## Software Installation

#### Windows® (XP/Vista®/7/8)

 Before connecting the USB 3.0 Universal Docking Station, install drivers using the provided CD.

NOTE: If your PC does not have a CD drive, go to the link below to download the latest drivers.

www.displaylink.com/support/downloads.php

- Select Drivers for Windows and then double click the **Setup.exe** to launch the Installation Wizard.
- Follow the on-screen instructions until the installation is complete. Restart the computer when prompted.

#### Mac OS X (10.6 or later)

 Before connecting the USB 3.0 Universal Docking Station, install drivers using the provided CD.

NOTE: If your Mac does not have a CD drive, go to the link below to download the latest drivers.

www.displaylink.com/support/mac\_downloads.php

 Double click the DisplayLink.dmg, then double click the DisplayLink Software Installer.pkg to launch the software installer.

 Follow the on-screen instructions until the installation is complete. Restart the computer when prompted. e Droven for Mar CB X • Guide Burr Guide the

Setup

- 1. Plug-in the AC adapter into the Universal Docking Station.
- 2. Connect the Universal Docking Station to an available USB 3.0 port on the Ultrabook, laptop, or tablet.
- 3. Connect any USB 3.0 compatible devices here. USB 3.0 ports are also backwards compatible with USB 2.0 and 1.1 devices.
- 4. Connect any USB 2.0 or 1.1 compatible devices here.
- Your Universal Docking station can support an additional HDMI monitor. Connect the monitor to the docking station and your computer will automatically detect the additional display. A DVI monitor may be connected using the included HDMI to DVI adapter.
- Your Universal Docking station can also support an additional DVI monitor. Connect the monitor to the docking station and your computer will automatically detect the additional display. A VGA monitor may be connected using the included DVI to VGA adapter.
- 7. Connect an Ethernet cable to the Gigabit WAN port for high speed internet.
- 8. Connect an independent microphone for higher quality recording.
- 9. Connect external speakers or use with the microphone input for a headset with built-in microphone.

# **External Monitor Settings: Windows**

#### Option 1: Extend Mode

- 1. Click the DisplayLink icon in the bottom right corner to open the DisplayLink Manager Menu.
- 2. Roll the mouse cursor over IOGEAR USB 3.0 Dock to bring up the Manager Menu.
- 3. Select Extend.
- 4. The monitor is now extended in the direction it was the last time the display was in this mode. For more control, select Extend To and choose one of the options. This puts the device into Extend Mode, and places it to the Left/Right/Above/Below the main monitor
