AC 90-276 V, 50/60 Hz (stroke /58)
- Power Consumption: 39 W Normal Operation  
<3 W Stand by
- Set Weight : 11.5 kg
- Weight Incl. : 13.5 kg  
Packaging
- Set Dimension : 385 x 370 x 405 mm (WxHxD)
- Box Dimension : 575 x 543 x 514 mm (WxHxD)
- TV Color : Precision Silver (10888)

# I5PT2967S

## Product highlights

### Real Flat Picture Tube

The Real Flat picture tube offers high contrast for natural colors and improved daytime viewing. With the revolutionary flat screen design, there is virtually no picture distortion, even when viewed from the sides. The flat screen technology reduces glare from ambient light, preventing eye fatigue.

### Contrast Plus

A special circuitry has been incorporated into this receiver to enhance the darker portions of the picture for added realism and overall picture quality.

### Incredible Surround

Incredible Surround widens the sound stage, giving you the impression of having extra speakers all around you.

### Smart Listening

This is the combination of Delta Volume and Automatic Volume Limiter. The former avoids undesirable changes in volume, caused by the different sound settings of different programmes. The latter avoids the rapid increase in volume which can happen in the case of different commercials.

### FM Radio Built in

A radio is included capable of storing 40 FM presets. On Screen naming makes navigation simple, and a handy Clock Screensaver is also included for use while listening.

### Plug & Play

Having connected the TV, it automatically searches for all channels and installs them.

### 10 Pages Smart Text

Fast access to your own programmed favourite text pages.

### Smart Clock

The ability of your TV to automatically update its internal clock for easier use of the Wake up clock function which allows you to program the TV to switch on at a certain time.

### Side Connections

Digital cameras and video games can be connected quickly and easily to video or stereo AV inputs. Connect your headphones (optional) for convenient private listening.
