FCC RADIATION NORM:

FCC

This equipment has been tested and found to comply with limits for Class B digital device pursuant to Part 15 of Federal Communications Commission (FCC) rules.

FCC Compliance Statement

These limits are designed to provide reasonable protection against frequency interference in residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed or used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in television reception, which can be determined by turning the equipment off and on. The user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected to.

CAUTION!

The Federal Communications Commission warns the user that changes or modifications to the unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

PACKAGE CONTENTS:

SAFETY INSTRUCTION:**1. Use proper power source.**

Do not use this product with a power source that applies more than specified voltage (100-240V AC).

2. Never insert any metal into the monitor or any openings.

Putting metal into the monitor case can cause danger of electric shock.

3. Do not operate in wet or dusty area.

Avoid places like a damp basement or dusty hallway.

4. Do not expose this product to rain or use near water.

If this product accidentally gets wet, unplug it and contact technical support immediately.

5. Keep product surfaces clean and dry.

To clean the outside case of the monitor, use a lightly dampened cloth (no solvents). Do not use any cleaning solutions or cleaner.

6. Provide proper ventilation.

Use in well ventilated area to avoid overheating of the device.

7. Do not attempt to remove the top cover.

If any abnormal operation is observed, unplug it immediately and contact technical support.

Warning: You may be subjected to severe electrical shock if you remove the cover of the device.

8. Handle box carefully.

If you accidentally drop your monitor on any hard surface, it may cause a malfunction. If the device doesn't work properly due to physical damage, contact an authorized dealer for repair or exchange.

9. Make sure there is good air circulation around the unit.

This device generates heat during operation. Do not block air holes/vents that reduce the generated heat while the system is running. Install or place this product in a well ventilated area.
