# Operation Guide 5551 

About This Manual

## Things to check before using the watch

1. Check the Home City and the daylight saving time (DST) setting.

Use the procedure under "To configure Home City settings" (page E-18) to configure your Home City and daylight saving time settings.

## Important!

- Proper World Time Mode data depend on correct Home City, time, and date settings in the Timekeeping Mode. Make sure you configure these settings correctly.

## 2. Set the current time.

- See "Configuring Current Time and Date Settings" (page E-21)

The watch is now ready for use.

Mode Reference Guide
The mode you should select depends on what you want to do.

| To do this: | Enter this mode: | See: |
| :--- | :--- | :--- |
| - View the current time in the Home City <br> - View the current time in one of 48 cities (31 time zones) <br> around the globe | All Modes | E-10 |
| - View the current date in the Home City <br> - Configure Home City and daylight saving time (DST) <br> settings <br> - Configure time and date settings | Timekeeping Mode | E-16 |
| E-18 <br> Configure World Time City and daylight saving time <br> (DST) settings | World Time Mode | E-21 |

| To do this: | Enter this mode: | See: |
| :--- | :--- | :--- |
| $\bullet$ Use the stopwatch to measure elapsed time | Stopwatch Mode | $\mathrm{E}-28$ |
| - Use the countdown timer | Countdown Timer Mode | $\mathrm{E}-31$ |
| - Set an alarm time | Alarm Mode | $\mathrm{E}-34$ |

Selecting a Mode

- Press (C) to cycle between the modes as shown below.
- To return to the Timekeeping Mode from any other mode, hold down © for about
two seconds.
- In any mode (except a setting mode), press (B) to illuminate the display.

Home Time : hour and minutes

E-10

## General Functions (All Modes)

The functions and operations described in this section can be used in all of the modes. - Auto Return Features

The watch will automatically return to the Timekeeping Mode if you do not perform any operation for a certain amount of time, as described below.

| Mode | Approximate Elapsed Time |
| :--- | :---: |
| Alarm <br> Time or other setting mode <br> (information flashing on the display) | 2 to 3 minutes |

## - Scrolling

The (B) and (D) buttons are used on the setting mode to scroll through data on the
display. In most cases, holding down these buttons during a scroll operation scrolls through the data at high speed.

## Graphic Area

- The graphic area indicates the seconds count in the Timekeeping Mode (page E-16), World Time Mode (page E-25), Stopwatch Mode (page E-28), and Timer Mode (page E-31).

Moving the Hands Out of the Way for Better Viewing
You can use the procedure below to temporarily move the hour and minute hands out of the way to better view what is on the display.

- This operation can be performed in any mode. In the case of a setting mode (information flashing on the display), the hands will move out of the way
automatically, even if you do not perform the operation below automatically, even if you do not perform the operation below.

1. While holding down © ${ }^{\text {B }}$, press ( $C^{\text {C }}$

- This will cause the hour and minute hands to move to a location where they do not block your view of the
World Time and/or digital display.

Flashes while the hands
are moved out of the way.
E-14

## Timekeeping

Use the Timekeeping Mode to set and view the current time and date.

B

To swap your Home City and World Time City
In the Timekeeping Mode, hold down (D) for about three seconds.
This swaps your Home City and World Time City.
Example: To swap the Home City (TYO) and World Time City (NYC)

Configuring Home City Settings
There are two Home City settings: actually selecting the Home City, and selecting either standard time or daylight saving time (DST).
To configure Home City settings

1. In the Timekeeping Mode, hold down (A) until ADJ appears.
-This indicates the city code setting mode.
2. Press (D) (East) and (B) (West) to select the city code
you want to use as your Home City.
Table" at the back of this manual
Table
3. After the setting is the way you want, press (A) to return
to the Timekeeping Mode.

to the Timekeeping Mode.
4. Holding down (B) again as you press (C) will cause the hands to return to their normal positions (normal timekeeping).

## Note

- Watch button functions are the same regardless of whether the hands are move out of the way or at their normal positions.
- Changing to another mode will cause the hands to move back to their normal positions.
- The hands also will move back to their normal positions automatically if no operation is performed for about one hour.

## Note

- After you specify a city code, the watch will use UTC* offsets in the World Time Mode to calculate the current time for other time zones based on the current time in your Home City.
al Time, the world-wide scientific standard of timekeeping The reference point for UTC is Greenwich, England.

## Operation Guide 5551

To change the Daylight Saving Time (summer time) setting

DST indicator

1. In the Timekeeping Mode, hold down (A) until AD
appears.
-This indicates the city code setting mode.
2. Press (C) to display the DST setting mode
3. Press (D) to toggle between Daylight Saving Time (ON and Standard Time (OFF)
Note that you cannot switch between daylight saving time and standard time while UTC is selected as you Home City.
4. After the setting is the way you want, press (A) to return to the Timekeeping Mode.
The DST indicator appears to indicate that Daylight
Saving Time is turned on.

Configuring Current Time and Date Settings
You can use the procedure below to adjust the Timekeeping Mode time and date
Changing the digital Home City data should cause the analog time setting to change accordingly. If the analog time does not indicate the digital time, check the home positions of the hands and make adjustments if necessary (page E-43).
To change the current time and date settings

. In the Timekeeping Mode, hold down (A) until ADJ appears
This indicates the city code setting mode
2. Press (C) to move the flashing in the sequence shown below to select the other settings.

3. When the timekeeping setting you want to change is flashing, use (D) and/or (B) to change it as described below.

| Screen | To do this: | Do this: |
| :---: | :---: | :---: |
| 1 | Toggle between 12-hour ( $\mathbf{1 2 H}$ ) and 24-hour (24H) timekeeping | Press (D). |
| $35$ | Reset the seconds to $\mathbf{0 0}$ | Press (D). |
|  | Change the hour or minute | Use (D) (+) and (B) (-). |
| 티피닌 | Change the year | Use (D) (+) and (B) ( - . |
| 或: | Change the month or day | Use (D) (+) and (B) (-). |

4. Press (A) to exit the setting mode.

## Note

- Resetting the seconds to 00 while the current count is in the range of 30 to 59
causes the minutes to be increased by 1
While the 12 -hour format is selected for timekeeping, a $\mathbf{P}$ (PM) indicator will appear for times from noon to 11:59 p.m. No indicator appears for times from midnight to
11:59 a.m. With 24 -hour format, time is displayed from $0: 00$ to $23: 59$, without any $\mathbf{P}$ (PM) indicator
- The watch's built-in full automatic calendar makes allowances for different month lengths and leap years. Once you set the date, there should be no reason to
change it except after you have the watch's battery replaced.
- The day of the week changes automatically when the date changes

## Checking the Current Time in a Different Time Zone

You can view the current time in one of 31 time zones ( 48 cities) around the globe. The city that is currently selected in the World Time Mode is called the "World Ti ting the World Time City, and selecting either standard time or daylight saving time (DST).

World Time : hour and minutes World Time City

## To enter the World Time Mode

Use (C) to select the World Time Mode as shown on page E-10

- The display changes as shown below.

- Press (A) to display the city code and name of the currently selected city

## To view the time in another time zone

Pressing (D) changes the city code setting

- Each press of (D) advances to the next city code
- To change the city code to UTC, press (B) and (D) at the same time

To specify standard time or daylight saving time (DST) for a city
In the World Time Mode, hold down (A) for about two

## seconds.

- This toggles between Daylight Saving Time (DST indicator displayed) and standard time (DST indicator not displayed).
- Note that you cannot switch between standard time daylight saving time (DST) while UTC is selected as the World Time City.
- The standard time/daylight saving time (DST) setting affects only the currently displayed city. Other cities are not affected

## Using the Stopwatch

The stopwatch measures elapsed time, split times, and two finishes.
To enter the Stopwatch Mode
Use (C) to select the Stopwatch Mode as shown on page E-11.

To perform an elapsed time operation

| $(D)$ | $(D)$ | (D) | Stop |
| :--- | :--- | :--- | :--- |
| Start | Stop | Resume | Stop |

To pause at a split time

Not

- The Stopwatch Mode can indicate elapsed time up to 59 minutes, 59.99 seconds.
- An ongoing elapsed time measurement operation will continue internally even if you change to another mode. However, if you exit the Stopwatch Mode while a split me is displayed, the split time will not be displayed when you return to the Stopwatch Mode

## Countdown Timer

The countdown timer can be set within a range of one minute to 60 minutes. An alarm sounds when the countdown reaches zero

## To enter the Countdown Timer Mode

Use (C) to select the Countdown Timer Mode as shown on page E-11

## To configure the countdown timer

1. While the countdown start time is on the display in the Countdown Timer Mode, hold down (A) until the curren countdown start time starts to flash, which indicates the setting mode.

- If the countdown start time is not displayed, use the procedure under "To perform a countdown timer operation" (page E-33) to display it.

2. Use (D) $(+)$ and (B) $(-)$ to change the setting. You can set a start time in the range of 1 to 60 minutes in 1-minute increments
3. Press (A) to exit the setting mode

To perform a countdown timer operation

| (D) | (D) | (D) | (D) |
| :--- | :--- | :--- | :--- |
| Start | Stop | Resume | Stop |
| Reset |  |  |  |

- Before starting a countdown timer operation, check to make sure that a countdown operation is not in progress (indicated by the seconds counting down). If it is, press D) to stop it and then (A) to reset to the countdown start time.

## To stop the alarm

Press any button.

## Using the Alarm

You can set five independent daily alarms. When an alarm is turned on, an alarm will sound for about 10 seconds each day when the time in the Timekeeping Mode reaches the preset alarm time. This is true even if the watch is not in the Timekeeping Mode.
You can also turn on an Hourly Time Signal, which will cause the watch to beep twice every hour on the hour.
Alarm time (Hour : Minutes) To enter the Alarm Mode
Use © to select the Alarm Mode as shown on page E-11. - This will cause the display to change as shown below.

If SIG appears on the display, press (D).

4. While a setting is flashing, use (D) $(+)$ and (B) $(-)$ to change it

When setting the alarm time using the 12-hour format, take care to set the time correctly as a.m. (no indicator) or p.m. (P indicator).
5. Press (A) to exit the setting mode.

To test the alarm
In the Alarm Mode, hold down (D) to sound the alarm.

To set an alarm time

1. In the Alarm Mode, use (D) to scroll through the alarm screens until the one you want to change is shown

2. Hold down (A) until the hour digits of the alarm setting
3. Press (C) to move the flashing between the hour and
start to flash.
This is the setting mode. minute settings.

Illumination

The display of the watch is illuminated for easy reading in the dark. The auto light turns on illumination automatically when you angle the watch towards your face - Auto light must be enabled (page E-39) for it to operate.

To illuminate the display manually
Press (B) in any mode (except a setting mode) to
illuminate the display.

- You can use the procedure below to select either 1.5 seconds or three seconds as the illumination duration.
To change the illumination duration

1. In the Timekeeping Mode, hold down (A) until ADJ appears

- This indicates the city code setting mode.

To turn an alarm and the Hourly Time Signal on and off

1. In the Alarm Mode, use (D) to select an alarm or the Hourly Time Signal.
2. When the alarm or the Hourly Time Signal you want is selected, press (A) to turn it on (on) and off (--).

To stop the alarm
Press any button.
2. Press (C) 10 times to display the illumination duration setting screen (page $\mathrm{E}-22$ ) The screen will show either LT1 or LT3
3. Press (D) to toggle the illumination duration between 1.5 seconds (LT1 displayed) and three seconds (LT3 displayed).
4. After all of the settings are the way you want, press (A) to exit the setting mode.

## About auto light

While auto light is enabled, illumination will turn on whenever you position your wrist as described below in any mode.
Moving the watch to a position that is parallel to the ground and then tilting it towards you more than 40 degrees causes illumination to turn on.

The alarm on indicator (when any alarm is on) and the Hourly Time Signal on indicator (when the Hourly Time Signal is on) are shown in all modes.

## Operation Guide 5551

## Warning!

Always make sure you are in a safe place whenever you are reading the display of the watch using auto light. Be especially careful when running or engaged in any other activity that can result in accident or injury. Also take are that sudden illumination by auto light does not startle or distract others around you.
When you are wearing the watch, make sure that auto light is disabled before riding on a bicycle or operating a motorcycle or any other motor vehicle. Sudden and unintended operation of auto light can create a distraction, which can result in a traffic accident and serious personal injury

To enable or disable auto light
Auto light enator In the Timekeeping Mode, hold down (B) for about three
 seconds to toggle auto light between enabled (indicato displayed) and disabled (indicator not displayed).

- The auto light enabled indicator appears in all modes while auto light is enabled.
Auto light remains enabled for about six hours. After that it becomes disabled automatically

Illumination Precaution

- Illumination may be hard to see when viewed under direct sunlight.
- Illumination turns off automatically whenever an alarm sounds
- Frequent use of illumination runs down the batteries.

Auto light precautions

- Illumination may not turn on if the face of the watch is more than 15 degrees above or below parallel. Make sure that the back of your hand is parallel to the ground sure that the back of your hand is parallel to the ground
Illumination turns off after the preset illumination duration (page E-38), even if you keep the watch pointed towards your face.
Static electricity or magnetic force can interfere with proper operation of auto light. If illumination does not turn on, try moving the watch back to the starting position (parallel with the ground) and then tilt it back towards your face again. If this does not work, drop your arm all the way ack
You may notice a very faint
the watch when it is shaken back clicking sound coming from is caused by mechanical operation of auto light, and does not indicate a problem with the watch.

## Adjusting Hand Positions

Strong magnetism or impact can cause the hands setting to be off. If this happens, you should adjust the hand positions.

To adjust hand positions

1. In the Timekeeping Mode, hold down (A) for about five seconds until H.SET appears.

- This indicates the World Time hands adjustment mode.
Though ADJ will appear as you hold down (A), do not release the button yet.

2. If the World Time hands are not at 12 o'clock, use (D) and (B) to adjust them until they are.

3. Press (C)

- This enters the hour and minute hand adjustment mode.

4. If the hour and minute hands are not at 12 o'clock, use (D) and (B) to adjust them until they are
5. Press (A) to return to the Timekeeping Mode. Check to make sure that the time indicated by the hour and minute hands matches the time on the digital display. If the times don't match, perform the correction procedure above again.

## Button Operation Tone

You can turn the button operation tone on or off as desired

- Even if you turn off the button operation tone, alarms, the Hourly Time Signal, and other beepers all operate normally.

## To turn the button operation tone on and off

 appears.
nicates the city code setting mode
2. Press (C) nine times to display the button operation tone On/Off setting screen (page E-22). The screen will show either KEY) or MUTE
3. Press (D) to toggle the setting between KEY ( ON ) and MUTE (OFF).
4. After all the settings are the way you want, press (A) to exit the setting mode.

## Troubleshooting

## Time Setting

- The current time setting is off by hours.

Your Home City setting may be wrong (page E-18). Check your Home City setting and correct it, if necessary.

- The current time setting is off by one hour

You may need to change your Home City's standard time/daylight saving time (DST) Youtting setting" (page $\mathrm{E}-20$ ) to change the standard time/daylight saving time (DST) setting.

## World Time

- The time for my World Time City is off.

This could be due to incorrect switching between standard time and daylight saving time. See "To specify standard time or daylight saving time (DST) for a city" (page E-27) for more information.

E-46

## Specifications

Accuracy at normal temperature: $\pm 15$ seconds a month
Digital Timekeeping: Hour, minutes, seconds, p.m. (P), month, day, day of the week Time format: 12-hour and 24-hour
Calendar system: Full Auto-calendar pre-programmed from the year 2000 to 2099 Other: Home City code (can be assigned one of 48 city codes);

Standard Time/Daylight Saving Time (summer time)
