

KitchenAid® Wine Cellar

PRODUCT MODEL NUMBER

KUWO24RS
KUWO24LS

Electrical: A 115-volt, 60-Hz, AC-only 15- or 20-amp fused, grounded electrical supply is required. A time-delay fuse or circuit breaker and separate circuit is recommended.

OVERALL DIMENSIONS

To ensure proper ventilation for your wine cellar, allow for a 1/4" (6.35 mm) space on each side and at the top. When installing your wine cellar next to a fixed wall, leave 2-1/2" (6.35 cm) minimum clearance on each side to allow for the door to swing open.

NOTE: It is recommended that you do not install the wine cellar near an oven, radiator, or other heat source. Do not install in a location where the temperature will fall below 55°F (13°C). For best performance, do not install the wine cellar behind a cabinet door or block the base grille.
