OFFICEBRIDGE I-FAX

The OfficeBridge I-Fax (formerly known as the IF-300) digital connectivity application maximizes the Muratec F-320 and F-360 fax-based MFPs, adding multiple productivity enhancing features. With OfficeBridge I-Fax, users can take advantage of scan to e-mail, Internet fax, desktop fax – and manage the functions of the MPF from their PC desktop.

OfficeBridge I-Fax capabilities include:
- **Scan to e-mail**
- **Desktop faxing**
- **Internet faxing**

Ease of use
Navigating and utilizing OfficeBridge I-Fax is as easy as using the most basic PC applications.

Affordability
OfficeBridge I-Fax is reasonably priced to give users maximum functionality with little upfront cost. In addition, features such as Internet faxing can dramatically reduce operating costs.

Increased productivity
OfficeBridge I-Fax simplifies the way users work, increasing productivity and efficiency.
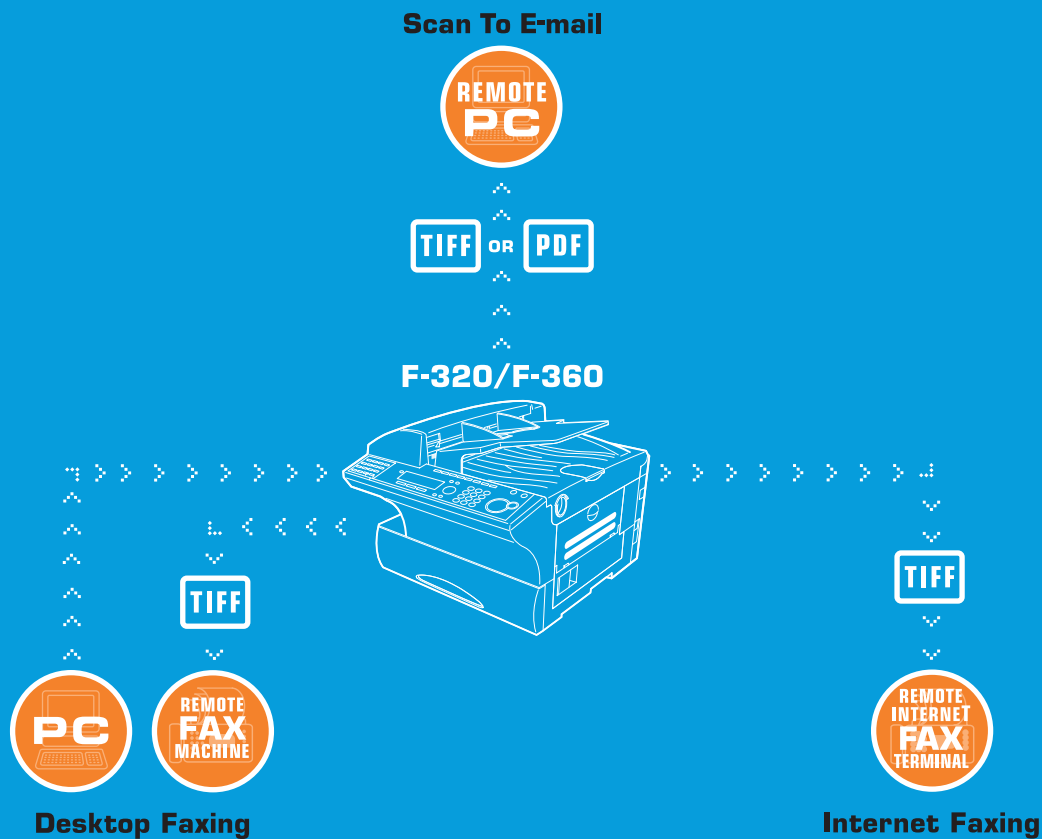

True multifunction
OfficeBridge I-Fax maximizes the performance of the Muratec F-320 and F-360, giving users the ability to perform multiple tasks at a single, convenient location.

F-320 and F-360

OFFICEBRIDGE I-FAX FUNCTIONS

Scan to e-mail

- Send important documents from the fax machine to a remote e-mail inbox as TIFF, TIFF-S or PDF files
- Documents sent from the OfficeBridge I-Fax can be received and opened by remote users via standard e-mail software.
- Receive and print incoming e-mail automatically, or suppress printing and delete messages from the server

Desktop faxing

- Utilize the OfficeBridge Tiffmaker feature to send documents created on your PC directly to a remote fax machine

Internet faxing

- Send documents from the MFP to a remote Internet fax unit, dramatically reducing long-distance costs
- When an Internet fax is received, the MFP can print the document, route it to a personal or public inbox, or suppress print out and store the document in a separate file (Supports HIPPA compliance)
