Bluetooth® **Pairing**

Keep your hands free and avoid the tangle of wires with *Bluetooth* wireless technology. Send contacts and audio to other devices, connect to accessories, and more!

1. Before you begin, set your *Bluetooth* accessory into pairing mode.*
2. From standby mode and with the flip open, press **up** on the **Directional Key** to access the *Bluetooth* menu.
3. Press OK to select **Paired Devices (1)**.
4. Press the **Left Soft Key** for **Search**. If *Bluetooth* power is off, press OK to turn it on.
5. Press OK for **New Search (1)**.
6. Select the device and press OK for **Pair**, and then press OK for **Yes (1)** to connect to the device.

Refer to your Bluetooth *device's user manual for information about initiating pairing mode and the passcode if asked (typically 0000).*
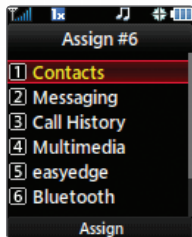

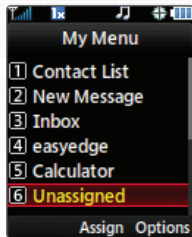

Note: *Bluetooth* accessories sold separately.

Using My Menu

Keep your favorite contacts, applications, categories, and more close at hand! Create up to 12 menu shortcuts and access them from the My Menu screen.
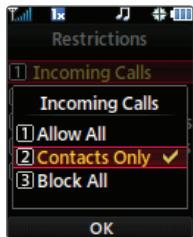

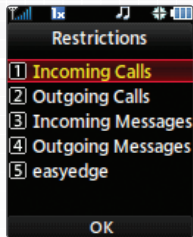

1. From standby mode and with the flip open, press **down** on the **Directional Key** to access My Menu.
2. Use the **Directional Key** to select an unassigned slot, and then press 🆗 for **Assign**.
3. Locate and highlight the item you want, and then press 🆗 to assign it to My Menu.
4. To make changes to My Menu, press the **Right Soft Key** for **Options**.

Restricting Calls/Messaging

Want a little privacy, or want to let someone borrow your phone—with limits? With UX220, you can easily restrict incoming or outgoing calls and messages.

1. From standby mode and with the flip open, press OK, select **Settings (9)**, and then select **Security (3)**.
2. Enter the lock code (usually the last four digits of the phone number) and press OK.
3. Select **Restrictions (2)**, enter the lock code again, and press OK.
4. Use the **Directional Key** to select the category you wish to restrict, and then press OK.
5. Select the level of restriction you wish, and then press OK.
