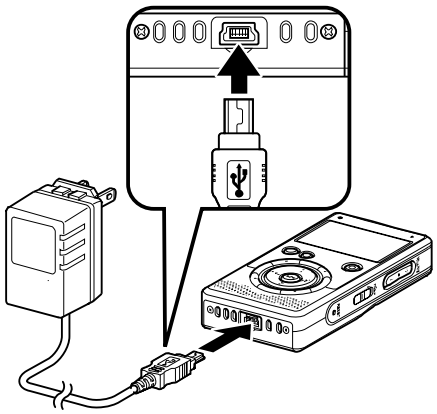
## II Battery Charging and USE

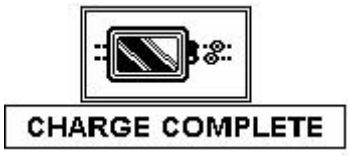
### 1 Charge battery using AC Adapter



- Connect the adaptor jack as shown in the diagram; taking note of the correct side.
- The battery can be charged using the AC adaptor, or by making a USB connection with a PC or MAC.
- It takes approximately 4hrs to fully charge the battery using either method.
  ☞ The 4hr charge time (for a full charge) is an estimate only. Actual time may vary depending on charging conditions.

### 2 Charging Status

Charging



Charge Complete

### 3 Battery Level

| | |
|---|---|
| | Full charge |
| | Some power consumed |
| | Power almost drained, should charge battery |
|  | No power, charge battery |

### 4 Playback and Recording Battery Life

| BATTERY TYPE | File Playback | Recording(Voice) |
|---|---|---|
| Li-polymer | APPROX 15HRS | APPROX 10HRS |

☞ Actual battery life may vary depending on use.
Before recording for a long period of time, please fully charge the battery.
A Li-polymer battery has its own battery life, if battery consumption has changed drastically, please replace the battery with a new one from www.pogoproducts.com

Download from Www.Somanuals.com. All Manuals Search And Download.

## III Memory Card

### 1 Memory Card

1) Memory Card Type: SD/MMC Card
2) Compatible Capacity: 32MB / 64MB / 128MB / 256MB / 512MB / 1GB

☞ An external memory card is not provided. You can buy one from just about any electronics store in your area.

### 2 Maximum Recording Time

128MB: 8.5hrs at 32Kbps
256MB: 17hrs at 32Kbps
512MB: 34hrs at 32Kbps
1GB: 68hrs at 32Kbps

### 3 Precaution

1) Do not take the memory card out while the unit is playing back or recording a file.
2) When using a new memory card, format the card inside the unit BEFORE using it.
3) If the memory card has been used in any device, (Digital Camera, MP3 Player etc) you must first format the card using a computer (FAT) and then again in the unit BEFORE using the card.
4) We do not recommend using a memory card in multiple devices.

### 4 Inserting a Memory Card

☞ When inserting a memory card in the unit, be careful and insert the card properly as shown in the diagram (taking note of the correct side up) or you may damage the card and/or Ext card slot.

### 5 Reset

If the unit is not operating properly, please reset the unit by pushing the reset button (found on the right side of the unit) gently with a thin object for 1 second. Please do not push the reset button using a sharp object.

| | | | |
|---|---|---|---|
| | <br> | An index file plays from the selected point of the file.<br><br>Only one point per file is applicable and if another file is indexed, the previous index is released.<br><br>Index file can be played by pressing ▲▼ to select "Index Play" and pressing ▶/■ | You can play index file by selecting "Index Play" and pressing ▶/■ |

3 RECORDING

☞ Precaution before recording

Please make sure of the following before recording:

- Select the internal or external memory.
- Check the amount of available memory.
- Select a bit rate.
- Check the battery life.

- We recommend using default bit rates.

| Key | | Function | Setting |
|---|---|---|---|
| MENU | Display and Key operation | | |
| Memory Type | | : Internal Memory<br>: External memory | Select Int memory or Ext memory by pressing the A-B/REPEAT button in AM, FM, MUSIC or VOICE mode. |

Download from Www.Somanuals.com. All Manuals Search And Download.

| | | | |
|---|---|---|---|
| | | If you press “A-B/REPEAT” without a memory card in the external memory slot, the error “NOT INSERTED CARD” will appear. | |
| |  | The memory remain icon is only displayed in AM/FM Mode. | Press “MODE” to select AM or FM in order to view how much memory remains. |

| | | | |
|---|---|---|---|
| RECORD |  | Same procedure is used to set:<br>- AM Record<br>- FM Record<br>- Line In Rec<br>- Mic Record<br>- Ext Mic Set<br>- Auto Sync | ①Press “MENU” and use ◀▶ to select the “RECORD” menu. |
| | | | |
| | | | ②Select “AM, FM, Line-in or Mic Record” using ▲▼ |

| | | | |
|---|---|---|---|
| SELECTING BIT RATE | | The higher the bit rate the better quality the recording will be. However, the recording will use more memory space. Before recording, Please make sure you have enough memory available. | ③Press ▶/■ |
| |  | | ④Select desired “bit rate” using ▲▼◀▶ |
| | | Complete Setting | ⑤Press ▶/■ to complete setting and exit. |
| Setting LINE-In/Mic |  | ☞ When connecting the unit to an external device (lapel mic etc), the unit must be off.<br><br>NOTE: MIC/Line-In option is used for LINE-IN/MIC-IN recording. | ①Select “line-In/Mic” and press ▶/■ |
| |  | | ②Use▲▼ to select desired option and press ▶/■ |
| | | | |

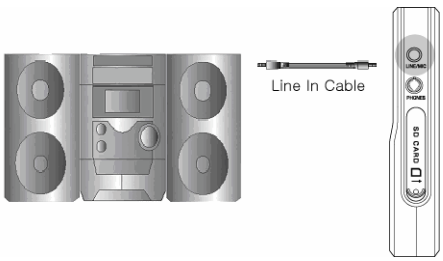
</tr>
<tr>
<td>  </td>
<td>③ Press” REC” button to Pause.<br>④ Press “▶/■” to Stop recording.</td>
</tr>
</table>

**Recording by External Microphone/Line-in**

When trying to record using the External Mic/Line-in, make sure an external microphone and/or Line in cable is securely connected to the LINE/MIC jack (External Input Terminal) and make sure you set **“Line-In/Mic”** to **MIC/Line-In** under the **RECORD MENU.**

☞ If an external microphone (lapel Mic etc) is connected, the internal microphone will not work.

**Recording thru Ext Device**



Connect one end of the Line-in cable to the headphone/line-out jack of your external device and the other end to the LINE/MIC jack of the set.

☞ When recording from an external device, adjust the volume of the source to avoid distorting the recording.

**AUTO SYNC**

AUTO SYNC REC: This separates a line-in recording into files by detecting the end of a file and creating a new file automatically while continuing or stopping the recording. You have 3 options:

① AUTO SYNC “OFF”

The file from the external device is recorded as one file only Simply press **RECORD** to start the recording and **PLAY** to stop it.

② AUTO SYNC “ONCE”

Only **ONE** file from the external device will be recorded Simply press **RECORD** and once the unit detects the end of the file, it will stop recording.

Download from Www.Somanuals.com. All Manuals Search And Download.

③ AUTO SYNC “AUTO”

This separates the recording into individual files (one by one) by detecting the end of a file and creating new files until all the files from the external device are recorded. Simply press RECORD and once the unit detects that all files have been recorded, it will stop recording.

| | | |
|---|---|---|
| | | ④ Select “Auto Sync” and press ▶/■ |
|  | | ⑤ Select desired option using ▲▼ |
| | Complete Setting | Press ▶/■ to complete setting and exit. |

## VII FURTHER OPERATION

### 1. Playback Speed

The playback speed (while playing a file) can be changed using the rewind or fast forward keys. (- short press; 10 seconds a second) (- - long press; 1 minute a second)

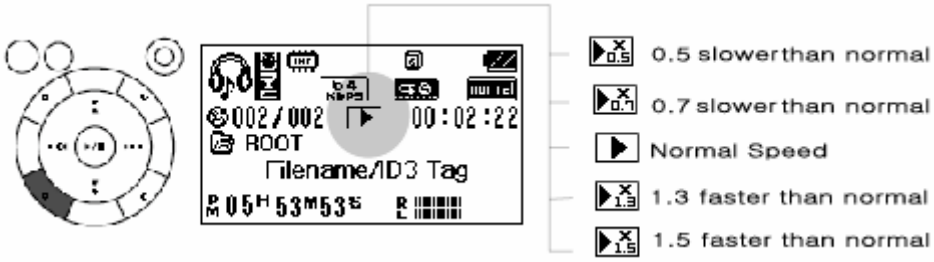
While Playing back

1) Forward and Rewind

| Forward (▶>) | Rewind(<◀) |
|---|---|
|  | |
| ▶〉: Display will show ▶▶(- Short) on the LCD and the file will fast forward 10 seconds a second until the end of the file.<br>▶/■ : Return to a normal play speed. | 〈◀: Display will show ◀◀(- short) on the LCD and the file will rewind 10 seconds a second until the end of the file.<br>▶/■ : Return to a normal play speed . |
| ▼: Skip current file and play the next file.<br>▲: Skip current file and play the previous file. | |

Download from Www.Somanuals.com. All Manuals Search And Download.

2) Playback Speed



You can change the playback speed of a file by pressing the "SPEED" button. Each press will speed up or slow down the file as follows: x13, x15, x05, x07 and back to normal. This function only works with MP3 files.

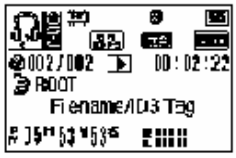
## 2 ERASING FILES

Erase unwanted files in the internal or external memory.

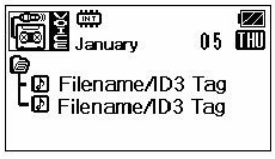
| Display | Key Operation |
|---|---|
|   | ① Use ▲▼ to select desired file. |
|   | ② Press "ERASE" |
|   | ③ Select "YES" by pressing ◀ and press ▶/■ to erase the file. |

You can't erase a file that is playing in the unit. ① Please stop playing the file ② so you can erase it per the instructions above.

①



②



☞ Once a file is deleted, it can not be recovered.
When erasing a file, DO NOT press any other key.

## 3 AM/FM Radio

1) FM Radio Reception

| ① Stereo Earphone | ② External Antenna |
|---|---|
|  |  |
| Stereo earphone acts as the antenna for the FM radio. | Plug in the provided Ext Antenna into the phones jack; in order to listen to FM broadcasts using the speaker. |

2) AM Radio Reception

The antenna to receive AM broadcasts is embedded in the unit. You are not required to plug in an external antenna in order to listen to AM radio. Please avoid placing the unit near electrical devices such as PC, iron structure building, TV or in a closed environment as this can interfere with your ability to get good reception. Place the unit near a window to get the best reception.

☞ If you set "TUNER SCREEN OFF" in the DISPLAY MENU, reception will be better.

Noise from LCD operation is decreased by turning off the LCD.

When the tuner screen is set off, pressing any button, will allow you to view the display.

Auto Seek: If you press and hold <◀ or ▶> about 1 second, the unit will attempt to find an audible broadcast channel. This will save you time in an unfamiliar area. After finding a station, Auto Seek will stop. When using Auto Seek to find a station, precise TUNING may not be available, in that case please perform a fine adjustment using the REW or FF key.

Preset: User can save (preset) up to 10 desired radio stations for quick access:

① Select a desired station to preset.

② Press "▶/■", and "Preset" will display and flicker on the LCD screen.

③ Select a desired preset No (1-10) using ▲▼ and save the preset by pressing ▶/■

Note: If you take too long (4 seconds) to confirm (i.e. push a button during the process) you will have to start all over again.

Download from Www.Somanuals.com. All Manuals Search And Download.

☞ Selecting a preset radio station

To quickly select a preset station press ▲▼ when in AM/FM mode.

To go back to normal tuning, use ◀▶

## 4 TIMER-RECORDING

You can program the unit to automatically record radio broadcasts via a daily or weekly timer-function; totally unattended. ☞ Before setting a "TIMER RECORDING", the current time and date must be correctly set.

<table>
<tr><th colspan="2">Key and Display</th><th>Operation</th></tr>
<tr><td colspan="2"> </td><td>① Press and hold TIMER (- -)<br>You can not set a timer recording when the unit is playing back a file, recording or in the menu mode.</td></tr>
<tr><td colspan="2"> </td><td>② Select different items using ▼</td></tr>
<tr><td rowspan="2">Cancellation of Setting</td><td> </td><td>③ Cancel TIMER RECORDING by pressing ERASE button.</td></tr>
<tr><td> </td><td>④ Use ◀▶ to select YES and press ▶/■</td></tr>
<tr><td rowspan="2">Save setting</td><td> </td><td>③ Save a TIMER RECORDING by pressing ▶/■ during the setting.</td></tr>
<tr><td> </td><td>④Use ◀▶ to select YES and press ▶/■</td></tr>
<tr><td colspan="3">☞ If Start and end times are the same, the TIMER RECORDING screen will display the following error NOT USED END TIME and the Timer-Recording will not be set.</td></tr>
</table>

Download from Www.Somanuals.com. All Manuals Search And Download.

## 5 Timer Recording Settings

☞ Select an item using ▼▲ and select an option using ◀▶

| Setting Item | Option | Function and Operation |
|---|---|---|
| ① Timer Recording No (SCHEDLE) | 01~20 | Select Timer Recording No 1-20 using ◀▶<br>The file recorded by a TIMER RECORDING is saved its BOX folder (No01 will go in BOX01, No02 in BOX02 etc)<br><br>☞ The file recorded in BOX01-20 is available in VOICE mode only. You can view folders by setting the **Play Style** to **Normal Style** in the **Play menu.** |
| ② TYPE | DISABLE | TIMER-RECORDING OFF (WILL NOT RECORD/TURN ON) |
| | RECORD | Start Recording on a set time/date (Timer-Recording) |
| | PLAY | Play music/radio on a set time/date (Alarm Function) |
| ③ MEMORY | INTERNAL | Record to the Internal Memory<br>Use ▲▼ and highlight "MEMORY", press ◀▶to select INTERNAL or SD CARD. |
| | EXTERNAL | Record to an External memory card (refer to procedure above)If a memory card is not inserted in the unit, the error "CAN'T READ SD-CARD" will be displayed for 3 seconds. |
| ④ DATE SET | Setting Day, Month and Year<br>- Use ▲▼ and highlight "DATE SET", press ◀▶to select WEEK or DATE.<br>- If using WEEK, use ▼ and highlight "WEEK" and select day using ◀▶<br>- If using DATE, use ▼ and highlight "DATE" and select Month using ◀▶<br>- Next move to day field using ▼ and select a day of the month using ◀▶<br>- Once you set Month and day use ▼ to move to another setting. | |
| | WEEK | Set Day (Mon, Tue, Wed, Thu, Fri, Sat, Sun, M-F)<br>Use setting to record same day(s)/time every week. |
| | DATE | Set Month and Day (ex Mar 05)<br>Use to record a specific date/time one time during a year. |
| If ②**TYPE** is set to **PLAY,** Source option is AM, FM and MUSIC Use ▲▼ to select Source and ◀▶ for option. | | |

Download from Www.Somanuals.com. All Manuals Search And Download.

| | | |
|---|---|---|
| ⑤ SOURCE | SOURCE AM | Use ▲▼ to select FREQ, press ◀▶ to select preset,or ▼ and then ◀▶ to select a station and ▼ to finalize selection. |
| | SOURCE FM | Use ▲▼ to select FREQ press ◀▶ to select preset, or ▼ and then ◀▶ to select a station and ▼ to finalize selection. |
| | SOURCE MUSIC | Use ▼ to highlight folder field and ◀▶ to select a specific folder, Press ▼ to highlight file field and ◀▶ to select a specific file and ▼ to finalize selection. |
| If ②**TYPE** is set to **RECORD,** option is AM, FM, MIC and LINE Use ▲▼ to select Source and ◀▶ for option. | | |
| ⑤ SOURCE | SOURCE AM | Use ▲▼ to select FREQ, press ◀▶ to select preset, or ▼ and then ◀▶ to select a station and ▼ to finalize selection. |
| | SOURCE FM | Use ▲▼ to select FREQ, press ◀▶ to select preset, or ▼ and then ◀▶ to select a station and ▼ to finalize selection. |
| | SOURCE MIC | Record using the microphone (Ext or Int) a certain day/time per WEEK/DATE setting. External Microphone has priority.<br>- Bit rate: 32, 64, 96,128,192 and 256 selectable |
| | SOURCE LINE-IN | Record from external device a certain day/time per WEEK/DATE setting; even if external device is not connected.<br>Bit rate: 32, 64, 96,128,192 and 256 selectable |
| ⑥ BITRATE | BITRATE | Use ▲▼ to select BITRATE, ◀▶ to change ▼ to finalize. |
| ⑦START/END | Hr and Min | Use ▲▼ to select START, ◀▶ to change hour ▼ to select minute, ◀▶ to change minute ▼ to move to End Time and repeat procedure again. |
| ⑧ Save the TIMER-RECORDING | | Press ▶/■ and use ◀▶ to select “YES” and press ▶/■ |

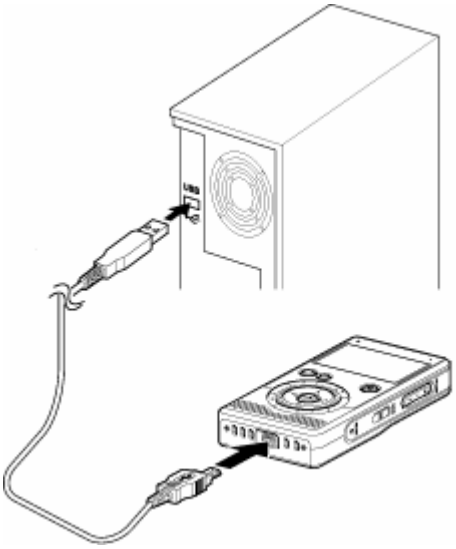
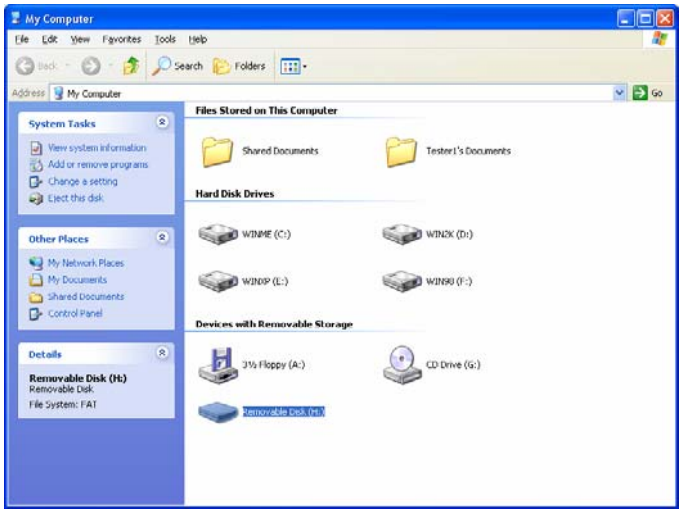
## VIII PC CONNECTION

### 1 Win XP, 2000 and ME

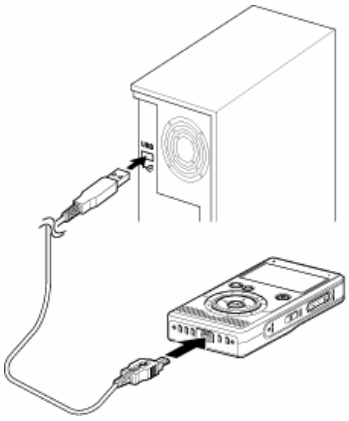
You can connect the unit with a computer using the provided USB cable. No special application is required unless you use Win98SE





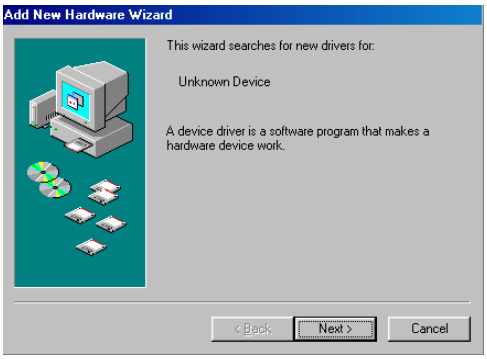
When you connect the unit to a USB port, it will be recognized as a “Removable Disk” in Win XP, 2000, ME

### 2 Install Driver for Win98SE

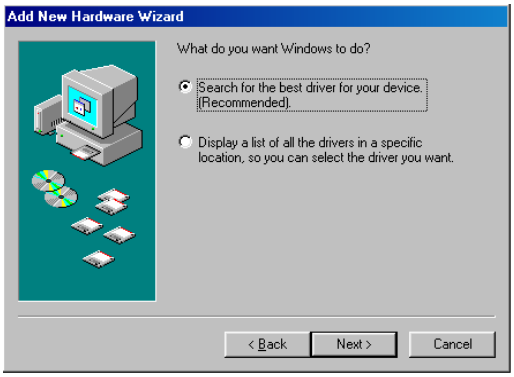


① Connect device to USB port

Download from Www.Somanuals.com. All Manuals Search And Download.



② Click “Unknown Device” window

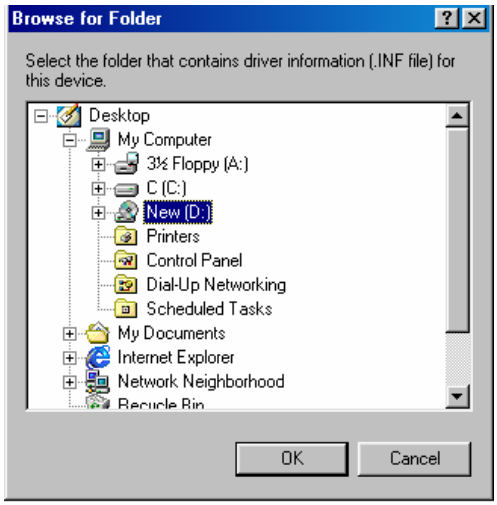


③ Check ‘Search for the best driver for your device’ and click ‘next’

④ Check ‘Specify a location’

⑤ Insert Driver CD inside your computer’s CDROM

⑥ Click “Next” button



⑦ Click your CDROM drive (D: in most cases) and click “OK”

Download from Www.Somanuals.com. All Manuals Search And Download.

⑧ Click ‘Next”

⑨ Click ‘Finish’ to complete installation

☞ To make sure the installation has been successfully completed, check for the device in the device manager: [My Computer]-[Control Panel]-[System]-[Device Manager]

### 3. PC Connection Display

| “USB CONNECT” | “FILE UPLOAD” | “FILE DOWNLOAD” |
|---|---|---|
|  |  |  |

### 4. Safely Removing Hardware from a PC

You are required to safely remove your hardware before disconnecting the device from the USB port.

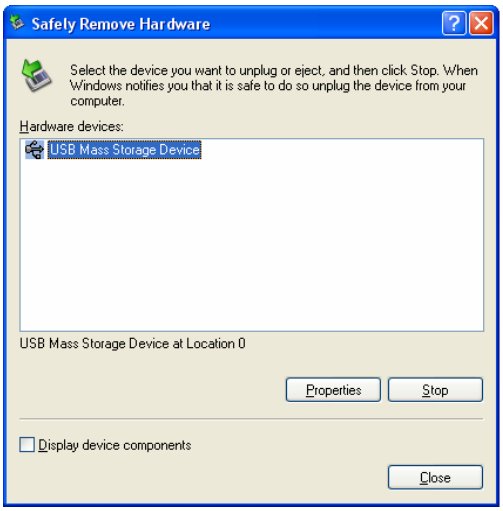
① Close open files

If there are any open files in the unit, you should close them to avoid any errors.

②Click ( ), in the tool bar:

Download from Www.Somanuals.com. All Manuals Search And Download.

③ The following window will show, select USB Mass Storage Device and click ok. After that, select USB Mass Storage device again and click stop.



④ When you get the message below, it is safe to disconnect the USB cable from the PC.

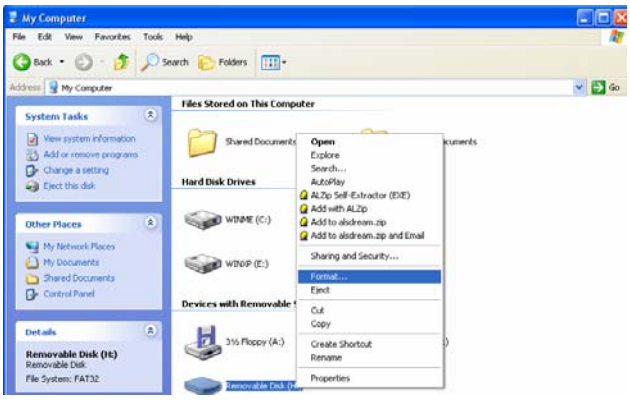
Download from Www.Somanuals.com. All Manuals Search And Download.

# IX FORMATTING

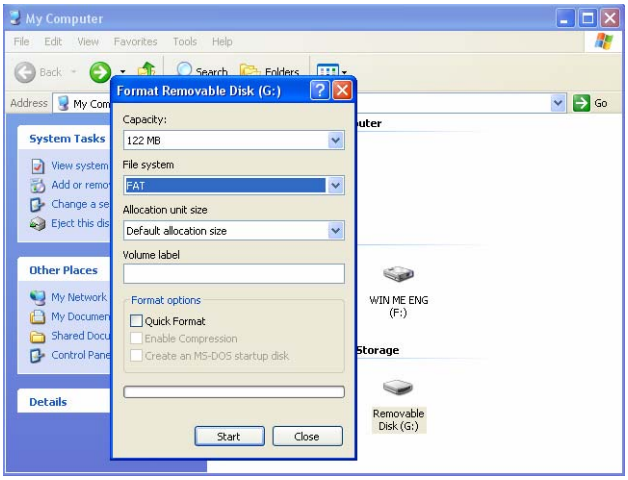
## 1 Formatting Memory using a PC

☞ Format must be done in FAT and all files and settings are lost when you format

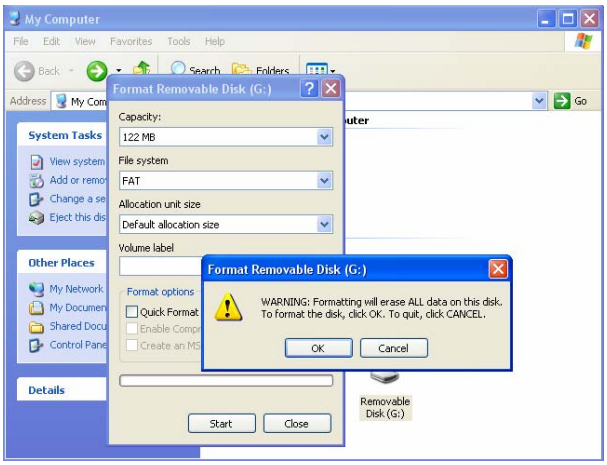
① Click [My Computer] and right click Removable Disk (usually E/F:) and the following toolbar will appear



② Click “Format”

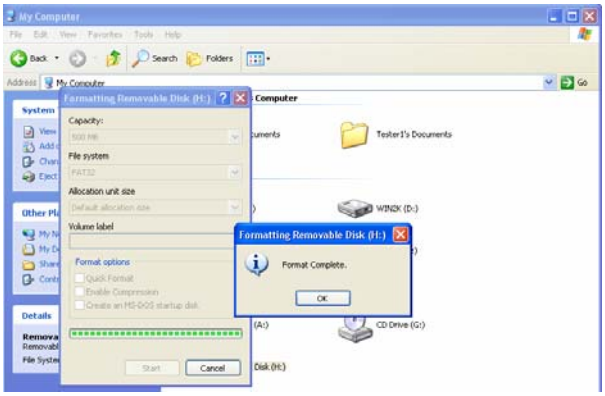


③ Choose FAT and then click ‘start’



Download from Www.Somanuals.com. All Manuals Search And Download.

④ Click ‘ok’



⑤ Format is complete

## 2. Formatting memory using the unit (without a connection to a PC)

①Press “MENU”

②Move to desired setting (INT/EXT Format) using ▲▼

| |
|---|
| ③Select “Int format” and press ▶/■ |
| ④Use◀▶to select “YES” or “NO” |
| ⑤Press ▶/■ to complete setting and exit. |
| ③ Select “Ext format” and press ▶/■ |
| ④Use◀▶to select “YES” or “NO” |

☞ If you format the memory all files are lost.

Download from Www.Somanuals.com. All Manuals Search And Download.

### 3. Formatting current firmware

If the unit stops working normally, (hangs up and does not operate properly despite a normal reset), please try to format the current firmware. If you do this, all the settings except the date and time will initialize.

① Hold On
② Hold ERASE key for 10seconds
③ While holding the ERASE key, gently press the "RESET" hole using a thin object
④ Keep holding "ERASE" until "Please Wait……Formatting" is display on the LCD
⑤ Hold off
⑥ Turn On

☞ After formatting the firmware, the display will be normal. However, we recommend you download and install the latest firmware from http://www.pogoproducts.com/pogoftp.html

## X UPGRADING FIRMWARE and FONT

You can improve functions and/or correct errors by upgrading firmware:

① The latest firmware can be downloaded from http://www.pogoproducts.com/pogoftp.html
② To do a firmware upgrade, copy the firmware file(*yuf) to the root folder of the unit.
③ After transferring the file, disconnect the USB cable and reset the unit to begin the upgrade.
④ When you reset the unit, it will automatically try to upgrade the firmware.

☞ The unit automatically detects its firmware version, so if the firmware is older than the current one inside the unit, the upgrade will not take place. If the unit is not operating properly, please format the current firmware before trying to upgrade the firmware.
