IMPORTANT SAFEGUARDS

1   Be sure to connect the color coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage the vehicle's electrical system.

2   Be sure to connect the speaker (-) leads to the speaker (-) terminal. Never connect the left and right channel speaker cables each other or to the vehicle body.

3   Make sure all the connections are completely correct before turning on your unit.

4   When replacing the fuse(s), the replacement must be of the same amperage as shown on the fuse holder.

5   Do not block vents or radiator panels. Blocking them will cause heat to build up inside and may result in fire.

6   To lest the driver distrack his attention from, please install the unit in an apt place.

7   Using the unit after starting the engine, otherwise the unit can not be started, because the electric energy of battery was used up.

8   The unit must be screened from direct sunlight, or the electric energy of battery will be wasting for the high temperature.

9   Do not use the unit in extreme high temperature or such low temperature conditions, and also avoid humidity and direct sunlight.

10 Take care of the magnetism of the unit. Do no put the credit card, cassette or watch around the unit, or they would be broken or some information in them lose.

11 To lest disturb the video frequency, keep far away from the unit when using your phone.

12 Do not put the remote control under high temperature or where the sun strikes it, or else the control remote can not work normally.

About this manual

This unit features a number of sophisticated functions ensuring superior operation. All the functions have been designed for the easiest possible use, but many are not self-explanatory. This manual will help you understand the functions and operations of the unit. This manual main explains **remote control operation**. However, in addition to those functions related with DVD/VCD/CD/MP3 operation that can only be operated by the remote control, there are also functions can be operated by the buttons provided for the main unit.

Before You Start

PRECAUTIONS

This unit can play the following discs only:

Type of disc	Label on the disc	Recorded material	Size of disc
DVD	DVD VIDEO	Sound and moving pictures	12cm
VCD	VIDEO CD / COMPACT DISC DIGITAL VIDEO	Sound and moving pictures	12cm
CD	COMPACT DISC DIGITAL AUDIO	Sound only	12cm
MP3	COMPACT DISC DIGITAL AUDIO MP3	Sound only	12cm

NOTE: The unit is compatible with VCD1.0/2.0/3.0 version and DVCD disc.

- **Do not attempt to modify the unit, modifying the unit may cause an accident.**

- **Stop the vehicle before carrying out any operation that could interfere with your driving.**

- **Do not work in extremely high or low temperature. Be sure the temperature inside the vehicle is between +60° C and -10° C before turning on your unit.**

- **To enjoy optimum sound and images while playing, handle the discs as follows:**

——Handle the disc by its edge to keep the disc clean, and do not touch the surface.

——Do not use your CDs with paste residue or ink attached.

——Do not use CDs with labels or stickers attached, which may leave a sticky residue while beginning to peel off.
(Shown as the picture)

——Clean the discs with an optional cleaning cloth. Wipe each disc from the center out.
(Shown as the picture)

Besides playing the discs above, the unit also can be connected to other connector. Please refer to the details on page 18 before you playing them.

Before You Start

Maintenance

Replacing the Fuse

Make sure the amperage matches the specified value when replacing the fuses. If the fuse is blown, check the power connection and replace with a new one. If the same problem occurs, it would be subjected to the malfunction. In such cases, please consult to the nearest service dealer.

> ⚠ **Warning**
> *Never use the fuse with the rated amperage more than that supplied to your unit, otherwise it will damage the unit.*

Replacing the Battery

When the range of the operation of the card remote control becomes short or no functions while operating. Replace the lithium battery with a new button cell (CR2025). Make sure the battery polarity before replace.

Gently pull out the Battery Holder while pressing the Stopper.

Put the button-type battery with mark(+) upward into the Battery Holder.

Insert the Battery Holder into the Remote Control.

Precautions on Using Lithium Battery

Always keep the lithium battery beyond children' s reach. In case swallowed, see a doctor immediately.

Cleaning the battery with a dry cloth, to ensure its perfect connected.

Make sure the proper polarity when loading with the battery.

To prevent short circuit, do not use metal tweezer to clip the battery.

> ⚠ **Warning!**
> *Improper handle with the battery may lead to explosion.*
> *It cannot be charged, disassembled or thrown into a fire.*

Simple Troubleshooting Guide

The following checklist might helped to solve the problems which you meet when using the unit. Please double check and make sure if the connection and the procedure of the operation is properly before using the checklist below .

Problem	Cause/Solution
No power.	• Check and make sure whether the fuse is blown, replace with the proper value if necessary.
Some errors occur in the LCD or no function when pressing the button.	• Press RESET button.
Unable to receive stations.	• Check and make sure whether the antenna is inserted or the antenna is properly connected, if not, insert the antenna or connect it properly.
Poor effect on receiving a station.	• Antenna may not be the proper length. Make sure the antenna is fully extended; if broken, replace the antenna with a new one. • The antenna is poorly grounded, check and make sure the antenna is properly grounded at its mounting location. .
CDs cannot be loaded.	• A CD is loaded in the mechanism.
Sound skips.	• The CD is dirty or damaged.
No images.	• The Video line from main unit to the TV is not connected properly.
Images skip.	• Improper setting of the color system. Set the color system to "PAL" or "NTSC" according to the connected television.

Note:
If any of the problem persist after check list had been made, consult your nearest service dealer. Never attempt to disassemble your unit by yourself.

☞*Due to continuous product improvement, the operations are subject to run the model.*
