That is, as long as your color copier is fast, flexible and, most of all, affordable. And that's what you get with the 20 copies-per-minute<sup>1</sup> OKI® Executive Series 2024 Color Copy Systems (CCS) Family.

**Choose your level of convenience and savings.** Instead of running to the copy center every time you need color copies or printouts, take advantage of OKI Single Pass Color™ Digital technology—delivering fast output speed, high resolution, long-lasting consumables and unmatched reliability—and make your copies in-house.

Use your new color copy system to produce up to 99 color copies of an original page at up to 20 cpm<sup>1</sup>. Or print out full-color documents from files on your PC or the network. Or scan hard-copy documents or artwork and save them as electronic files on your PC. And you can perform any of these steps in a productivity-enhancing short time.
