Nortech Media ™

Operation Manual

TWIN 7" portable DVD players

Model no. E-DVKIT006

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN!
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USE-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OF MOISTURE.

CLASS1
LASER PRODUCT   **CAUTION**: Laser radiation when open. Do not stare into beam.

CAUTION: USE OF ANY CONTROLS, ADJUSTMENTS, OR PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

POWER SUPPLY:
Connect the supplied adapter to the side of the DVD player in the slot marked "Power In". Plug the two-prong end of the power cord to an AC100-120V outlet. If you have difficulty inserting the plug, turn it over and reinsert it, if the unit will not be used for a long time, disconnect the plug from the outlet.

NOTE:
Before plugging the power cord into an AC outlet, make sure that all the connections have been made.

1

CAUTION: These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
Refer to service manual for servicing instructions.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Maintain well ventilated conditions around the product, Do not put product on bed, sofa or anything that blocks ventilation.   Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

Note: Do not touch the color TFT LCD screen by hand directly.

2

Copyright Protection

This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights. Use of this copyright protection technology must be authorized by Macrovision, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision. Reverse engineering or disassembly is prohibited.

IMPORTANT FOR LASER PRODUCTS
1. CLASS 1 LASER PRODUCT
2. DANGER: Visible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
3. CAUTION: Do not open the top cover. There are no user serviceable parts inside the unit. Leave all servicing to qualified service personnel.

Region code information

DVD players and discs are coded by region. If the region number described on the DVD disc does not correspond to the region number of this product, this product cannot play the disc. The region code of this unit is 1.

PROMPTS FOR USERS
- **These units should never be used by the vehicle's driver or left unsecured in the vehicle while driving.**
- **If these units are being used in your vehicle, be sure that they are secured or held safely and that they do not obstruct any safety device including air bags or seat belts.**
- **All passengers should wear seat belts when using these units in a moving vehicle.**
- **If in doubt, please contact your vehicle manufacturer for further advice.**

3

High-quality audio and video

Excellent sound: Dolby Decoder delivers great sound.

AV In: External Audio, Video input can be connected to most external AV sources.
AV Out: Analog Audio output and video output.

Advanced Playing Functions

Compatibility: Compatible with DVD, CD and JPEG.

On-screen Display: You are supplied different On-screen Display languages.

Particular Performance: Multi-speed, fast forward, fast backward and slow forward.

    Press to search backward fast during playback.

22. ►► **FWD SCAN button**
    Press to search forward fast during playback.

23. **SLOW button**
    Press to activate slow playback function.

24. **AUDIO button**
    Press to select different languages when a DVD disc with multiple audio languages is played. Press to select different audio track when a CD disc is played.

13

Installation Steps

Follow the steps below to install the battery.
1. Pull the battery holder out from the remote control in the direction of the arrow.
2. Load a new battery properly with the (+) side up.
3. Insert the battery holder back into the remote control.
Use of Remote Control
Point the remote control unit from no more than about 5m from the remote control sensor and within about 60 degrees of the front of the unit.
Note
➢ The battery will last for about 1 year under normal use (at room temperature).
➢ Improper use of the battery may cause overheating, explosion or ignition, which can result in an injury or a fire. Battery leakage may damage the remote control.
➢ Do not expose the remote control unit to direct sunlight.
➢ Do not recharge, disassemble, deform or heat the battery.
➢ Do not put the battery in fire or water.
➢ Immediately replace the exhausted battery.
➢ Take out battery when the remote is not in use for a long time.

14

System Connections

- Always ensure that the DVD player, TV and any other electrical equipment to be connected with are switched off and unplugged from the power supply.
- Ensure that you observe the color coding when connecting audio and video cables.

Connecting to TV

Audio/Video connections
Follow the drawings below to connect the DVD player to TV's Audio/Video inputs with Audio/Video cables.

15
Connecting to Amplifier

Refer to your Audio equipment's manual before connection.
Follow the drawings below to connect the DVD player to AV amplifier.
Connecting to Headphones

Connect the headphones to the right side of the player for private listening.

NOTE:

- Excessive loud volume could damage your hearing.
- Turn down the volume before you connect the headphones, and then tune the volume up to comfortable level.
- When headphone is connected, the speakers will automatically turn off.

16

Connecting to External AV Source

The unit supports AV signal input function. Please use the audio/video cable to connect the unit to the external AV signal source such as a DVD, VCR etc. after connecting, press SOURCE button on the front panel to select AV mode.

Note: Noise may occur in speakers when there is an external audio signal input while playing a DVD disc. Unplug the audio cable to clear the noise.
Connecting to DVD Player

Audio/Video connections

Follow the drawings below to connect a DVD player to another same unit by using the audio/video cable that is the same as the figure below. If one of the DVD players is playing, you can enjoy simultaneously at another unit.

17
Using the AC Adapter

The player is supplied with an AC adapter for powering the unit and charging the battery.

1. Connect AC adapter to the right side of the DVD player in the jack marked DC 9.5V IN, as shown on the right.
2. Plug the other end of the power cord into the wall AC outlet.

NOTE: Turn player's power off before unplugging.

Using of Car Adapter

The player is supplied with a Car Adapter for powering two units while in a vehicle.

Connect the Car Adapter Power Plug to the units' power jacks and plug the other end to the vehicle's cigarette socket. As shown on the right.

Attention

➢   Do not operate the units or view video software while driving a vehicle.
➢   Place the units in a proper position for viewing.
➢   Disconnect the players from the Car Adapter when starting the vehicle.

18

Notes on Discs

Compatible Disc Formats

COMPATIBLE FORMAT	DISC LOGO	DIAMETER	PLAYBACK TIME/ PLAYABLE SIDES
DVD	DVD VIDEO	12cm	133 min (SS-SL)
			242 min (SS-DL)
			266 min (DS-SL)
			484 min (DS-DL)
		8cm	41 min (SS-SL)
			75 min (SS-DL)
			82 min (DS-SL)
			150 min (DS-DL)
CD	COMPACT disc DIGITAL AUDIO	12cm	74 min
		8cm	20 min
JPEG		12cm	

Operation methods of some DVD discs are specified by the software manufacturer. Please follow the instructions of those discs.

Care of Discs

Holding Discs

Do no touch the playing surfaces when loading or removing discs. Hold the disc as right picture.

Cleaning

Fingerprints or stain on the disc may affect the quality of sound and picture. To clean your discs, use a soft clean cloth to wipe them. If necessary, moisten a soft cloth with diluted neutral detergent to remove heave dirt or fingerprints.

Do not wipe in a circular direction as the figure in the right middle (concentric scratches on the disc groove tend to cause noise). Gently wipe from the center of the disc to the outer edge as the right figure.

19

READ THE FOLLOWING INSTRUCTIONS CAREFULLY BEFORE USING YOUR DVD PLAYER FOR THE FIRST TIME.

WARNING: Do not play poor-quality discs to avoid damaging the lens.

Pre-operation

1. Connect the unit to power supply through the provided AC adaptor.
2. Switch "POWER ON/OFF" to "ON" on the left panel to turn on the DVD player.
3. Press OPEN button on the unit to open the disc tray cover, put a disc in the disc tray with printed side facing up. Close the disc cover. (See below)

4. The player will read the disc automatically.
5. Adjust the volume with the VOLUME control on the right panel to the desired level.
6. To turn the player off, switch the "POWER ON/OFF" on the left panel to "OFF".

Using of General Button

FUNC button

Press the FUNC button to change the brightness and color level. Adjust these values with + and - buttons on the front panel. Press and hold the FUNC button for about 1 or 2 seconds to change the aspect ratio between 16:9 and 4:3. See the below for details.

Normal WIDE 16:9   Normal LB/4:3   Rotated WIDE16:9   Rotated LB/4:3   Norma

32

Follow the steps below to fix the DVD Player onto a car seat headrest.

1.   Place the DVD player on a soft and smooth surface with the bottom facing up.
2.   Loose the strap and remove the buckle from the strap.
3.   Insert the strap through the holes as the Fig.1. Make sure the inside of the strap faces up.
4.   Thread the strap into the buckle as Fig.2 and Fig.3. After threading, make sure the outside of the buckle faces up.

33
5. Repeat these steps for the other strap.
6. Adjust the length of the strap according to the backrest of the seat.
7. Fasten the straps on the headrest of the seat as in Fig.4. Make sure the two straps are between the headrest support rods (if your car has them).

NOTE: The drawings show the outside and the inside of the buckle and the strap.

Letterbox screen

This refers to a screen on which the playback picture of wide-screen DVDs appears with black bands running along the top and bottom.

Pan & Scan screen

This refers to a screen on which the playback picture of wide-screen DVDs is cut off at the left and right sides.

Title, Chapter (DVD)

DVDs are divided into some large sections (titles) or some small sections (chapters). Each section is numbered: these numbers are called "Title number" or "Chapter number".

Title 1	Title 2
Chapter1	Chapter 1
Chapter2	
……	……

Track (CD)

CDs are divided into some sections (tracks). Each section is numbered; these numbers are called "Track number".

Track 1   Track 2   Track 3   ……

JPEG

JPEG is a common picture format that has small file size and low quality loss rate of picture. Hundreds of pictures can be stored in a disc in this format. In order to utilize real digital album, use film to make a "PICTURE CD" in JPEG format.

35

Take steps described in the tables below to solve simple problems before contacting after-sales service.

If You Suspect Something Wrong, immediately turn the power off.
Disconnect the power connector and check that there is neither smoke nor heat from the unit before asking for repairs. Never try to repair the unit by yourself because it is dangerous to do so.

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
The player cannot play.	The disc cover may not be closed.	Close the disc cover.
	There may not be any discs in the DVD drive.	Put a disc in to the DVD drive.
	The disc may not be put in with the right way.	Put the disc in with the label side up.
	The disc may be dirty or warped.	Clean or change the disc.
	The player's region code may not as the same as the region code of DVD disc.	Make sure the player's region code is the same as the region code of DVD disc.
	There may be water on the lens.	Remove the disc and keep the player being powered off for at least two hours.
There is no sound	The system connection may be not correct.	Connect the system correctly.
	The speaker may not be turned on.	Turn on the speaker.
	The sound setup of the DVD disc may be not correct.	Setup the sound of the DVD correctly.
	The disc may be dirty or warped.	Clean or change the disc.

Troubleshooting

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
There is no picture.	The LCD may be off or not be in correct video mode.	Turn on the LCD and choose the correct video mode.
	The system connection may be not correct.	Connect the system correctly.
	The unit may be not in AV out mode.	Switch AV tab on the bottom of the unit to out.
Poor AV performance.	The disc may be dirty or warped.	Clean or change the disc.
The remote control does not work	There may be some obstructions between the remote control and the player.	Remove the obstruction between the remote control and the player.
	The remote control may not be pointed at the player.	Point the remote control at the player directly.
	The batteries of remote control may not be inserted correctly.	Make sure the polarity of each battery is correct.
	The batteries of remote control may be out of power or weak.	Replace the batteries.

Other possibilities:

Static or other external interference may cause the player function abnormally. In order to recover normal status, unplug the power-supply cord and then plug it into the outlet again to reset the player. If the problems still exist, cut off the power supply and consult your service center or the qualified technician.
