

- A sticker is aftixed to the glass of this stopwatch when you purchase it. Be sure to remove the sticker before
- using the stopwatch. Depending on the stopwatch model, the configuration of your stopwatch may differ somewhat from that shown in the illustration.

USING THE STOPWATCH
(A) Press this button to start and stop elapsed time measurement.

B Press this button while an elapsed time measurement is in progress to momentarily freeze a SPLIT or LAP time on the display (timing continues internally). Press again to display the ongoing time measurement. You can
repeat the LAP/SPLIT time operation as many times you want. Pressing this button while elapsed time
measurement is stopped resets the time to all zeros.
(C) Press this bution to toggle between the SPLIT time mode and LAP time mode.

- The maximum elapsed time that can be measured is 9 hours, 59 minutes, 59.99 seconds.

| A SPLIT is the time from the start of an event up to any specific point. | SPLIT $\overline{\text { LAP }}$ |
| :--- | :--- |
| A LAP is the time for one segment (lap) of an event. |  |
