

# Lenovo Smart Clock

## User Guide

# Basics

- All pictures and illustrations in this document are for reference only.
- The Google Home app supports both Android and iOS systems. This document uses the Android system as an illustrative example.
- Because the Google Home app will regularly be updated, refer to the latest version for the actual procedure and screenshots.

Before using this information and the product it supports, be sure to read the following:

- Safety, Warranty & Quick Start Guide
- Regulatory Notice
- Important safety and handling information in Appendix

The Safety, Warranty & Quick Start Guide and the Regulatory Notice are available at:

<http://support.lenovo.com>

## Getting started

### Overview

1	Light/proximity sensor	2	Microphone	3	Touch screen
4	Speaker area	5	Volume buttons	6	USB connector
7	Microphone mute switch	8	Power adapter connector		

- All pictures and illustrations in this document are for your reference only and may differ from the final product.

- The USB connector can be used to charge your phone or other devices.

Output: DC 5V  $\overline{=}$  500mA.

- To mute the microphone, slide the Microphone mute switch to the left.

## Plugging in the Lenovo Smart Clock to turn it on

Connect the power adapter to your device.

- Factory reset: Press and hold the volume up button and the volume down button at the same time for a few seconds.

## Downloading the Google Home app

Download and run the Google Home app in the Google Play Store on a phone/tablet. Or if you are an iPhone user, you can download the Google Home app from the App Store.

Follow the on-screen instructions to set up your Lenovo Smart Clock.

## Connecting the Lenovo Smart Clock to the Internet

You'll need to connect your Lenovo Smart Clock to the Internet before using it.

1. Open the Google Home app.
  2. Tap **Get started** and register your Google account.
  3. The Google Home app will scan the nearby devices automatically.
  4. Select the device that you want to connect.
  5. Follow the on-screen instructions to set up your Lenovo Smart Clock.
- Use the same Wi-Fi network for your Lenovo Smart Clock and phone/tablet.
  - The system may be updated automatically when using it for the first time. Wait several minutes without operating.

# Talking to the Lenovo Smart Clock

The Lenovo Smart Clock has the Google Assistant built in. Just say “Hey Google” or “Ok Google” to get started.

You can say “Hey Google, what can you do?” to learn about how your Google Assistant on your Smart Display can help you.

**For example:**

If you say “Hey Google, what’s the weather today?” the Lenovo Smart Clock will tell you the weather information.

- 🔗 Access your settings in the Google Home app at any time to add or modify your home address, work address, set your nickname, and more.

## Setting an alarm

You can set an alarm that plays a sound at a specific time.

**Method 1:**

Talk to the Lenovo Smart Clock. Say something like: “Hey Google, set an alarm for 8 a.m.”

**Method 2:**

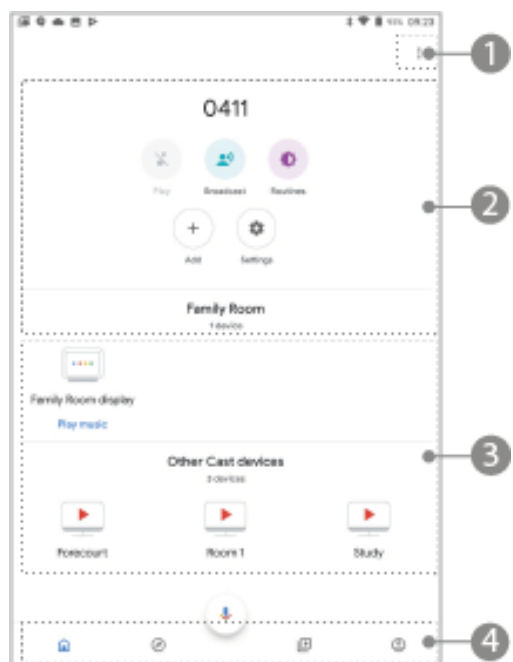

1. Swipe left on the home screen, then tap **Set an alarm**.
2. Set the time, then tap the alarm to choose any of the following options:
  - Repeat: Choose the days of the week.
  - Alarm tone: Choose a tone.
  - Sunrise alarm: The Smart Clock gently brightens 30 min before you need to get up.
  - Good morning routine: Wake up to the Lenovo Smart Clock briefing you about the weather, your schedule, your commute, and the news.
3. Tap **Done**.

Tap **Stop** to stop the alarm. Tap **Snooze** to give yourself a few more minutes.

You can tap  to set alarm settings.

# Using the Google Home app

Use the Google Home app to manage your device. Through the app, you can modify your Google Assistant settings including your personal information, your media service preferences, and your connected smart home devices.

1	Tap  to go to Help Center or submit a feedback report.
2	View and change information.
3	Display disconnected and available devices nearby.
4	Main tabs include the Discover tab the Browse tab.

# Appendix

## Important safety and handling information

To avoid personal injury, property damage, or accidental damage to the product, read all of the information in this section before using the product. For additional tips to help you operate your device safely, go to <http://www.lenovo.com/safety>.

### Handle your device with care

Do not drop, bend, or puncture your device. Do not insert foreign objects into or place heavy objects on your device. Sensitive components inside might become damaged. When using your device, keep it away from hot or high-voltage environments, such as electrical appliances, electrical heating equipment, and electrical cooking equipment. Use your device only in environments within the temperature range of 0°C (32°F) to 40°C (104°F) (storage -20°C (-4°F) to 60°C (140°F)) to avoid damage.

Don't expose your device to water, rain, extreme humidity, sweat or other liquids.

### Do not disassemble or modify your device

Your device is a sealed unit. There are no end-user serviceable parts inside. All internal repairs must be done by a Lenovo-authorized repair facility or a Lenovo-authorized technician. Attempting to open or modify your device will void the warranty.

### Plastic bag notice

DANGER:

Plastic bags can be dangerous. Keep plastic bags away from babies and children to avoid danger of suffocation.

### Adapter information

#### EU ErP (EcoDesign) Directive (2009/125/EC) - external power adapters (Regulation (EU) 2019/1782)

Lenovo products are designed to work with a range of compatible power adapters. Access <https://www.lenovo.com/us/en/compliance/eu-doc>, to view the compatible power adapters. For the detailed power adapter specifications for your computer, go to <https://support.lenovo.com>.

Adapter shall be installed near the equipment and shall be easily accessible.

- Prevent AC adapter from getting wet.
- Use approved charging methods only.

Note: Please only use standard Lenovo power adapters. The use of third-party power adapters will affect the charging speed, resulting in abnormal charging and potential damage to the device.

Connect a standard power adapter to a suitable power outlet.

Charging devices might become warm during normal use. Ensure that you have adequate ventilation around the charging device. Unplug the charging device if any of the following occurs:

- The charging device has been exposed to rain, liquid, or excessive moisture.
- The charging device shows signs of physical damage.
- You want to clean the charging device.

**Warning:**

Lenovo is not responsible for the performance or safety of products not manufactured or approved by Lenovo. Use only approved Lenovo AC adapters.

### **Dispose according to local laws and regulations**

When your device reaches the end of its useful life, do not crush, incinerate, immerse in water, or dispose of your device in any manner contrary to local laws and regulations. Some internal parts contain substances that can explode, leak, or have an adverse environmental effect if disposed of incorrectly.

See “Recycling and environmental information” for additional information.

### **Keep your device and accessories away from small children**

Your device contains small parts that can be a choking hazard to small children. Additionally, the glass screen can break or crack if dropped on or thrown against a hard surface.

### **Be aware of heat generated by your device**

When your device is turned on, some parts might become hot. The temperature that they reach depends on the amount of system activity. Extended contact with your body, even through clothing, could cause discomfort or even a skin burn. Avoid keeping your hands, your lap, or any other part of your body in contact with a hot section of the device for any extended time.

### **Electronic emission notices**

#### **FCC Compliance Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult an authorized dealer or service representative for help.

Lenovo is not responsible for any radio or television interference caused by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Responsible Party:

Lenovo (United States) Incorporated

1009 Think Place - Building One

Morrisville, NC 27560

Telephone: 1-919-294-5900

## **ISED Caution**

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## **Environmental, recycling, and disposal information**

### **General recycling statement**

Lenovo encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. Lenovo offers a variety of programs and services to assist equipment owners in recycling their IT products. For information on recycling Lenovo products, go to <http://www.lenovo.com/recycling>.

## WEEE information

Electrical and electronic equipment marked with the symbol of a crossed-out wheeled bin may not be disposed of as unsorted municipal waste. Waste of electrical and electronic equipment (WEEE) shall be treated separately using the collection framework available to customers for the return, recycling, and treatment of WEEE.

Country-specific information is available at: <http://www.lenovo.com/recycling>

## Recycling information for Japan

Recycling and disposal information for Japan is available at:

<http://www.lenovo.com/recycling/japan>

## Restriction of Hazardous Substances Directive (RoHS)

### United States of America

Lenovo products sold in California, on or after January 1, 2007, meet the requirements of “California’s RoHS” (SB20, 50).

Lenovo products sold to the New York City government, on or after March 1, 2007, meet the requirements of the City’s environmental preferred purchasing regulations.

## Export classification notice

This product is subject to the United States Export Administration Regulations (EAR) and has an Export Classification Control Number (ECCN) of 5A992.c. It can be re-exported except to any of the embargoed countries in the EAR E1 country list.

## Legal notices
