Quick Reference Manual 3459   CASIO®

Congratulations upon your selection of this CASIO watch.

Your watch has a Mobile Link function that allows it to communicate with a Bluetooth® mobile phone and adjust its time settings to match those of the mobile phone.
• This product complies with or has received approval under radio laws in various countries and geographic areas. Use of this product in an area where it does not conform to or where it has not been approved under applicable radio laws may be punishable under local laws. For details, visit http://world.casio.com/ce/BLE/.
• Use of this product inside of an aircraft is restricted by the aviation laws of each country. Be sure to obey instructions provided by flight personnel concerning use of devices such as this product.

Visit the website below for the operation manual (Operation Guide) of this watch.

Using the Watch

Charging
Remove the watch from your wrist and place it in a brightly lit area.
• The watch may become hot when exposed to light for charging. Take care to avoid burn injury.
• Avoid charging in locations where it is very hot.

Power Saving
• Leaving the watch in a dark location between the hours of 10 p.m. and 6 a.m. for about one hour will cause [PS] to start flashing on the display.
• After about one week in the dark, the [PS] indicator will stop flashing, and all functions, except for timekeeping and stopwatch functions, will become disabled.

Battery Alerts
• Low Charge
[LOW] or [CHG] flash on the display.
• Dead Battery
All display indicators blank.
