These limits were established by independent You are advised to switch off the telephone from time to time to optimise its incorporate flashing lights on the phones. All persons should discontinue use and Batteries must be disposed of in accordance with locally applicable environmental erroups of experts on the basis of regular and detailed scientific assessments. They

> The exposure standard for mobile phones is determined by a measurement unit known as the Specific Absorption Rate or "SAR". The SAR limit is set by international requirements or by the Council of the European Union at 2 watts/kilogram (W/kg) averaged over 10 grams of body tissue. The tests used to determine SAR levels were carried out on the basis of standard usage modes with the phones transmitting at their maximum power level over the entire range of frequency bands.

> Although the SAR was established at the highest certified level the actual SAR level for the mobile phone during use is generally much lower than the maximum values. In fact, since mobile phones are designed to operate at many different power levels, they only use the minimum level of power required to provide a connection to the network. In theory, the closer you are to a base station antenna, the lower the power level required by the mobile phone.

- The ICNIRP requirements are applicable in the following regions: Central America (except Mexico) South America North and South Africa, Pacific Asia (except Korea), Australia
- The European recommendation (1999/519/EC) is applicable in the following regions: Furone Israel

Please note that you must respect the laws and regulations in force in your Mains powered chargers will operate within the temperature range of 0 °C to 40 compliance against the standard is 1.0W/kg.While there may be differences between the SAR levels on various phones and at various positions, they all meet the relevan

### Protection against theft (1)

Your telephone is identified by an IMEI (phone serial number) shown on the packaging label and in the product's memory. We recommend that you note the number the first time you use your telephone by entering \* # 0 6 # and keep it in a safe place. It may be requested by the police or your operator if your telephone is stolen. This number allows your mobile telephone to be blocked preventing a third person from using it, even with a different SIM card.

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your telephone or specific operator services.

(1) Contact your network operator for service availability

# Telephone warranty ......

Congratulations on choosing this mobile phone - we hope that you will be completely satisfied with it

Your phone is guaranteed against any deviation from technical specifications for a period of twelve (12) months from the date specified on your original invoice, subject to any other specific 5) connecting to or integrating into the phone any equipment not provisions (1)

The warranty terms defined in the manual also apply to the battery and accessories sold with the phone but for a period of six (6) months
6) any servicing, modification or repair performed by individuals not (2) from the date of purchase shown on your original invoice.

Under the terms of this warranty you must immediately inform your vendor (or any repair centre approved by TCT Mobile Limited or its affiliates, which are listed on our website http://www.alcatelmobilephones.com) in case of a conformity defect on your phone, and present the invoice given to you at the time of purchase. The vendor 9) malfunctions caused by external causes (e.g., radio interference or repair centre will decide whether to replace or repair, as appropriate, all or any part of the telephone or accessory found to be 10) modifications made to the equipment even if required by changes defective; this warranty covers the cost of parts and labour but excludes any other costs. Repair or replacement may be carried out 11) faulty connections resulting from unsatisfactory radio transmission using reconditioned components offering equivalent functionality. Servicing under the terms of this warranty, especially repair.

modification or replacement of products, shall entitle to a ONE (1) month warranty unless there are statutory provisions to the contrary. This warranty shall not apply to damage or defects to your mobile In accordance with the applicable law, your product is warranted phone and/or accessory caused by:

- 1) not following the instructions for use or installation
- (1) The mandatory warranty period may vary if overriding statutory provisions are applicable in your jurisdiction.
- The life of a rechargeable mobile phone battery in terms of 200 more recharges.

- not being compliant with technical and safety standards applicable **Troubleshooting.....** in the geographical area where the equipment is used,
