

**Specify Part  
Number****LBB 4106/00D**

The Extension Power Supply unit is used in combination with a CCU to supply power to a maximum of 180 additional units. The unit can be installed at any convenient point in the system cabling due to its built-in trunk-line splitter. It is connected using loop-through cabling. The unit switches on automatically when the CCU is switched on. All outputs are protected against short circuit. It can be used freestanding on a table-top or mounted in a 19 in. rack.

**Extension Power Supply Features**

- Powers up to 180 additional contribution units (with PCF of 1)
- Remote mains on/off
- Easy connection to DCN
