## Introduction

## Thank You For Buying an HP DeskJet Printer!

Here's what comes in the box. If something is missing, talk to your HP dealer or call HP Customer Care. (See "HP Customer Care by Phone" on page 43 for the appropriate telephone number.)

Note: You will need to buy an A-to-B type USB-to-USB printer cable to connect your HP DeskJet printer to your computer. See page 47 for ordering information.

## Special Features of Your HP DeskJet Printer

Your new HP DeskJet printer is equipped with special features:

- Stunning photo quality through HP's ColorSmart III Technology
- Excellent print quality on plain paper
- Uncompromising performance with print speeds of up to 6 pages per minute for black text and 3 pages per minute for text with color graphics with the HP DeskJet 640C Series printers
- Brilliant photo image printing
- Large capacity paper tray that holds up to 100 sheets

## Finding More Information

This User's Guide shows you how to operate your printer. For more information:

- Use the Quick Start Posterfor installation.
- Turn on balloon help in the Help menu. Move your cursor over any print setting to view an explanation.
- Visit the HP web site at http://www.hp.com/support/home_products for the latest product information, troubleshooting, and printer software updates.

## 1 Using Your Printer

## Buttons and Lights

The two buttons on the front of your HP DeskJet printer let you turn the printer on and off, or to resume printing. The lights give you visual cues about the state of your printer.

## Warning Only use the Power Button on the front of the printer to turn the printer on

 and off. Using a power strip, surge protector, or a wall-mounted switch to turn the printer on and off may cause premature printer failure.| When these lights are... | You need to... |
| :--- | :--- |
| UTurned off and turned off | Press Power to turn on the printer. |
| U Steadily lit and turned off | Send a document to the printer. The printer is in the <br> ready-to-print state. |
| U Steadily lit and flashing | - If you just installed a print cartidge, make sure the <br> cartridge is securely snapped into the printer with <br> the arrow aligned with the dots on the top of the <br> print cartridge cradle. |
| - Close the top cover of the printer if it is open. |  |
| - Check the lower IN tray to make sure it contains |  |
| paper and that the paper is correctly loaded in the |  |
| tray. |  |
| - Press Resume to clear the error condition. Then |  |
| check your computer screen for any reported |  |
| error message and corrective action instructions. |  |

## Using the Paper Trays

## Standard-Size Media

You place the paper or other media on which you will print into the lower IN tray. Slide out the paper guides to make room for the media you are loading into the tray.

Once you insert the media, slide the paper guides so they rest snugly against the media. Be sure to slide all media as far as it will go into the IN tray. Make sure the paper lies flat in the tray.

## Cards, Small Envelopes, and Small Photo Paper

When printing on cards, small envelopes, or small photo paper, after sliding out the paper guides, next remove the OUT tray, then flip up the card guide.

Flip up the card guide

Insert the cards, small envelopes, or small photo paper into the IN tray with the right edge of the media stack aligned with the card guide. For small envelopes, make sure the flap side is on the right with the flap facing up. Slide the paper width guide to the right until it aligns with the left edge of the media stack. Press the inside of the paper length guide handle to release and lower it. Then push the paper length guide in toward the media stack until it stops.

Replace the OUT tray. If you encounter difficulty replacing the OUT tray, lift the top cover, wait a few moments for the print cartridge cradle to move to its center position, replace the OUT tray, then lower the top cover.

## Basic Printer Maintenance

Because the printer ejects ink onto the paper in a fine mist, ink smudges will eventually appear on the printer case. To remove smudges, stains, and/or dried ink from the exterior of the printer, use a soft cloth moistened with water.

When cleaning your printer, keep these tips in mind:

- Do not clean the interior of the printer. Keep all fluids away from the interior.
- Do not use household cleaners or detergent. In the event that a household cleaner or detergent is used on the printer, wipe the printer's exterior surfaces with a soft cloth moistened with water.
- Do not lubricate the rod on which the print cartridge cradle moves. Noise is normal when the cradles move back and forth.

For information on cleaning print cartridges and the print cartridge cradle, see "Cleaning Print Cartridges" on page 29.

## 2 Using Your Printer Software

Note: Before you can use your printer, you must have installed the printer and printer software as described on the Quick Start Poster.

## Choosing Your Printer

If you haven't already selected your HP DeskJet as the default printer in the Chooser, you should do so now. To select your printer using a USB connection:

1 Make sure the computer and printer are turned on, and your printer is connected to your computer with a USB cable.

2 From the Apple menu, select Chooser.
3 In the left side of the Chooser window, click the DeskJet 640 Series (USB) icon.

4 In the right side of the Chooser window, click DeskJet 640C.
5 Close the Chooser.

## Other Ways to Select a Default Printer

Besides using the Chooser, you can also select a default printer in the following ways:

- Select the desired printer by clicking on the menu bar printer icon at the top of the screen, and choosing DeskJet 640C.
- If your control strip is on, then select the desired printer by clicking the printer icon in the control strip, and choosing DeskJet 640C.
- Drag the document you want to print to the desktop icon of the printer you want to use.
- Click the icon of the HP DeskJet printer you want to use, and choose Set Default Printer from the Printing menu.
The Print command will send your documents to this printer until you select a new default printer. If you switch printers, check your document before you print it to see whether the formatting or pagination changed.

## Desktop Printing

Desktop printing is useful when you have a number of documents to print at once, or when you have a document that is already formatted for printing on a particular printer. There are two methods to print documents from the desktop. To perform desktop printing, either:

- Drag the icons of the documents you want to print to the desktop icon of the printer you want to use.

OR

- Select the icons of the documents you want to print, then choose Print from the File menu. When the Print dialog box appears, select your print options, then click the Print button.

Desktop printing is not supported in Mac OS version 8.5.1 or older.

## Checking Printer Status

You can tell the status of a printer by looking at its desktop icon:

| Icon | Description | Icon | Description |
| :---: | :---: | :---: | :---: |
|  | Idle printer (default) | $63$ | Printing stopped on default printer |
| $\underbrace{}_{\text {DESKJET } 840 C}$ | Idle printer (not default) |  | Error on default printer |
| $\text { DESKJET } 8400$ | Printing on default printer |  | Printer not available or connected |

## Page Setup - Controlling Page Layout

You choose settings such as paper size, scaling, and page orientation from the HP DeskJet Page Setup dialog box. To get to this dialog box:

1 Open the software program used to create your document.

## 2 From the File menu, select Page Setup.

## Paper Size, Scaling, and Page Orientation

Enter a number from 20 to 400 . Numbers smaller than 100 reduce the image size, and numbers greater than 100 enlarge it. Changing size may change pagination.

Click the appropriate icon to choose page orientation.

## Print Dialog Box

You choose settings such as number of copies, all or specific pages to print, paper type, print quality, page layout, color, and background printing from the HP DeskJet Print dialog box. To get to this dialog box, select Print from your software program's File menu.

## Buttons

There are three buttons at the bottom of every Print dialog box:

- Preview allows you to view your document before you print it so you can see how the document will print with the current settings.
- Cancel cancels settings you have entered and closes the Print dialog box.
- OK starts printing.

## General

General is the default panel selected in the Print dialog box menu. This panel lets you select the number of copies you want to print, whether you want to print the entire document or select pages, and whether you want to print from the front of your document or begin printing from the end forward.

Click to display a list of other print-control panels.

Enter the number of copies you want to print.

From:

To:
 Print Quality
Image : Color Duplex: One Side

Preview

Indicate whether you want to start printing from the first page or from the last page.

If you don't want to print the entire document, enter the beginning and ending page numbers you want to print.

This area displays options set in other Print panels.

You may also choose the following options from the General menu:

- Paper Type/Quality (see "Paper Type/Quality" on page 10)
- Layout (see "Layout" on page 10)
- Color (see "Color" on page 11)
- Background Printing (see "Background Printing" on page 12)

## Paper Type/Quality

- Ink tab settings allow you to adjust the ink volume and dry time.

## Layout

This dialog box allows you to specify the number of pages printed on each sheet of paper. You also set Two-Sided Printing options from this dialog box.

## Color

Your HP DeskJet 640C Series Printer uses HP's Color Matching technology to intelligently analyze each element on a page-text, graphics, and photographsand provide the best color output.

HP Color Matching is the default Image setting on the Color panel. While you can adjust saturation, brightness, and color tone with the sliders that appear when you choose this option, the center position of the sliders is optimized for most printing uses and types of media.

The ColorSync setting can be used for color matching with other components using the ColorSync matching system.

Grayscale prints in shades of gray. With this setting, you also have the option to optimize printing for fax and photocopy.

Black \& White prints only in black and white (no color, no gray).

## Background Printing

Choose Background if you want to continue working while printing takes place. If you choose Foreground printing, printing will be faster, but you won't be able to work on other tasks until the printing is complete.

Choose:

- Background to continue working while printing
- Foreground for faster printing

Click the button that matches the desired timing for your print job

The following table describes additional features available when using background printing. To access these features from the desktop, double-click the HP DeskJet 640C Series printer icon.

## Background Printing Options <br> Instructions

| Delete a print job | - Select the job title or icon, then click the Trash icon. <br> or <br> - Drag the document's icon to the Trash on your desktop. <br> These methods delete only the print job, not the document itself. |
| :--- | :--- |
| Hold/pause a print job | - Select the job title or icon, then click the Pause button. <br> The print request will pause until you select its title again and <br> click the Resume Button. <br> or <br> - Drag the document icon to the Waiting to Print list of <br> documents. |
| Mark a print request <br> "Urgent" | - Select the job title or icon, then click the small clock. <br> - In the dialog box that appears, click Urgent. This moves the <br> print request to the top of your print list. |
| Sort/change the order <br> of print jobs | - From the View menu, choose the title of the column by which <br> - you want to sort or choose. |
| - To see and change the print order, sort by Print Time. |  |
| - Drag and drop the print job title to the desired place in the list. |  |$|$

# Printing on Different Types of Paper and Media 

The HP DeskJet 640C Series printer is designed to print on so many different types of print media that it practically is a small print shop. This chapter explains how to use the different printing materials available to you.

## Printing Photographs

| Photo Paper should... |
| :--- | | Remove all paper from the IN tray. |
| :--- |
| 2 With the printer turned on, open the top cover. The |
| cartridge cradles move to an accessible position and |
| the Resume light blinks. |

## 2 Using Your Printer Software

## HP print settings to choose

Page Setup

- Paper Size: Choose appropriate paper size
- Orientation: Choose appropriate orientation

Paper Type/Quality

- Paper Type: Choose photo paper type
- Print Quality: Choose Best

Layout

- Pages per Sheet: 1 (Normal)
- Print Both Sides: Unchecked

## Guidelines to remember

- For best results, use:
- HP Premium Photo Paper,
- Glossy, or
- HP Premium Photo Paper, Matte or Glossy.
- The photo needs to be in electronic (digital) form, before you can print it. Take a digital picture, scan a photo, or have your local camera shop provide an electronic file of your photo.
- After selecting your paper type, choose the appropriate paper size from the pull-down menu.

| I want to print... | \| should... |
| :---: | :---: |
|  | 1 Remove the OUT tray as shown on page 2. <br> 2 Slide out both of the paper guides and remove all paper from the IN tray. <br> 3 Insert up to 30 cards into the IN tray as far as they will go. <br> 4 Press inside the handle of the paper length guide to release and drop down the handle. <br> 5 Slide both paper guides snugly against the edges of the cards. <br> 6 Replace the OUT tray as shown on page 3. <br> 7 Choose the print settings that match the type and size of the cards. <br> 8 Print the cards. |
| HP print settings to choose | Guidelines to remember |
| Page Setup <br> - Paper Size: Choose appropriate card size <br> - Orientation: Choose Portrait icon <br> Paper Type/Quality <br> - Paper Type: Choose greeting card type or Plain Paper or Inkjet Paper for Hagaki <br> - Print Quality: Choose Normal <br> Layout <br> - Pages per Sheet: 1 (Normal) <br> - Print Both Sides: Unchecked | - For best results use HP Greeting Card Paper. <br> - For Hagaki, use Plain Paper or Inkjet Paper. <br> - Use Plain Paper setting to print Hagaki's address side. <br> - If you have pre-folded greeting cards, unfold the cards, then load the cards into the IN tray. <br> - Align the card edges before inserting the cards. |

| I want to print... | \| should... |
| :---: | :---: |
| Single envelope | 1 Slide the envelope, with its flap side on the right and flap facing up, into the OUT tray's single envelope slot. Push the envelope in until it stops. <br> 2 Choose the print settings that match the type and size of the envelope. <br> 3 Print the envelope. <br> NOTE: When printing a single JIS \#4 ( $90 \times 205 \mathrm{~mm}$ ) envelope, do NOT use the single envelope slot. Instead, follow instructions for printing cards as given on page 19. |

Then, a message on your computer screen tells you how to reload the paper and resume printing. The reverse side of the paper is then printed. |

## HP DeskJet Utility Window

The HP DeskJet Utility is located in the Utilities folder on your hard drive's main directory. The HP DeskJet Utility window has five panels, as shown below:

- WOW! demonstrates the HP DeskJet's print quality.
- Test allows you to print a test document.
- Clean allows you to automatically clean your print cartridges.
- Calibrate allows you to align the Color and Black print cartridges.
- Support allows you easy access to links to HP Customer Care Online.

Simply click a panel, then choose your option(s).

Note: The Ink Level tab in the HP DeskJet Utility is not available with all models of HP DeskJet 640C Series printers and configurations.

## Select Panel

Use this panel when any of the functions on the Utility window prompt you to select a printer. For example, if you want to calibrate your printer by choosing the Calibrate panel, you will be prompted to first select your printer if it is not already selected.

To select your printer from within the HP DeskJet Utility window:
1 Click the Select panel on the Utility window.
2 Select USB.
3 In the Connect To: list, choose the desired HP DeskJet printer.

## 3 Using and Caring for Your Print Cartridges

## Replacing Print Cartridges

Note: When buying replacement print cartridges, check the part numbers carefully. The print cartridge numbers for the 640C, 640CL, and 642C printers are:

- Black HP C6614 Series
- Tri-Color HP C51649 Series

Photo HP C1816 Series

Note: When a print cartridge runs out of ink, leave the empty cartridge in the cradle until you can replace it. The printer does not print with only one print cartridge in the cradle.

## To replace a print cartridge:

1 Press the Power 山 button to turn on the printer.

2 Open the top cover and raise the cradle latch. The print cartridges move to the center of the printer and the Resume $\$$ light flashes.

3 Lift the print cartridge out of the cradle
 and discard it.

## Warning Keep print cartridges out of the reach of children.

4 Remove the replacement print cartridge from its packaging and carefully remove the protective vinyl tape.

Do NOT touch the
 ink nozzles.

Do NOT touch or remove the copper contacts.

Warning Do NOT touch the print cartridge ink nozzles or copper contacts. Touching these parts will result in clogs, ink failure, and bad electrical connection. Also, do NOT remove the copper strips; these are required electrical contacts.

5 Push the print cartridge firmly, straight down into the print cartridge cradle.
6 Close the cradle latch. When the latch is fully closed, you will hear a click.
7 Load plain white paper in the IN tray.
8 Plug in the power cord in the back of the printer.
9 Close the top cover.
10 If the Resume light continues to flash and if the cradles do not move to the right side of the printer, remove and reinstall the print cartridges. Make sure the print cartridges are pressed down into the cradles before you snap them forward into positions. If the Resume light continues to flash after you reinstall the new print cartridge, check the part number on the print cartridge to ensure you installed the correct one.

## Storing Print Cartridges

To maintain excellent print quality from your print cartridges:

- Keep all print cartridges in their sealed packages, at room temperature (60-78 ${ }^{\circ} \mathrm{F}$ or $15.6-26.6^{\circ} \mathrm{C}$ ), until you are ready to use them.
- Once installed, leave the print cartridges in their cradle at all times to keep them from drying out or becoming clogged.
- If you store an unsealed print cartridge, do so in an airtight plastic container.
- Do NOT unplug the printer until printing is complete and the print cartridge cradles have returned to their home position on the right side of the printer. The print cartridges will dry out if not stored in their home position.

Warning Only use the Power $山$ button on the front of the printer to turn the printer on and off. Using a power strip, surge protector, or a wall-mounted outlet switch to turn the printer on and off may cause premature failure.

## Cleaning Print Cartridges

## When Do You Need to Clean?

Clean the print cartridges if your printed page is missing lines or dots, or if it contains ink streaks.

## If You See Missing Lines or Dots...

Clean the print cartridges from the HP DeskJet Utility window by doing the following:

1 Double-click the HP DeskJet Utility icon located in the Utilities folder on your hard drive's main directory.

2 Click the Clean panel, then click the Clean button and follow the instructions displayed on your screen.

Note: Unnecessary cleaning wastes ink and shortens the life of the print cartridge.

## If You See Ink Streaks...

Clean the print cartridges and the print cartridge cradle by following the instructions below.

1 Double-click the HP DeskJet 640 Series Utility icon in the Utilities folder on your hard drive's main directory.

2 Click the Clean panel, then click the Clean button. If this does not prevent streaks, follow the instructions for "Manually Cleaning the Print Cartridges" below.

Caution Be careful not to get ink on your hands or clothing.

## Manually Cleaning the Print Cartridges and Print Cartridge Cradle

In order to properly clean the print cartridges and cradle, you will need distilled or bottled water and cotton swabs or a similar lint-free absorbent material that will not stick to the cartridges.

## Manually Cleaning the Print Cartridges

1 Press the Power Button to turn the printer on, then lift the top cover.
2 After the print cartridges move to the center and stop, unplug the power cord from the back of the printer.

Warning Keep new and used print cartridges out of the reach of children.
3 Remove the print cartridges and place them wide side down on a piece of paper.

Caution Do NOT touch the print cartridge ink nozzles or copper contacts. Touching these parts will result in clogs, ink failure, and bad electrical connection. Also, do NOT remove the copper strips; these are required electrical contacts.

4 Dip a clean cotton swab into distilled water and squeeze any excess water from the swab.

5 Clean the face and edges of the print cartridge as shown. DO NOT wipe the nozzle plate.

6 Inspect the cartridge for fibers on the face and edges. If fibers are still present, repeat the cleaning process.

7 Repeat the cleaning process for the other print cartridge.

## Caution Once you've removed the print cartridges, make sure that they are not

 outside of the print cartridge cradle longer than 30 minutes.
## Manually Cleaning the Print Cartridge Cradle

1 Using clean, moistened swabs, wipe the underside of each wall of the cradle.

2 Repeat until no ink residue is seen on a clean swab.

3 Reinsert the print cartridges, then close the printer's top cover.

4 Make sure white paper is loaded into the IN tray.

5 Reinsert the electrical power cord into the back of the printer.

6 Print a test page. Double-click the HP DeskJet 640 Series Utility icon in the Utilities folder on your hard drive's main directory, click the Test panel, then click the Test button.

Note: If streaking still appears, repeat the procedure until the test printout is clean. You will find additional maintenance tips at http://www.hp.com/support/home_products.

## Damage Resulting from Refilling the Print Cartridges

To get the best performance from your printer, Hewlett-Packard recommends using only genuine HP supplies for HP DeskJet printers, including genuine factory-filled HP print cartridges.

Damage resulting from the modification or refilling of HP print cartridges is specifically excluded from coverage by HP printer warranties.

Note: When buying replacement print cartridges, check the part numbers carefully. The print cartridge numbers for the 640C, 640CL, and 642C printers are:

- Black HP C6614 Series
- Tri-Color HP C51649 Series
© Photo HP C1816 Series

## 4 Getting Help When Things Go Wrong

## Troubleshooting Tips

It's frustrating when things go wrong, but the following pages contain tips that can help you determine what the problem is and how to fix it.

Be sure cable connections are secure. Check if your question is similar to those listed below and then follow the instructions found in that section:

The printer software won't install, what's wrong? See pages 33-34.

Why won't it print? See pages 35-36.
What do the flashing lights mean? See page 37.

Is there a problem with your printout? See page 39.

## The printer software won't install, what's wrong?

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| I inserted a CD, but the computer couldn't read it. | - The CD wasn't properly inserted. <br> OR <br> - The CD player may be damaged. <br> OR <br> - The CD may be damaged. OR <br> - The CD-ROM extensions may be turned off. | 1 Reinsert the CD and try again. If this doesn't solve your problem... <br> 2 Try inserting a CD that you know works. If that CD doesn't work, you may need to replace your CD player. <br> 3 If other CD's work but the printer software CD doesn't, you may have a damaged CD. You can download the printer software from the HP Customer Care web site: www.hp.com/support/home_products <br> 4 If you don't have Web access, contact HP Customer Care. See page 43, to locate the phone number nearest you. <br> 5 Go to your Extensions Manager to ensure the Apple CD extension is turned on. |

## 4 Getting Help When Things Go Wrong

## The printer software won't install, what's wrong? continued

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| The software did not install correctly. | - There may be a conflict with your virus protection program. <br> OR <br> - There may be a conflict with another software program. <br> OR <br> - Your printer software didn't install properly. | 1 Uninstall your printer software. Insert the printer software CD into your computer, select Uninstall from the Installer, then repeat the installation procedure. <br> 2 Close any virus protection programs that are active. <br> 3 If you have been using Apple's QuickDraw GX software, turn it off. Your HP DeskJet printer is not compatible with QuickDraw GX. <br> 4 Exit all of your software programs. <br> 5 Reinstall the printer software. See the "Install Printer Software" step on the Quick Start Poster or see page 51 in this User's Guide. <br> If you are still having problems with the software installation, call an HP authorized dealer or HP Customer Care. For the phone number of the HP Customer Care Center nearest you, see page 43. |

## Why won't it print?

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| No page came out of the printer. | Power may be off or there may be a loose connection. | 1 Make sure the power is on. <br> 2 Make sure that all cable connections are secure. |
|  | You may not have any paper in the IN tray. | Double-check that the media is placed in the IN tray correctly. |
|  | The printer's top cover may be open. | Close the printer's top cover. |
|  | A problem may exist with one of the print cartridges. | If the Resume light $\ddagger$ is flashing, lift the printer's cover, verify that the print cartridges are installed properly. See page 1. |
|  | The printer may be slow. | If the Power $\cup$ light is flashing, the printer is in the process of printing. Be patient. |
|  | The printer is waiting for you to press the Resume button. | If the Resume light is flashing, press the Resume button. |
|  | There may be a paper jam. | 1 Turn off the printer, open the top cover, and remove the OUT tray. <br> 2 Pull the paper out of either the IN tray or the OUT tray. Remove all torn pieces of paper from the printer. <br> 3 Reload the paper in the IN tray. <br> 4 Replace the OUT tray and close the top cover. Turn on the printer. <br> 5 Press the Resume button on the front of the printer. <br> 6 If you were printing labels, make sure a label did not become unglued from the label sheet while going through the printer. <br> 7 If the paper jam has cleared, print your document again. |

## Why won't it print? continued

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| A blank page came out of the printer. | You may be out of ink. | 1 Lift the printer's cover and verify that the print cartridges are installed properly. <br> 2 If you are out of ink, replace the print cartridge. See "Replacing Print Cartridges" on page 27. <br> 3 Print your document again. |
|  | You may have forgotten to remove the vinyl tape from the print cartridge. | Make sure you have removed the protective piece of vinyl tape on each of the print cartridges. See "Replacing Print Cartridges" on page 27. |
|  | You may be trying to print a fax. | 1 Save the fax in a graphic format, such as TIFF. <br> 2 Place it in a word processing document and print it from there. |
| The printer is really slow. | Your computer may have less than the minimum system requirements. | 1 Check the amount of RAM and processor speed in your computer. See "System Requirements" on page 52. <br> 2 Free up some space on your hard drive. Having less than 100 MB of free space on your computer's hard drive can mean longer processing times. |
|  | Too many software programs may be running at the same time. | Close all unnecessary software programs. |
|  | You may be using outdated printer software. | Check the printer driver you are using. Be sure to check the HP web site at http:// www.hp.com/support/home_products for the most recent software updates. |
|  | You may be printing a complex document containing graphics or photographs. | Be patient. Large, complex documents containing graphics or photographs print slower than text-only documents. |

## What do the flashing lights mean?

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| The Power $\cup$ light is flashing. | Your printer may be receiving data. | Be patient, your computer is processing the print job. |
| The Resume light is flashing. | You may be out of paper. | 1 Insert paper. <br> 2 Press the Resume $\$$ button. |
|  | You may have a paper jam. | 1 Turn off the printer, open the top cover, and remove the OUT tray. <br> 2 Pull the paper out of either the IN tray or the OUT tray. Remove all torn pieces of paper from the printer. <br> 3 Reload the paper in the IN tray. <br> 4 Replace the OUT tray and close the top cover. Turn on the printer. <br> 5 Press the Resume button on the front of the printer. <br> 6 If you were printing labels, make sure a label did not become unglued from the label sheet while going through the printer. <br> 7 If the paper jam has cleared, print your document again. |
|  | You may be printing a twosided document by hand and the first side has finished printing. | 1 Follow the on-screen directions for how to insert the paper. <br> 2 Press the Resume $\$$ button. |
|  | The top cover may be open. | Close the top cover. |
|  | There may be a problem with one of the print cartridges. | 1 Lift the printer's cover and verify that the print cartridges are installed properly. <br> 2 If you are out of ink, replace the print cartridge. See "Replacing Print Cartridges" on page 27. <br> 3 Print your document again. |

## 4 Getting Help When Things Go Wrong

What do the flashing lights mean? continued

| What is the problem? | Possible cause | To solve the problem.... |
| :--- | :--- | :--- |
| Both lights are flashing. | The printer may need to <br> be reset. | 1Press the Power U button to turn the <br> printer off. Then press the Power <br> U button again to turn the printer back <br> on. <br> 2 If that doesn't solve the problem, press <br> the Power U button to turn the printer <br> off. |
| 3Unplug the printer. <br> 4 Plug the printer back in. <br> 5 Press the Power U button to turn the <br> printer on. |  |  |

## 4 Getting Help When Things Go Wrong

## Is there a problem with your printout?

| What is the problem? | Possible cause | To solve the problem... |
| :--- | :--- | :--- |
| Parts of the <br> document are missing or <br> are in the wrong place. | Paper may not be loaded <br> correctly. | $\mathbf{1}$ Make sure the media is correctly <br> oriented in the IN tray. <br> $\mathbf{2}$ Make sure the paper guides fit snugly <br> against the media. |
|  | You may have selected the <br> wrong paper orientation. | Make sure you have selected the correct <br> orientation (portrait or landscape) on the <br> Page Setup dialog box. See "Page Setup - <br> Controlling Page Layout" on page 7. |
|  | You may have selected the <br> wrong paper size. | Make sure you have selected the correct <br> paper size in the Page Setup dialog box. See <br> "Page Setup - Controlling Page Layout" on <br> page 7. |
|  | You may be trying to print text <br> or graphics that are larger <br> than your paper size. | Make sure text and graphics are scaled <br> correctly in your document. See "Paper Size, <br> Scaling, and Page Orientation" on page 7. |
|  | You may have selected the <br> wrong margins. | Make sure the margins are within the printable <br> area. See "Minimum Printing Margins" on <br> page 54. |
|  | You may have accidentally <br> left Poster Printing selected. | Uncheck Poster Printing in the Layout panel. <br> See "Layout" on page 10. |

## Is there a problem with your printout? continued

| What is the problem? | Possible cause | To solve the problem... |
| :---: | :---: | :---: |
| Print quality is poor. | You may not be using the most appropriate media for the desired output. | - Make sure that you are using media intended for HP DeskJet printers. <br> - Print quality is dramatically improved if you print on paper specifically designed for a certain output (photographs, for example), rather than using plain paper. |
|  | You may be printing on the wrong side of the media. | Make sure that the media is loaded print side down. |
|  | You may not have selected the correct paper type in the printer software. | Make sure that you have selected the correct paper type on the Paper Type/Quality dialog box. See "Paper Type/Quality" on page 10. |
|  | You may be printing in Draft mode. | If printing appears faded or dull, click Normal or Best instead of Draft on the Paper Type/ Quality dialog box. See "Paper Type/Quality" on page 10. |
|  | If you have smearing, you may be using too much ink. | 1 Click Normal or Draft instead of Best on the Paper Type/Quality dialog box. See "Paper Type/Quality" on page 10. <br> 2 Reduce the amount of ink. From the HP DeskJet Print dialog box, select the Ink Controls panel. Use the sliders to adjust ink volume. <br> 3 Increase the dry time. From the HP DeskJet Print dialog box, select the Ink Controls panel. Use the sliders to adjust dry time. |
|  | You may be running out of ink. | 1 If you are out of ink, replace the print cartridge. See "Replacing Print Cartridges" on page 27. <br> 2 Print your document again. |
|  | You may need to clean the print cartridges. | See "Cleaning Print Cartridges" on page 29. |

## 4 Getting Help When Things Go Wrong

## Is there a problem with your printout? continued

| What is the problem? | Possible cause | To solve the problem... |
| :--- | :--- | :--- |
| Print quality is poor. <br> (continued) | You may have forgotten to <br> remove the vinyl tape from <br> the print cartridge. | Make sure that you have removed the <br> protective piece of vinyl tape on each of the <br> print cartridges. See "Replacing Print <br> Cartridges" on page 27. |
|  | You may have the incorrect <br> "Image" setting in the Color <br> panel of the Print dialog box. | Click the Revert to Defaults button in the <br> Color panel of the Print dialog box. See <br> "Color" on page ll. |
|  | Your print cartridges may be <br> out of alignment. | If the color and black ink aren't lining up on <br> the printed page, go to the HP DeskJet <br> Utility located in the Utilities folder in your <br> hard drive's main directory. Click the <br> Calibrate panel, then click the Align button. <br> See "HP DeskJet Utility Window" on page 25. |
|  | You may have selected the <br> wrong paper orientation. | - Make sure you have selected the correct <br> Binding option in the Layout panel of the <br> Print dialog box. See "Layout" on page 10. |

## HP Customer Care

HP DeskJet printers set the standard for quality and reliability, so you have made an excellent choice. Should you need help, however, HP Customer Care's awardwinning service and support is nearby to provide expert advice on using your HP printer or to answer specific questions about a problem you are having. Whether online or by phone, you'll find the support you need-and you'll find it fast.

## HP Customer Care Online

Click your way to a quick solution! HP Customer Care Online is a great place to go for answers to questions about your HP products. You'll get instant access to everything from helpful printing tips to the latest product and software updates-24 hours a day, seven days a week, all at no charge to you.

If you have a modem connected to your computer and subscribe to an online service or have direct access to the Internet, you can obtain a wide variety of information about your printer at the following web sites:

English:
http://www.hp.com/support/home_products
French:
http://www.hp.com/cposupport/fr/

## German:

http://www.hp.com/cposupport/de

## Japanese:

http://www.jpn.hp.com/CPO_TC/eschome.htm
Portuguese:
http://www.hp.com/cposupport/pt

## Spanish:

http://www.hp.com/cposupport/es/
From HP Customer Care Online you can link to
HP Customer Care User Forums and HP Customer
Care Email.

## HP Customer Care User Forums

They're friendly. They're informative. Check out our online user forums. Simply review existing messages left by other HP users to find the answers you're looking for. You can also post your questions, then check back later for ideas and suggestions from knowledgeable users and system operators.

## HP Customer Care by Email

Connect with HP via email and receive a personal reply from an HP Customer Care service technician. Responses are normally provided within 24 hours of receipt (excluding holidays). A great option for those non-urgent questions.

## Printer Softwar e

Printer software (also referred to as a printer driver) allows your printer to talk with your computer. HP provides several options for getting printer softwar e updates:

- Download the printer software by accessing the HP Customer Care Online web site. See "HP Customer Care Online" on this page for the addresses of the HP web sites.
- If you are in the U.S. and need a software update, you can download the printer software from: http://www.hp.com/support/home_products. If you do not have access to the web site, call (661) 257-5565. Software updates are available for the cost of the CDs plus shipping.
- If you are outside the U.S. and cannot download the driver from HP Customer Care Online (on this page), call the HP Customer Care Center (page 43) nearest you.

## 4 Getting Help When Things Go Wrong

## HP Customer Care Repair

If your HP printer is ever in need of repair, simply call the HP Customer Care Center. A trained service technician will diagnose the problem and coordinate the repair process for you. This service is free during your printer's standard warranty. Beyond the warranty period, repairs are charged on a time and materials basis.

## HP Customer Care by Phone

 Within the period specified below from the time of your purchase, telephone support is provided to you free of charge. However, if you are calling long distance, long-distance charges may apply.Free Phone Support Period

| In This Region: | Your Free Phone <br> Support Period is: |
| :--- | :--- |
|  <br> Canada | None, fee based |
| Asia Pacific | 90 days |
| Europe | 90 days |
| Latin America | 1 year |

Before placing a call for help, please make sure that:

1 You have checked your Quick Start Poster and this User's Guide for installation and troubleshooting tips.

2 You have checked HP Customer Care Online (see page 42) for product help.

3 If you cannot solve your problem using the above, then call HP Customer Care while you're in front of your computer and printer. Before you call, be sure you have the following information:

- Your printer's serial number (the label is on the printer's bottom).
- Your printer's model number (the label is on the front of the printer).
- The model of the computer.
- The version of the printer and software program (if applicable).

Then we can help you with your questions immediately!

## After the Free Phone Support Period

You can still get help from HP for a fee. Prices are subject to change without notice. (HP Customer Care Online help (see page 42) on the internet is still available for free!)

- For quick questions in the United States only, call (900) 555-1500. The charges are $\$ 2.50$ per minute and begin when you connect with a support technician.
- For calls from Canada, or for calls in the U.S. that you anticipate might be longer than ten minutes in length, call (800) 999-1148. The fee is US $\$ 25$ per call, charged to your Visa or MasterCard.
- If, during your phone call, it is determined that your printer requires repair and you are within your printer's Limited Warranty period (see page 56, Printer), you will not be charged for the phone support service. However, for countries where the above toll-free phone numbers are not available, the regular long-distance charges may apply.

## Extended Warranty Options

If you would like to extend your printer coverage beyond the one year factory warranty, you have the following options:

- Consult your reseller to get extended coverage.
- If your reseller does not offer service contracts, please call HP directly and ask about our HP Service Agreements. In the U.S., call (800) 446-0522; in Canada, call (800) 268-1221. For HP Service Agreements outside the U.S. and Canada, contact your local HP Sales Office.

## Elsewhere in the world

- Hewlett-Packard Company Intercontinental Headquarters, 3495 Deer Creek Road, Palo Alto, CA 94304, U.S.A.

## A Setup Instructions

## Using a USB Connection

You can connect your HP DeskJet 640C Series directly to your computer using a USB cable if your computer supports USB (Universal Serial Bus). Before you connect your printer to your computer, make sure your configuration meets these requirements:

- Your computer must support USB.
- You will need a USB-compliant interface cable, such as HP Part Number C6518A.
- Your computer must be turned on and running Mac OS 8.1 or higher.

1 Plug in Electrical Power Cord

## 2 Load White Paper

a Slide the paper guides out as far as possible to make room for the paper.

b Put a stack of paper into the IN tray, print side down. You can insert up to 10 mm ( $3 / 8$ inch) at a time.
c Push the paper toward the back of the paper tray until it stops.

d Slide both paper guides to fit snug against the paper's edges.

## 3 Insert Print Cartridge

a Press Power $\cup$ button to turn on printer.
b Remove vinyl tape from print cartridges. Do NOT touch or remove copper strip on print cartridges.

c Open top cover.

d For each print cartridge, with the copper electrical contacts toward the rear of the printer and the print cartridge held vertically, push the print cartridge firmly down into the cradle.
Insert the black print cartridge in the right cradle and insert the tri-color print cartridge in
 the left cradle. You must insert both print cartridges for the printer to operate.
e Close top cover.

## A Setup Instructions

## 4 Connect USB Cable

- You can connect to any USB port.
- A USB cable, such as an HP USB-Compliant Interface Cable (part number C6518A), should be purchased separately.
a Lift open the cable access door on the back of the printer.
b Plug one end of the USB cable into the USB
 port on the printer.
c Plug the other end of the USB cable into the USB port on the computer.

## 5 Install Printer Software

a Insert the HP Printer Software CD into your CD-ROM drive.
b Double-click the HP DeskJet Mac Installer icon.

c Follow the on-screen instructions to complete the installation. Your computer will restart when the installation is complete.
d After your computer restarts, the HP DeskJet Utility (Select Printer) dialog box opens. Follow the instructions in this dialog box to select the HP DeskJet 640C Series printer.

## B Specifications

| Labels: | up to 25 sheets of paper labels |  |  |
|  | Use only U.S. letter-sized or A4sized sheets. Use only paper labels specifically designed for use with HP inkjet printers. |  |  |
| OUT tray capacity: | up to 50 sheets |  |  |

## Minimum Printing Margins

The printer cannot print outside a certain area of the page, so you must make sure the contents of your document fall within the printable area-that is, within the top, bottom, left, and right margins available for the specific size of paper on which you are printing.

When you use nonstandard paper sizes and select the Custom Paper Size setting in the HP print settings box, the paper width must be between 127 and 215 mm ( 5 and 8.5 inches) and the paper length must be between 148 and 356 mm ( 5.83 and 14 inches).

A4-Sized Paper

| Left: | 3.4 mm |
| :--- | :--- |
| Right: | 3.4 mm |
| Top: | 1.0 mm |
| Bottom: | 14.9 mm |

## Margins for Letter-, Legal-, and Executive-Sized Paper

| Left: | 0.25 in. |
| :--- | :--- |
| Right: | 0.25 in. |
| Top: | 0.04 in. |
| Bottom: | 0.59 in. |

## A5-Sized Paper

| Left: | 3.2 mm |
| :--- | :--- |
| Right: | 3.2 mm |
| Top: | 1.0 mm |
| Bottom: | 21.2 mm |

## Legal Information

## Regulatory Notices

## Hewlett－Packard Company

This device complies with part 15 of the FCC Rules． Operation is subject to the following two conditions： （1）This device may not cause harmful interference， and（2）this device must accept any interference received，including interference that may cause undesired operation．

Pursuant to Part 15.21 of the FCC Rules，any changes or modifications to this equipment not expressly approved by Hewlett－Packard Company may cause harmful interference，and void your authority to operate this equipment．Use of a shielded data cable is required to comply with the Class $B$ limits of Part 15 of the FCC Rules．

For further information，contact：
Hewlett－Packard Company
Manager of Corporate Product Regulations
3000 Hanover Street
Palo Alto，Ca 94304
（415）857－1501

NOTE：This equipment has been tested and found to comply with the limits for a Class B digital device， pursuant to part 15 of the FCC rules．These limits are designed to provide reasonable protection against harmful interference in a residential installation． This equipment generates，uses，and can radiate radio frequency energy and，if not installed and used in accordance with the instructions，can cause harmful interference to radio communications． However，there is no guarantee that interference will not occur in a particular installation．If this equipment does cause harmful interference to radio or television reception，which can be determined by turning the equipment off and on，the user is encouraged to try to correct the interference by one or more of the following measures：
－Reorient or relocate the receiving antenna．
－Increase the separation between the equipment and the receiver．
－Connect the equipment into an outlet on a circuit different from that to which the receiver is connected．
－Consult the dealer or an experienced radio／ TV technician for help．

LED Indicator Statement
The display LEDs meet the requirements of EN 60825－1．

## Limited Warranty Statement

|  | Duration of |
| :--- | :--- |
| HP Product | Limited Warranty |
| Ink cartridges | 90 Days |
| Software in North America/Canda | 90 Days |
| Software in Asia Pacific, Europe | 1 Year |
| Software in Latin America | 1 Year |
| Printer in North America/Canada | 90 Days |
| Printer in Asia Pacific, Europe | 1 Year |
| Printer in Latin America | 1 Year |

## A. Extent of Limited Warranty

1. Hewlett-Packard (HP) warrants to the end-user customer that the HP products specified above will be free from defects in materials and workmanship for the duration specified above, which duration begins on the date of purchase by the customer. Customer is responsible for maintaining proof of date of purchase.
2. For software products, HP's limited warranty applies only to a failure to execute programming instructions. HP does not warrant that the operation of any product will be uninterrupted or error free.
3. HP's limited warranty covers only those defects which arise as a result of normal use of the product, and do not apply to any:
a. Improper or inadequate maintenance or modification;
b. Software, interfacing, media, parts, or supplies not provided or supported by HP; or
c. Operation outside the product's specifications.
4. For HP printer products, the use of a non-HP ink cartridge or a refilled ink cartridge does not affect either the warranty to the customer or any HP support contract with the customer. However, if printer failure or damage is attributable to the use of a non-HP or refilled ink cartridge, HP will charge its standard time and materials charges to service the printer for the particular failure or damage.
5. If HP receives, during the applicable warranty period, notice of a defect in any software, media, or ink cartridge product which is covered by HP's warranty, HP shall replace the defective product. If HP receives, during the applicable warranty period, notice of a defect in any hardware product which is covered by HP's warranty, HP shall either repair or replace the defective product, at HP's option.
6. If HP is unable to repair or replace, as applicable, a defective product which is covered by HP's warranty, HP shall, within a reasonable time after being notified of the defect, refund the purchase price for the product.
7. HP shall have no obligation to repair, replace, or refund until the customer returns the defective product to HP .
8. Any replacement product may be either new or like-new, provided that it has functionality at least equal to that of the product being replaced.
9. HP's limited warranty is valid in any country where the covered HP product is distributed by HP except for the Middle-East, Africa, Argentina, Brazil, Mexico, Venezuela, and France's "Departements D'Outre-Mer"; for those excepted areas, the warranty is valid only in the country of purchase. Contracts for additional warranty services, such as on-site service, may be available from any authorized HP service facility where the product is distributed by HP or by an authorized importer.

## B. Limitations of Warranty

1. TO THE EXTENT ALLOWED BY LOCAL LAW, NEITHER HP NOR ITS THIRD PARTY SUPPLIERS MAKE ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THE HP PRODUCTS, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, SATISFACTORY QUALITY, AND FITNESS FOR A PARTICULAR PURPOSE.

## C. Limitations of Liability

1. To the extent allowed by local law, the remedies provided in this Warranty Statement are the customer's sole and exclusive remedies.
2. TO THE EXTENT ALLOWED BY LOCAL LAW, EXCEPT FOR THE OBLIGATIONS SPECIFICALLY SET FORTH IN THIS WARRANTY STATEMENT, IN NO EVENT SHALL HP OR ITS THIRD PARTY SUPPLIERS BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER BASED ON CONTRACT, TORT, OR ANY OTHER LEGAL THEORY AND WHETHER ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## D. Local Law

1. This Warranty Statement gives the customer specific legal rights. The customer may also have other rights which vary from state to state in the United States, from province to province in Canada, and from country to country elsewhere in the world.
2. To the extent that this Warranty Statement is inconsistent with local law, this Warranty Statement shall be deemed modified to be consistent with such local law. Under such local law, certain disclaimers and limitations of this Warranty Statement may not apply to the customer. For example, some states in the United States, as well as some governments outside the United States (including provinces in Canada), may:
a. Preclude the disclaimers and limitations in this Warranty Statement from limiting the statutory rights of a consumer (e.g., the United Kingdom);
b. Otherwise restrict the ability of a manufacturer to enforce such disclaimers or limitations; or
c. Grant the customer additional warranty rights, specify the duration of implied warranties which the manufacturer cannot disclaim, or not allow limitations on the duration of implied warranties.
3. FOR CONSUMER TRANSACTIONS IN AUSTRALIA AND NEW ZEALAND, THE TERMS IN THIS WARRANTY STATEMENT, EXCEPT TO THE EXTENT LAWFULLY PERMITTED, DO NOT EXCLUDE, RESTRICT, OR MODIFY, AND ARE IN ADDITION TO, THE MANDATORY STATUTORY RIGHTS APPLICABLE TO THE SALE OF HP PRODUCTS TO SUCH CUSTOMERS.

## HP Year 2000 Warranty

Subject to all of the terms and limitations of the HP Limited Warranty Statement stated above, HP warrants that this HP Product will be able to accurately process date data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000, including leap year calculations, when used in accordance with the Product documentation provided by HP (including any instructions for installing patches or upgrades), provided that all other products (e.g. hardware, software, firmware) used in combination with such HP Product(s) properly exchange date data with it. The duration of the Year 2000 warranty extends through January 31, 2001.

## Environmental Statement

Hewlett-Packard continuously improves the design processes of HP DeskJet printers to minimize the negative impact on the office environment and on the communities where printers are manufactured, shipped, and used. Hewlett-Packard has also developed processes to minimize the negative impact of the disposal of the printer at the end of printing life.

## Reduction and Elimination

Paper Use: The printer's automatic/manual two-sided printing capability reduces paper usage and the resulting demands on natural resources. This printer is suited for the use of recycled papers according to DIN 19309.
Ozone: Ozone-depleting chemicals such as CFCs have been eliminated from Hewlett-Packard manufacturing processes.

## Recycling

Design for recycling has been incorporated into this printer. The number of materials has been kept to a minimum while ensuring proper functionality and reliability. Dissimilar materials have been designed to separate easily. Fasteners and other connections are easy to locate, access, and remove using common tools. High priority parts have been designed to access quickly for efficient disassembly and repair. Plastic parts have been primarily designed in no more than two colors to enhance recycling options. A few small parts are colored specifically to highlight customer access points.

Printer Packaging: The packaging materials for this printer have been selected to provide maximum protection for the least cost possible, while attempting to minimize environmental impact and facilitate recycling. The rugged design of the HP DeskJet printer assists in minimizing both packaging materials and damage rates.
Plastic parts: All major plastics and plastic parts are marked according to international standards. All plastic parts used in the printer housing and chassis are technically recyclable and all use a single polymer.

Product Longevity: To ensure the longevity of your DeskJet Printer, HP provides the following:

- Extended Warranty - HP SupportPack provides coverage for the HP hardware and product and all HP supplied internal components. HP SupportPack must be purchased by the customer within 30 days of purchase. Contact the nearest HP dealer about this service.
- Spare Parts and Consumables are available for five years after production has stopped.
- Product Take-back - To return this product and ink cartridges to HP at the end of its useful life, call your local HP Sales or Service Office for instructions.
