## WARNING

This unit is not intended for installation in the front Driver / Passenger Compartment where it may be seen by the Driver. Installation of this unit in any portion of the vehicle which could impair or distract the Driver is improper and dangerous and **PYLE view** assumes **No liability** whatsoever for failure to follow the proper installation of this product.

To reduce the risk of electric shock, please do not expose this unit to rain, moisture or open the unit. Dangerous high voltages are present inside the unit.

Our warranty could be voided if you make changes or modifications not expressly approved by **PYLE view**

## Usage Notice

Follow all warnings, precautions and maintenance as recommended in this user's manual to maximize the life of your LCD monitor

-  To avoid the damage of the LCD monitor and risk of electronic shock, do not permeate the LCD monitor with water or any drink.  
When this happens, turn off the power, unplug the power cord and send the LCD monitor to your local dealer or our service center as soon as possible.
-  Use a regular power specification of DC 12V . Do not use any other power supply different from the regularity.
-  Do not place objects on or suspend them with the power cord. This will make the power cord damaged.
-  Do not assemble or twist the power cord arbitrarily. And do not put it together with heated object.
-  Do not try to repair the power cord when it is damaged or broken, change a new one immediately.
-  Avoid any metal objects or inflammable dropping into the LCD monitor from ventilation slots.
-  Do not attempt to open or disassemble the LCD monitor yourself as this may cause electronic shock.
-  When there is smile or peculiar smell in use, unplug the power cord immediately and send it to your local dealer or our service center.
-  When there is damage or breach on the LCD monitor casing, send it to your local dealer or our service center.
-  Do not use this LCD monitor in the areas susceptible to excessive dust, dirt, and humid.
-  Do not setup the LCD monitor in direct sunlight, extremely hot, and cold environment.
-  Do not expose the LCD monitor to rain or moisture.

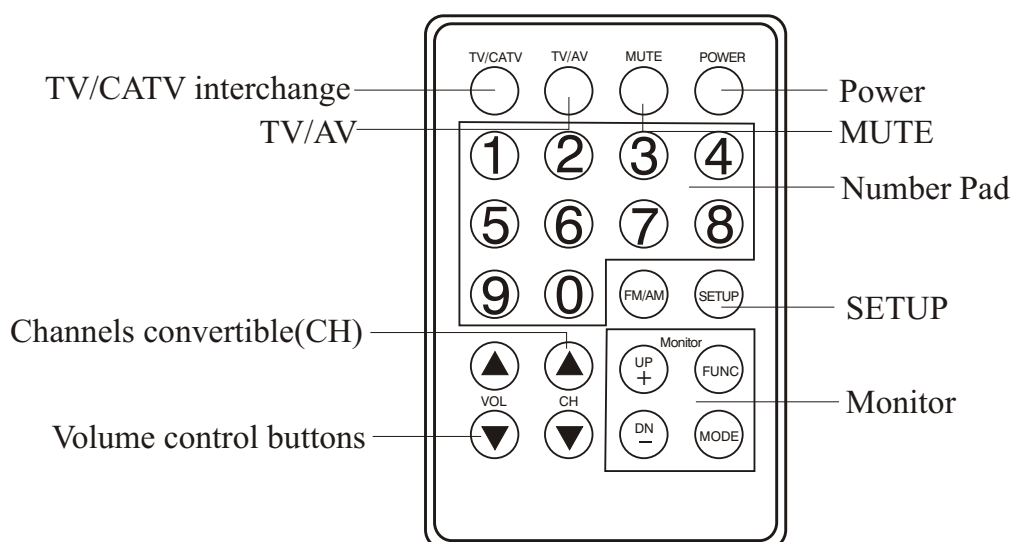

# Package

# Setting Up The Dome Lamps

## \*Operating the dome Lamps

1. There are three function buttons for the Dome lamps operation: OFF, DOOR, and ON. (Refer to the following figure)

- A. OFF: To turn off the lamps.
- B. DOOR: To make the lamps turned on only when car doors are opened.
- C. ON: To turn on the lamps.

## \* The electric circuit figure

Point	Power Cord Color	Connection
R	Red	Connecting With Power Supply
W	White	Connecting With Sensor of Car Doors
B	Black	For Ground Connection

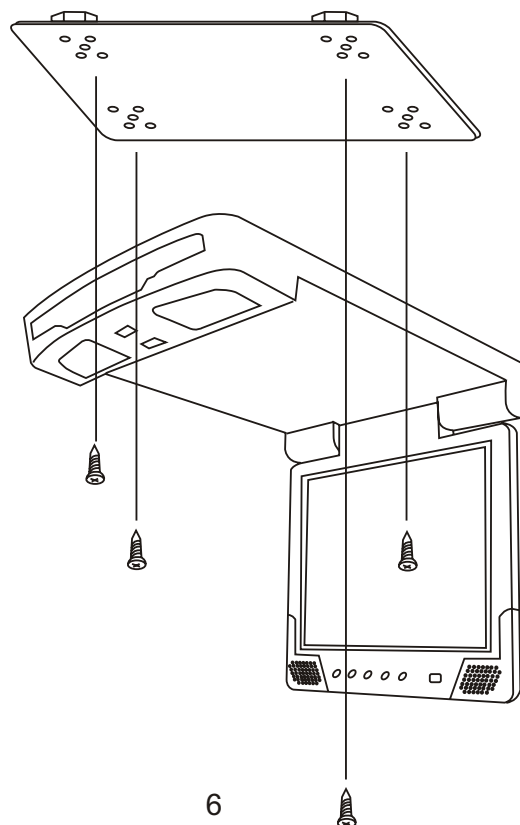

## \* Remarks:

1. There would be no any power cord puling out from "B" point as "B" have been connected with a ground connection by screws.
2. Power supply should be used in 12 Voltages.

## Installation your Monitor

Take care to select a suitable fitting location and securing method for the monitor:

- \*The unit should not distract or obstruct the driver.
- \*The installation should not inhibit the entry to, or the exit from the vehicle.
- \*The unit should not interfere with other vehicle components e,g (sliding sunroof).
- \*Make sure the unit is installed to a secure, robust mounting location and cannot become dislodged in the event of an emergency stop.
- \*Do not support the unit using only the vehicle interior roof lining.
- \*If driving is required, take care not to penetrate through the other sheet metal of the vehicle.
- \*Avoid prolonged use of the monitor when the engine is not running to prevent draining the vehicle battery.
- \*Place the mounting metal plate with the nuts facing upward, then, mount the monitor by screws included

## Closing Monitor

1. Return the monitor to the central viewing position.  
(Refer to the following figure)
2. Push the monitor/TV back into the monitor base unit until the screen engages with the release button.

## Operating the Monitor

\* Powering up the monitor

The monitor will be automatically turned on when releasing the monitor from the base unit and "OFF" when it is closed.

## Operating Instructions

Opening the Monitor

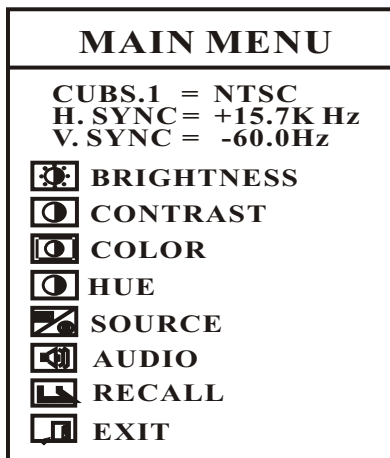

1. Press the monitor release button to lower the LCD screen.
2. Lower the monitor until it is fixed 90° from the monitor base unit for viewing (Refer to the following figure.)

## Specifications

Screen Size	10.4" diagonal
Resolution	800 (H) x 600 (V) pixels
Number of colors	262, 144 colors
Pixel pitch & Format	0.264 (H) x 0.264 (V) mm
	Vertical Stripe Arrangement
Brightness	150 cd/m <sup>2</sup>
Maximum Contrast Ratio	200
Operating Temperature	0°C ~ 50°C
Storage Temperature	-25°C ~ +60°C
Back light	Cold cathode Filament Tube
View Angle L/R	45/45 Degrees
View Angle U/D	15/35 Degrees
Monitor Dimension	236(W) x 174.3(H) X 5.7(D) mm
Monitor Weight	1.5KG
Graphic Mode	VESA standard mode ( $\leq 75\text{Hz}$ )
On Screen Display	Supported
Power Saving mode	$\leq 450\text{mA}$
Power Consumption	2.25A @ DC 12V
A/V Video input	CVBS, RCA x 1
Video Input level	1.0V <sub>p-p</sub> $\pm$ 0.5V <sub>p-p</sub>
Video Input Impedance	75 Ohms
Audio Input Level	1.0V <sub>p-p</sub> $\pm$ 0.2V <sub>p-p</sub>
Audio Input Impedance	600 Ohms
Speaker Rating	1W x 2

## Appendix

### Changing the New Battery in Remote Control

1. Push the cassette button to wards the right. (As shown # 1 in below figure)
2. Pull the all battery cassette away from the remote control. As shown # 2 in below figure) Change a new battery.
