Introduction

- The contents of this document may be changed in the future without advanced notice. Contact your Customer Support Center for the latest information and updates on the latest model number.
- The utmost care has been taken to ensure the integrity of the content of this document. In the unlikely event that a questionable item, error or omission is found, please contact our Customer Support Center.
- Any liability for possible damages or damage of any kind incurred due to data loss incurred by a defect of the product, repair performed by third parties other than Olympus or an Olympus authorized service station, or any other reason is excluded.

Safe and Proper Usage

Before using your recorder, read this manual carefully to ensure that you know how to operate it safely and correctly. Keep this manual in an easily accessible location.

The warning symbols indicate important safety related information. To protect yourself and others from personal injury or damage to property, it is essential that you always read the warnings and information provided.

Replacing Batteries:

When [BATT] appears on the display, replace the batteries as soon as possible. Size-AA alkaline batteries are recommended. When the batteries are depleted, [BATT] appears on the display, and the recorder shuts off. It is recommended to set the HOLD switch to the [HOLD] position before you replace batteries to maintain the current settings (Time and date, etc.). For your convenience, the recorder also logs the current settings in nonvolatile memory at hourly intervals.

An optional Ni-MH Rechargeable Battery (BR401) from Olympus can be used for the recorder.

Getting Started

Identification of Parts (Fig. 1)

Power Supply (Fig. 3)

The HOLD switch functions as a power button. When you do not use the recorder, set the HOLD switch to the [HOLD] position while the recorder is stopped. This will power off the recorder and minimize the battery drain.

Power on: Reset the HOLD switch.

Standby Mode and Display Shut Off:

If the recorder is stopped or paused for 60 minutes or longer during recording or playback, it goes into Standby (power save) mode, and the display shuts off. To exit Standby mode and turn on the display, press any button.

Listening with Earphone (Fig. 14)

You can listen to the by connecting earphones to the earphone jack. If an earphone is connected, the speaker doesn't emit sound. Sound will be played back monaurally.

Rewind:

While the recorder is during playback mode, press and hold the [I◀] button.

When you release the [I◀] button, the recorder will resume normal playback.

Forwarding and Rewinding (Fig. 11)

Fast Forward:

While the recorder is during playback mode, press and hold the [I▶] button.

When you release the [I▶] button, the recorder will resume normal playback.

Continuous Battery:

Alkaline batteries: Approx. 39 hours

Ni-MH rechargeable batteries: Approx. 22 hours

Dimensions: 102.0 x 26.0 x 20.5 (T) mm

Weight: 63 g (including battery)

Power supply: Two AAA (LR03) batteries or Two Ni-MH rechargeable batteries

Notes:

If the slow playback mode is selected, the [I▶] appears and the [I◀] button is disabled.

After setting the "Date", press the PLAY (▶) or I▶ button to select [YES].

Press the + or - button to set the beep sound.

Press the PLAY (▶) button to confirm the setting.
