2

Installing batteries

1 Open the battery cover by sliding it in the direction indicated by the arrow.

2 Insert two AA batteries with the positive (+) and negative (-) terminals matching matching the directions indicated inside the battery compartment.

3 Close the battery cover.
Inserting the memory card

1 Open the battery cover.

2 Insert the card with the label facing up and with the arrow pointing in.

3 Close the battery cover.

Note: To remove the card, gently press on the edge of the card and release it. Pull the card out and close the battery cover.
Turning the power on and off

1 Press **POWER** ① to turn the camera on in *REC* mode.

- OR -

Press **PLAYBACK** ② to turn the camera on in *PLAYBACK* mode.

2 Press **POWER** ① again to turn the camera off.
Power-saving function

To save battery power, the LCD monitor automatically turns off one minute after the last control has been accessed. Press any button except **POWER** to turn on the display. You can change the power save setting in the *Setup* menu.

After the power-saving function has been active for one minute, power turns off completely. Press **POWER** or **PLAYBACK** to restore power.

The power save feature will not activate while you are:

• Recording or playing movie clips or audio files
• Playing a slideshow
• Connecting the camera to a computer or printer with the USB cable

Changing the mode

You can record images and voices in *REC* mode. Use *PLAYBACK* mode ① to replay, delete, or edit images on the LCD display.

To switch between REC mode and PLAYBACK mode

In *REC* mode, press **PLAYBACK** ① to switch to *PLAY* mode.

In *PLAY* mode, press **PLAYBACK** ① or **MODE** ② to switch to *REC* mode.

To select REC mode

1 Set the camera to *REC* mode.
2 Press **MODE** to display the scene mode palette.
3 Use the four-way control to select a mode and press **SET** to confirm the setting.

4

Using menus

Use the four-way control and **SET** to make menu selections.

## To use the REC menu

1 Turn the power on and set the camera to *REC* mode.

2 Press **MENU** to display the *REC* menu.

3 Press ◄ or ► to select a menu item and ▲ or ▼ to change a setting.

4 Press **MENU** or **SET** to save settings and close the menu.

To use the setup menu

1 Turn the camera on and set the camera to *REC* or *PLAYBACK* mode.

2 Press **MENU** to display the *REC* or *PLAYBACK* menus.

3 Use the four-way control to select **SETUP**, then press **SET** to display the *SETUP* menu.

4 Press ▲ or ▼ to select a menu item, then press ► or **SET** to display it.

5 Press ▲ or ▼ to select an option, then press ◄ or **SET** to apply the setting.

6 Press **MENU** to close the menu.
Taking pictures

1 Turn the power on and set the camera to *REC* mode.

2 Aim the focus area ① on the subject that you want to take a photo of.

3 Press the shutter button half-way down to focus the image.

The focus area turns green while in focus, the aperture value ②, shutter speed ③, and ISO value ④ are displayed.

If shutter speed is slow or picture may blur, the shake warning icon may appear on the display. To avoid this, use a tripod to stabilize the camera when recording images.

4 Press the shutter button fully to take the picture.

Note: Take care not to block the lens with your fingers or the wrist strap.
Recording video clips

1 Turn the power on.

2 Press the **SCN** button ① to display the mode screen, then select the *MOVIE* mode.

3 Center your subject in the focus area ⑤. Available recording time is displayed ④.

4 Press the shutter button ② to start recording. Use the zoom button ③ to adjust image size.
   Note: Sound is not recorded while zoom button is pressed. Digital zoom cannot be used in *Movie* mode.

5 Press the shutter button ② again to stop recording.

Note: The camera will automatically stop recording when memory capacity has been reached.

Playing back images

1 Turn the power on and set the camera to *PLAYBACK* mode.

   The last-recorded image appears on the display. If no images are stored, *[No image]* appears on the display.

2 Press ◄ to see the previous image or ► to see the next image.

**Note**: Hold the ◄ or ► buttons down to scroll through images quickly.

Connecting the camera to a computer

There are two ways to download files from the camera's interal memory or memory card to to a computer:

• Insert the memory card into a card reader

  - OR -

• Connect the camera to a computer using the supplied USB cable

Using the card reader

1 Eject the memory card from the camera and insert it in a card reader connected to your computer.

2 Open **My Computer** or **Windows Explorer** and double-click the icon for the memory card. On Macintosh computers, the card will appear on the desktop. Double-click the icon to access images.

3 Copy images from the card to a folder on your computer.
Connecting the camera to a computer with the USB cable

1 Connect the supplied USB cable to the computer's USB port and turn on the camera.

   The LCD screen turns off when connection has been made.

2 Open **My Computer** or **Windows Explorer**. *Removable Disk* appears in the drive list. On Macintosh computers, the card will appear on the desktop. Double-click the icon to access images.

3 Double-click the *Removable Disk* icon to view its contents. Pictures and video clips stored on the camera are located in the *DCIM* folder.
Accessing the *User Guide*

• Insert the enclosed mini-CD into your computer, then open the *User Guide* file.

   - OR -

• Visit the Insignia website at www.Insigniaproducts.com and click on the **Digital Camera** link under *Products*.
