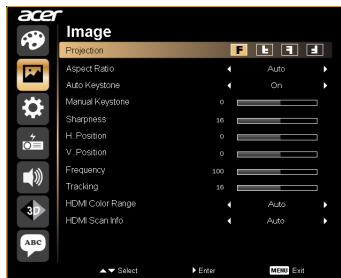

| | |
|--------------|---|
| Display Mode | <p>There are many factory presets optimized for various types of images.</p> <ul style="list-style-type: none"> • Bright: For brightness optimization. • Presentation: For meeting presentation. • Standard: For common environment. • Video: For playing video in a bright environment. • Picture: For graphic picture. • Game: For game content. • User: Memorize user's settings. |
| Wall color | <p>Use this function to choose a proper color according to the wall. There are several choices, including white, light yellow, light blue, pink, dark green. It will compensate the color deviation due to the wall color to show the correct image tone.</p> |
| Brightness | <p>Adjust the brightness of the image.</p> <ul style="list-style-type: none"> • Press ◀ to darken image. • Press ▶ to lighten the image. |

How to Play iPhone/iPod/iPad Media via K130/L220/LK-W11

Adjust K130/L220/LK-W11 source upto "AV" and make sure to plug adapter with iPod/iPhone/iPad well.

iPod/iPhone/iPad

| # | Description |
|---|------------------------------|
| 1 | 3.5 mm jack A/V cable |
| 2 | Adapter for iPod/iPhone/iPad |

How to play photos

If using iPhone,

Follow below steps

1. Press application "Photos" on main screen and choose album.
2. Press ► in thumbnail page.

If using iPod,

Note :

Please make sure Photo setting in advance.

- If by iPod Nano: Photos → Settings
- If by iPod Classic : Slideshow Settings
 - a. TV Out: choose On
 - b. TV Signal: choose NTSC

Follow below steps

1. Choose photos and then choose which album you want. (ex. TOKYO)
2. If by iPod Nano : press ► || when thumbnail mode.

3. If by iPod Classic : press ►► to enter "slideshow" mode and photo will be output automatically via K130/L220/LK-W11.

If using iPad,

Follow below steps:

1. Press application "Photos" on main screen.
2. Press "Slideshow" → "Start Slideshow"

How to play videos

If using iPhone,

Follow below steps

1. Press application "Videos" in main screen.
2. Press video clip you want in Video clip listing, then video will be output automatically via K130/L220/LK-W11.

If using iPad,

Follow below steps:

1. Press application "Videos" on main screen
2. Press video clip you want in video clip listing and press ▶, then video will be output automatically via K130/L220/LK-W11.

Appendices

Troubleshooting

If you experience a problem with your Acer projector, refer to the following troubleshooting guide. If the problem persists, please contact your local reseller or service center.

Image Problems and Solutions

| # | Problem | Solution |
|---|---|---|
| 1 | No image appears onscreen | <ul style="list-style-type: none"> • Connected as described in the "Getting Started" section. • Ensure none of the connector pins are bent or broken. • Make sure the projector is switched on. |
| 2 | Partial, scrolling or incorrectly displayed image (For PC (Windows 95/98/2000/XP/Vista/Vin7)) | <ul style="list-style-type: none"> • Press "RESYNC" on the remote control. • For an incorrectly displayed image: <ul style="list-style-type: none"> • Open "My Computer," open the "Control Panel," and then double-click the "Display" icon. • Select the "Settings" tab. • Verify that your display resolution setting is lower than or equal to 1080P-EIA. • Click the "Advanced Properties" button. <p>If the problem still appears, change the monitor display you are using and follow the steps below:</p> <ul style="list-style-type: none"> • Verify that the resolution setting is lower than or equal to 1080P-EIA. • Click the "Change" button under the "Monitor" tab. • Click "Show all devices". Next, select "Standard monitor types" under the SP box, and choose the resolution mode you need under the "Models" box. • Verify that the resolution setting of the monitor display is lower than or equal to 1080P-EIA. |

| | | |
|---|---|---|
| 3 | Partial, scrolling or incorrectly displayed image (for notebooks) | <ul style="list-style-type: none"> • Press "RESYNC" on the remote control. • For an incorrectly displayed image: <ul style="list-style-type: none"> • Follow the steps for item 2 (above) to adjust the resolution of your computer. • Press the toggle output settings. Example: [Fn]+[F4], Compaq [Fn]+[F4], Dell [Fn]+[F8], Gateway [Fn]+[F4], IBM [Fn]+[F7], HP [Fn]+[F4], NEC [Fn]+[F3], Toshiba [Fn]+[F5] • If you experience difficulty changing resolutions or your monitor freezes, restart all equipment including the projector. |
| 4 | The screen of the notebook computer is not displaying your presentation | <ul style="list-style-type: none"> • If you are using a Microsoft® Windows® based notebook: Some notebook PCs may deactivate their own screens when a second display device is in use. Each has a different way to be reactivated. Refer to your computer's manual for detailed information. • If you are using an Apple® Mac® OS based notebook: In System Preferences, open Display and select Video Mirroring "On". |
| 5 | Image is unstable or flickering | <ul style="list-style-type: none"> • Adjust the "Tracking" to correct it. Refer to the "Image" section for more information. • Change the display color depth settings on your computer. |
| 6 | Image has vertical flickering bar | <ul style="list-style-type: none"> • Use "Frequency" to make an adjustment. Refer to the "Image" section for more information. • Check and reconfigure the display mode of your graphics card to make it compatible with the projector. |
| 7 | Image is out of focus | <ul style="list-style-type: none"> • Adjusts the focus ring on the projector lens. • Make sure the projection screen is within the required distance of 3.18-8.46 feet (0.97-2.58 meters) from the projector. Refer to the "How to Get a Preferred Image Size by Adjusting Distance and Zoom" section for more information. |
| 8 | Image is stretched when displaying a "widescreen" DVD title | <p>When you play a DVD encoded in anamorphic or 16:9 aspect ratio you may need to adjust the following settings:</p> <ul style="list-style-type: none"> • If you play a 4:3 format DVD title, please change the format to 4:3 in the projector OSD. • If the image is still stretched, you will also need to adjust the aspect ratio. Set up the display format to 16:9 (wide) aspect ratio on your DVD player. • If you play an Letterbox(LBX) format DVD title, please change the format to Letterbox(LBX) in the projector OSD. |

| | | |
|----|---------------------------------|--|
| 9 | Image is too small or too large | <ul style="list-style-type: none"> • Adjust the zoom ring on the top of the projector. • Move the projector closer to or further from the screen. • Press "MENU" on the remote control or on the control panel. Go to "Image --> Aspect Ratio" and try different settings. |
| 10 | Image has slanted sides | <ul style="list-style-type: none"> • If possible, reposition the projector so that it is centered on the screen. • Press the "Keystone" on the OSD until the sides are vertical. |
| 11 | Image is reversed | <ul style="list-style-type: none"> • Select "Image --> Projection" on the OSD and adjust the projection direction. |

Problems with the Projector

| # | Condition | Solution |
|---|--|---|
| 1 | The projector stops responding to all controls | If possible, turn off the projector, then unplug the power cord and wait at least 30 seconds before reconnecting power. |

Regulations and safety notices

FCC notice

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice: Peripheral devices

Only peripherals (input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this equipment. Operation with non-certified peripherals is likely to result in interference to radio and TV reception.

Caution

Changes or modifications not expressly approved by the manufacturer could void the user's authority, which is granted by the Federal Communications Commission, to operate this device.

Operation conditions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice: Canadian users

This Class B digital apparatus complies with Canadian ICES-003.

Remarque à l'intention des utilisateurs canadiens

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Declaration of Conformity for EU countries

Acer hereby declares that this projector series is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Compliant with Russian regulatory certification

ME61

UA.TR.002

Radio device regulatory notice

Note: The regulatory information below is for models with wireless LAN and/or Bluetooth only.

General

This product complies with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. Depending on configurations, this product may or may not contain wireless radio devices (such as wireless LAN and/or Bluetooth modules).

Canada — Low-power license-exempt radio communication devices (RSS-210)

- a Common information
 - Operation is subject to the following two conditions:
 1. This device may not cause interference, and
 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- b Operation in 2.4 GHz band
 - To prevent radio interference to the licensed service, this device is intended to be operated indoors and installation outdoors is subject to licensing.

List of applicable countries

This device must be used in strict accordance with the regulations and constraints in the country of use. For further information, please contact the local office in the country of use. Please see <http://ec.europa.eu/enterprise/rte/implem.htm> for the latest country list.

Hereby declare that:

| | |
|----------------------|-------------------------|
| Product: | Projector |
| Trade Name: | Acer |
| Model Number: | CWX1013 |
| Machine Type: | K130/L220/LK-W11 |

Is compliant with the essential requirements and other relevant provisions of the following EC directives, and that all the necessary steps have been taken and are in force to assure that production units of the same product will continue comply with the requirements.

EMC Directive 2004/108/EC as attested by conformity with the following harmonized standards:

- EN55022, AS/NZS CISPR22, Class B
- EN55024
- EN61000-3-2 Class A
- EN61000-3-3

Low Voltage Directive 2006/95/EC as attested by conformity with the following harmonized standard:

- EN60950-1

RoHS Directive 2002/95/EC on the Restriction of the Use of certain Hazardous Substances in Electrical and Electronic Equipment

- The maximum concentration values of the restricted substances by weight in homogenous material are:

| | | | |
|---------------------|------|---|-------|
| Lead | 0.1% | Polybrominated Biphenyls (PBB's) | 0.1% |
| Mercury | 0.1% | Polybrominated Diphenyl Ethers (PBDE's) | 0.1% |
| Hexavalent Chromium | 0.1% | Cadmium | 0.01% |

Directive 2009/125/EC with regard to establishing a framework for the setting of ecodesign requirements for energy-related product.

Acer Incorporated
8F, 88, Sec. 1, Xintai 5th Rd., Xizhi,
New Taipei City 221, Taiwan, R.O.C.

The standards listed below are applied to the product if built with WLAN module or wireless keyboard and mouse.

R&TTE Directive 1999/5/EC as attested by conformity with the following harmonized standard:

- **Article 3.1(a) Health and Safety**
 - EN60950-1
 - EN62311
- **Article 3.1(b) EMC**
 - EN301 489-1
 - EN301 489-17
- **Article 3.2 Spectrum Usages**
 - EN300 328
 - EN301 893 (Applicable to 5GHz high performance RLAN).

Year to begin affixing CE marking 2011.
