- Digital comb filter for fine picture detail
- Incredible Surround™

AutoFeaturePak

- AutoPicture™
- AutoSound™
- AutoMute™
- AutoLock™

PHILIPS

20" Designer Series Television

Technical specifications

Picture Quality

• Active Control™

Noise and sharpness improvement settings are optimized with every channel and source selection.

• 20" Real Flat™ high contrast picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

• Digital comb filter

Separates chrominance (color) from luminance (brightness) information for independent processing to improve picture resolution and minimize distortion.

• Dynamic Noise Reduction

Reduces picture graininess caused by weak signals to produce a clearer picture and enhance the viewing experience.

• 3-Position Color Temperature

Customize picture to your personal flesh-tone preference with cool, normal and warm settings.

Ease of Use

• QuadraSurf™ TV-DVD Remote

Controls all TV and DVD features with easy to use onscreen menu. To personalize and customize TV viewing simply use each of the four colored surf buttons to view up to ten of your favorite programs by category (that's 40 total movie, sports, news, music, children's, etc.) or by family member. The AV inputs can also be programmed for use as a "source" selector.

• AutoPicture™

Instantly optimizes brightness, contrast, color, tint and sharpness settings with picture presets for Movies, Sports, Video games and weak signal reception.

• AutoSound™

Audio volume levels are automatically adjusted and optimized with the choice of three presets: Movies, Voice, Music plus an adjustable Personal setting.

• AutoMute™

Automatically activates the closed-captioning when the MUTE button is pressed.

• AutoLock™

Protects young children from objectionable programming with V-chip technology.

Closed Caption viewing

This television receiver provides display of television closed captioning in accordance with 15.119 of the FCC rules.

Sound Quality

• Stereo Sound system

Receives stereo broadcasts for performance through dual speakers for an exciting and lifelike sound.

• Bass & Treble Boost

Full, detailed sound from your favorite movies and shows with these menu-selectable controls.

Connectivity

• Component Video inputs

The best possible input for high resolution sources such as DVD, STBs and game consoles for superb color purity, detail and reduced color noise, surpassing even S-Video.

• S-Video input

The ideal way to connect high resolution picture sources like DVD, Digital Satellite & Cable TV and video games consoles for even better detail than standard Video inputs.

• Rear stereo AV inputs/outputs with digital audio

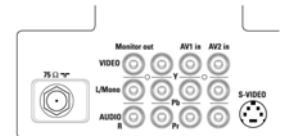

Connect a VCR, DVD, Satellite and video game through SVideo or stereo AV connection. Digital audio out plus Audio/video output jacks make adding a home theatre surround sound even easier!

• Side stereo AV in + headphone jack

Connecting digital cameras and video games is quick and easy. You can enjoy your favorite program or game in great stereo sound without disturbing others by connecting your headphones (optional) to the handy side jack.
