

## A fax, copier and printer in every department? Yes.

Every working day, more and more otherwise productive minutes slip away as your employees wait for the copier, or wait for the fax. But you can't afford to give every department its own copier and fax. Or ... can you?

As a matter of fact, now you can. Because, now, there's the Muratec MFX-2000 - a superb fax and digital copier. Its cover ("platen top") opens to let you easily fax or copy from books, ledgers or other three-dimensional objects. And, still better yet, it optionally also becomes a bigb-quality PC or LAN<sup>†</sup> printer.

SPECIFICATIONS	Туре	High-speed facsimile transmitter and re	ceiver for home and office use
DILONIOATIONS	Phone Line	Normal Public Switched Telephone (PS	TN) line or equivalent
	Modem		7,200, 4,800 and 2,400 bps per ITU-T, v.29 and v.27 ter.
	Compatability	ITU-T Group 3	
	Transmission Speed	6 seconds per page*	
	Copier Type	Digital; scan-once/print-many	
	First-Copy-Out Time	9.6 seconds	
	Feeder Capacity	(20-pound bond) 50 letter-sized sheets	
	Resolution	(in lpi, horizontal × vertical): Normal, 203	imes 98; fine, 203 $ imes$ 196; superfine, 203 $ imes$ 392;
		Muratec-proprietary, 305 x 293	
	Grayscale	64-level	
	Printing Width	11.7" (ADF, letter-sized sheets)	
	Scanning Width	11.6" (ADF, letter-sized sheets)	
	Scanning Method	Flatbed CCD	
	Printing Method	Dry, electrophotographic (laser) proces	S
	Consumables Yield	Drum cartridge, 21,000-30,000 pages; tor	ner cartridge, 5,500-7,000 pages.**
	Recording Paper	Standard: two 300-sheet cassettes, lette	er-, legal- or tabloid-sized sheets; optional third and fourth
	Capacity	300-sheet cassettes provide total possib	ole capacity of 1,200 sheets
	Acceptable	(width x height): ADF, single sheet - 12.0"	x 35.4″ maximum, 4.7″ x 3.9″ minimum; ADF, two or more sheets –
	Document Size	11.7" x 16.5" maximum, 4.7" x 3.9" minimu	ım; <i>platen-top</i> , 11.7" x 16.5" maximum, 4.7" x 3.9" minimum
	Weight	111.1 pounds	
	Dimensions	(width $\times$ depth $\times$ height): 22.9" $\times$ 24.2" $\times$ 2	0.6″
	Power	120v ± 10%, 50-60 Hz	
FEATURES	High-volume plain-page	er printing of fax messages and copies	ITU-T superfine transmission, Error Correction Mode (ECM)
FEATURES		h letter, legal or $11'' \times 17''$ sizes	Automatic reduction of oversized fax documents
		00 sheets (two 300-sheet cassettes)	Smoothing and 64-level grayscale
		tional cassettes to boost capacity to	
	either 900 or 1,200 she	ets	Security and control features

Muratec MFX-2000

The MFX-2000 has 64-level grayscale. So, even if it's a photo or some shaded art that you want to fax or copy, the crystalclear results won't leave you stone-faced.

It's legitimate to call just about any plain-paper fax machine a "fax/copier." But now, with the coming of the platen-top fax/copier, the "copier" side of that name gains an impressive new meaning. Now, it's easy to fax or copy something that doesn't fit into an automatic document feeder. Now, there's the Muratec MFX-2000.

But the MFX-2000 is more than "just" a platen-top fax/copier. Boasting a buge expandable memory, 1.4-second quick scan, 15-ppm laser print engine, bigh-reliability digital copying with sorting, 50%-200% copy reduction, 9.6-second first-copy-out time, a 14.4 Kbps fax modem, 70 delayed fax commands, paper capacity up to 1,200 sheets, true  $11'' \times 17''$  paper handling, 50-sheet document feeder and optional PC and LAN<sup> $\dagger$ </sup> printing, the Muratec MFX-2000 is an **outstanding** platen-top fax/copier.

Faxing something besides a flat sheet say, a page from a book or newspaper once meant making a copy first and then faxing the copy. But, with the MFX-2000, just lift the cover and place your original on the glass, as on a regular copier. We also include a 50-page automatic document feeder for those times when flat is still OK.

The large graphical display makes it easier to use even the most sophisticated features on your MFX-2000.

The MFX-2000's standard printing paper capacity is 600 sheets – letter- or legal-sized, or even  $11'' \times 17''$ . Options let you boost capacity to 1,200 sheets and even add a spacesaving stand.

As great as it is right out of the box, the Muratec MFX-2000 can get even better. Because you can add higher-performance upgrades. *The second-line option, which includes a second fax modem* (and this one works at an even faster 33.6 Kbps), transforms your MFX-2000 into two faxes in one. Thus, your machine can actually conduct two communications at the same time, shattering your office's fax bottlenecks and boosting productivity. The MFX-2000's paper capacity easily grows from the standard

600 sheets to 900 or 1,200 sheets. Each 300-sheet cassette, standard or optional, holds letter-sized, legal-sized or  $11'' \times 17''$  paper. Load different sizes and the MFX-2000 prints from the correct cassette automatically, based on the original.

You can upgrade the machine's memory from the standard 238-page capacity to a mammoth 558-page capacity. The more memory your MFX-2000 bas, the more documents it can save for fast memory transmission, out-of-paper reception and more.

And the PC/LAN<sup> $\dagger$ </sup> printing option adds even more "multi" to this Muratec multifunctional machine. This includes a standard parallel port and Windows<sup>®</sup>-compatible GDI driver for easy setup.

A simple upgrade transforms your MFX-2000 into not only a great fax and copier but also a highquality PC and LAN<sup>†</sup> printer for use with Microsoft® Windows®
