- ### Read this first for easy installation:
1. How to make the best connection
 2. Connect power and antenna / cable
 3. Connect your devices
 4. How to perform programming for the first time.

For detailed information, please see the User Manual.
Please keep your connection guide after you have completed connecting your TV to the various devices. Do not throw it away as you may need it for future connections.

1. How to make the best connection

Use this guide to achieve the optimal connection for each of your components devices. These cables are not provided with the set.

2. Connect power and antenna / cable

- 1 Connect the antenna or cable signal in the antenna/cable input.
- 2 Connect the power cord to your TV.
- 3 After connecting all cables and devices, plug in the power and switch on your TV.

CAUTION: This is a Class 1 apparatus. It must be connected to a MAINS socket out with a protective earthing connection.

3. Connect your devices

Cable or Satellite set top box

- 1 Connect the antenna cable to the antenna input of the Set-Top Box.
- 2 Connect the Set-Top Box to the TV using an antenna cable.
- 3 After connecting all cables and devices, switch on your TV.
- 4 Tune in the TV the same channel selected in the Set-Top Box.

OR

- 1 Connect the antenna cable to the antenna input of the Set-Top Box.
- 2 Connect the Set-Top Box to the TV using Composite Video (AV) plug into their corresponding ports.
- 3 After connecting all cables and devices, switch on your TV.
- 4 Press **AV+** button on the remote control, then press **CURSOR V** (down) repeatedly to select **AVS/HVS**.

Other possible connections

DVD Recorder/Player

- 1 Connect the DVD to the TV using Component Video cable.
- 2 For sound connect left (white) and right (red) audio cables.
- 3 Connect the 2 antenna cables for DVD Recording. After connecting all cables and devices switch on your TV.
- 4 Press **AV+** button on the remote control, then press **CURSOR V** (down) repeatedly to select **CV-1 (HDS/D)**.

OR

- 1 Connect the DVD to the TV using **YPbPr - VGA** adapter.
- 2 For sound connect the left (white) and right (red) audio cables to the left (white) and right (red) audio input of your TV (**PC AUDIO IN**).
- 3 Connect the 2 antenna cables for DVD Recording. After connecting all cables and devices switch on your TV.
- 4 Press **AV+** button on the remote control, then press **CURSOR V** (down) repeatedly to select **CV1-2 (SD/H/D)**.
