✳ION®

LP 2 FLASH
USB TURNTABLE WITH DIRECT-TO-SD RECORDING

Go portable with your record collection; burn MP3s onto an SD card, fast!

TAKE YOUR FAVORITE MUSIC ANYWHERE.

ION's LP 2 FLASH is the fastest and easiest way to convert your old vinyl recordings directly to an SD card or attached USB storage device. Once converted, you can listen to your music on your computer, or any audio player with a standard SD Card slot. Converting your records is a snap with LP 2 FLASH.

LP 2 FLASH includes *EZ Vinyl Converter 2* (PC) and *EZ Audio Converter* (Mac); the simplest way to record and convert vinyl directly to iTunes.

EZVC 2 features Gracenote® MusicID technology, which analyzes your vinyl and automatically retrieves album, artist and song information for you! *EZAC* lets you easily enter track information. You can now digitally archive your collection in just a few mouse clicks.

Once digitally converted, you can sort your music, make custom playlists, and easily take songs with you on an iPod or play them directly from your computer. Finally your record collection can be available wherever you are.

3 EASY STEPS!

1. Play your records and click RECORD in *EZ Vinyl Converter 2* to begin recording.
2. Click the NEW TRACK button at the end of each track. When finished, songs go straight into iTunes!
3. Use iTunes to create playlists, organize your music, listen to your songs on the computer or transfer to your iPod.

FEATURES

- Direct recording to SD Card, external USB thumb drive or USB hard drive (no computer required)
- Record straight to a PC or Mac easily (USB cable included)
- Sleek, stylish design
- Listen to your vinyl and recordings through your stereo system via the RCA audio outputs
