Get the Most out of Sprint Direct Connect

Sprint® Direct Connect® on your Sprint phone offers instant, two-way "walkie-talkie-style" communication between you and your family, friends, and co-workers, all at the click of a button.

Your Direct Connect Number

Your Sprint phone allows you two different options for your Direct Connect number:

• Separate numbers (**DC Onl**y) – Your Direct Connect number is a unique number (not your wireless number). It is made up of three sets of digits separated by asterisks (for example, 444*5555*111).

• A single number (**Mobile+DC**) – Your Direct Connect number is the same as your wireless number (for example, 555-555-1234).

*Important: When the Direct Connect feature is active, your phone's data services are enabled and the Net Guard feature is disabled (**Settings** > **Others** > **Data Settings** > **Data** and **Net Guard**).*

Display Your Direct Connect Number

▶ Press $\boxed{\text{MENU}\atop\text{OK}}$ > Settings > Phone Info > Phone#/User ID.

Dial Direct Connect Numbers

- If the person you are calling has a separate number for Direct Connect, make sure you dial any asterisks (*) in the number. If you are saving the number in your Contacts, choose **DC Only** for the phone type.

- If the person you are calling has a single number for both voice calls and for Direct Connect, use that ten-digit phone number to make Direct Connect calls. You do not need to add any asterisks (*) to the number. If you are saving this number in your contacts, choose **Mobile+DC** for the phone type.

Tip: Users with a Nextel phone must always add asterisks (*) between sets of numbers to dial Direct Connect numbers. If you use a single number, make sure to tell your contacts with Nextel phones to dial the ten-digit number using asterisks (*) in place of hyphens (for example, 555*555*1234).

Make and Answer Direct Connect Calls

Make a Direct Connect Call

1. Use your keypad to enter a Direct Connect number.

   • The Direct Connect number may be the ten-digit wireless phone number of the person you are calling (**Mobile+DC**).

   – or –

   If calling a Nextel customer, the Direct Connect number may have three parts with an asterisk between each part (for example: 444*5555*111). When dialing or saving this type of number, always include the asterisks (⭐ᴺⁱᶠᵀ).

2. Press and release the Direct Connect button on the side of your phone.

   • Pressing and releasing the Direct Connect button "pings" the recipient. The recipient's phone emits an incoming tone and displays your name or number. If available, he or she can choose to respond and begin the conversation.

Creating a Group Entry

You can create a group by assigning personal Contacts entries as members and then naming the new group. Each group entry can contain up to 40 members for sending messages, or up to 20 members for making Direct Connect group calls.

1. In standby mode, press **CONTACTS** (right softkey) > **Add New...** > **New Group**.

2. Read the message and press **START** (left softkey).

3. Scroll through the list and press ᴹᴱⁿᵘ/ᴏᴋ for each selection. A check mark will appear in the box next to the selected entry.

4. When you have selected all the entries you want to add, press **CONTINUE** (left softkey).

5. Enter a group name and press ᴹᴱⁿᵘ/ᴏᴋ > **SAVE** (left softkey).

To send a Call Alert:

1. Enter the Direct Connect number of the person you would like to alert or select a number from History or Contacts.

2. Press **MSG/ALERT** (left softkey) and select **Call Alert**. (A message will appear).
