Information for your safety and comfort

Read these instructions carefully. Keep this document for future reference. Follow all warnings and instructions marked on the product.

Turning the product off before cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Caution for plug as disconnecting device

Observe the following guidelines when connecting and disconnecting power to the external power supply unit:

- Install the power supply unit before connecting the power cord to the AC power outlet.
- Unplug the power cord before removing the power supply unit from the projector.
- If the system has multiple sources of power, disconnect power from the system by unplugging all power cords from the power supplies.

Caution for Accessibility

Be sure that the power outlet you plug the power cord into is easily accessible and located as close to the equipment operator as possible. When you need to disconnect power to the equipment, be sure to unplug the power cord from the electrical outlet.

Warnings!

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface.

This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.

Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.

- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use it under sporting, exercising, or any vibrating environment which will probably cause unexpected short current or damage rotor devices, lamp.

Using electrical power

- This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
- Do not allow anything to rest on the power cord. Do not locate this
 product where people will walk on the cord.
- If an extension cord is used with this product, make sure that the total
 ampere rating of the equipment plugged into the extension cord does not
 exceed the extension cord ampere rating. Also, make sure that the total
 rating of all products plugged into the wall outlet does not exceed the fuse
 rating.
- Do not overload a power outlet, strip or receptacle by plugging in too
 many devices. The overall system load must not exceed 80% of the branch
 circuit rating. If power strips are used, the load should not exceed 80% of
 the power strip's input rating.
- This product's AC adapter is equipped with a three-wire grounded plug.
 The plug only fits in a grounded power outlet. Make sure the power outlet
 is properly grounded before inserting the AC adapter plug. Do not insert
 the plug into a non-grounded power outlet. Contact your electrician for
 details.

Warning! The grounding pin is a safety feature. Using a power outlet that is not properly grounded may result in electric shock and/or injury.

Note: The grounding pin also provides good protection from unexpected noise produced by other nearby electrical devices that may interfere with the performance of this product.

Use the product only with the supplied power supply cord set. If you need
to replace the power cord set, make sure that the new power cord meets
the following requirements: detachable type, UL listed/CSA certified, VDE
approved or its equivalent, 4.6 meters (15 feet) maximum length.

Product servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.

Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- the power cord or plug is damaged, cut or frayed
- liquid was spilled into the product
- the product was exposed to rain or water
- the product has been dropped or the case has been damaged
- the product exhibits a distinct change in performance, indicating a need for service
- the product does not operate normally after following the operating instructions

Note: Adjust only those controls that are covered by the operating instructions, since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.

Warning! For safety reasons, do not use non-compliant parts when adding or changing components. Consult your reseller for purchase options.

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

Additional safety information

- Do not look into the projector's lens when the lamp is on. The bright may hurt your eyes.
- Turn on the projector first and then signal sources
 - Do not place the product in following environments:
 - Space that is poorly ventilated or confined. At least 50cm clearance from walls and free flow of air around the projector is necessary.
 - Locations where temperatures may become excessively high, such as inside of a car with all windows rolled up.
 - Locations where excessive humidity, dust, or cigarette smoke may contaminate
 optical components, shortening the life span and darkening the image.
 - Locations near fire alarms.
 - Locations with an ambient temperature above 40 °C/104 °F.
 - Locations where the altitudes are higher than 10000 feet.
- Unplug immediately if there is something wrong with your projector. Do not operate if smoke, strange noise or odor comes out of your projector. It

- might cause fire or electric shock. In this case, unplug immediately and contact your dealer.
- Do not keep using this product to break or drop it. In this case contact your dealer for inspection.
- Do not face the projector lens to the sun. It can lead to fire.
- When switching the projector off, suggest to ensure the projector completes its cooling cycle before disconnecting power.
- Do not turn off the main power abruptly or unplug the projector during operation. It can lead to lamp breakage, fire, electric shock or other trouble. The best way is to wait for the fan to turn off before turning main power off.
- Do not touch air outlet grille and bottom plate which becomes hot.
- Clean the air filter frequently if have. The temperature inside may rise and cause damage when the filter/ventilation slots clogged with dirt or dust.
- Do not look into the air outlet grille when projector is operating. It may hurt your eyes.
- Always open the lens shutter or remove the lens cap when the projector is on.
- Do not block the projector lens with any object when the projector is under operation as this could cause the object to become heated and deformed or even cause a fire. To temporarily turn off the lamp, press HIDE on the remote control.
- The lamp becomes extremely hot during operation. Allow the projector to cool for approximately 45 minutes prior to removing the lamp assembly for replacement.
- Do not operate lamps beyond the rated lamp life. It could cause it to break on rare occasions.
- Never replace the lamp assembly or any electronic components unless the projector is unplugged.
- The product will detect the life of the lamp itself. Please be sure to change the lamp when is showing warning message.
- When changing the lamp, please allow unit to cool down, and follow all changing instructions.
- Reset the "Lamp Hour Reset" function from the Onscreen display "Management" menu after replacing the lamp module.
- Do not attempt to disassemble this projector. There are dangerous high voltages inside which may hurt you. The only user serviceable part is the lamp which has its own removable cover. Refer servicing only to suitable qualified professional service personnel.
- Do not stand the projector on end vertically. It may cause the projector to fall over, causing injury or damage.
- This product is capable of displaying inverted images for ceiling mount installation. Only use acer ceiling mount kit for mounting the projector and ensure it is securely installed.

Caution for Listening

To protect your hearing, follow these instructions.

- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

Disposal instructions

Do not throw this electronic device into the trash when discarding. To minimize pollution and ensure utmost protection of the global environment, please recycle. For more information on the Waste from Electrical and Electronics Equipment (WEEE) regulations, visit

http://www.acer-group.com/public/Sustainability/sustainability01.htm

Mercury advisory

For projectors or electronic products containing an LCD/CRT monitor or display:

Lamp(s) inside this product contain mercury and must be recycled or disposed of according to local, state or federal laws. For more information, contact the Electronic Industries Alliance at www.eiae.org. For lamp-specific disposal information, check www.lamprecycle.org

First things first

Usage Notes

Do.

- Turn off the product before cleaning.
- Use a soft cloth moistened with mild detergent to clean the display housing.
- Disconnect the power plug from AC outlet if the product is not being used for a long period of time.

Don't:

- Block the slots and openings on the unit provided for ventilation.
- Use abrasive cleaners, waxes or solvents to clean the unit.
- Use under the following conditions:
 - In extremely hot, cold or humid environments.
 - In areas susceptible to excessive dust and dirt.
 - Near any appliance that generates a strong magnetic field.
 - Place In direct sunlight.

Precautions

Follow all warnings, precautions and maintenance as recommended in this user's guide to maximize the life of your unit.

Warning:

- Do not look into the projector's lens when the lamp is on. The bright light may hurt your eyes.
- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- Please do not open or disassemble the product as this may cause electric shock.
- When changing the lamp, please allow unit to cool down, and follow all changing instructions.
- This product will detect the life of the lamp itself. Please be sure to change the lamp when it shows warning messages.
- Reset the "Lamp Hour Reset" function from the Onscreen display "Management" menu after replacing the lamp module.
- When switching the projector off, please ensure the projector completes its cooling cycle before disconnecting power.
- Turn on the projector first and then the signal sources.
- Do not use lens cap when projector is in operation.
- When the lamp reaches the end of its life, it will burn out and may make a loud popping sound. If this happens, the projector will not turn back on until the lamp module has been replaced. To replace the lamp, follow the procedures listed under "Replacing the Lamp".

Introduction

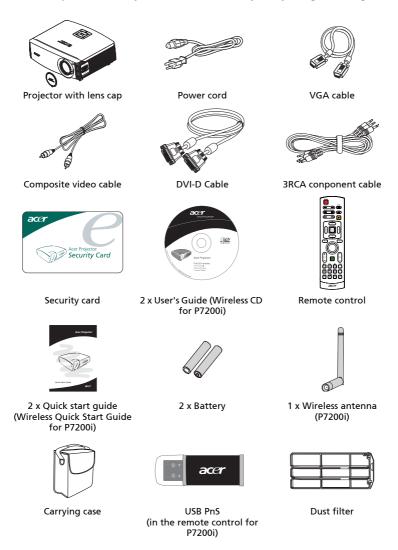

Product Features

This product is a single-chip DLP® projector. Outstanding features include:

- DLP[®] technology
- True 1024 x 768 XGA resolution 4:3 / 16:9 aspect ratio supported
- · Manual lens shift adjustment
- Acer ColorBoost technology delivers nature's true colors for vivid, life-like images
- High brightness and contrast ratio
- Versatile display modes (Bright, Presentation, Standard, Video, User) enable optimum performance in any situation
- NTSC / PAL / SECAM compatible and HDTV (720p, 1080i, 1080p) supported
- Side-sliding lamp design allows easy lamp replacement
- Lower power consumption and economy (ECO) mode extends lamp life
- Acer EcoProjeciton Technology delivers Intelligent power management approach and physical efficiency improvement
- Empowering Key reveals Acer Empowering Technology utilities (Acer eView, eTimer, eOpening, ePower Management) for easy adjustment of settings
- Equipped with HDMI[™] connection supporting HDCP
- Advanced digital keystone correction optimizes presentations
- Multi-language on screen display (OSD) menus
- Full-function remote control
- Manual focus projection lens zooms up to 1.5x
- 2x digital zoom and pan move function
- Microsoft[®] Windows[®] 2000, XP, Vista[®], Windows[®] 7, OS compliant
- Manual lens shift adjustment

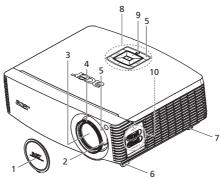

Package Overview

This projector comes with all the items shown below. Check to make sure your unit is complete. Contact your dealer immediately if any thing is missing.

Note: To ensure the projector works well with your computer, please make sure the timing of the display mode is compatible with the projector.

Note: "*" USB drive limitation, do not support power consumption over 500mA. Please have external power for USB device.

Connecting the Projector for Wireless Function

#	Description
1	Power cord
2	LAN cable
3	Antenna

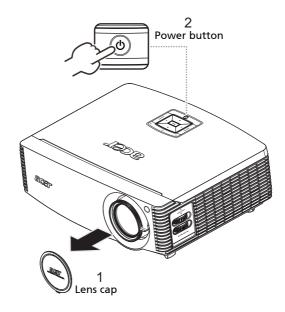

Note: For P7200i only

Turning the Projector On/Off

Turning on the Projector

- 1 Remove the lens cap.(Illustration #1)
- 2 Ensure that the power cord and signal cable are securely connected. The Power indicator LED will flash red.
- 3 Turn on the projector by pressing "**Power**" button on the control panel, and the Power indicator LED will turn blue.(Illustration #2)
- 4 Turn on your source (computer, notebook, video player ,etc.). The projector will detect your source automatically.
 - If the screen displays "Lock" and "Source" icons, it means the
 projector is locked onto a specific source type and there is no such
 type of input signal detected.
 - If the screen displays "No Signal", please make sure the signal cables are securely connected.
 - If you connect to multiple sources at the same time, use the "Source" button on either control panel or the remote control or direct source key on the remote control to switch between inputs.

Turning the projector off

- To turn the projector off, press the power button. This message appears: "Please press the power button again to complete the shutdown process." Press the power button again.
- 2 The LED power indicator will turn RED and blink rapidly after the projector is turned off, and the fan(s) will continue to operate for about 2 minutes to ensure that the system cools properly.
- 3 As long as the power cord remains plugged in, you can press the power button to turn the projector immediately back on anytime during the 2-minute shutdown process.
- 4 Once the system has finished cooling, the LED power indicator will stop blinking and turn solid red to indicate standby mode.
- 5 It is now safe to unplug the power cord.

- "Projector Overheated. Lamp will automatically turn off soon."
 This onscreen message indicates that the projector has overheated.
 The lamp with automatically turn off, the projector will automatically shut down, and the LED temp indicator will turn solid red. Contact your local dealer or service center.
- "Fan failed. Lamp will automatically turn off soon."
 This onscreen message indicates that the fan has failed. The lamp will automatically turn off, the projector will automatically shut down, and the LED temp indicator will blink. Contact your local dealer or service center.

Note: Whenever the projector automatically shuts down and the LED lamp indicator turns solid red, contact your local reseller or service center.

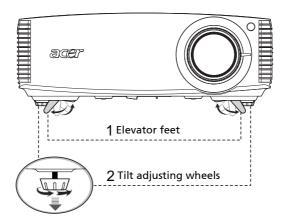

Adjusting the Projected Image

Adjusting the Height of Projected Image

The projector is equipped with elevator feet for adjusting the height of image.

To raise/lower the image:

- 1 Raise the image to the desired height angle (Illustration #1), then pull out the stand feet into position.
- 2 Use Tilt adjusting wheel (Illustration #2) to fine-tune the display angle.
- 3 Use Lens shift control rings to move the image to the ideal position. (refer to page 18)

How to optimize image size and distance

Consult the table below to find the optimal image sizes achievable when the projector is positioned at a desired distance from the screen. Example: If the projector is 3 m from the screen, good image quality is possible for image sizes between 65" and 99".

Note: Remind as below figure, the space of 167 cm height is required when located at 3m distance.

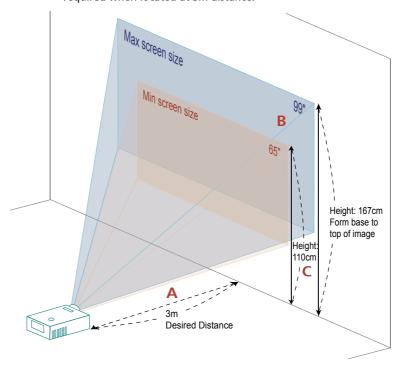

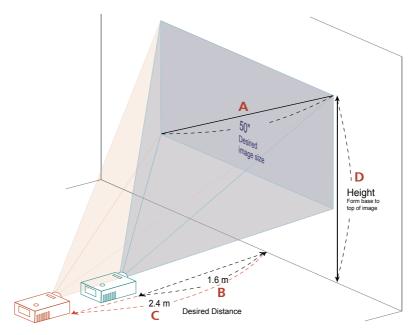

Figure: Fixed distance with different zoom and screen size.

	Screen size		Тор	Screen size		Тор	
Desired Distance	(Min zoom)		(Min zoom)		(Max zoom)		
(m) <a>	Diagonal (inch) 	W (cm) x H (cm)	From base to top of image (cm) <c></c>	Diagonal (inch) 	W (cm) x H (cm)	From base to top of image (cm) <c></c>	
1.5	31	64 x 48	55	48	97 x 73	84	
2	42	85 x 64	73	64	129 x 97	111	
2.5	52	106 x 79	91	79	161 x 121	139	
3	63	127 x 95	110	95	194 x 145	167	
3.5	73	148 x 111	128	111	226 x 170	195	
4	83	169 x 127	146	127	258 x 194	223	
4.5	94	191 x 143	164	143	291 x 218	251	
5	104	212 x 159	183	159	323 x 242	279	
6	125	254 x 191	219	191	388 x 291	334	
7	146	296 x 222	256	223	452 x 339	390	
8	167	339 x 254	292	254	517 x 388	446	
9	188	381 x 286	329	286	581 x 436	501	
10	208	424 x 318	365	318	646 x 484	557	
11	229	466 x 349	402	350	711 x 533	613	
12	250	508 x 381	438	381	775 x 581	669	

Zoom Ratio: 1.5x

How to get a preferred image size by adjusting distance and zoom

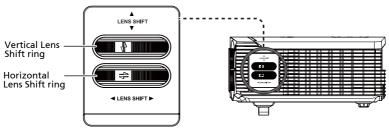

The table below shows how to achieve a desired image size by adjusting either the position or the zoom ring. For example: to obtain an image size of 50" set the projector at a distance 1.6 m and 2.4 m from the screen and adjust the zoom level accordingly.

Screen size Distan		ice (m)	Top (cm)	
Diagonal (inch) <a>	W (cm) x H (cm)	Max zoom 	Min zoom <c></c>	From base to top of image <d></d>
30	61 X 46	0.9	1.4	53
40	81 X 61	1.3	1.9	70
50	102 X 76	1.6	2.4	88
60	122 X 91	1.9	2.9	105
70	142 X 107	2.2	3.4	123
80	163 X 122	2.5	3.8	140
90	183 X 137	2.8	4.3	158
100	203 X 152	3.1	4.8	175
120	244 X 183	3.8	5.8	210
150	305 X 229	4.7	7.2	263
180	366 X 274	5.7	8.6	315
200	406 X 305	6.3	9.6	351
250	508 X 381	7.9	12.0	438
300	610 X 457	9.4		526

Zoom Ratio: 1.5x

How to get a preferred image position by adjusting lens shift

The projector is equipped with lens shift for adjusting the position of projected image right and left or up and down without requiring you to physically move the projector.

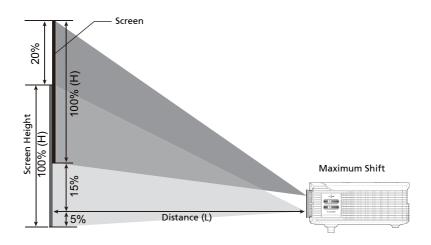

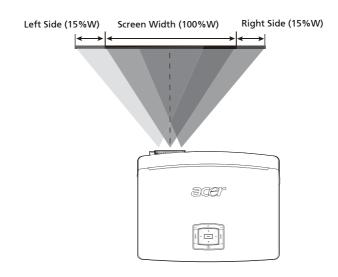

Note: The figures shown in this section are for reference only not approximate value. The figures between units can be different due to assembly tolerance.

Adjusting the horizontal or vertical image position

The vertical image height can be adjusted between -5% and 20% of the image height. (The minimum vertical image offset is fixed at -5% of the image height above the centre of the projector lens.)

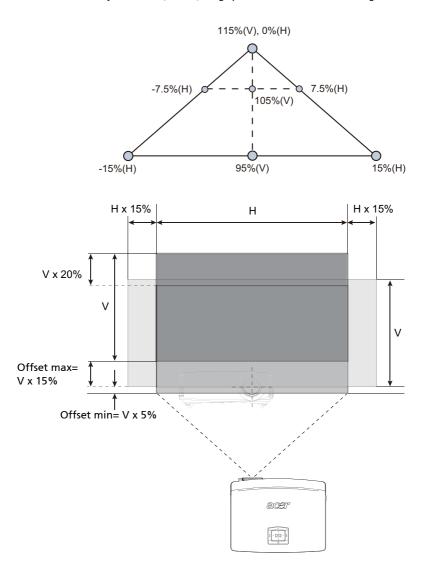

With the lens in the centre position the horizontal image position can be adjusted to the left or right by up to a maximum of 15% of the image width.

Note: The maximum shift of vertical (horizontal) image adjustment can be limited by horizontal (vertical) image position. Please refer below diagram.

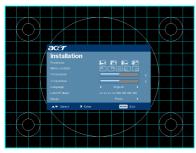

User Controls

Installation menu

The installation menu provides an onscreen display (OSD) for projector installation and maintenance. Use the OSD only when the message "No signal input" is displayed on the screen.

The menu options include settings and adjustments for screen size and distance, focus, keystone correction and more .

- 1 Turn on the projector by pressing "Power" button on the control pad.
- 2 Press the menu button on the control pad to launch the OSD for projector installation and maintenance

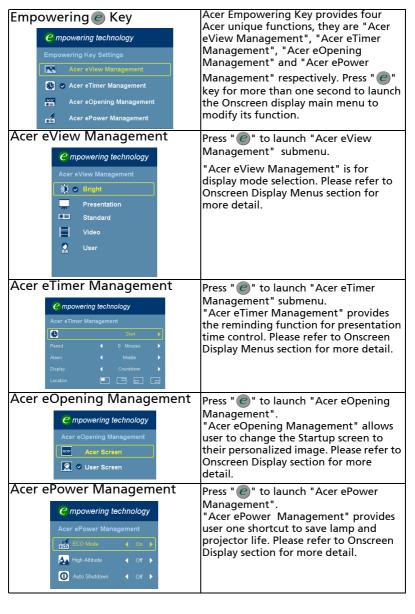

- 3 The background pattern acts as a guide to adjusting the calibration and alignment settings, such as screen size and distance, focus and more.
- 4 The Installation menu includes the following options:
 - Projection method
 - Menu location
 - Keystone settings
 - Language settings
 - •Reset to factory default function

Use the up and down arrow keys to select an option, the left and right arrow keys to adjust selected option settings, and the right arrow key to enter a submenu for feature setting. The new settings will be saved automatically upon exiting the menu.

5 Push the menu button anytime to exit the menu and return to the Acer welcome screen.

Acer Empowering Technology

Onscreen Display (OSD) Menus

The projector has multilingual OSD that allow you to make image adjustments and change a variety of settings.

Using the OSD menus

- To open the OSD menu, press "MENU" on the remote control or control
 panel.
- When the OSD is displayed, use the weys to select any item in the main menu. After selecting the desired main menu item, press to enter submenu for feature setting.
- Use the keys to select the desired item and adjust the settings by using the keys.
- Select the next item to be adjusted in the submenu and adjust as described above.
- Press "MENU" on the remote control or control panel, the screen will return to the main menu.
- To exit OSD, press "MENU" on the remote control or control panel again.
 The OSD menu will close and the projector will automatically save the new settings.

Color

Display Mode	There are many factory presets optimized for various types of images.
	Bright: For brightness optimization.
	Presentation: For meeting presentation.
	Standard: For common environment.
	Video: For playing video in a bright environment.
	User: Memorize user's settings.
Wall color	Use this function to choose a proper color according to the wall. There are several choices, including white, light yellow, light blue, pink, dark green. It will compensate the color deviation due to the wall color to show the correct image tone.
Brightness	Adjust the brightness of the image.
	Press (to darken image.
	Press to lighten the image.
Contrast	"Contrast" controls the difference between the lightest and darkest parts of the picture. Adjusting the contrast changes the amount of black and white in the image.
	• Press (to decrease the contrast.
	• Press () to increase the contrast.
Color Temperature	Adjust the color temperature. At higher color temperatures, the screen looks colder; at lower color temperatures, the screen looks warmer.
Degamma	Effects the representation of dark scenery. With greater gamma value, dark scenery will look brighter.
Color R	Adjusts the red color.
Color G	Adjusts the green color.
Color B	Adjusts the blue color.
Saturation	Adjusts a video image from black and white to fully saturated color.
	Press (to decrease the amount of color in the image.
	Press to increase the amount of color in the image.

Tint	Adjusts the color balance of red and green.	
	•	Press \blacktriangleleft to increase the amount of green in the image.
	•	Press b to increase the amount of red in the image.

Note: "Saturation" and "Tint" functions are not supported under computer or HDMI mode.

Image

Projection	Front-Desktop	
<u> </u>	The factory default setting.	
	Front-Ceiling	
	 When you select this function, the projector inverts the image for ceiling-mounted projection. 	
ß, l	Rear-Desktop	
	When you select this function, the projector reverses the image so you can project from behind a translucent screen.	
	Rear-Ceiling	
	When you select this function, the projector reverses and inverts the image at same time. You can project from behind a translucent screen with ceiling mounted projection.	
Aspect Ratio	Use this function to choose your desired aspect ratio.	
4:3 16:9	 Auto: Keep the image with original width-higth ratio and maxi mize the image to fit native horizontal or vertical pixels. 	
	4:3: The image will be scaled to fit the screen and displayed using a 4:3 ratio.	
	16:9: The image will be scaled to fit the width of the screen and the height adjusted to display the image using a 16:9 ratio.	

Keystone	Adjust image distortion caused by tilting projection. (±40 degrees)		
H Keystone	Press the or to adjust image distortion horizontal and makes a squarer image.		
V Keystone	Press the or to adjust image distortion vertical and makes a squarer image.		
H. Position (Horizontal	• Press ◀ to move the image left.		
position)	Press to to move the image right.		
V. Position (Vertical position)	 Press () to move the image down. Press () to move the image up. 		
Frequency	"Frequency" changes the projector's refresh rate to match the frequency of your computer's graphics card. If you can see a vertical flickering bar in the projected image, use this function to make the necessary adjustments.		
Tracking	Synchronizes the signal timing of the projector with the graphics card. If you experience an unstable or flickering image, use this function to correct it.		
Sharpeness	Adjusts the sharpness of the image. • Press ◀ to decrease the sharpness. • Press ▶ to increase the sharpness.		
PIP	 Choose "On" to to see two screens at the same time. Choose "Off" to disable the function. 		
PIP Source	Press and to choose the secondary video source: Composite, S-Video or Component signal.		
PIP Location	Choose the PIP secondary signal location on the display screen.		
PIP Size	Choose the PIP secondary signal size on the display screen.		

Note: "H. Position", "V. Position", "Frequency" and "Tracking" functions are not supported under HDMI, DVI or Video mode.

 $\mbox{\bf Note:}$ "Sharpness" function is not supported under HDMI, DVI or computer mode.

Note: PIP, PIP source, PIP Location and PIP Size are not supported under Video mode.

Management

ECO Mode	Choose "On" to dim the projector lamp which will lower power consumption, extend the lamp life and reduce noise. Choose "Off" to return normal mode.	
High Altitude	Choose "On" to turn on High Altitude mode. Operate the fans at full speed continuously to allow for proper high altitude cooling o the projector.	
Auto Shutdown	The projector will automatically shutdown when there is no signal input after the allocated time. (in minutes)	
Lamp Hour Elapse	Displays the lamp's elapsed operating time (in hours).	
Lamp Reminding	Activate this function to display a reminder to change the lamp 30 hours before its expected end-of-life.	
Lamp Hour Reset	Press the button and choose "Yes" to turn the lamp hour counter to 0 hours.	

Setting

Menu Location	Choose the menu location on the display screen.
	When source lock is turned "off", the projector will search for other signals if the current input signal is lost. When source lock is turned "on", it will "lock" the current source channel unless you press "Source" button on the remote control for the next channel.

Carrier and Carrie	
Startup Screen	Use this function to select your desired startup screen. If you change the setting, the changes will take effect when you exit the OSD menu. Acer: The default startup screen of your Acer projector. User: Use memorize picture from "Screen Capture" function.
	• User: Use memorize picture from Screen Capture Tunction.
Screen Capture Screen Capture [10] Yes O Select CENTRY CONTINUE O CONTI	Use this function to customize the startup screen. To capture the image that you want to use as the startup screen, follow the instructions below. Notice:
◆ Select MMANU Confirm Screen capture in progress	Before proceeding with the following steps, make sure that the "Keystone" is set to the default value 0 and the aspect ratio is set to 4:3. For details, refer to the "Image" section.
Please wait	Change the "Startup Screen" from the default setting "Acer" to "User".
	 Press "Screen Capture" to customize the startup screen. A dialog box appears to confirm the action. Choose "Yes" to use the current image as your customized startup screen. The capture range is the red rectangular area. Choose "No" to cancel the screen capture and exit the onscreen display (OSD). A message appears, stating that the screen capture is in
	 progress. When the screen capture is finished, the message disappears and the original display is shown. The customized startup screen, as shown below, takes effect when there is a new input signal or when you restart the projector.
Closed Caption	Selects a preferred closed captioning mode from CC1, CC2, CC3, CC4, (CC1 displays captions in the primary language in your area). Select "Off" to turn off the captioning feature. This function is only available when a composite video or S-Video input signal is selected and its system format is NTSC. <note> Set your screen aspect ratio to 4:3. This function is not available when the aspect ratio is "16:9" or "Auto".</note>
Security	Security
Security Of	This projector provides a useful security function for the administrator to manage usage of the projector
User Placeword Change > Administrator Placeword Change > Lock Lines Courter Screen 4 Off	Press () to change the "Security" setting. If the security function
** Select ◆ Adjust CEED Ext	is enabled, your must enter the "Administrator Password" first before changing the security settings.
	Select "On" to enable the security function. The user has to enter a password to operate the projector. Please refer to the "User Password" section for details.
	If "Off" is selected, then the user can turn on the projector without password.

Note: This screen capture function is limited by 4:3 aspect ratio only. **Note:** For XGA models, to get best quality for you desired image, suggest end-user set PC resolution to 1024 x 768 before you use this function. **Note:** For WXGA models, to get best quality for you desired image, suggest end-user set PC resolution to 1280 x 800 before you use this function.

Timeout(Min.) Once "Security" is activated to "On", the administrator can set timeout function Press (\blacktriangleleft) or (\blacktriangleright) to select the timeout interval. The range is from 10 minute to 990 minutes. When the time is up, the projector will prompt the user to enter the password again. The factory default setting of "Timeout(Min.)" is "Off". Once the security function is enabled, the projector will request user to enter password when switch on the projector. Both "User Password" and "Administrator Password" can be accepted for this dialogue. User password Press () to setup or change the "User Password". Press number keys to set your password on the remote control and press "MENU" to confirm. Press (◀) to delete character. Enter the password when you see "Confirm Password" displayed. The password should be between 4 and 8 characters long. If you select "Request password only after plugging power cord", the projector will prompt the user to enter the password every time the power cord is plugged. If you select "Always request password while projector turns on", the user has to enter the password every time when the projector is turned on. Administrator Password The "Administrator Password" can be used in both the "Enter Administrator Password" and "Enter Password" dialog boxes. Press (to change the "Administrator Password". The factory default of "Administrator Password" is "1234". If you forgot your administrator password, do the following to retrieve the administrator password: An unique 6-digit "Universal Password" which is printed on the Security Card (please check accessory in the box). This unique password is the number which will be accepted by projector anytime no matter what the Administrator Password is. If losing this security card and number, please contact with an Acer service center. Lock User Startup Screen Default Lock User Startup Screen is "OFF". If lock user startup screen is "ON", users cannot change startup screen anymore and avoid other users change that arbitrarily. Choose "OFF" to unlock startup screen. VGA OUT (Standby) Default is "Off". Choose "On" to enable VGA OUT connection. Reset Press the (▶) button and choose "Yes" to return the parameters on all menus to the factory default settings.

LAN	•	Default is "Off". Choose "On" to enable LAN connection. (for P7203/P7205 only) $$	
LAN IP/Mask	Identify IP and Mask address. (for P7203/P7205 only)		
LAN Reset	•	Reset LAN function. (for P7203/P7205 only)	
WiFi/LAN	Default is "On". Choose "Off" to disable Wireless / LAN connection. (for P7200i only)		
WiFi/LAN IP/Mask	•	Identify Wireless / LAN IP and Mask address. (for P7200i only)	
WiFi/LAN Reset	•	Reset LAN or Wireless function. (for P7200i only)	
Auto Screen	•	Default is On, the down/up move of electronic screen will be related with power on/off of Projector	

Audio

Volume	•	Press (to decrease the volume.
	•	Press to increase the volume.
Mute	•	Choose "On" to mute the volume. Choose "Off" to restore the volume.

Timer Location	Choose the location of the timer on the screen.		
Timer Start	Press to start or stop the timer.		
Timer Period	•	• Press • or • to adjust the timer period.	
Timer Volume	 Select this function to adjust the notification volume the timer function is enabled and time is up. 		
Timer Display	•	Press • or • to which timer mode to display on the screen.	

Language

Language	Choose the multilingual OSD menu. Use the (a) or (v) key
	to select your preferred menu language.
	Press to confirm the selection.

Appendices

Troubleshooting

If you experience a problem with your Acer projector, refer to the following troubleshooting guide. If the problem persists, please contact your local reseller or service center.

Image Problems and Solutions

#	Problem	Solution	
1	No image appears onscreen	 Connected as described in the "Getting Started" section. Ensure none of the connector pins are bent or broken. Check if the projector lamp has been securely installed. Please refer to the "Replacing the Lamp" section. Make sure you have removed the lens cap and the projector is switched on. 	
2	Partial, scrolling or incorrectly displayed image(For PC (Windows 95/98/ 2000/XP))	Press "RESYNC" on the remote control or control panel. For an incorrectly displayed image: Open "My Computer," open the "Control Panel," and then double-click the "Display" icon. Select the "Settings" tab. Verify that your display resolution setting is lower than or equal to UXGA (1600 x 1200). Click the "Advanced Properties" button. If the problem still appears, change the monitor display you are using and follow the steps below: Verify that the resolution setting is lower than or equal to UXGA (1600 x 1200). Click the "Change" button under the "Monitor" tab. Click "Show all devices". Next, select "Standard monitor types" under the SP box, and choose the resolution mode you need under the "Models" box. Verify that the resolution setting of the monitor display is lower than or equal to UXGA (1600 x 1200).	

3	Partial, scrolling or incorrectly displayed image (for notebooks)	 Press "RESYNC" on the remote control or control panel. For an incorrectly displayed image: Follow the steps for item 2 (above) to adjust the resolution of your computer. Press the toggle output settings. Example:
4	The screen of the notebook computer is not displaying your presentation	If you are using a Microsoft® Windows® based notebook: Some notebook PCs may deactivate their own screens when a second display device is in use. Each has a different way to be reactivated. Refer to your computer's manual for detailed information. If you are using an Apple® Mac® OS based notebook: In System Preferences, open Display and select Video Mirroring "On".
5	lmage is unstable or flickering	Adjust the "Tracking" to correct it. Refer to the "Image" section for more information. Change the display color depth settings on your computer.
6	Image has vertical flickering bar	Use "Frequency" to make an adjustment. Refer to the "Image" section for more information. Check and reconfigure the display mode of your graphics card to make it compatible with the projector.
7	Image is out of focus	 Make sure the lens cap is removed. Adjusts the focus ring on the projector lens. Make sure the projection screen is within the required distance of 3.28 to 32.8 feet (1.0 to 10.0 meters) from the projector. Refer to the "How to Get a Preferred Image Size by Adjusting Distance and Zoom" section for more information.
8	Image is stretched when displaying a "widescreen" DVD title	When you play a DVD encoded in anamorphic or 16:9 aspect ratio you may need to adjust the following settings: If you play a 4:3 format DVD title, please change the format to 4:3 in the projector OSD. If the image is still stretched, you will also need to adjust the aspect ratio. Set up the display format to 16:9 (wide) aspect ratio on your DVD player.

9	Image is too small or too large	 Adjust the zoom ring on the top of the projector. Move the projector closer to or further from the screen. Press "MENU" on the remote control or on the control panel. Go to "Image> Aspect Ratio" and try different settings.
10	Image has slanted sides	 If possible, reposition the projector so that it is centered on the screen. Press the "Keystone △/□" on the OSD or the remote control until the sides are vertical.
11	Image is reversed	Select "Image> Projection" on the OSD and adjust the projection direction.

Problems with the Projector

#	Condition	Solution
1	The projector stops responding to all controls	If possible, turn off the projector, then unplug the power cord and wait at least 30 seconds before reconnecting power.
2	Lamp burns out or makes a popping sound	When the lamp reaches the end of its useful life, it will burn out and may make a loud popping sound. If this happens, the projector will not turn on until the lamp module has been replaced. To replace the lamp, follow the procedures in the "Replacing the Lamp" section.

OSD Messages

Condition	Message Reminder
Message	Fan Fail - the system fan is not working.
	Fan Fail. Lamp will automatically turn off soon.
	Projector Overheated - the projector has exceeded its recommended operating temperature and must be allowed to cool down before it may be used. Please also check the dust filters if they are installed. If the dust filter is clogged with dust, please clean it. Please refer to "Cleaning and replacing the dust filter" for details.
	Projector Overheated. Lamp will automatically turn off soon.
	Replace the lamp - the lamp is about to reach its maximum lifetime. Prepare to replace it soon.
	Lamp is approaching the end of its useful life in full power operation. Replacement suggested!

Error (color Wheel fail)	Quick flashing			V

Cleaning and replacing the dust filters

Cleaning the dust filters

Clean the dust filters after every 1000 hours of use. If they are note cleaned periodically, they can become clogged with dust, preventing proper ventilation. This can cause overheating and damage the projector.

Follow these steps:

- 1 Turn the projector off. Wait for the Power LED to stop flashing then unplug the power cord.
- 2 Allow the projector at least 30 mins to cool down.
- 3 Unplug the corner (Illustration #1)
- 4 Pull out the dust filter (Illustration #2)
- 5 To clean the dust filters, use a small vacuum cleaner designed for computers and other office equipment.
- 6 If the dirt is difficult to remove or the filter is broken, please contact your local dealer or service center to obtain a new filter.

Replacing the Lamp

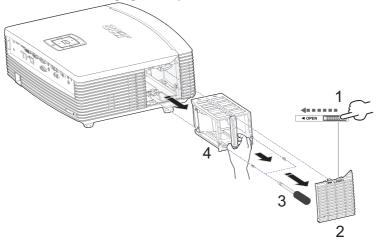

Use a screwdriver to remove the screw(s) from the cover, and then pull out the lamp.

The projector will detect the lamp life. You will be shown a warning message "Lamp is approaching the end of its useful life in full power operation.

Replacement Suggested!" When you see this message, change the lamp as soon as possible. Make sure the projector has been cooling down for at least 30 minutes before changing the lamp.

Warning: The lamp compartment is hot! Allow it to cool down before changing the lamp.

To Change the Lamp

- 1 Turn off the projector by pressing the power button.
- 2 Allow the projector at least 30 mins to cool down.
- 3 Disconnect the power cord.
- 4 Find the "OPEN" button on side of the projector and push it to open the cover. (Illustration #1)
- 5 Open the cover. (Illustration #2)
- 6 Remove the two screws that secure the lamp module.(Illustration #3)
- 7 Pull out the lamp module by force. (Illustration #4)

To replace the lamp module, reverse the previous step.

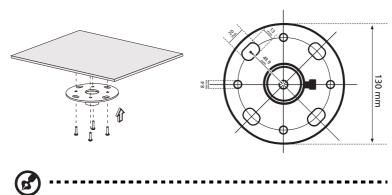

Warning: To reduce the risk of personal injury, do not drop the lamp module or touch the lamp bulb. The bulb may shatter and cause injury if it is dropped.

Ceiling Mount Installation

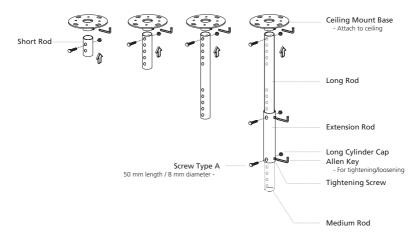

If you wish to install the projector using a ceiling mount, please refer to the steps below:

1 Drill four holes into a solid, structurally sound part of the ceiling, and secure the mount base.

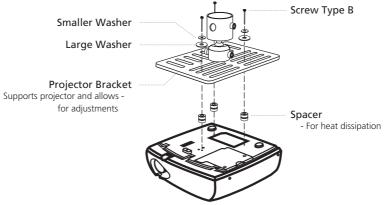

Note: Screws are not included. Please obtain the appropriate screws for your type of ceiling.

2 Secure the ceiling rod using the appropriate type of four-cylinder screws.

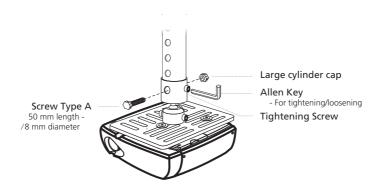

3 Use the appropriate number of screws for the projector size to attach the projector to the ceiling mount bracket.

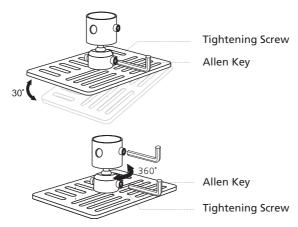

Note: It is recommended that you keep a reasonable space between the bracket and the projector to allow for proper heat distribution. Use two washers for extra support, if deemed necessary.

4 Attach the ceiling bracket to the ceiling rod.

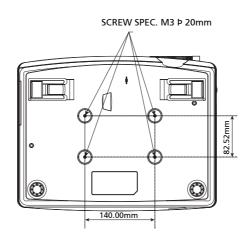

5 Adjust the angle and positioning as necessary.

Note: The appropriate type of screw and washer for each model is listed in the table below. 3 mm diameter screws are enclosed in the screw pack.

Models	Screw Type B		Washer Type	
	Diameter (mm)	Length (mm)	Large	Small
P7203/P7205/ P7200i	3	20	V	V

Regulations and safety notices

FCC notice

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice: Peripheral devices

Only peripherals (input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this equipment. Operation with non-certified peripherals is likely to result in interference to radio and TV reception.

Caution

Changes or modifications not expressly approved by the manufacturer could void the user's authority, which is granted by the Federal Communications Commission, to operate this device.

Operation conditions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice: Canadian users

This Class B digital apparatus complies with Canadian ICES-003.

Remarque à l'intention des utilisateurs canadiens

Cet appareil numérique de la classe B est conforme a la norme NMB-003 du Canada.

Declaration of Conformity for EU countries

Acer hereby declares that this projector series is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Compliant with Russian regulatory certification

MF61

Radio device regulatory notice

Note: The regulatory information below is for models with wireless LAN and/or Bluetooth only.

General

This product complies with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. Depending on configurations, this product may or may not contain wireless radio devices (such as wireless LAN and/or Bluetooth modules).

Canada — Low-power license-exempt radio communication devices (RSS-210)

a Common information

Operation is subject to the following two conditions:

- 1. This device may not cause interference, and
- 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- b Operation in 2.4 GHz band To prevent radio interference to the licensed service, this device is intended to be operated indoors and installation outdoors is subject to licensing.

List of applicable countries

This device must be used in strict accordance with the regulations and constraints in the country of use. For further information, please contact the local office in the country of use. Please see http://ec.europa.eu/enterprise/rtte/implem.htm for the latest country list.

Hereby declare that:

Product: Projector

Acer DNX916/DNX917/DNX918 Trade Name: Model Number:

P7200i/P7203/P7205/F110R/F112/F116/PFX-X01F/ PF-XF03/PF-XF05 Machine Type:

Is compliant with the essential requirements and other relevant provisions of the following EC directives, and that all the necessary steps have been taken and are in force to assure that production units of the same product will continue comply with the requirements.

EMC Directive 2004/108/EC as attested by conformity with the following harmonized standards:

- -. EN55022, AS/NZS CISPR22, Class B
- -. EN55024
- -. EN61000-3-2 Class A
- -. EN61000-3-3

Low Voltage Directive 2006/95/EC as attested by conformity with the following harmonized standard:

-. EN60950-1

RoHS Directive 2002/95/EC on the Restriction of the Use of certain Hazardous Substances in Electrical and Electronic Equipment

-. The maximum concentration values of the restricted substances by weight in homogenous material are:

Lead	0.1%	Polybrominated Biphenyls (PBB's)	0.1%
Mercury	0.1%	Polybrominated Diphenyl Ethers (PBDE's)	0.1%
Hexavalent Chromium	0.1%	Cadmium	0.01%

Directive 2009/125/EC with regard to establishing a framework for the setting of ecodesign requirements for energy-related product.

Acer Incorporated 8F, 88, Sec. 1, Hsin Tai Wu Rd., Hsichih Taipei Hsien 221, Taiwan

The standards listed below are applied to the product if built with WLAN module or wireless keyboard and mouse.

R&TTE Directive 1999/5/EC as attested by conformity with the following harmonized standard:

- Article 3.1(a) Health and Safety
 - -. EN60950-1
 - -. EN62311
- Article 3.1(b) EMC
 - -. EN301 489-1
 - -. EN301 489-17
- Article 3.2 Spectrum Usages

 - EN300 328
 EN301 893 (Applicable to 5GHz high performance RLAN).

Year to begin affixing CE marking 2010.
