DIRECTORY : Skip to previous or next folder.

FF/RW Scan Speed
The fast scan speed can range from $1 x / 2 x / 4 x / 6 x$.

## Voice Recording Mode

You can adjust recording quality when recording voice.
ON : When recording voice, the recording level is automatically controlled and recordings from long distances are enhanced.
OFF : AGC(Automatic Gain Control) not activated.
Bit Rate : 8Kbps~160Kbps
Sampling Frequency : $11.025 \mathrm{KHz} \sim 44.1 \mathrm{KHz}$

## Voice Auto Detection

The voice recording mode will automatically pause during silence. This is useful for recording over a long period of time to save memory.
OFF : Voice Auto Detection is disabled.
Voice Auto Detection : Set the relative level of sound needed to
activate the recorder. (Level 1-Level 10).
Record pause time setting : Set the number of seconds of silence
to record before pausing. $(1-10 \mathrm{sec})$

## Tuner Recording Mode

You can adjust recording quality when recording from the FM Tuner.
Mono : Recorded to Mono sound.
Stereo : Recorded to Stereo sound.
Bit Rate : 8Kbps~320Kbps
Sampling Frequency : $11.025 \mathrm{KHz} \sim 44.1 \mathrm{KHz}$

Line-in Recording Mode
You can adjust recording quality when recording from external equipment.

Bit Rate : 8Kbps~320Kbps
Sampling Frequency : $11.025 \mathrm{KHz} \sim 44.1 \mathrm{KHz}$

## Line-in Record Volume

You can adjust recording level when recording from External equipment.
(You can set from 0 to 64.)

Line-in Auto Sync
Line-In, a new file will be created for each track on the CD automatically.

- OFF : Audio signal detection is disabled.
- Audio signal detection time ( $1-5$ seconds) : The amount of silence the player will use to determine when a track has ended

|  | Ofontrol |
| :---: | :---: |
|  |  |

## Line-in/Ext. Mic

You can select external microphone or line-in when recording. Line-In : To record through Line-In
Ext. Mic : To record through an external microphone
Note - To record from an external microphone, chose the LINE-IN recording mode.

- The recording quality level will be set to the values chosen for LINE-IN recording.

## Download Activity

Select whether the player is operated for a music playback or file transferring while the player is attached to the PC.
OFF : The player will playback audio files while connected to the PC (to save battery life).
ON : The player to show "Connected to USB" on the screen and you can transfer files to the player.

- When the player turns off and on, Download Activity is always set to ON.

## Playhack Control

Adjust the playback speed.
FAST: Playback speed will be increased and tracks will play faster than normal.
SLOW: Playback speed will be decreased and tracks will play slower than normal.
The default value is " 0 " and the music is played as normal speed.

Mode

## Repeat/Shuffile

While an audio file is playing, press the MODE/REC button to activate selected playback mode, such as Repeat or Shuffle. (Multi selecting available)

Note

- Only the selected play mode will be available when you press the MODE/REC button (For details, please refer to page 5-5)

## Intro

Intro : Plays the beginning 10 seconds of each track. Intro Highlight : Plays 10 seconds from 1 minute into each track in sequential order.

## Study

While playing, short slide of the $1 \ll$ or lever will skip the current track set time ahead.
OFF : Study Mode is disabled. The range is $1 \sim 60$ seconds.

You can input your name or custom text displayed at th stop mode.

- Select the character by pushing the NAVV/MENU button toward 144 and $\Rightarrow$ and press Navi/Menu button to input the character.
- To move the cursor in the name window, push the NAVV/MENU button toward VOL + or VOL -

To scroll between English and your preferred language, use the $\mathrm{A}-\mathrm{B} / \mathrm{EQ}$ (MEMORY) button.

- To delete the character, press the MODE button.
- Press the PLAY/STOP button to save and exit.

Name

Sound

## Kitreme EQ

You can adjust the sound to your preference.
There are 5 band frequency steps, set from -15 dB to +15 dB by 3 dB step.

- How to set Xtreme EQ

1. Select the Frequency step
to set using the $1 \leftrightarrow \leftarrow$ or - ${ }^{\text {switch. }}$

Select the frequency

2. Adjust the level using the VOL + or VOL - switch.

3. To exit Xtreme EQ setting

Ktreme 3D
You can adjust the level of 3D sound (minimum, Natural, and Maximum).
You can extend 3D sound by selecting Bass Boost or 3D EQ.
You can also adjust the level of 3D sound with the $1 \leftrightarrow \triangleleft$ or $>$ lever. Select DBE or 3D EQ with the NAVI/MENU button.

## DBE Setting

DBE (Dynamic Bass Enhancement) enhances Low \& Middle frequencies and only operates when using Xtreme 3D.

You can select the Bass Center Band level from Band 1 to 4. You can also set the Bass Boost gain from 0 dB to 15 dB by 3 dB step.

3D EQ Setting
Set EQ to User EQ to use 3D EQ.
You can adjust the sound to your preference.
There are 5 band frequency steps, set from -15 dB to +15 dB by 3 dB step.

- The way of 3D EQ setting is similar to that of setting Xtreme 3D.

## Menu-Sound

## Sound Balance

Balance your sound to the right or left or keep it in the center according to your preference. When Sound Balance bar is moved to $L$ (Left, 20),the sound outputs at the left earphone. When the lever is moved to R (Right, 20) the sound outputs at the right earphone. The default value is 0 and the sound outputs the same level at both earphones.

## EO Limit

ON : Limit the control of equalizer frequency to prevent distortion of sound.
OFF : You can enjoy the original sound though distortion of sound may occur.

Set beep volume level. Set to "0" for OFF.

The manufacturer does not warrant and will not be held responsible in any way for damages or loss of data, including loss of data stored on this device, resulting from a excessive impact, athunder or an electricity failure, You will be responsible for safe-guarding all data stored on this device.

## On headphones and earphones

- Road Safety

Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headset at high volume while walking, especially at pedestrian crossings.
You should exercise extreme caution or discontinue use in potentially hazardous situations.

- Preventing hearing damage

Avoid using headphones/earphones at high volume. Hearing experts advise against continuously loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.

- Consideration for others
Keep the volume at a moderate level. This will allow you to hear outside sound and to be Keep the volume at a moderate level.
considerate of the people around you.
