- The software disk contains the installer software program, manual, registration form
- iShockII

# **Hardware Basics**

### Action Buttons/ Function Buttons/ Top mounted buttons

These buttons are used as movement or action controls and are fully programmable.

#### Thumbsticks

Similar to joysticks, the thumbsticks are used as special movement or action controls.

#### **Directional Button**

This allows you to control the direction of movement or views in applications that support this feature.

# Macally USB iShockII Installation for OS X v10.2

Use the following procedure to install the iShockIIXDriver. You must install the program onto your hard disk, you cannot run the Macally USB iShock II Manager from the CD.

The installation disk is compatible with all Macintosh computers.

To install the Macally iShock II Manager :

- 1. Insert the Macally Driver CD.
- 2. Click "Mac OS X" Folder, double click "iShockII Driver OS X" folder.
- 3. Double click the "iShockXDriver.dmg" and "iShockXDriverDisk" icon will show up on your desktop.
- 4. Double click the "iShockXDriverDisk" icon on your desktop.(Fig 1.1)
- 5. The following windows will pop up (Fig 1.2), double click "iShockXDriver.pkg" to start installation.

Then follow the step-by-step on screen procedure to finish software installation. \*Note: If your computer have previous iShock driver installed, the "Install" button will show as "Upgrade" button.

After the installation, please restart the computer.

For first time running, iShockXManager will do the following:

1. Launch the iShockX Manager.

2. Add the iShockXDriver to current user Login Items preference. After that, everytime the user login or logout (either by login window or automatically), the iShockXDriver will be launched automatically.

If user found that the driver is not running automatically everytime you logged-in, please run the iShockXManager again.

## Using Macally iShock II Manager

Go to "Applications", select "iShockXManager", "iShockXManager" icon will show up, double click the icon (Fig2.1)

(Fig 2.1)

Macally iShock II Manager window will show up. Click "Profiles" tab to add a new game setting. (Fig 2.2)
