

# Conventional Zone Module

## GWM-55000-845

- **ADM loop technology with Apollo/Discovery protocol**
- **Integration of conventional detectors into the ADM loop**
- **Setting of module address by means of address switch**
- **Integrated dual-isolator**

### Description

The addressable Conventional Zone Module GWM-55000-845 serves for the integration of conventional detectors into the bidirectional communication on the ADM loop with Apollo/Discovery protocol.

The address is easily selected by means of a built-in DIL switch. The module has an integrated dual-isolator and is fitted into a plastic case.

### Specifications

|                      |   |
|----------------------|---|
| Operating voltage    | Supply through loop voltage                           |
| Current consumption  | 4mA (quiescent)                                       |
| Ambient temperature  | -20°C to +70°C  |
| Dimensions L × W × H | 150 × 90 × 48 (mm)                                    |
| Colour               | white   |
| Weight               | 230g  |
| Approval             | VdS G201094   |
| Order number         | 249075  |
| Order name           | Conventional Zone Module/Anal./XP95/Apo GWM-55000-845 |
