Power

- Battery lifetime: 12 months
- Number of batteries: 2

Infrared Capabilities

- Operating distance: 7 m
- Transmitting LEDs: 1
- Universal IR code database
- Number of brands in database: Over 300
- Carrier frequency range: 28–70kHz
- Transmission angle: 90 degree
- Learning IR codes
- Learning frequency range: 30–60 kHz

Accessories

- Battery: Yes, CR2032 Coin cell Battery 3V Lithium

Outer Box

- Length: 306 mm
- Width: 70 mm
- Height: 160 mm
- EAN/UPC/GTIN: 87 10895 93579 1
- Quantity: 3

Packaging Data

- 12NC: 908210006464
- EAN/UPC/GTIN: 87 10895 93578 4
- Height: 26 mm
- Length: 302 mm
- Width: 155 mm

Highlights

4-in-1 home entertainment remote
Replace a table full of remote controls with one unit that'll operate your TV, satellite receiver (or cable set-top box [STB]) DVD player/recorder and receiver (AMP), regardless of the brand or model.

Learning functionality
Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

Ultra-flat
A remote with ultra-flat design is slimmer than a standard remote. This is made possible by replacing the standard batteries by coin cell batteries (the size of a coin) that take up less space.

Dedicated menu keys
Dedicated keys to move easily around your equipment's menus mean simple one finger operation without having to press shift or function shift keys

Device mode indicator
Small lights keep you informed about which device mode is currently active.

Low battery indication
To promptly be aware when the batteries need to be recharged or replaced.

Auto brand search
Getting your new remote control working is simply a case of having your remote automatically search for the most suitable code for your equipment.
