IMPORTANT SAFEGUARDS

1. Be sure to connect the color coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage the vehicle's electrical system.

2. Be sure to connect the speaker (-) leads to the speaker (-) terminal. Never connect the left and right channel speaker cables each other or to the vehicle body.

3. Make sure all the connections are completely correct before turning on your unit.

4. When replacing the fuse(s), the replacement must be of the same amperage as shown on the fuse holder.

5. Do not block vents or radiator panels. Blocking them will cause heat to build up inside and may result in fire.

6. After completing the installation and beginning to play the unit(including replacing the battery), please remove the front panel at first, and then press RESET button on the base with pointed object (such as ball-point pen) to set the unit to initial status.

About this manual

This unit features a number of sophisticated functions ensuring superior operation. All the functions have been designed for the easiest possible use, but many are not self-explanatory. This manual will help you understand the functions and operations of the unit. This manual main explains **remote control operation.** However, in addition to those functions related with DVD/VCD/CD/MP3 operation that can only be operated by the remote control, there are also functions can be operated by the buttons provided for the main unit.

Before You Start

PRECAUTIONS

This unit can play the following discs only:

Type of disc	Label on the disc	Recorded material	Size of disc
DVD	DVD VIDEO	Sound and moving pictures	12cm
VCD	VIDEO CD / COMPACT disc DIGITAL VIDEO	Sound and moving pictures	12cm
CD	COMPACT disc DIGITAL AUDIO	Sound only	12cm
MP3	COMPACT disc DIGITAL AUDIO MP3	Sound only	12cm
MPEG-4	COMPACT disc DIGITAL AUDIO MPEG-4	Sound and moving pictures	12cm

NOTE: The unit is compatible with VCD1.0/2.0/3.0 version and DVCD disc.

- **Do not attempt to modify the unit, modifying the unit may cause an accident.**

- **Stop the vehicle before carrying out any operation that could interfere with your driving.**

- **Do not work in extremely high or low temperature. Be sure the temperature inside the vehicle is between +60° C and -10° C before turning on your unit .**

- **To enjoy optimum sound and images while playing, handle the discs as follows:**

——Handle the disc by its edge to keep the disc clean, and do not touch the surface.

——Do not use your CDs with paste residue or ink attached.

——Do not use CDs with labels or stickers attached, which may leave a sticky residue while beginning to peel off.
(Shown as the picture)

——Clean the discs with an optional cleaning cloth. Wipe each disc from the center out.
(Shown as the picture)

Maintenance

Replacing the Fuse

Make sure the amperage matches the specified value when replacing the fuses. If the fuse is blown, check the power connection and replace with a new one. If the same problem occurs, it would be subjected to the malfunction. In such cases, please consult to the nearest service dealer.

> ⚠️ **Warning**
> *Never use the fuse with the rated amperage more than that supplied to your unit, otherwise it will damage the unit.*

Replacing the Battery

When the range of the operation of the card remote control becomes short or no functions while operating. Replace the lithium battery with a new button cell (CR2025). Make sure the battery polarity before replace.

Gently pull out the Battery Holder while pressing the Stopper.

Put the button-type battery with mark(+) upward into the Battery Holder.
Insert the Battery Holder into the Remote Control.

Precautions on Using Lithium Battery

Always keep the lithium battery beyond children's reach. In case swallowed, see a doctor immediately.

Cleaning the battery with a dry cloth, to ensure its perfect connected.

Make sure the proper polarity when loading with the battery.

To prevent short circuit, do not use metal tweezer to clip the battery.

> ⚠️ **Warning!**
> *Improper handle with the battery may lead to explosion.*
> *It cannot be charged, disassembled or thrown into a fire.*

⑧ Steel Bar x 1

Cleaning the Connector

If the connector between the main unit and the front panel is dirty, it may result in unit′s abnormal working condition. To avoid such problems happening, please detach the front panel, and clean the connector with an alcohol swab. Gently clean and avoid damaging the connector.

The main unit

The backside of the front panel
■ Notes:

* For safekeeping, always shut down the generator and take out the key from the ignition before cleaning.
Never keep your finger or any metal device touch the connector directly.

Reset the Unit

Before perating the unit for the first time or after replacing the car battery, the unit must be reseted.

Remove the front panel at first, and then Press ⑩ **RESET** button on the base with a pointed object, (such as a ballpoint pen) to set the unit to initial status.

◼ **Note:**
* When some errors occur on the display, you can also press **RESET** button to resume to normal, and it will erase the clock setting and some memorized functions.
* This function can only be operated by the head unit.

Turning the Unit On/Off

Press ❷ **PWR** button to turn on the unit, press it again, the unit is still in the waiting status. When insert a disc, the unit will automatically start playing. Keep pressing it to turn off the unit completely.

◼ **Note:**
* After the unit is off, the volume level is memorized during the area between 6 and 30. If the volume level is set less than 6, it will resume to 6; if it is higher than 30, it will resume to 30; if it is between 6 and 30, it still stores in the status which you set.
* Pressing POWER button on the head unit also performs the same operation.

Volume Control

Press ⑫ **VOL+** button to increase the sound level and press ⑫ **VOL-** button to decrease the sound level.

◼ **Note:**
* Rotating **VOL** on the head unit also performs the same operation.

Setting the Sound Characteristics

Repeatedly and briefly press⑫ **SEL** button to select the desired mode in following order:

→ **BAS** → **TRE** → **BAL** →
← **VOL** ← **FAD** ←

1 After selecting the desired mode, you can adjust the current level by pressing ⑫ **VOL** buttons.

2 If you don't adjust ⑫ **VOL** buttons within 3 seconds after selecting the desired mode, the unit will automatically return to previous mode .

3 when **EQ** mode is activated, press ⑫ **SEL** button to select modes, BAS/TRE are invalid. (Shown as below)

→ **VOL** → **BAL** → **FAD** →
◼ **Note:**
* Pressing **SEL** button on the head unit to select mode.
* Rotating **VOL** on the head unit also performs the same operation.

EQ Setting

While listening to the popular music, classic music or rock music, you can select the corresponding preset modes to adjust the sound quality perfectly by using ㉓ **EQ** button. Repeatedly pressing㉓**EQ** button to choose the following modes in turn:

→ **POP** → **CLAS** → **ROCK** →
← **OFF** ←

◼ **Note:**
* when **EQ** system is on,Bass mode and Treble mode return to default setting ,and "Bass "& "Treble " disappear.
* Pressing EQ button on the head unit also performs the same operation.

Turning Loudness On/Off /My Best Position(MBP)

1 Press ㉒ **LOUD** button on the remote control to activate LOUD function. You can press this button to increase the low frequency, which can improve sensitivity for your ears. And *"LOUD"* appears . Press it again to shut down *"LOUD"* function.

2 Press ⑳ **MBP** button to activate MBP function. If there is no passenger in the car, you can perform MBP function and enjoy optimum sound.

LCD	F Speaker		R Speaker	
	L	R	L	R
MBP-A	0	-4dB	-4dB	-8dB
MBP-B	-4dB	0	-8dB	-4dB
MBP-OFF	0	0	0	0

Each time when you press and hold this button for 3 seconds, it will select the position as desired in the following order:

MBP A → MBP B → MBP OFF →

The corresponding mode will appear on the display.

If accurately adjusting the volume level needed, please use **SEL** button.(Refer to *"Setting the Sound Characteristics"* for more details)

◼ Note:

* When activate BAL and FAD (*"Setting the Sound Characteristics"*), MBP mode will be turned off.

* This function is operated by using the remote control.

Mute Function

Press ⑬ ✖ button to shut off the sound output. Press it again to resume to previous volume level.

◼ Note:

* Pressing MUT on the head unit performs the same function.

Additional Information

Simple Troubleshooting Guide

The following checklist might help to solve the problems which you meet when using the unit. Please double check and make sure if the connection and the procedure of the operation is properly before using the checklist below .

Problem	Cause/Solution
No power.	• Check and make sure whether the fuse is blown, replace with the proper value if necessary.
Some errors occur in the LCD or no function when pressing the button.	• Press **RESET** button.
Unable to receive stations.	• Check and make sure whether the antenna is inserted or the antenna is properly connected, if not, insert the antenna or connect it properly.
Poor effect on receiving a station.	• Antenna may not be the proper length. Make sure the antenna is fully extended; if broken, replace the antenna with a new one. • The antenna is poorly grounded, check and make sure the antenna is properly grounded at its mounting location. .
CDs cannot be loaded.	• A CD is loaded in the mechanism.
Sound skips.	• The CD is dirty or damaged.
No images.	• The Video line from main unit to the TV is not connected properly.
Images skip.	• Improper setting of the color system. Set the color system to "PAL" or "NTSC" according to the connected television.

Note:
If any of the problem persist after check list had been made, consult your nearest service dealer. Never attempt to disassemble your unit by yourself.

☛ _Due to continuous product improvement, the operations are subject to run the model._
