- **Fast 15 ppm/cpm Speed**
- **600 x 600 dpi Copying/Printing Resolution**

All You Need to Launch Your Office into the Digital Age

Panasonic is ushering in the millennium with a revolutionary concept in document processing. Introducing WORKiO 150—a series of new-generation imaging systems born from the convergence of cutting-edge digital technologies, combined with the unrivaled manufacturing expertise and vast accumulated experience of an electronics leader.

WORKiO 150 systems centralize office imaging tasks, acting as interfaces between hard documents and transmittable, storable electronic data. Depending on the specific WORKiO 150 model you choose, it can integrate the functions of a digital copier with the communications capa-
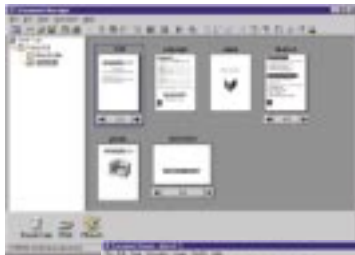

bilities of a state-of-the-art Super G3 fax. Hooked up to your personal computer, it becomes a professional-quality laser printer, plus a high-resolution scanner. And to control all these advanced functions, top-of-the-line WORKiO 150 systems come bundled with PDMS (Panasonic Document Management System) software for easy editing and annotation.
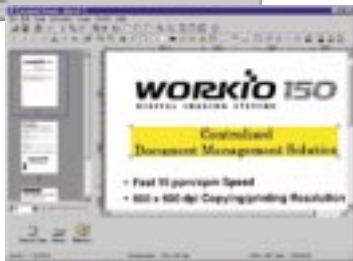

Panasonic Document Management System

Bundled PDMS (Panasonic Document Management System) software[1] lets you view scanned documents in thumbnail type displays, and allows easy editing and annotation. When you scan a document from the DP-150PA or DP-150FX into your PC, PDMS converts it into image data (compatible with TIFF, JPEG, BMP and PNG formats). You can then drag-and-drop the icons for editing or annotation. You can also drag-and-drop the icons to buttons on the toolbar which allow you to link to printing or other applications.

Digital Copier

15 Copies-Per-Minute Speed

Thanks to a high-speed digital image processing system and newly designed shorter paper feed path, WORKiO 150 models can produce up to 15 copies per minute.

Clear 600 x 600 dpi Resolution, 256-Level Gray Scale

Using full digital processing and a laser-beam diode to maintain high-stability image reproduction, as well as quick exposure operation, WORKiO 150 models deliver 600 dpi printout resolution for extremely sharp, crisp copies. Even halftone photo originals can be reproduced with maximum clarity thanks to 256-level halftone digital gray scale circuitry.

2-IN-1 Paper Saving Function

This unique function helps reduce paper usage by allowing you to automatically fit two reduced-size originals on a single copy page.

2-Sided Copying

To further eliminate paper waste and cut down on document volume, the DP-150FX lets you copy on both sides of a letter-size page.

Digital Sky Shot

Panasonic's unique Digital Sky Shot, available on the DP-150A, DP-150PA and DP-150FX, allows you to make copies of small or odd-shaped originals with the platen cover open, without creating a surrounding black background.

Electronic Sorting Output

Electronic sorting allows easy collating and sorting without adding an extra multi-bin sorter unit.

30-Sheet Automatic Document Feeder

You can load an ADF-equipped WORKiO with legal-size or letter-size documents up to 30 pages long for automatic feeding and scanning.

Digital Scanner

600 dpi High Scanning Resolution

Scanning resolution is selectable among 600[2], 400, 300, 200 and 100 dpi. You can use 100 or 200 dpi scanning when you want to lighten your image data load, and high resolution 600 dpi scanning when you want your ultimate printout to be as sharp and detailed as possible.

TWAIN Compatible Driver

The scanner driver incorporated into the DP-150PA and DP-150FX is TWAIN compatible to ensure easy connection to your existing PC and its applications.

Laser Printer

Aa
PRINTER

Professional-Quality 600 x 600 dpi Print Resolution

In the printer mode, the DP-150PA and DP-150FX deliver high-resolution 600 x 600 dpi laser printing—assuring smooth, clean, high-quality documents that make your business look its best.

2-Sided Printing

The DP-150FX can be set to print on both sides of a letter-size page to conserve paper and reduce document bulk.

Status Monitor

A status monitor appears on the screen of a connected PC to notify user when the toner cartridge needs replacement, or the paper cassette is empty.

Super G3 Fax

FAX

33.6kbps Super G3 Transmission, 3 Seconds-Per-Page Transmission Speed

The DP-150FX's Super G3[3] fax modem uses ITU-T V.34 compliant technology to transfer a high-quality image in as few as three seconds[4].

Super-Fine Resolution

During fax communications, the DP-150FX has a scanning resolution equivalent to 400 x 400 dpi, allowing you not only to receive documents transmitted in the Super Fine mode, but to send Super Fine transmissions as well.

Dual Access Operation

With the DP-150FX, you can receive fax documents even when the machine is already engaged in a copying job.

100-Station Autodialer

You can store up to 100 numbers in the DP-150FX's telephone directory for rapid access.

Remote Diagnostics System

If a problem should occur, the fax-equipped DP-150FX immediately sends an error message via phone lines to a Panasonic service center for quick diagnosis and troubleshooting, minimizing downtime[5].

Check & Call Function

Developed in order to ensure a quicker service response, this unique function automatically reports low toner status and certain mechanical problems to a service center[5].

Easy, Space Saving and Environmentally Friendly

Compact, Wingless Design

WORKiO 150 models are amazingly compact and lightweight, sitting easily on the corner of a desk. All feature a unique wingless design that enables documents to collect inside an internal opening, rather than onto a protruding external tray. An easy-to-access front-loading cassette makes replacement of paper simple and quick.

TONER SAVE Mode

TONER SAVE mode maximizes toner yield and minimizes waste, ensuring extremely stable copy quality over an extended period, while minimizing toner consumption.

ENERGY SAVER Mode

Thanks to a Super Power Saver function, WORKiO 150 models' power consumption is dramatically reduced in the sleep mode.

WORKiO 150 Series products proudly display the Energy Star label, the symbol for energy efficiency.

Easy-to-replace toner cartridges boast a long service life of approximately 5,000 pages.

A front-loading 250-sheet paper cassette is standard, and an additional 250-sheet cassette is optionally available to expand total paper capacity.

[1] Recommended PC requirements for PDMS software: PC—IBM PC/AT compatible, faster than Pentium II; RAM—more than 64MB (Windows 95/98), more than 128MB (Windows NT 4.0, Windows 2000).
[2] Interpolated resolution.
[3] Super G3 is the classification given to a type of facsimile that conforms to the 33.6kbps transmission method standardized in accordance with the ITU-T V.34 recommendation.
[4] Transmission time applies to memory transmission of text data using ITU-T Image No. 1 between the same models at modem speeds over 26.4kbps. Transmission time may vary in actual usage.
[5] This service is not available in some areas.

Choice With a complete line of WORKiO models to choose from, you can select just the features you need—from the basic essentials to advanced enterprise capabilities.

COPIER

DP-150 Digital Copier

- Compact, Lightweight Design
- Fast 8.1-Second First Copy, 15 Copies-Per-Minute Speed

Superior Performance,
Rugged Reliability, Maximum Efficiency

High Image Quality
The WORKiO 150 Series boasts 600 dpi copying and printing resolution for crisp, high contrast digital quality images.

Easy to Use
All WORKiO 150 models are amazingly easy to use, with ergonomic front panels that put complete control of their advanced functions at your fingertips.

Simple Maintenance
Reliability is built in, so you can count on trouble-free operation. Maintenance is amazingly simple and, if a problem should occur, fax-equipped WORKiO 150 models contact a Panasonic service expert all by themselves.

Space Saving
Because WORKiO 150 lets you replace multiple stand-alone office machines, including copiers, printers, scanners and faxes, with a single compact system, you save office space. All models feature a unique wingless design to fit into the most cramped circumstances.

Cost Effective
Functioning as all-in-one document processing centers, WORKiO 150 systems ensure maximum cost effectiveness. They're also designed to help you save on your electric bill and toner costs.

Earth Friendly
WORKiO 150 systems save energy, helping to protect the environment. In addition, their engines have been specially designed to prevent harmful ozone emissions.

SPECIFICATIONS

DP-150, DP-150A

Copier	
Copy/Print Process	Laser/Electrostatic Photographic Method
Process	Ultra Magnefine™ Toner
Warm-Up Time	Approx. 20 Seconds (68°F)
First Copy Speed	8.1 Seconds (DP-150), 8.3 Seconds (DP-150A)
Resolution	600 x 600 dpi (Interpolated)
Gray Scale	256 Levels
Multi Copy Speed	15 cpm (Letter Size)
Maximum Original Size	8.5" x 14" (Legal Size)
Maximum Copy Size	Legal
Copy Size	Legal–Invoice Via Paper Tray
	Legal–Invoice Via Sheet Bypass
Reduction Ratios	Preset: 79%, 65%, 61%
	Variable: 99%–50% in 1% Increments
Enlargement Ratios	Preset: 129%
	Variable: 101%–200% in 1% Increments
Paper Feed	250-Sheet Paper Tray Plus 50-Sheet Bypass
	Max. 300 Sheets (DP-150)
	Max. 550 Sheets with Optional 250-Sheet
	Paper Cassette (DP-150A)
Exposure Control	Automatic/Manual Plus Photo Mode
General	
Type	Desktop
Electrical Requirements	AC 120V, 60Hz
Dimensions (W x D x H)	19.5" x 17.2" x 10.7" (DP-150)
	19.5" x 18.6" x 15.1" (DP-150A)
Weight	41 lbs (DP-150)
	49 lbs (DP-150A)
