Congratulations on your KiSS DP-1100

To enjoy all the new features of your new player, always make sure it has the latest firmware installed. By updating your player, new features not described in this manual can be added and some features described in this manual can be altered or removed. The number of the current firmware can be obtained by pressing the setup button on the remote. It is located on the top left corner of the screen. The latest firmware is available from our website: www.kiss-technology.com/software. Refer to the "Updating the player" section of this manual or the website's online guide for in-depth guidance.

**The latest version of this manual is also available from www.kiss-technology.com in the support section at the following address:
www.kiss-technology.com/manuals**

What's in the box

The following elements are included in the box.

KiSS DP-1100

Remote Control

Power cable

Composite Video

Batteries for the remote

SCART Cable *Provided in Europe only*

S-Video *Not provided in Europe*

Audio cable

2 Overview

Front panel

- 1 Display
- 2 CD Tray
- 3 Eject/Stop
- 4 Play/Pause

Back panel

- 1 AC Input
- 2 Coaxial Output for Amplifier
- 3 Optical Output for Amplifier
- 4 Ordinary Stereo Output
- 5 S-Video Output for TV set
- 6 Component Video for TV set
- 7 SCART for TV set

Display

- 1 Indicates the selection of the disc being played
- 2 Indicates the number or chapter being shown/played
- 3 Indicates the current function, such as play or stop
- 4 Indicates the type of media being played

Remote control

- | | |
|----------------------|-----------------------|
| 1. Standby | 16. Next Chapter |
| 2. Open/Close | 17. Unused |

| 9. Right Arrow | 24. Setup |
| 10. Down Arrow | 25. Clear Input |
| 11. Rewind | 26. Search |
| 12. Play/Pause | 27. Increase Volume |
| 13. Fast Forward | 28. Decrease Volume |
| 14. Previous Chapter | 29. Options |
| 15. Stop | |

Your player will ship with one of the following remote controls. Please check which model came with your box and identify the proper key commands based on our orientation diagrams.

If you own a universal remote control, you would program the DP-1100 and its remote with the same codes you would use for the Philips RC-5 remote control. Please check the look up table that came with your universal remote for the Philips code that works for your remote.

3 How to connect my player

We recommend connecting your player to your television using the SCART cable that comes with your player. The SCART cable is the biggest cable with the large connectors in the ends. Connect the power cable to the power connector.

If your television does not have a SCART connector, you will have to connect both audio and video with separate cables.

For connecting video, you have the following options:

- VIDEO (composite video)
- S-VIDEO (or "super-VHS", provides a better quality than VIDEO)
- COMPONENT VIDEO (provides an even better quality than the above)

After connecting the video, you will have to connect the audio. You can connect the audio to either the television or your HiFi set. The DP-1100 outputs both analog and digital audio. Analog audio is the most common format, and is supported by most devices. Digital audio is more common on high-end equipment and surround amplifiers.

For connecting the audio, you have the following options:

- Connect ANALOG AUDIO OUT to your television using phono (RCA) jacks
- Connect ANALOG AUDIO OUT to your HiFi stereo using phono (RCA) jacks
- Connect COAXIAL or OPTICAL digital audio to your HiFi stereo

Video connection

Connecting your KiSS DP-1100 DVD player to your TV can be done using any of the cables below. (Only one cable can be connected at a time)

- 1 RGB via SCART
- 2 S-Video (the cable is an extra accessory)
- 3 Composite via SCART
- 4 Composite Video
- 5 Component SCART (the cable is an extra accessory)

KiSS DP-1100

Audio connection

Connecting your KiSS DP-1100 DVD player to your amplifier can be done using any of the cables below. (Only one cable can be connected at a time)

- 1 Analog Stereo
- 2 Coaxial Output (the cable is an extra accessory)
- 3 Optical Output (the cable is an extra accessory)

KiSS DP-1100

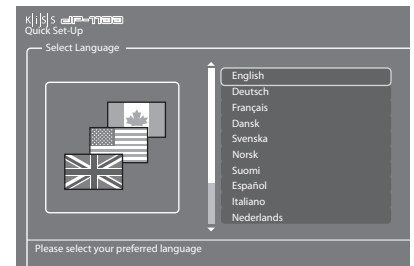

- Extra information is also available from www.kiss-technology.com

4 Quick setup

If your DVD Player is correctly connected, the language selection menu will appear.

1. Select Language

Select your preferred language

2. Video Setup

Specify how your DVD Player is connected to your TV or monitor.

3. Display Format

Select between standard TV type (4:3) or wide screen TV type (16:9).

4. Audio Setup

Select which audio output is used on your DVD Player. The default Audio selection should be stereo unless your player is connected to a digital amplifier.

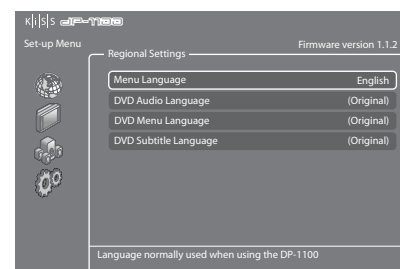

- If this menu does not appear when you start the DVD Player, re-check the cable connections.
- You can always go back and start again if you happen to do something wrong, Just press on the SETUP button of your remote, go to MISC. SETTINGS and select QUICK SETUP.

5 Advanced setup

Accessing the advanced setup menu by pressing SETUP on the remote control will enable the user to edit and modify the settings of the DVD Player as follows:

Language settings

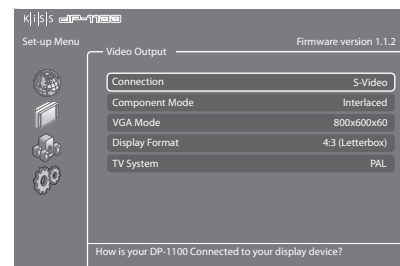

The first menu is the Language settings menu. Here you select the language you wish to use for the menus, that will appear on the screen, and your preferred language when playing a DVD film – for subtitles, speech and menus (they will only be used if the film supports the language).

Video output

The DP-1100 may be connected either through SCART, S-Video, Component Video or SCART VGA. You should select the output used to connect your television. If you have connected your television with either Component Video or SCART VGA, you will also be able to choose a resolution matching your television.

This menu also enable you to choose your display format between 16:9 Widescreen, 4:3 Letterbox or Pan & Scan and your Television System between PAL and NTSC.

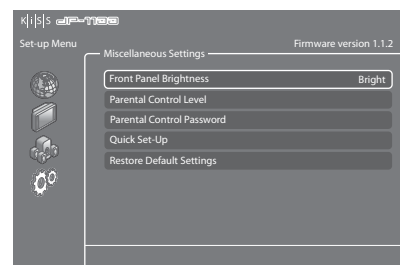

Audio output

This menu enables you to specify the audio connection used.

Misc. settings

The misc. settings available in the advanced setup will enable you to set many different options, such as PARENTAL CONTROL, or FRONT PANEL BRIGHTNESS. To set PARENTAL CONTROL for the first time, select first PARENTAL CONTROL PASSWORD, enter a 4 digit number, then repeat it to confirm it. Then, select PARENTAL CONTROL LEVEL, enter your 4 digit password. You can now choose between: OFF (No control), G (Suitable for general audiences), PG (Parental guidance suggested), PG13 (Parental guidance suggested, unsuitable for children under 13), R (Restricted, unsuitable for young viewers), NC17 (Adult content, unsuitable for children under 17). You can also RESTORE DEFAULT SETTINGS of your player or choose to go back to the QUICK SETUP menu.

6 Playing media

This product supports the following media: DVD, MPEG-4, DivX, Nero Digital, XviD, Audio CDs, MP3, Ogg Vorbis and Jpeg file formats.

Playing DVDs

Press the EJECT button on the front of the player or on the remote to open the drawer. Place the DVD in it to start it automatically. After a few seconds the DVD menu will appear. You can navigate it using the arrows, then press ENTER to access the selected menu. When a DVD is already in place in the DP-1100, you can start it by pressing MENU on your remote, then go to DISC and select PLAY DISC. EJECT is also available from this section. Another way of starting a DVD when there is already one in the tray is to press LIST to get all the options available. Just select PLAY DISC.

Playing MPEG-4, DivX, Nero Digital, XviD

Press EJECT to open the drawer and place a CD with video content in. Press EJECT again to close the drawer. After a few seconds, the menu DISC will appear on your screen. Select VIDEO FILES to view the list of video content from the CD, choose the one you want to watch and press ENTER. You can, at anytime during playback, choose to REPEAT the file, SHUFFLE the CD content or do a TIME SEARCH on the video currently watched by pressing LIST on your remote and ENTER to select the chosen option. To eject the CD, press STOP to go out of the menu and come back to the DISC section. Choose EJECT.

Playing Audio CDs, MP3, Ogg Vorbis

To play and MP3 CD, press EJECT to open the drawer and place a CD with the music content in. Press EJECT again to close the drawer. After a few seconds, the menu DISC will appear on your screen. Select AUDIO FILES to view the list of audio files or folders available from the CD, choose the one you want to listen to and press ENTER. You can, at anytime during playback, choose to REPEAT the file or SHUFFLE the CD content by pressing LIST on your remote and ENTER to select the chosen option. To eject the CD, press STOP to go out of the menu and come back to the DISC section. Choose EJECT.

Audio CDs start to play automatically when loaded. If the player is connected to the Internet, the DP-1100 will search for the CD track names and will display them. When you are done, just press EJECT on the remote to remove the CD from the drive.

Viewing Jpeg pictures

Press EJECT to open the drawer and place a CD with picture content in. Press EJECT again to close the drawer. After a few seconds, the menu DISC will appear on your screen. Select PICTURE FILES to view the list of images on the CD, choose the one you want to watch and press ENTER. Use the NEXT/PREVIOUS arrow to view other pictures from the CD. You can enlarge the picture by pressing ZOOM on your remote. To eject the CD, press STOP to go out of the menu and come back to the DISC section. Choose EJECT.

7 Advanced functions

Some special functions and shortcuts to some of the main functions have been given to some of the remote buttons. Find below a list of them and their use.

MENU

Lists the files available for playback on a CD

TITLE MENU

Goes to the root menu in DVD playback

AUDIO

Change audio track on DVD playback

SUBPIC/SUBTITLE

Changes the subtitles in DVD playback

ANGLE

If the film supports more than one camera angle, you can switch from one angle to another by pressing the (ANGLE) button.

ZOOM

Zoom in or out on pictures

REPEAT

As the film is playing, press the (REPEAT) button and three options will appear on the screen.

SETUP

Access the advanced setup section of the Player

CLEAR/ERASE

Use this function to delete all previous inputs

SRCH

Use (SRCH) to find a specific spot on the disk.
Time: Specify time, minutes and seconds
Title/Chapter: Find the title or the chapter

Your player will ship with one of the following remote controls. Please check which model came with your box and identify the proper key commands based on our orientation diagrams.

OPTIONS

Shows an on-screen list of options available while playing a CD/DVD

VOLUME

Toggle the volume up or down.

- When using ZOOM, press the arrows from the remote to move around the enlarged screen display.

8 Updating the player

KiSS is always keen to update its products to make sure that the user takes advantage of new features or bug fixes. Updates are regularly posted on KiSS' website in the support section.

Getting the firmware

KiSS newest firmwares are available from www.kiss-technology.com website under "support": www.kiss-technology.com/software. You can easily verify the firmware version running on your player by pressing "Setup". The number is situated on the top right corner of the screen. If the firmware version from the Internet is newer, you should download it. Make sure you have selected the firmware for the right player and the correct TV system. (PAL: Europe, Asia; NTSC: USA, Japan)

Burning the CD on PC

Once downloaded, the firmware file should decompress. Put a blank disc in your PC's drive. KiSS recommends Nero Burning Rom v.6 to burn the firmware CD. Open Nero and select "Disc Image". Choose "All files" and select the firmware file. Choose the lowest speed allowed by your burner, and press "next". The disc starts burning.

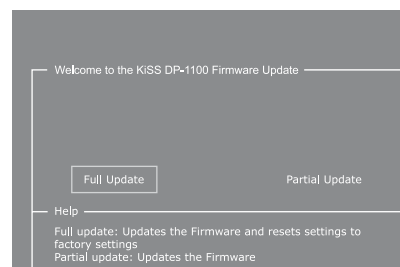

Burning the CD on Mac

Once downloaded, the firmware file should decompress and open. Put a blank disc in your Mac's drive. KiSS recommends Roxio Toast to burn the firmware CD. Open Toast and select "Disc Image". Select the firmware file (file end in .iso). Press "Record" and select the lowest burning speed allowed by your burner. The disc starts burning.

Installing the firmware

Turn the player on, and insert the firmware CD. Close the drive and restart the player. The firmware CD will boot. Wait until the KiSS background appears on your TV. Choose between FULL UPDATE (updates everything) and PARTIAL UPDATE (Keeps your default settings). KiSS recommends a full update. The CD will be ejected when the update is finished. Remove it, and restart the player. The player is now updated and will start showing the Quick Setup.

- A complete "How to burn" and "How to install" guide is available from www.kiss-technology.com under "Support" and "Online guides": www.kiss-technology.com/support
- PC: Nero Burning Rom is available from: <http://www.nero.com>
- Mac: Roxio Toast is available from: <http://www.roxio.com>

9 Support

Further information and assistance is available at KiSS Technology's website under End User/Support/After-sales for DVD Player.
Address: www.kiss-technology.com

Resetting

To reset the settings of the DP-1100, press the following buttons on the remote control: "Open", "Clear", "1", "2", "3". KiSS Technology A/S reserves the right to change all settings and specifications without notice.

Important safety information

- Read these instructions carefully and pay attention to all warnings and guidelines.
- Do not overload electrical sockets or extension cables. Overloading can result in fire or electric shock.
- Never insert objects into the DVD player's cabinet door. They might come into contact with dangerous voltage points or short-circuit components, which can cause fire or electric shock.
- Do not spill liquids on the DVD player.
- If the DVD Player does not function normally, or if it emits unusual sounds or odours, pull out the plug immediately and contact an authorised technician.
- Do not attempt to service the DVD player yourself. If you open or dismantle the shielding, you expose yourself to dangerous voltage and other hazards. All maintenance must be carried out by qualified service technicians.

Environmental information

- The system is made of recyclable materials which can be reused if disassembled by authorised personnel.
- Please follow local regulations for the disposal of packaging materials, used batteries and discarded units.

Copyright

This product contains copyright technology which is protected pursuant to the patents that are the property of Macrovision Corporation and other copyright holders. Any use of this copyright technology must be approved by Macrovision Corporation. The technology is intended for use in the home unless otherwise approved by Macrovision Corporation. Breakdown and disassembly are prohibited.

Made under license from Dolby Laboratories. "Dolby" and the double "D" symbol are trademarks of Dolby Laboratories. "DTS" and "DTS Digital Out" are trademarks of Digital Theater Systems, Inc.

Warranty certificate

KiSS provides a twenty-four (24) month warranty from the date of purchase against material and manufacturing defects. For defects covered by the warranty, the product must be returned to the dealer that sold the product.

Terms of Warranty

1. The warranty is only valid on presentation of the original sales receipt, and if the serial number on the product is fully legible.
2. The obligations of KiSS are limited either to repair or replacement of defective components. The repair or replacement of defective components is based on an assessment by KiSS. Exchange is only possible if the repair cannot be performed.
3. Warranty repairs must be carried out by an authorised KiSS dealer, or an authorised service centre. No remuneration is provided for repairs performed by unauthorised workshops. Any repairs or damage to the

product caused by unauthorised intervention are not covered by this warranty.

4. This product will not be considered as being defective, either in materials or in manufacture, if adaptation to national, local, technical or safety-related requirements is required in countries other than the specific country for which the product was originally designed and manufactured.
5. This warranty does not cover these types of adaptations, and no remuneration will be offered for these types of adaptations or for any consequential damages. The warranty does not cover the following:
 - a) Periodic inspection, maintenance and repair or replacement of parts resulting from normal wear.
 - b) Costs connected to transport, disassembly or installation of the product.
 - c) Misuse, including use for purposes other than was intended, or faulty installation.
 - d) Damage caused by lightning, water, fire, natural catastrophes, war, insurrection, incorrect line voltage, insufficient ventilation or other causes outside the control of KiSS.
6. This warranty applies to every legal owner of the product during the warranty period.

Packaging

If possible, use the original packing material for any shipping. Otherwise, repack the DP-1100 using:

- A reinforced cardboard box, strong enough to carry the weight of the product.
- At least 6 cm / 2.36 inches of shock-absorbing material around the product.
- Non-abrasive, dust-free material for the other parts.
- Non-abrasive wrapping for the product. (Dust and dirt cover)
- Repack the product in such a way as to ensure that it cannot shift in the box during transport.
- No other alternative will be accepted

Information we must receive before repairing the product:

Model name: KiSS DVD Player DP-1100

Serial no.:

Fault description (www.kiss-technology.com/rma):

Copy of the invoice or sales receipt

The dealer's name, address and phone no.

Personal information: Name, address, post code/city, phone no. and e-mail address (optional).

Your signature

Dealer's stamp and signature

Date

For questions or problems with your product, KiSS provides an international customer service. Telephone calls or e-mails can be addressed in English, French, German, Spanish, Italian, Danish, Swedish and Norwegian

GNU General Public License

english

KiSS Technology is using a part of an open source code for its software and in appliance with the GNU General Public License, users are free to download the base source code of the KiSS DVD Players. This rule guarantee people's freedom to share and change free software. This General Public License applies to most of the Free Software Foundation's code and to any other program whose authors commit by using it.

The part of the souce code freely available can be downloaded from KiSS web site at the following address: www.kiss-technology.com/gpl

français

KiSS Technology utilise une partie du code source ouvert pour son logiciel et, en application de la licence publique générale de GNU (General Public License), autorise les utilisateurs à télécharger le code source de base des lecteurs de DVD de KiSS. Cette convention garantit la liberté des personnes à partager et à modifier le logiciel libre. La GNU GPL s'applique à la majeure partie du code de la Free Software Foundation et à tout autre programme dont les auteurs ont adhéré à ce principe en l'utilisant.

La partie du code source disponible gratuitement peut être téléchargée à partir du site Web de KiSS, à l'adresse : www.kiss-technology.com/gpl

deutsch

KiSS Technology verwendet einen Teil eines Open-Source-Codes für seine Software und bei Geräten mit der GNU General Public Lizenz. Benutzer können den Basis-Source-Code des KiSS DVD-Players herunterladen. Dies bietet den Menschen die Freiheit, kostenlose Software gemeinsam zu nutzen und zu tauschen. Diese General Public License gilt für die meisten Codes der Free Software Foundation und alle anderen Programme, deren Autoren sie verwenden.

Der kostenlos verfügbare Teil des Source-Codes kann unter der folgenden Adresse von der KiSS-Website heruntergeladen werden: www.kiss-technology.com/gpl

dansk

KiSS Technology anvender en del af en åben kildekode til softwaren og i henhold til bestemmelserne for generel offentlig licens (GNU) kan brugerne frit overføre basiskildekoden til KiSS dvd-afspillere. Denne regel sikrer muligheden for frit at dele og ændre gratis software. Denne generelle offentlige licens gælder for det meste af Free Software Foundations kode samt andre programmer, hvor programmørerne indvilliger heri ved at anvende denne kode.

Den del af kildekoden, der er gratis tilgængelig, kan hentes fra KiSS' websted på følgende adresse: www.kiss-technology.com/gpl

nederlands

KiSS Technology maakt gedeeltelijk gebruik van een open broncode. In overeenstemming met de GNU Algemene Publieke Licentie staat het gebruikers vrij de basisbroncode van de KiSS DVD-spelers te downloaden. Deze benadering garandeert gebruikers de vrijheid om gratis software uit te wisselen en aan te passen. De Algemene Publieke Licentie is van toepassing op de meeste code van de Free Software Foundation en op alle andere programma's waarvan de auteurs deze licentie hanteren.

Het gedeelte van de broncode dat vrij beschikbaar is, kan vanaf de KiSS-website worden gedownload op het volgende adres: www.kiss-technology.com/gpl

español

KiSS Technology está utilizando una parte de un código de fuente libre para su software y de conformidad con la Licencia Pública GNU, los usuarios pueden descargarse el código de fuente base de los reproductores de DVD de KiSS. Esta norma garantiza la libertad de las personas para compartir y cambiar software gratuito. Esta Licencia Pública se aplica a la mayoría de los códigos de la Fundación para el Software Libre y a cualquier otro programa cuyos autores asignen mediante su uso.

La parte del código fuente disponible gratuitamente puede descargarse del sitio web de KiSS en la siguiente dirección: www.kiss-technology.com/gpl

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place - Suite 330, Boston, MA 02111-1307, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

PREAMBLE

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy

an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software

Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS
