Important Safety Information

WARNING! Before using this unit or starting any exercise program, consult your physician. This is especially important for persons over the age of 35 and/or persons with pre-existing health problems. The manufacturer or distributor assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

WARNING! To reduce the risk of electrical shock, burns, fire, or other possible injuries to the user, it is important to review this manual and the following precautions before operation.

SAFETY PRECAUTIONS AND TIPS

1. It is the owner's responsibility to ensure that all users of this unit have read the Owner's Manual and are familiar with warnings and safety precautions.
2. This unit has a user maximum capacity of **250** pounds.
3. The unit should only be used on a level surface and is intended for indoor use only. The unit should not be placed in a garage, patio. Ironman Fitness recommends a mat be placed under the unit to protect floor or carpet and for easier cleaning.
4. Wear comfortable, good-quality walking or running shoes and appropriate clothing. Do not use the unit with bare feet, sandals, socks or stockings.
5. Always examine your unit before using to ensure all parts are in working order.
6. Allow the unit to fully stop before dismounting.
7. Pets should never be allowed near the unit.
8. Do not leave children unsupervised near or on the unit.
9. Never operate the unit where oxygen is being administered, or where aerosol products are being used.
10. For safety and to prevent damage to your unit, no more than one person should use the unit at a time.
11. Service to your unit should only be performed by an authorized service representative, unless authorized and/or instructed by the manufacturer.
12. Failure to follow these instructions will void the unit warranty.

Before You Start

Thank you for purchasing the **Ironman 120e Elliptical!** This quality product you have chosen was designed to meet your needs for cardiovascular exercise. Before you start, please read the Owner's Manual and become familiar with the operation of your new unit.

Remember to take the time to perform the stretching exercises provided to avoid injury.

If you are taking medication, consult your physician to see if the medication will affect your exercise heart rate.

If you have heart problems, you are not active, and/or are over the age of 35 years, do not use the pre-set programs or start an exercise program without first contacting and receiving approval from your physician.

Do not spill liquids on the console. Ironman Fitness recommends a sealed water bottle for beverages consumed while using the unit.

Please review the following drawing below to familiarize yourself with the listed parts.

INSTRUCTIONS FOR ASSEMBLY:

Unpack the box in a clear area. Check to make sure all components are present and in good condition. Do not dispose of the packing material until the assembly is completed. Tools have been provided for you to use when assembling this product.

Locate the hardware pack and identify the following parts required for assembly.

Tools:

1. Allen Wrench, M5 and M6
2. Phillips Screw Driver
3. Wrench

Main Components:

1. Owner's Manual
2. Main Frame
3. Front Stabilizer Assembly
4. Handlebar w/Pulse Assembly
5. Upper Handlebar Assembly, Left and Right
6. Handle bar Post
7. Tension Knob
8. Sleeve Assembly Left and Right
9. Pedal Tube Assembly Left and Right
10. Console Assembly
11. Rear Stabilizer Assembly
12. Pedals Left and Right
13. Plastic Bellows

Hardware:

1. M8 Cap Nut (28) - Qty. 4
2. Arc Washer, M8 * 15 (27) - Qty. 12
3. Carriage Bolt, M8 * 70 (26) - Qty. 4
4. Screw, Button Head, M8 * 15 (52) - Qty. 8
5. Washer, M6 * 13 (70) - Qty. 4
6. Nylon Locknut, M6 (71) - Qty. 4
7. Carriage Bolt, M6 * 40 (69) - Qty. 4
8. Bolt, Hex Head, 3/8 * 45 (15) - Qty. 4
9. Washer, 10 * 26 * 2.0 (16) - Qty 4
10. End Cap, #19 (73) - Qty 6
11. End Cap #13 (83) - Qty 2

FIGURE 1

Step 1:
Using Two Carriage Bolts (26), Cap Nuts (28) and Arc Washers (24), Attach the Front Stabilizer Assembly to the Main Frame.

FIGURE 2

Step 2:
Using Two Carriage Bolts (26), Cap Nuts (28) and Arc Washers (27) Attach Rear Stabilizer Assembly to Main Frame.

FIGURE 3

Step 3:
Using Two Hex Head Bolts (15), Nylon Lock Nuts (17) and Washers (16) Attach Left Foot Pedal (12) to the Pedal Tube Assembly.

Step 4:
Using One Bolt (77), Lock Nuts (17) and Washers (16), Attach the Pedal Tube Assembly to the Pedal Attachment point (8).

Step 5:
Repeat Pedal Assembly for Right side.

Assembly

FIGURE 4:

Step 1:

Slide the Plastic Bellows (38) onto the Upright Post (38).

Step 2:

Connect the Console Cable (51) to Sensor Wires (49). Slide the Resistance Cable (53) thru the Upright Post (38) and out the large hole on the side of the Upright Post (38).

Step 3:

Using Two Washers (27) and Screws (52), Attach the Upright Post (38) to the Main Frame. Slide the Plastic Bellows down until it meets the Main Assembly.

FIGURE 5

Step 1:

Insert the Pulse Wires (50) into the bigger hole on the Upright Post Assembly. Pull the Pulse Wires out thru the top of the Upright Post Assembly (38). Using Two Screws (52) and Arc Washers (27), Attach the Pulse Handlebar to the Upright Post Assembly.

FIGURE 6

Step 1:

Connect Tension Knob (54) to Resistance Cable (53). Refer to Figure 6a,6b,and 6c for detailed instructions. Using one Screw (55) and Washer (72), Attach Tension Knob to Upright Post Assembly (38).

Step 2:

Connect the Console Cables (51) and the Pulse Cable (50) to wires coming from Console (57).

Step 3:

Slide the Console (57) onto the Upright Post Assembly.

Assembly

FIGURE 6a: Connect the Tension Knob to the Resistance Cable. Fit the Resistance Control Cable into the slot of the Tension Knob. Pull the brass end of the Resistance Control Cable over the lip of the Tension Knob Bracket. The connection should look like *Figure 6c* when completed.

FIGURE 7:

Step 1:

Using two Bolts (69), Washers (70) and Cap Nuts (71), Attach the Left Upper Handlebar Assembly (65L) to the Lower Sleeve Assembly (67L).

Step 2:

Slide Lower Sleeve Assembly onto the two Studs. Connect Lower Sleeve Assembly with two Bolts (6), Washers (72) and Cap Nuts (73).

Step 3:

Using Cap Nuts (73, 83), cover bolt heads.

Step 4:

Repeat for Left side.

CONGRATULATIONS!!!!!!

You have completed Assembly of your New Ironman 120 e Elliptical.

Console Overview

CONSOLE BUTTONS:

ENTER/RESET:

Press to begin workout or change console settings.

PULSE/RECOVERY:

Press to run Pulse program.

DOWN:

Press to set or change TIME, DISTANCE or CALORIES.

UP:

Press to set or change TIME, DISTANCE or CALORIES.

GENERAL INFORMATION:

1. The console will shut off after it detects 4 minutes no activity.
2. Battery Specifications: Two 1.5V AA Batteries
3. If display is illegible or only partial segments appear, remove batteries, wait for 15 seconds and reinstall batteries. If display is still illegible, you may need new batteries.

FUNCTIONS:

TIME:

This will count up from 00:00 up to 99:50 if you do not enter a preset time. If you do enter a preset time the console will count down from the time you set to 0:00.

SPEED:

Displays the current exercise speed on the console screen.

DISTANCE:

This will count the accumulated distance during a workout. If you enter a preset target the console will count from that distance set down to zero.

CALORIE:

This will count the accumulated calorie consumption during a workout. If you enter a preset target the console will count from the amount set down to zero.
Note: This data is an estimate only and should be used as a comparison over several exercise sessions.

PULSE:

This will display your current heart rate within 5 seconds of holding the handgrip.
Note: To obtain an accurate reading, hold the handgrips with both hands.

PULSE RECOVERY:

To monitor your improvement after each exercise the console is equipped with a special function known as RECOVERY. Before ending an exercise press the RECOVERY button. The console will stop all function displays except TIME, which will count down from 00:60 to 00:00. Once the time reaches 00:00 the console will show a Recovery Status with a grade of F1 to F6, F1 being the best and F6 being the worst. Press the PULSE RECOVERY button again to return to the main display.

Moving Instructions

CAUTION! TO REDUCE THE POSSIBILITY OF INJURY WHILE LIFTING, BEND YOUR LEGS AND KEEP YOUR BACK STRAIGHT. AS YOU LEAN THE UNIT, LIFT USING YOUR LEGS, NOT YOUR BACK.

Stand at the front of the unit and using the small handlebar, carefully tilt the machine until the weight is transferred to the transport wheels. Using extreme caution, move the unit to the desired location. To set the unit down, carefully lower unit onto rear foot tube assembly in a resting position. Do not attempt to move the unit over an uneven or rough surface.

Monitoring Your Heart Rate

Monitoring Your Heart Rate

To obtain the greatest cardiovascular benefits from your exercise workout, it is important to work within your target heart rate zone. The American Heart Association (AHA) defines this target as 60%-75% percent of your maximum heart rate.

Your maximum heart rate may be roughly calculated by subtracting your age from 220. Your maximum heart rate and aerobic capacity naturally decreases as you age. This may vary from one person to another, but use this number to find your approximate effective target zone. For example, the maximum heart rate for an average 40 year-old is 180 bpm. The target heart rate zone is 60%-75% of 180 or 108-135 bpm. See ***Fitness Safety*** below.

Before beginning your workout, check your normal resting heart rate. Place your fingers lightly against your neck, or against your wrist over the main artery. After finding your pulse, count the number of beats in 10 seconds. Multiply the number of beats by six to determine your pulse rate per minute. We recommend taking your heart rate at these times; at rest, after warming up, during your workout and two minutes into your cool down, to accurately track your progress as it relates to better fitness.

During your first several months of exercising, the AHA recommends aiming for the lower part of the target heart rate zone-60%, then gradually progressing up to 75%.

According to the AHA, exercising above 75% of your maximum heart rate may be too strenuous unless you are in top physical condition. Exercising below 60% of your maximum will result in minimal cardiovascular conditioning.

Check your pulse recovery rate – If your pulse is over 100 bpm five minutes after you stop exercising, or if it's higher than normal the morning after exercising, your exertion may have been too strenuous for your current fitness level. Rest and reduce the intensity next time.

Fitness Safety *The target heart rate chart indicates average rate zones for different ages. A variety of different factors (including medication, emotional state, temperature and other conditions) can affect the target heart rate zone that is best for you. Your physician or health care professional can help you determine the exercise intensity that is appropriate for your age and condition.*

(MHR) = Maximum Heart Rate

(THR) = Target Heart Rate

$220 - \text{age} = \text{maximum heart rate (MHZ)}$

$\text{MHZ} \times .60 = 60\% \text{ of your maximum heart rate.}$

$\text{MHZ} \times .75 = 75\% \text{ of your maximum heart rate.}$

For example, if you are 30 years old, your calculations will be as follows:

$220 - 30 = 190$

$190 \times .60 = 114 \text{ (low end or 60\% of MHZ)}$

$190 \times .75 = 142 \text{ (high end or 75\% of MHZ)}$

30 year-old (THR) Target Heart Rate would be 114-142

See Heart Rate Table (**on page 14**) for additional calculations.

EXERCISE GUIDELINES

WARNING! Before beginning this or any exercise program, you should consult your physician. This is especially important for individuals over the age of 35 or individuals with pre-existing health problems.

Warming up prepares the body for the exercise by increasing circulation, supplying more oxygen to the muscles and raising body temperature. Begin each workout with 5 to 10 minutes of stretching and light exercise to warm up. The photos on this page show several forms of basic stretching you may perform before your workouts. In order to achieve an adequate warm-up, perform each stretch three times.

TOE TOUCH STRETCH

Stand bending your knees slightly and slowly bend forward from your hips. Allow your back and shoulders to relax as you reach down toward your toes as far as possible. Hold for 15 counts, then relax. This will stretch your hamstrings, back of knees, and back.

HAMSTRING STRETCH

Sit with one leg extended. Bring the sole of the opposite foot toward you and rest it against the inner thigh of your extended leg. Reach toward your toes as far as possible. Hold for 15 counts, then relax. This will stretch your hamstrings, lower back, and groin.

CALF/ACHILLES STRETCH

With one leg in front of the other, reach forward and place your hands against a wall. Keep your back leg straight and your back foot flat on the floor. Bend your front leg, lean forward and move your hips toward the wall. Hold for 15 counts, then relax. To cause further stretching of the Achilles tendon, bend your back leg as well. This will stretch your calves, Achilles tendons, and ankles.

QUADRICEPS STRETCH

With one hand against a wall for balance, reach back and grasp one foot with your other hand. Bring your heel as close to your buttocks as possible. Hold for 15 counts, then relax. This will stretch your quadriceps and hip muscles.

INNER THIGH STRETCH

Sit with the soles of your feet together and your knees outward. Pull your feet toward your groin area as far as possible. Hold for 15 counts, then relax. This will stretch your quadriceps and hip muscles.

Warranty Information

IRONMAN FITNESS 120e LIMITED WARRANTY

Residential Warranty

Frame: Lifetime

Parts: 1 Year

Labor: None

This Limited Warranty applies in the United States and Canada to products manufactured or distributed by Ironman Fitness ("Ironman") under the Ironman brand name. The warranty period to the original purchaser is listed above in the table.

Ironman warrants that the Product you have purchased for use from Ironman or from an authorized Ironman reseller is free from defects in materials or workmanship under normal use during the warranty period. Your sales receipt, showing the date of purchase of the Product, is your proof of purchase. This warranty only extends to you, the original purchaser. It is not transferable to anyone who subsequently purchases the Product from you. It excludes expendable parts (wear items). Wear items pertain to components that might need to be replaced due to normal wear and tear. These items vary per product but will include pedal straps, seats, grips, chains, bottom bracket assemblies, pads, etc. Please contact an Ironman customer service representative for specifics on wear items. This Limited Warranty becomes VALID ONLY if the product is purchased through an Ironman Fitness authorized dealer unless otherwise authorized by Ironman Fitness in writing.

During the warranty period Ironman will repair or replace (at Ironman's option) the product if it becomes defective, malfunctions, or otherwise fails to conform with this Limited Warranty under normal use. In repairing the Product, Ironman may replace defective parts, or at the option of Ironman, serviceable used parts that are equivalent to new parts in performance. All exchanged parts and Products replaced under this warranty will become the property of Ironman. Ironman reserves the right to change manufacturers of any part to cover any existing warranty.

This warranty DOES NOT COVER shipping charges, export taxes, custom duties and taxes, or any other charges associated with transportation of the parts or Product.

To obtain warranty service, you must contact an Ironman authorized retailer, service technician or Ironman Fitness at our phone number located in this manual. Any parts determined to be defective must be returned to Ironman to obtain warranty service. You must prepay any shipping charges, export taxes, custom duties and taxes, or any other charges associated with transportation of the parts or Product. In addition, you are responsible for insuring any parts or Product shipped or returned. You assume the risk of loss during shipment. You must present Ironman with proof-of-purchase documents (including the date of purchase). Any evidence of alteration, erasing or forgery of proof-of-purchase documents will be cause to void this Limited Warranty.

This warranty does not extend to any product not purchased from Ironman or from an authorized Ironman reseller. This Limited Warranty does not extend to any Product that has been damaged or rendered defective; (a) as a result of accident, misuse, or abuse; (b) by the use of parts not manufactured or sold by Ironman; (c) by modification of the Product or normal wear and tear; (d) operation on incorrect power supplies; or (e) as a result of service by anyone other than Ironman, or an authorized Ironman warranty service provider. Product on which the serial number has been defaced or removed is not eligible for warranty service. Should any Product submitted for warranty service be found ineligible, an estimate of repair cost will be furnished and the repair will be made if requested by you upon Ironman's receipt of payment or acceptable arrangements for payment.

EXCEPT AS EXPRESSLY SET FORTH IN THIS WARRANTY, IRONMAN MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IRONMAN EXPRESSLY DISCLAIMS ALL WARRANTIES NOT STATED IN THIS LIMITED WARRANTY. ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY LAW ARE LIMITED TO THE TERMS OF THIS LIMITED WARRANTY. NEITHER IRONMAN NOR ANY OF ITS AFFILIATES SHALL BE RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSION MAY NOT APPLY TO YOU. This Limited Warranty gives you specific legal rights and you may also have other rights that may vary from state to state. This is the only expressed warranty applicable to Ironman-branded products. Ironman neither assumes nor authorizes anyone to assume for it any other express warranty.

PLEASE SEND IN THE ATTACHED WARRANTY CARD WITHIN TEN (10) DAYS OF PURCHASE TO REGISTER YOUR UNIT WITH IRONMAN FITNESS.
