## INTRODUCING YOUR PHONE

MOTO™ W233 renew

## SERVICE ACTIVATION

If you are a new T-Mobile customer and your service has not been activated, simply call Customer Care at **1-800-937-8997** from your landline phone and a T-Mobile Activations representative will assist you.

You will need the following information when activating your service:

- Service Agreement and agent code on your Agreement
- Your name, home address, home phone, and billing address  
NOTE: For business and government accounts, please provide the name of your company or government agency, address, and tax ID.
- Your Social Security number, current driver's license number, and date of birth for credit check purposes
- Your choice of T-Mobile rate plan and services (see [www.t-mobile.com](http://www.t-mobile.com) for latest plan information)
- SIM serial number and IMEI number (located on the box bar code label)

By activating service, you acknowledge that you have read, understand, and agree to be bound by each of the Terms and Conditions of the Service Agreement.

## SIM CARD AND BATTERY

Your Subscriber Identity Module (SIM) card identifies you to the wireless network. Your phone will not work without the SIM card. To insert the SIM card and battery:

1. Detach your SIM card.

2. Remove the battery cover by pressing on the center of the battery cover and sliding the cover off. Lift and remove the battery.

3. Slide the SIM card into the SIM card slot with the gold contacts facing down and the notched corner of the SIM card facing out of the slot.

4. Align the gold contacts on the battery with the gold contacts in the battery compartment. Snap the battery into place and replace the battery cover.

5. Plug the charger into the phone and into an electrical outlet. When charging is complete, disconnect the charger from the phone.

---

2. Select **STORE**.
3. Type the contact's name and select **OK**.
4. Select **DONE**.

### Call contact from the phone book

1. Press the **Down Navigation** key to access the phone book.
2. Scroll to the contact and press the green **Send** key.

## myFaves<sup>®</sup> SETUP

myFaves is an optional calling plan. Benefits of signing up to myFaves:

- Unlimited nationwide calling to any five U.S. numbers on any network (even landlines)\*
- One-touch calling, text messaging, and photo sharing\*\*
- No domestic roaming or domestic long-distance charges
- Personalize contacts with favorite pictures and downloadable icons\*\*

\* Excluding 411, voicemail, toll-free, 900, calling card, customer's own numbers, numbers accessing 500 or more lines, conference bridges, and chat lines. Other restrictions and exclusions may apply.

\*\* Separate purchase/download charges may apply. Separate charges apply to send and receive domestic/international text/picture messages.

### Subscribe to myFaves<sup>®</sup>

To subscribe, go to [www.t-mobile.com](http://www.t-mobile.com). When you subscribe to myFaves you will see five circles on the main screen a few minutes after you power on your phone.

### Add myFaves contact

1. From the main screen, scroll to an unassigned circle and press the **Center Select** key.
2. Select one of the following:
  - **Create New:** Select **Name**. Type the contact's name and select **OK**. Scroll down and select **Number**. Type the contact's phone number and select **OK**.
  - **Get from Phonebook:** Scroll to the contact and press the **Center Select** key.
3. Select **SAVE** or go to **Step 4** to assign an icon and **Step 7** to assign a ringtone.

---

## Assign icon to myFaves contact

4. Scroll to **Change icon** and press the **Center Select** key.
5. Select one of the following:
  - **My Photos:** Select **Media Files** and select a picture. Move the circle to the desired location and select **Crop**.

7. Scroll to **Ringtone** and press the **Center Select** key.
8. Select **Media Files**.
9. Scroll to and select a ringtone.
10. Select **SAVE**.
11. Select **YES** to confirm.

An hourglass displays in the circle while the contact is being added to the phone book. You can use your phone during this time. Once the contact is added, the hourglass is replaced by your new myFaves contact and you will receive a confirmation message.

Now you are ready to call your contact. From the main screen, scroll to the contact and press the green **Send** key.

## Edit myFaves contact

**Names and icons:** You can change names and icons at any time.

**Phone numbers:** You can only change a contact's phone number once per calendar month. If a number change is not allowed, you will receive an error message explaining why.

1. From the main screen, scroll to the contact and press the **Center Select** key.
2. Scroll to and select **Options**.
3. Select **Edit Profile**.
4. Edit the contact's name, number, icon, and ringtone.
5. Select **SAVE** when done.

For more information on how to assign icons and ringtones, refer to the instructions in the **Add myFaves contact** section of this guide.

## Replace myFaves contact

1. From the main screen, scroll to the contact and press the **Center Select** key.
2. Scroll to and select **Options**.
3. Scroll to and select **Replace Contact**.
4. Select one of the following:
  - **Create New:** Select **Name**. Type the contact's name and select **OK**. Scroll down and select **Number**. Type the contact's phone number and select **OK**.
  - **Get from Phonebook:** Scroll to the contact and press the **Center Select** key.
5. Select **SAVE** when done.

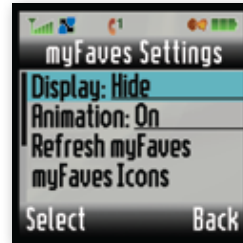

## Move myFaves contact to another circle

1. From the main screen, scroll to the contact and press the **Center Select** key.
2. Scroll to and select **Options**.
3. Scroll to and select **Change Order**.
4. Scroll to the desired location and select **DONE**.

## Hide myFaves circles

1. From the main screen, select **MENU**.
2. Scroll to and select **Settings**.
3. Scroll to and select **myFaves Settings**.
4. Select **Display**.
5. Scroll to and select **Hide**.
6. Press the red **End** key to exit.

## EMERGENCY DIALING

While all phones are equipped with 911 emergency calling, this phone may or may not permit its location to be approximated during a 911 call.\*

\* Availability of this feature depends on upgrades to the (a) wireless network and (b) 911 calling system that are required to be installed by the local 911 response agency or public safety answering point (PSAP); these upgrades may not be available everywhere within our wireless coverage area or your roaming area. This approximation of the phone's location and the transmittal of location information are subject to emergency situations, transmission limits, network problems/limitations, interconnecting carrier problems, your phone, buildings/tunnels, signal strength and atmospheric/topographical conditions, and may be curtailed, interrupted, dropped or refused. The phone's approximate location is transmitted to the local 911 response agency or PSAP while the call is in progress; this approximation is intended solely to aid the PSAP in dispatching emergency assistance or to limit the search area for emergency services personnel. You should not rely solely on a phone for essential communications (such as a medical or other emergency). Please see T-Mobile's Terms and Conditions and Privacy Policy for additional service restrictions and details.

## CARING FOR YOUR PHONE

### MAKING IT LAST

Your phone is a complex electronic device; think of it as a mini-computer. Here are some hints that will help you extend the life of your new phone.

**Phones aren't cheap, so keep yours in a safe place.** Keep the phone away from children who want to see if the phone sinks or floats, and away from dogs that find plastic-coated products to be irresistible chew toys.

**Water will damage your phone and accessories.** Even a small amount of water from a soda in your car cup-holder, melting snowflakes, tears of joy, squirt-gun crossfire, or steam from the kitchen or bathroom can damage your phone.

**Use only batteries and accessories from the original manufacturer of your phone.** Non-approved accessories can cause damage to you or your phone and shorten the phone's life. Hint: If it's being sold out of someone's car trunk, walk away.

**If your charger or any other accessory is damaged, replace it or take it to a qualified service dealer.** Do not attempt to operate your phone charger if it has received a sharp blow, been dropped, thrown from a speeding motorcycle, or is otherwise damaged; doing so may damage your phone.

## TIPS FOR SAFETY

Check with your doctor if you have a pacemaker or hearing aid to ensure that cell phone usage is safe with your device. If you have questions about the interaction of cellular radio frequency and any electronic equipment, ask the manufacturer of the equipment if cell phone radio frequencies will disrupt the equipment's performance.

When you are driving, T-Mobile encourages you to use your phone in a safe and sensible manner. Here are a few tips:

- Assess road conditions before answering. Your safety is more important than any call.
- Prepare your hands-free headset, if you have one, or turn on your speakerphone before you start moving.
- Keep your phone close to you. If it rings and you discover it's in the back seat, do NOT crawl over the seat to answer it while driving.
- Program frequently used numbers into your speed dial for easy one-touch dialing.
- Remember that laws prohibiting or restricting the use of a mobile phone while driving may apply in your area.

## TIPS FOR LIVING A GREENER LIFE

- Carpooling just once a week reduces your carbon emissions by 20%.
- Biking, walking, or jogging emits virtually no carbon and you will get in better shape too.
- Use the lights only when you need them. If you are using your computer, you may not need your office lights on too.
- Enable your computer's power management so your computer and monitor will shut down.
- Bring your lunch or walk to the local eatery instead of driving.
- Buy local—shipping burns fuel. A five-pound package shipped by air across the country creates 12 pounds of CO<sub>2</sub> (3 ½ pounds if shipped by truck).

## What does it mean to offset your carbon footprint?

Carbon offsets allow people to reduce the carbon emissions that they give off in their daily lives. By offsetting your carbon footprint, you have the opportunity to support greenhouse gas reduction projects like reforestation and renewable energy that accelerate the transition to a clean energy future.

Visit [www.carbonfund.org](http://www.carbonfund.org) for more information on carbon offsets and to find out what your carbon footprint is.

## Text Messaging

Your phone supports four text modes:

- **TAP** mode allows you to type letters by pressing a key until the correct letter displays. For example, to type **the**, press the **8** key once, the **4** key twice, and the **3** key twice.
- **iTAP** mode allows you to type words with only one keystroke per letter and the phone predicts the word you want. For example, to type **the**, press **8**, **4**, **3** and then press **\*** to select **the** and insert a space.
- **Number** mode allows you to type numbers.
- **Symbol** mode allows you to type symbols.

## Change text mode

While in the text entry screen, press **#** to cycle through the different text modes. You can also press the **Center Select** key, select **Entry Mode**, and then select **Primary**, **Number**, **Symbol**, or **Secondary**. By default, **Primary** is set to **TAP** mode and **Secondary** is set to **iTAP** mode.
