Prepare the Printer

1. Turn off the printer.
2. Detach the power cord from the back of the printer.
3. Detach the interface cable from the back of the printer.
4. Remove and save the thumbscrews at the top and bottom which hold the control board cover in place.

5. Open the control board cover by pulling out and to the left.

Install the Hard Disk Drive (HDD)

1. Locate the drive connector (1) on the control board:

2. Remove the hard disk drive from its shipping package.

Caution!

Observe antistatic precautions when installing the hard disk drive.

3. Lift the handle on the HDD and insert the connector firmly into the socket on the control board.

4. Press down on the handle to lock it in place.

Complete the Installation

1. Close the control board cover and reinstall the screws at the top and bottom.

2. Reattach the interface cable, then the power cord.
3. Turn on the printer.

Verify the Installation

Print the Configuration Report

1. Press Enter to access the printer menu.
2. Press Enter to select Configuration.
3. Press the ▽ key.
4. Press Enter to select Print Information.
5. Press Enter to select Execute.

The Configuration report prints.

6. In the listing under Configuration, System, "HDD: installed" should appear.

*If you see "HDD: **un**installed", repeat the installation steps—checking to be sure that the Hard Disk Drive is firmly seated in the printer connector—until it does.*

Activate the HDD in the Driver

Windows®

Postscript Emulation Driver

1. First

Windows Vista

- a. Click Start → Settings → Hardware and Sound → Printer.

The Printer dialog box opens.

Windows XP, Server 2003
