Panasonic

Digital Proprietary Telephones

Quick Reference Guide

**Model KX-T7625E/KX-T7630E
KX-T7633E/KX-T7636E**

Important Information

When using the KX-T7600 series, keep the following conditions in mind.

- If there is any problem, unplug the extension line and connect a known working phone. If the known working phone operates properly, have the defective phone repaired by a specified Panasonic Factory Service Centre. If the known working phone does not operate properly, check the KX-TDA Series Business Telephone Systems and the internal extension wiring.
- Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps, motors and televisions. These noise sources can interfere with the performance of the unit.
- This unit should be kept free of dust, moisture, high temperature (more than 40 ºC) and vibration, and should not be exposed to direct sunlight.
- Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.
- Do not use any handset other than a Panasonic handset.
- Do not disassemble this product. Dangerous electrical shock could result. The unit must only be disassembled and repaired by qualified service technicians.
- When a failure occurs which exposes any internal parts, disconnect the telephone line cord immediately and return this unit to the service centre.
- Never attempt to insert wires, pins, etc, into the vents or other holes of this unit.
- This unit is designed to be installed under controlled conditions of ambient temperature and a relative humidity.
- Avoid installing the unit in damp or humid environments, such as bathrooms or swimming pools.
- 999 or 112 can be dialled on the product after accessing the CO line for the purpose of making outgoing calls to the BT emergency (999) and (112) services.

WARNING:
TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.
THE HANDSET EARPIECE IS MAGNETISED AND MAY RETAIN SMALL FERROUS OBJECTS.

Note: In this manual, the suffix of each model number is omitted.
"Installing the KX-T7601/KX-T7603" is shown on page 9.

PROGRAM

❶ **PAUSE:** Used to insert a pause when storing a telephone number. This button also functions as the PROGRAM button when there is no PROGRAM button on your telephone.

❷ **FWD/DND (Call Forwarding/Do Not Disturb):** Used to perform Call Forwarding or Do Not Disturb.

❸ **CONF (Conference):** Used to establish a multiple-party conversation.

❹ **INTERCOM:** Used to make or receive intercom calls.

❺ **AUTO ANSWER/MUTE:** Used to receive an incoming call in the hands-free mode or mute the microphone/handset during a conversation.

— 7 —

Location of Controls

❻ AUTO DIAL/STORE: Used for System/Personal Speed Dialling or storing programme changes.

❼ TRANSFER: Used to transfer a call to another party.

❽ REDIAL: Used to redial the last dialled number.

❾ MESSAGE: Used to leave a message waiting indication or call back the party who left the message waiting indication.

❿ FLASH/RECALL: Used to disconnect the current call and make another call without hanging up.

⓫ HOLD: Used to place a call on hold.

⓬ SP-PHONE (Speakerphone): Used for the hands-free operation.

⓭ Navigator Key (KX-7630/7633/7636): Used to adjust the volume and the display contrast or select desired items. To adjust **Speaker/Handset/Headset/Ringer Volume**, press **Up** or **Down.**

⓮ Volume Key (KX-T7625): Used to adjust the volume. The Ringer Switch must be set to 🔔. To adjust **Speaker/Handset/Headset/Ringer Volume**, press **Up** or **Down.**

⓯ CANCEL (KX-T7630/7633/7636): Used to cancel the selected item.

⓰ PROGRAM (KX-T7625): Used to enter and exit the personal programming mode.

⓱ ENTER (KX-T7630/7633/7636): Used to confirm the selected item.

⓲ Flexible Outside (CO) Line Buttons: Used to make or receive an outside call. Pressing this button seizes an idle outside line automatically. (Button assignment is required.) Also used as feature buttons. (Button assignment is required.)

⓳ Message/Ringer Lamp: When you receive an intercom call, the lamp flashes green, and on an outside call, the lamp flashes red. When someone has left you a message, the lamp stays on red.

⓴ Soft Buttons (KX-T7630/7633/7636): Used to select the item displayed on the bottom line on the display.

Tilt Angle Adjustment
The tilt angle of the operation board can be adjusted to four steps-angles.

To lift: Lift up the operation board to the desired step-angle (1 → 2 → 3 → 4).

To set down: Lift up the operation board to the highest angle and then press down to step-angle 1. **Please do not get your fingers caught between the base unit and the operation board.**

• Pull down the handset hook until it locks to prevent the handset from slipping down from the operation board when at the step-angle 4.

— 8 —

To prevent damage to the telephone, be sure to unplug the extension line before you set up or remove the USB Module or the Add-on Key Module.
◆◆ *KX-T7601 (For KX-T7633/7636) includes USB cable*

The USB Module can be connected between the digital proprietary telephone and the personal computer through USB interface to implement personal CTI (Computer Telephony Integration).
**1** Remove the connector cover using a screwdriver.
2 Insert the flat cable into the connector.

3 Couple both hinges and slide in the unit.

4 Push down the cover until it locks, and connect the USB cable to USB port.

Connect to PC ◀

* Please use a USB cable shorter than 3 m.

◆◆ *KX-T7603 (For KX-T7633/7636)*

The Add-on Key Module has 12 CO buttons. These buttons are used to seize an outside line, make a call using One-touch Dialling, or access certain features.
<with a KX-T7636>
1 Open the cover.
2 Attach the KX-T7603 to your telephone with screws.
3 Insert the flat cable into the connector.
4 Close the cover.

Wall Mounting
1 Fold up the operation board to step-angle 1.

2 Connect the telephone line cord, and then attach ① first and then ② of the wall mounting adaptor.
3 Mount the unit on the wall.

4 Pull down the handset hook until it locks, so the tab holds the handset.
To temporarily place the handset down during a conversation, hook it over the top edge of the phone as shown.

* The illustrations used in this page are a KX-T7636.

Connection

The telephone line cord (included)

➡ Connect to a KX -TDA Series Business Telephone System (*TO MAIN UNIT / PABX*).

➡ Connect to a digital proprietary telephone for D-XDP connection (📱). *TO DIGITAL*

➡ Connect to a single line telephone for XDP or parallel connections (☎ *TO TEL*).

CAUTION
Ensure the cords are inserted in the grooves to prevent damage to the connector.

CAUTION
Ensure the cord is inserted in the hook to prevent damage to the connector.

< Back view>

· Consult your dealer for more details about XDP and D-XDP.
· The availability of D-XDP function depends on the software version of the connected Business Telephone System.

— 10 —
Other Information:

This unit is capable of being used in conjunction with hearing aids fitted with inductive coil pick-ups. The handset should be held as for normal conversation. For operation the hearing aid should be set to its "T" position or as directed in the operating instructions for the hearing aid.

Included Accessories:
