- Spare parts: 1 pcs
- Microfiber travel bag: 1 pcs
- Nipple travel pack: 2 pcs
- Power cord: 1 pcs
- Breast milk container (9oz/260ml): 2 pcs

Product highlights

Pumps more milk faster

Double pumping has been shown to improve milk production. ISIS iQ DUO is the only breast pump designed to maintain the same level of vacuum and control for both pumps, which helps to ensure effective use.

Advanced iQ technology

Electronic memory learns and continues your personal pumping rhythm at the touch of a button.

Patented Let-down Massage Cushion

Five, soft petal massagers gently flex in and out working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.

Intuitive control handle

Everything that controls the pump is at your fingertips and close to the breast, which means you can make adjustments instantly and intuitively- no need to reach elsewhere.

Infinitely variable control

Enjoy complete control over speed, vacuum and pattern – you can even set the pump to match your baby's own suckling action.
