Powered Subwoofer

XW-500d

- Perfectly anchors a home theater or two-channel system
- DCS™ Technology caters to specific bass preferences
- Front-firing 10-inch driver delivers hard-hitting intensity
- 500-watt BASH® amplifier
- Sealed enclosure

The sealed XW-500d subwoofer achieves its hard-hitting intensity and clean output via a 10-inch driver and a 500-watt Bash® amplifier.

For the quick and easy adjustment of all functions, the subwoofer features proprietary Digitally Controlled Subwoofer (DCS™) technology that includes three equalization modes (flat, depth, and punch) and three user-adjustable presets (music, movie, and night) to create specific listening preferences.

And the XW-500d does more than just pack a serious punch. It features a sleek enclosure design that is completely refined. Available in a black aluminum-look finish with high-gloss black accents, this sophisticated subwoofer matches the entire Icon X Series lineup in both style and performance.

The entire Icon X Series is performance art at its best, capturing the spirit of our past and pushing us into the future. It is a brilliant representation of how our products have evolved and remained desirable over time. After just one listen, the Icon sound will be imprinted in your consciousness forever.
