

42" HD Plasma TV with ATSC Tuner

PLA-4248

20060306

Polaroid. Add a little color to your life.

Since 1937, America has turned to Polaroid for their photography needs. Today, families look to Polaroid for consumer electronics that define the digital age: plasma and LCD TVs, portable and standard DVD players, digital cameras. And while our selection has changed, you'll still receive the same friendly, helpful service that made Polaroid an American icon. Congratulations on your new Polaroid Plasma TV purchase. To ensure your new Plasma TV provides you with years of enjoyment, please read this guide carefully.

Important Information

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities or the Electronic Industries Alliance: www.eia.org

FCC STATEMENT

FCC Notice

PDP TV: A CLASS B digital device

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC CAUTION:

Pursuant to 47CFR, Part 15.21 of the FCC rules, any changes or modifications to this monitor not expressly approved by the manufacturer could cause harmful interference and would void the user's authority to operate this device.

WARNING: This is a CLASS B product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures to counter interference.

Important Safety Precautions

Electrical energy can perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. But **IMPROPER USE CAN RESULT IN POTENTIAL ELECTRICAL SHOCK OR FIRE HAZARD**. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your PDP TV product, please read the following precautions carefully before using the product.

1. Read these instructions---All operating instructions must be read and understood before the product is operated.

2. Keep these instructions---These safety and operating instructions must be kept in a safe place for future reference.

3. Heed all warnings---All warnings on the product and in the instructions must be observed closely.

4. Follow all instructions---All operating instructions must be followed.

5. Do not use this apparatus near water---for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, and the like.

Do not use immediately after moving from a low temperature to high temperature environment, as this causes condensation, which may result in fire, electric shock, or other hazards.

6. Clean only with dry cloth---Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

7. Ventilation---Do not block any ventilation openings. Install in accordance with the manufacturer instructions. The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.

8. Heat sources---Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Grounding or Polarization---Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Power cord protection---Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Attachments---Only use attachments/accessories specified by the manufacturer. Do not use attachments not recommended by the manufacturer. Use of improper attachments can result in accidents.

Important Safety Precautions (continued)

12. Stand---Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. Do not place the product on an unstable trolley, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.

13. Move carefully---When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over. Sudden stops, excessive force and uneven floor surfaces can cause the product to fall from the trolley.

14. Lightning---Unplug this apparatus during lightning storms or when unused for long periods of time.

For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

15. Servicing---Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

16. Replacement parts---In case the product needs replacement parts, make sure that the service person uses replacement parts specified by the manufacturer, or those with the same characteristics and performance as the original parts. Use of unauthorized parts can result in fire, electric shock and/or other danger.

17. Overloading---Do not overload wall outlets, extension cords, or convenience receptacles on other equipment as this can result in a risk of fire or electric shock.

18. Entering of objects and liquids---Never insert an object into the product through vents or openings. High voltage flows in the product, and inserting an object can cause electric shock and/or short internal parts. For the same reason, do not spill water or liquid on the product.

19. Damage requiring service---If any of the following conditions occurs, unplug the power cord from the AC outlet, and request a qualified service person to perform repairs.

- a. When the power cord or plug is damaged.
- b. When a liquid is spilled on the product or when objects have fallen into the product.
- c. When the product has been exposed to rain or water.
- d. When the product does not operate properly as described in the operating instructions.

Do not touch the controls other than those described in the operating instructions. Improper adjustment of controls not described in the instructions can cause damage, which often requires extensive adjustment work by a qualified technician.

- e. If the product has been dropped or the cabinet has been damaged in any way.
- f. When the product displays an abnormal condition or exhibits a distinct change in performance. Any noticeable abnormality in the product indicates that the product needs servicing.

20. Safety checks---Upon completion of service or repair work, request the service technician to perform safety checks to ensure that the product is in proper operating condition.

21. Wall or ceiling mounting---When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer. This is a safety feature.

Important Safety Precautions (continued)

22. Power source---This product is intended to be supplied by a listed power supply indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the cable system. This will prevent damage to the product due to lightning and power line surges. When the unit has to be used with another power supply voltage, the power cable must be changed. Consult your product dealer. The socket outlet should be installed near the equipment and easily accessible. Use only the power cord designated by our dealer to ensure safety and EMC. When connecting other products such as VCRs and personal computers, you should turn off the power of the unit for protection against electric shock.

23. Panel protection---The PDP panel used in this product is made of glass. Therefore, it can break when the product is dropped or impacted upon by other objects. Be careful not to be injured by broken glass pieces in case the PDP panel breaks.

24. Pixel defect---The PDP panel is a very high technology product, giving you finely detailed pictures. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.

Using the Remote Control

- Use the remote control by pointing it towards the remote sensor window of the set. Objects between the remote control and sensor window may prevent proper operation.

Note: This illustration is for reference only. The remote sensor may be in different locations on different models.

Cautions regarding use of remote control

- Do not expose the remote control to shock. In addition, do not expose the remote control to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control under direct sunlight. The heat may cause deformation of the unit.
- The remote control may not work properly if the remote sensor window of the main unit is under direct sunlight or strong lighting. In such a case, change the angle of the lighting or PDP TV set, or operate the remote control closer to the remote sensor window.

Batteries for the Remote Control

1 Open the battery cover.

2 Insert two size-AA batteries.

- (Place the batteries with their terminals corresponding to the (+) and (-) indications in the battery compartment.)

3 Replace the cover.

Precaution on battery use

Improper use of batteries can result in a leakage of chemicals and/or explosion. Be sure to follow the instructions below.

- Place batteries with their terminals corresponding to the (+) and (-) indications.
- Different types of batteries have different characteristics. Do not mix batteries of different types.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries and/or cause old batteries to leak chemicals.
- Remove batteries as soon as they are non-operable. Chemicals that leak from batteries can cause a rash. If chemical leakage is found, wipe with a cloth.
- The batteries supplied with the product may have a shorter life expectancy due to storage conditions.
- If the remote control is not used for an extended period of time, remove the batteries from the remote control.

Setup

Power connection

1. Connecting the female plug to the AC socket on the unit.
2. Connecting the male plug to the wall outlet as illustrated.

Note:

- This product should be operated only from the type of power source indicated on the marking label.
- Always unplug the AC cord from power outlet when not using for a long period of time.

Speaker connection

Note:

1. Unplug the plasma display and all connected components before connecting the speakers.
2. The illustration may be different depending on model.

Antenna Connection

Cable TV (CATV) connection

A 75-ohm coaxial cable connector is built into the set for easy hookup. When connecting the 75-ohm coaxial cable to the set, screw the 75-ohm cable to the ANT. Terminal.

Some cable TV companies offer "premium pay channels". Since the signals of these premium pay channels are scrambled, a cable TV converter/descrambler is generally provided to the subscriber by the cable TV company.

This converter/descrambler is necessary for normal viewing of the scrambled channels. For more specific instructions on installing cable TV, consult your cable TV company. One possible method of utilizing the converter/descrambler provided by your cable TV company is explained below. Please note: An RF switch provided with two inputs (A and B) is required (not supplied).

"A" position on the RF switch (not supplied): You can view all unscrambled channels by using the TV's channel keys.

"B" position on the RF switch (not supplied): You can view the scrambled channels via the converter/descrambler by using the converter's channel keys.

Note:

Consult your Dealer or Service Center for the type of splitter, RF switch or combiner that might be required.

Antennas

The antenna requirements for good color television reception are more important than those for black & white television reception. For this reason, a good quality outdoor antenna is strongly recommended.

The following is a brief explanation of the type of connections that are provided with the various antenna systems.

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (not supplied).
2. A 300-ohm system is a flat "twin-lead" cable that can be attached to a 75-ohm terminal through a 300-75-ohm adapter (not supplied).

Outdoor antenna connection

Use one of the following two diagrams if you connect an outdoor antenna.

A: Using a VHF/UHF combination outdoor antenna.

B: Using separate VHF and/or UHF outdoor antennas.

Connect the outdoor antenna cable lead-in to the ANT. terminal on the rear of the TV set.

Identification of Controls

Main unit (front view)

1. POWER ⏻
Press this button to turn the unit ON from STANDBY mode. Press it again to turn the set back to STANDBY.
2. MENU
Press this button to access the MENU main page.
3. Volume ◀ / ▶
Press the VOL ▶ or VOL ◀ button to directly increase or decrease the sound volume level.
In OSD Menu, press these buttons to adjust the value or setting of each item
4. Channel ▲ / ▼
Channel Down or up.
In OSD Menu, press these buttons to choose the OSD items.

Note:

POWER ⏻, VOL ◀ / ▶, CH ▲ / ▼ and MENU on the main unit have the same functions as the corresponding buttons on the remote control.

This operation manual provides a description based on operating functions with the remote control.

Main unit (rear view)

1. Speaker output jacks

2. RS232 control interface

For service only. The user cannot operate the unit through the RS232 terminals.

3. S/PDIF digital audio out terminal (optical)

4. HDMI input

To connect with those equipments with HDMI interface, for example, Set-top box or DVD player.

5. D-Sub interface /Audio in

Connect with those equipments with D-Sub interface, for example, PC.

Connect the audio jacks as well with audio cable.

6. Component inputs 1

Connect to the audio and component output jacks of a DVD player or Set-Top Box.

7. Component inputs 2

Connect to the audio and component output jacks of a DVD player or Set-Top Box.

8. AV outputs

Connect to the VCR input jacks to record programs.

9. Earphone jack

10. S-Video input

Receive a S-Video signal from external source such as VCR or DVD player.

11. AV inputs 1

Receive a video/audio signals from external sources such as VCR or DVD player.

12. AV inputs 2

Receive a video/audio signals from external sources such as VCR or DVD player.

13. Antenna input

Allow you to connect cable or outdoor antenna.

14. AC power input

Identification of Controls

Remote Control

1. POWER Turn the unit on or off
2. To select additional products to be controlled with remote control
Note: This remote control is an universal remote control. If your remote control does not work correctly when you operate the unit, please try to press TV button.
3. Direct channel selector/number buttons
Use these number buttons to select channel or input password.
4. INPUT / ●
To quickly select input source
DOT (●) : used to enter a program number for multiple program channels such as 2-1,2-2, etc.
5. LAST
To quickly return to the previous channel
6. CH+/-
To select channels upward or downward
7. VOL+/-
Used to adjust volume.
8. MUTE
Sound mute
9. MENU
To access the Menu main page
10. INFO
To display channel status or signal information
11. Menu navigation button:
 : To move upward or downward in menu operation;
 : To move left or right in menu operation;
To adjust selected menu item in menu operation;
OK button: To confirm or toggle between the settings of the selected menu item.
12. EXIT
Used to exit the menu
13. STILL
To freeze current picture
14. ASPECT
To select screen aspect ratio
15. DISPLAY
To display channel status or signal information
16. CAPTION
To select closed caption mode
17. SLEEP
To set Sleep timer
18. STEREO
To select STEREO, SAP or MONO
19. PICTURE MODE
To select the picture mode
20. SOUND MODE
To select the sound mode

Connections

Cautions before connecting

- Carefully check the terminals for position and type before making any connections.
- The illustration of the external equipment may be different depending on your model.
- Loose connectors can result in image or color problems. Make sure that all connectors are securely inserted into their terminals. Refer to the user manual of the external device as well.
- When connecting an external device, turn the power off on the panel to avoid any issues.

Connect an Audio Processor or Hi-Fi (Digital Audio)

For a full Home Theater sound experience, you must connect your Hi-Fi or Audio processor to the S/PDIF (Optical) terminal on the

Optical cable

S/PDIF OUT
(Optical)

OR

Audio Processor

HiFi System

Connect a VCR

How to connect:

Connect the Audio/Video cables between the Audio (L/R)/Video jacks on the unit and VCR.

Note: For better video, you can use the S-video terminal if your source supports it.

To play VCR

1. Turn on your PDP TV, press INPUT button on the remote control to select Composite1 (or S-Video if using S-VIDEO terminal).
2. Turn on your VCR, insert a videotape and press the Play button.

Video cable
Audio cable
S-video cable

- Ⓜ Yellow (VIDEO)
- Ⓜ White (AUDIO L)
- Ⓜ Red (AUDIO R)

Rear of the VCR

Connect a Camcorder

- Ⓜ Yellow (VIDEO)
- Ⓦ White (AUDIO L)
- Ⓡ Red (AUDIO R)

How to connect:

Connect the Audio/Video cables between the Audio (L/R)/Video jacks on the unit and camcorder.

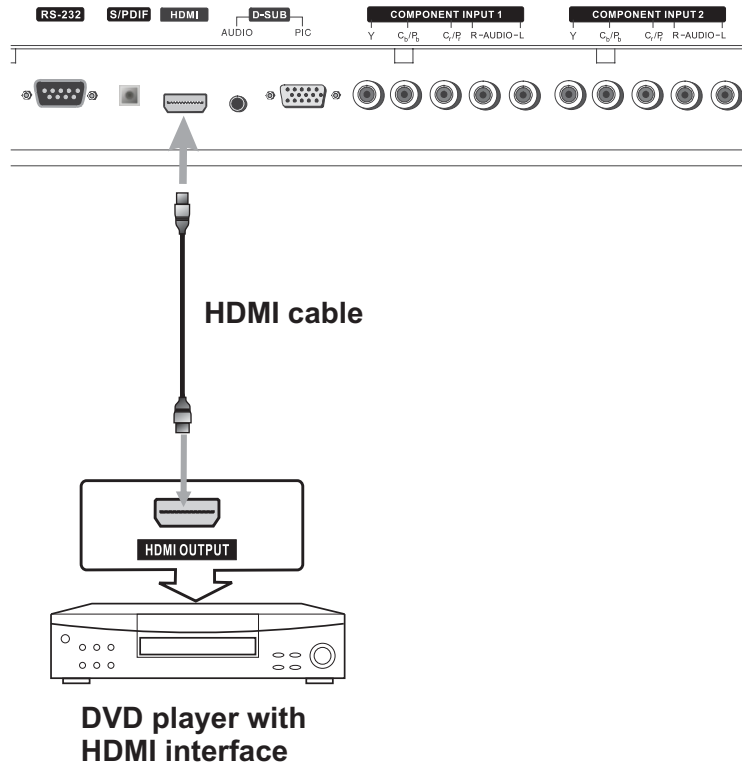

To playback Camcorder

1. Turn on your PDP TV , press INPUT button on the remote control to select Composite 2.
2. Turn on your VCR , insert a videotape and press the Play button.
3. Turn on your camcorder and set it to output mode. (For details, refer to your camcorder user manual.)
4. Insert the tape into the camcorder and press Play button.

Note:

The operations of the camcorder may be different and is dependant on your model.
Please read the user manual of your camcorder to confirm operation.

Connect a DVD player

How to connect a DVD Player using HDMI Connection:

Connect the HDMI cable between the HDMI interface on the unit and HDMI output on the DVD player.

To play DVD

1. Turn on your PDP TV , press INPUT button on the remote control to select HDMI.
2. Turn on your DVD player, insert a DVD disc and press the Play button.

Note:

If the external device has DVI output only, use a DVI to HDMI adapter cable to connect to the HDMI terminal. Connect the audio cable to the AUDIO IN terminal of D-SUB on the TV

Connect a DTV receiver

How to connect:

Connect the cable or antenna to the antenna input jack on the DTV receiver.

Connect the Video cable between the Y, Pb, Pr input jacks on the unit and Y, Pb, Pr output jacks on the DTV receiver .

Connect the Audio cable between the AUDIO input jack on the unit and AUDIO output jacks on the DTV receiver.

To Watch DTV

1. Turn on your PDP TV , press INPUT button on the remote control to select Component1.
2. Turn on your DTV receiver.

Connect a PC

How to connect:

Connect a D-sub cable between the D-sub jack on the PC and the D-sub input jack on the unit.
 Connect an Audio cable between the AUDIO output on the PC and AUDIO input jack on the unit.

To Watch the PC screen

1. Turn on your PDP TV, press *INPUT* button on the remote control to select VGA.
2. Turn on your PC and check for PC system requirements.
3. Adjust the PC screen.

Connect a VCR (for recording) or external amplifier

How to connect:

Connect the Audio/Video cables between the Audio (L/R)/Video jacks on the unit and VCR.

- Or -

Connect the Audio cables between the Audio (L/R) jacks on the unit and external amplifier.

To record program

1. Turn on your PDP TV, select a program you wish to record.
2. Turn on your VCR, insert a videotape for recording.
3. Press the Record button to begin recording.

To enjoy high-quality sound through an external amplifier

Note:

The operations of the amplifier may be different depending on model. Please read the user manual of your amplifier to confirm proper operation.

The AV output terminals output audio/video signal inputted from Antenna input or AV inputs.

Basic Operations

Turning the Unit On and Off

Turning On

Insert the power cord into the wall outlet.

Press the **Power**  button on the remote control, the unit will be turned on and you will be ready to use its features.

Turning Off

With the power on, press the **Power**  button on the remote control to turn off.

Note: You can also use the **Power**  button on the control panel on the main unit.

Viewing the Menus and Displays

This unit has a simple, easy-to-use menu system that appears on the screen. This system makes it convenient and fast to use features on the unit. The unit also lets you display the status of many of your TV features.

Menu navigation

- 1 With the power on, press the **MENU** button to display the main menu.
- 2 Press  or  button to select menu page.
- 3 Press **OK** or  button to enter the menu page.
- 4 Within the menu, use , ,  or  to navigate or adjust.
Press **OK** or  button to confirm, enter sub-menu or toggle the settings of the selected menu item.
- 5 Press **MENU** button to return to the previous level menu.
Press **EXIT** button to exit the main menu and return to your program.

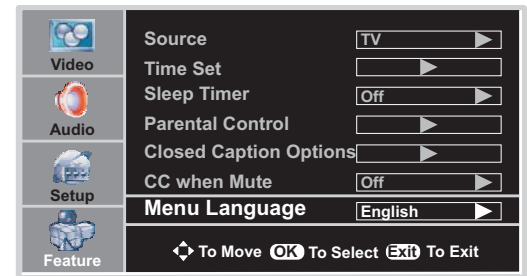

Note: to clearly introduce the menu operations, this operation manual provides a description based on operation with the remote control.

Displaying Status Information

Press the **INFO** button on the remote control, the unit will display current status information such as channel number or signal source, etc.

On-screen Menus Language Selection

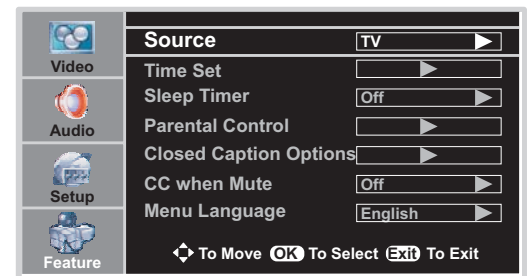

- 1 Press **MENU**.
- 2 Press  or  to select **Feature** menu, press **OK** or  to access the submenu.
- 3 Press  or  to select **Menu Language** item, press **OK** or  to select your desired language.
- 4 Press **EXIT** button to return to TV viewing.

Selecting Input Source Signal

- 1 Navigate to the **Feature** menu and highlight **Source**.
- 2 Press **OK** or  to select your desired input source.

Note: You may directly press **INPUT** button on the remote control to select input source.

TV -----Select TV signal.

Composite1-----Select signal from AV INPUT1 terminals.

Composite2-----Select signal from AV INPUT2 terminals.

Component1-----Select signal from COMPONENT INPUT1 terminals.

Component2-----Select signal from COMPONENT INPUT2 terminals.

VGA-----Select signal from D-SUB input interface.

HDMI-----Select signal from HDMI input interface.

S-Video-----Select signal from S-VIDEO input terminal.

Memorizing the Channels

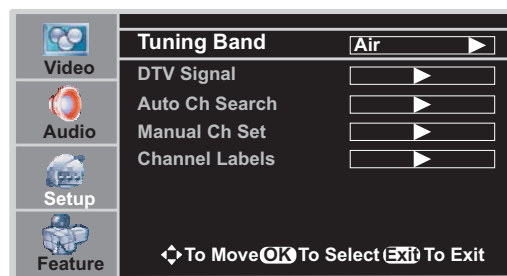

This unit can automatically find all channels available through antenna or cable inputs, and store them in memory.

Note: Be sure to select the **TV** source before operation.

Selecting the Tuning Band

Before your TV can memorize the available channels, you must specify the type of signal source that is connected to the unit. (i.e., an antenna or cable system)

- 1 Press **MENU** to display the menu main page.
- 2 Press **▲** or **▼** repeatedly to select **Setup** menu.
- 3 Press **OK** or **▶** to access the submenu.
- 4 Press **▲** or **▼** to select **Tuning Band** item.
- 5 Press **OK** or **▶** to select the Tuning Band.

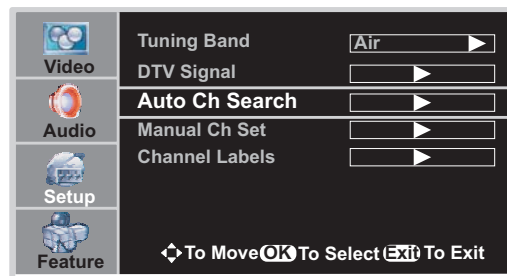

Air, Cable, Cable HRC, Cable IRC and **Cable Auto** can be selected.

- ◆ If using antenna, select **Air**;
- ◆ If using cable, select one of **Cable/Cable HRC/Cable IRC/Cable Auto** according to your local area's cable system. **Normally please select Cable Auto.** (For further band information, contact your cable service provider.)

Auto Channel Search

- 1 Navigate to the **Setup** sub-menu and highlight **Auto Ch Search**.
- 2 Press **OK** or **▶** to begin the auto channel search. The unit will automatically search for all available TV/DTV (if using antenna), CATV/CADTV (if using cable) program.

Note: if you want to stop the auto-search, press **EXIT** button.

Manual Channel Set

After setting channels into memory, you can add or delete channels from the default channel list as follows:

- 1 Navigate to the **Setup** sub-menu and highlight **Manual Ch Set**.
- 2 Press **OK** or **▶** to open **Manual Channel Set Menu** sub-menu.
- 3 Use navigation buttons (**▲**, **▼**, **◀** or **▶**) to navigate and select, use **OK** button to add (the added channel will have a mark) or delete the channel. (If you want to toggle between NTSC and ATSC, use navigation buttons to highlight it, and then use **OK** to toggle.)
- 4 Press **EXIT** button to exit.

Now when you use **CH+/-** buttons to cycle among the channels, the deleted channels can not be selected.

Note:

- For DTV program, you can only delete the programs from the list, you can not add it.
- You can make use of **Manual Channel Set Menu** to know whether an ATSC channel exists as a sub channel.

Use **OK** button to toggle between NTSC and ATSC after highlighted.

DTV Signal Strength

You can make use of DTV signal strength monitor to check how strong your DTV signal is and whether you need to adjust your antenna or digital cable input. The higher the signal strength, the less likely you are to experience picture degradation.

- 1 Navigate to the **Setup** sub-menu and highlight **DTV Signal**.
- 2 Press **OK** or **▶** to view the on-screen signal strength monitor to see the quality of the signal being received.

Channel Label Setup

If required, you can give a name to the programs.

Note: if a channel label is provided on the signal from the broadcasting station, the TV displays a short name for a DTV channel even if you didn't setup a label for the channel.

- 1 Navigate to the **Setup** sub-menu and highlight **Channel Labels**.
- 2 Press **OK** or **▶** to open **Channel Labels Menu**.
- 3 Within the menu, use **◀ / ▶** to move the highlight or cursor. Use **▲ / ▼** to toggle between NTSC and ATSC, or select channel number, or select character. You may use **OK** button to return to the previous level menu.
- 4 To quit, press **EXIT** button.

Information about USA channel numbering

- ATSC PSIP channel has two part channel number:
 - Major channel number ⇒ Frequency
 - Minor channel number ⇒ Sub channel on frequency
- In USA, the major channel number is same for both analog and digital frequencies. (It is equal to the NTSC channel number for existing broadcasters.)
- In USA, a minor channel number of zero is used for a broadcaster's analog channel.

Channel Numbering Example

- Original NTSC Channels for Des Moines:
 - 5, 8, 11, 13, 17
- Possible NTSC + ATSC Channels for Des Moines:
 - 5-0, 8-0, 11-0, 13-0, 17-0 (channel numbers for existing analog channels, all on original NTSC analog frequencies)
 - 5-1, 5-2, 8-1, 8-2, 8-3, 8-4, 13-1 (channel numbers for digital channels on three new digital frequencies)

Channel Selection

Using the Channel up/down buttons (CH+ or CH-)

Press the **CH+** or **CH-** to cycle among available channels found.

Using the direct select buttons (0-9 and dot buttons)

Press the **number buttons (0-9)** and the **dot button (•)** to go directly to a channel.

For example, if you want to select channel 8-3, just key in '8', '•', '3' on the remote control.

Note:

- *When you use the number buttons, you can directly select any channel within the channel range .*
- *In some situations virtual channel numbers have no correspondence to physical frequencies.*

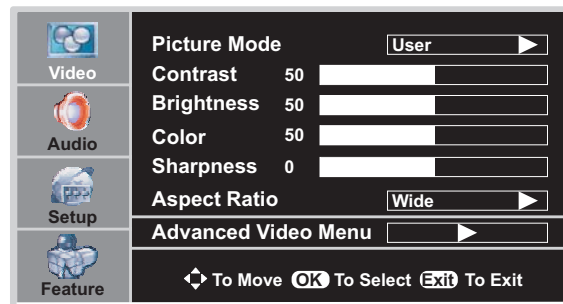

Using the LAST button

Press this button to switch between the current channel and the last viewed channel.

Setting Picture

Customizing the Picture

- 1 Press **MENU** to display the menu main page.
- 2 Press **▲** or **▼** repeatedly to select **Video** menu.
- 3 Press **OK** or **▶** to access the submenu.
- 4 Within the menu, use **▲**, **▼**, **◀** or **▶** to navigate or adjust. Press **OK** or **▶** button to confirm, enter sub-menu or toggle the settings of the selected menu item.
- 5 Press **EXIT** button to exit.

Notes:

The OSD illustration shown above is Video menu in RF(TV) mode.

The menu items may be different when the unit works in different mode.

Option	Function	Choice/remarks
Picture Mode	Selects a desired picture mode.	User/Nature/Soft/Bright Note: you may directly press PICTURE MODE button on the remote control to select.
Contrast	Adjusts image contrast.	▶ : stronger ◀ : weaker
Brightness	Adjusts screen brightness for easier viewing of dark picture such as night scenes and black hair.	▶ : lighter ◀ : darker
Color	Adjusts color saturation.	▶ : stronger ◀ : weaker
Sharpness	Adjusts image sharpness and displays a sharp image.	▶ : sharper ◀ : softer
Aspect Ratio	Selects screen aspect ratio.	Wide/Cinema/Normal/Zoom Note: you may directly press ASPECT button on the remote control to select.
Advanced Video Menu	Noise Reduction--Spatial Noise Reduction--Speckle Noise Reduction--Temporal	Reduces noise in the picture, commonly called snow. On/Off
	Tint	Adjusts tint for image. ▶ : greenish ◀ : purplish
	Color Temperature	Selects one of three automatic color adjustments. Sets to warm to enhance hotter colors such as red, or set to cool to see less intense colors with more blue. Cool/Warm/Normal
	3D Y/C	Selects 3D comb filter on/off, normally please select On. On/Off

To still the picture

Press the **STILL** button to hold on the image on the screen (the video sources are still operating). Press the button again to reactivate the image.

Note:

For the sake of protecting the screen, please do NOT still a picture for a long time.

Adjusting the Volume

Using the volume buttons (VOL+ and VOL-)

Press the **VOL +** or **VOL-** to increase or decrease the volume.

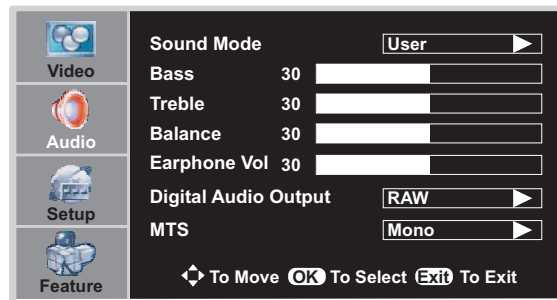

Using the Mute

At any time, you can temporarily cut off the sound using the **MUTE** button.

- 1 Press the **MUTE** button and the sound cuts off.
- 2 To turn mute off, press the **MUTE** button again.

Customizing the sound

- 1 Press **MENU** to display the menu main page.
- 2 Press **▲** or **▼** repeatedly to select **Audio** menu.
- 3 Press **OK** or **▶** to access the submenu.
- 4 Within the menu, use **▲**, **▼**, **◀** or **▶** to navigate or adjust. Press **OK** or **▶** button to confirm, enter sub-menu or toggle the settings of the selected menu item.
- 5 Press **EXIT** button to exit.

(The above menu is shown as an example. It is in TV mode and the signal is analog)

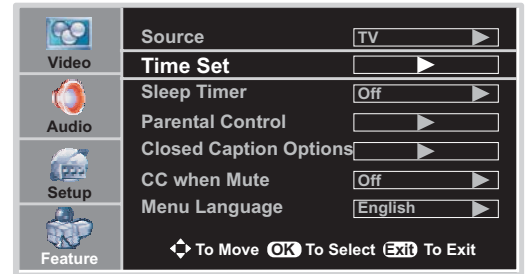

Option	Function	Choice/Range/Remarks
Sound Mode	Selects sound mode.	User/News/Music/Movie Note: you may directly press SOUND MODE button on the remote control to select.
Bass	Adjusts Bass (low sounds)	▶ : stronger ◀ : weaker
Treble	Adjusts Treble (high sounds).	▶ : stronger ◀ : weaker
Balance	Adjusts volume balance (left and right volumes).	▶ : Higher volume from right speaker. ◀ : Higher volume from left speaker.
Earphone Vol	Adjusts earphone volume.	▶ : stronger ◀ : weaker
Digital Audio Output	Selects audio output mode from SPDIF. RAW:AC-3 in AC-3 out PCM:AC-3 in PCM out PCM in PCM out PCM in PCM out	RAW/PCM
MTS (In analog signal only)	Selects MTS (multi-channel TV sound) mode: Mono, Stereo and SAP (Second Audio Program).	The choice may be different in different situation Note: you may directly press STEREO button on the remote control to select.
Audio Language (In digital signal only)	Other languages may be available if a digital signal is provided by the broadcasting station.	The choice may be different in different situation

Notes: the menu items may be different when the unit works in different mode.

Auto Clock Setup

- The time is set automatically from a digital channel signal.
- The digital channel signal includes information for the current time provided by the broadcasting station.
- Set the clock manually, if the current time is set incorrectly by the auto clock function.

- 1 Press **MENU** to display the menu main page.
- 2 Press **▲** or **▼** repeatedly to select **Feature** menu, press **OK** or **▶** to access the submenu.
- 3 Highlight **Time Set** menu item, press **OK** or **▶** to access the **Time**
- 4 Highlight **Time Set Mode** and then use **OK** or **▶** to select **Auto**.
- 5 Highlight **Time Zone** and then use **OK** or **▶** to select your viewing area time zone: **Pacific, Alaska, Hawaii, Eastern, Central, Mountain**.
- 6 Press **EXIT** button to return to TV viewing or press **MENU** button to return to the previous menu.

Manual Clock Setup

- If current time setting is wrong, reset the clock manually.

- 1 Navigate to the **Feature** sub-menu, highlight **Time Set Mode** and then use **OK** or **▶** to select **Manual**.
- 2 Press **▲** or **▼** to select either the Year, Date, or Time option. Once selected, use **OK** or **◀ / ▶** to set the year, date, and time options.
- 3 Press **EXIT** button to return to TV viewing or press **MENU** button to return to the previous menu.

Note: if you power off the TV set, the clock will be reset.

Sleep timer

Sleep timer lets you select the amount of time before your TV turns itself off automatically.

Navigate to the **Feature** sub-menu, highlight **Sleep Timer** and then use **OK** or **▶** to select the amount of time. To turn off sleep timer, select **Off**.

Note: you may directly press **SLEEP** button on the remote control to set sleep timer.

Viewing Closed Captions

The unit decodes and displays the closed captions that are broadcast with certain TV shows. These captions are usually subtitles for the hearing impaired or foreign language translations. All VCRs record the closed caption signal from television programs, so home-recorded video tapes also provide closed captions. Most prerecorded commercial video tapes provide closed captions as well. Check for the closed caption symbol in your television schedule and on the tape's packaging: .

Note:

The Caption feature does not work with Component, VGA, HDMI.

Not all the programs and videos will offer closed captioning. Please look for the  symbol to ensure that captions will be shown.

Analog Broadcasting System Captions

- Select a caption mode for displaying captioning information if provided on a program.
- Analog caption displays information on the screen usually the program's dialog.

Press **CAPTION** button on the remote control to select caption mode: CC1, CC2, CC3, CC4, TEXT1, TEXT2, TEXT3 or TEXT4.

To turn off closed captioning, press **CAPTION** repeatedly to select **Off**.

The Closed Caption broadcasts can be viewed in two modes: CAPTION and TEXT. For each mode, four channels are available.

The [CAPTION] mode shows subtitles of dialogues and commentaries of TV dramas and news programs while allowing a clear view of the picture.

The [TEXT] mode displays various information over the picture (such as TV program schedule, weather forecast, etc.) that is independent of the TV programs.

Digital Broadcasting System Captions

- You may use **CAPTION** button on the remote control to select caption mode.

◆ You can customize the digital closed captions that appear on your screen.

1 Navigate to the **Feature** sub-menu, highlight **Closed Caption Options** and then use **OK** or **▶** to open the **Digital Closed Caption** sub-menu.

2 Highlight **Style** and then use **OK** or **▶** to select **Custom**.

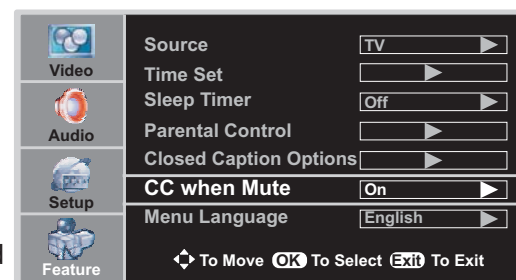

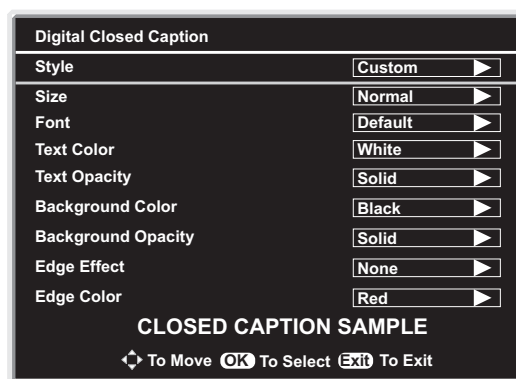

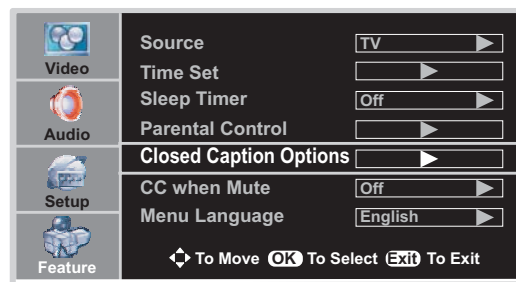

3 Press **▲** or **▼** to select your desired item, and then use **OK** or **▶** to customize the Size, Font, etc. to your preference. A preview sample is provided at the bottom of the menu screen for you to see the effect.

- ◆ **Size**: Set the size the words will appear in.
- ◆ **Font**: Select a typeface for the words.
- ◆ **Text Color**: Choose a color for the text.
- ◆ **Text Opacity**: Specify the opacity for the text color.
- ◆ **Background Color**: Select a background color.
- ◆ **Background Opacity**: Select the opacity for the background color.
- ◆ **Edge Effect**: Select an edge effect.
- ◆ **Edge Color**: Select a color for the edges.

Setting CC When Mute

1 Navigate to the **Feature** sub-menu, highlight **CC when Mute**.

2 Press **OK** or **▶** to select **On** or **Off**. When **On** is selected, the unit will automatically display closed caption when you mute the sound.

Parental Control

This function allows TV programs to be restricted and TV usage to be controlled based on FCC data. It prevents children from watching violent or sexual scenes that may be harmful.

Restriction of TV programs includes two ratings that contain information about the program: the MPAA rating and the TV Parental Guidelines. The MPAA rating is restricted by age. TV Parental Guidelines are restricted by age and content.

Since a TV program may use either the MPAA rating or the TV Guidelines, both should be adjusted for complete control.

[1] Movie Rating (MPAA)

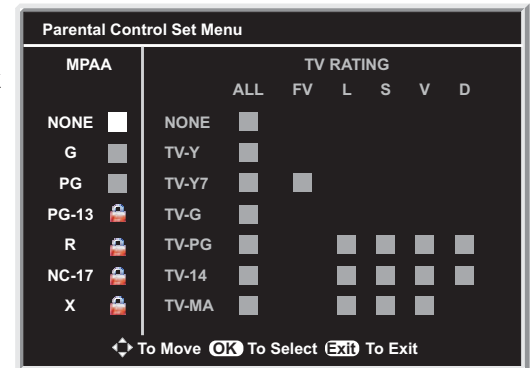

Rating		
age based	G	GENERAL AUDIENCES. All ages admitted.
	PG	PARENTAL GUIDANCE SUGGESTED. Some material may not be suitable for children.
	PG-13	PARENTAL STRONGLY CAUTIONED. Some material may be inappropriate for children under 13.
	R	RESTRICTED. Under 17 requires accompanying parent or adult guardian.
	NC-17	NO ONE 17 AND UNDER ADMITTED.
	X	X Rating is an older rating that is unified with NC-17 but may be encoded in the data of older movies.
	NONE	NOT RATED.

Note:

The Movie rating is only age-based.

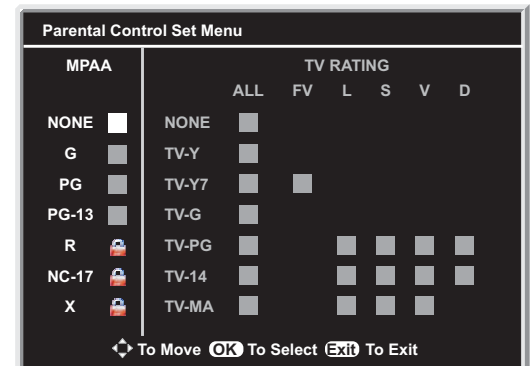

Example 1:

“PG-13” in the age-based rating is blocked, this will automatically block the higher ratings “R”, “NC-17”, “X” also.

Example 2:

“R” in the age-based rating is blocked, this will automatically block the higher rating “NC-17”, “X” also.

Setting Parental Control(continued)

[2] TV Rating

Rating		← content based →				
		D	V	S	L	FV
age based	TV-Y (All children)	×	×	×	×	×
	TV-Y7 (Direct to Older Children)	×	×	×	×	●
	TV-G (General Audience)	×	×	×	×	
	TV-PG (Parental Guidance Suggested)	●	●	●	●	
	TV-14 (Parents Strongly Cautioned)	●	●	●	●	
	TV-MA (Mature Audience Only)		●	●	●	

× — Content Rating can be set but this Rating is not normally broadcast by TV Station.

● — Content Rating can be set.

D: Sexually Suggestive Dialog

V: Violence

S: Sexual Situation

L: Adult Language

FV: Fantasy Violence

Note:

Age-based ratings can be modified by the content-based ratings but only in the combinations indicated by an ● in the table above.

Choosing lower age-based rating blocks the higher age-based ratings regardless of content ratings settings.

Example 1:

When TV-Y in the age-based rating is set to BLOCK, this will automatically block the higher rating: TV-Y7.

Example 2:

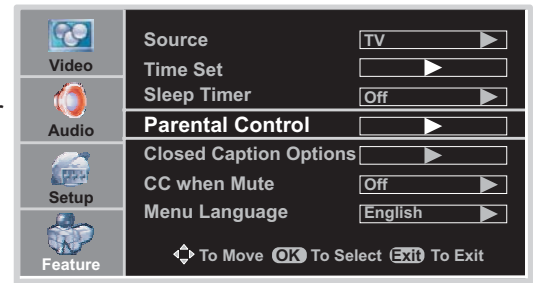

When TV-G in the age-based rating is set to BLOCK, this will automatically block the higher ratings: TV-PG, TV-14, TV-MA.

Password Setup

To use the Parental Control function, you first need to set your password.

- 1 Navigate to the **Feature** sub-menu, highlight **Parental Control** and then use **OK** or **▶** to access **Parental Control Menu**.
- 2 Highlight **Password Change** and then use **OK** or **▶** to access.
- 3 Input old password (4-digit, the preset password is 0000), then input a new password and then confirm again. Now your new password has been created successfully. **Be sure to write down your password and retain it for future use.**

MPAA Rating Setup

- 1 Navigate to the **Feature** sub-menu, highlight **Parental Control** and then use **OK** or **▶** to access **Parental Control Menu**.
- 2 Highlight **Parental Control Set** and then use **OK** or **▶** to access.
- 3 Input your password correctly to access **Parental Control Set Menu**.
- 4 Within the menu, use **▲**, **▼**, **◀** or **▶** to navigate, use **OK** to block or unblock the rating.

When "PG-13" in the age-based rating is blocked, this will automatically block the higher ratings "R", "NC-17", "X" also.

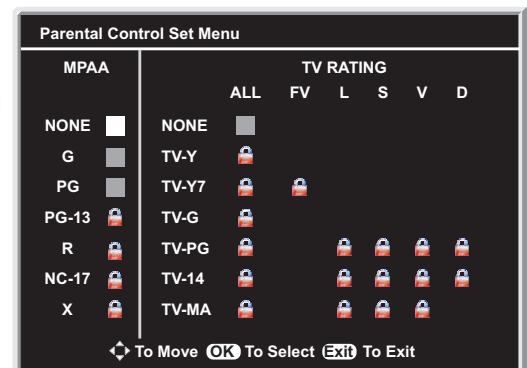

TV Rating Setup

- 1 Navigate to the **Feature** sub-menu, highlight **Parental Control** and then use **OK** or **▶** to access **Parental Control Menu**.
- 2 Highlight **Parental Control Set** and then use **OK** or **▶** to access.
- 3 Input your password correctly to access **Parental Control Set Menu**.
- 4 Within the menu, use **▲**, **▼**, **◀** or **▶** to navigate, use **OK** to block or unblock the rating.

When TV-Y in the age-based rating is set to BLOCK, this will automatically block the higher rating: TV-Y7.

When TV-G in the age-based rating is set to BLOCK, this will automatically block the higher ratings: TV-PG, TV-14, TV-MA.

Screen Setup for VGA (PC) Mode/Component Mode

- Be sure to select the correct source (VGA or Component) before operation.

Customizing the picture

- 1 Navigate to the **Video** sub-menu.
- 2 Within the menu, use **▲**, **▼**, **◀** or **▶** to navigate or adjust.
Press **OK** or **▶** button to confirm, enter sub-menu or toggle the settings of the selected menu item.

(Video menu in **VGA** mode)

(Video menu in **Component** mode)

- 3 Press **EXIT** button to exit.

Option		Function	Choice/remarks
Picture Mode		Selects a desired picture mode.	User/Nature/Soft/Bright Note: you may directly press PICTURE MODE button on the remote control to select.
Contrast		Adjusts image contrast.	▶ : stronger ◀ : weaker
Brightness		Adjusts screen brightness for easier viewing of dark picture such as night scenes and black hair.	▶ : lighter ◀ : darker
Color		Adjusts color saturation.	▶ : stronger ◀ : weaker
Sharpness		Adjusts image sharpness and displays a sharp image.	▶ : sharper ◀ : softer
Aspect Ratio		Selects screen aspect ratio.	Wide/Cinema/Normal/Zoom Note: you may directly press ASPECT button on the remote control to select.
Advanced Video Menu	Noise Reduction--Spatial Noise Reduction--Speckle Noise Reduction--Temporal	Reduces noise in the picture, commonly called snow.	On/Off
	Tint	Adjusts tint for image.	▶ : greenish ◀ : purplish
	Color Temperature	Selects one of three automatic color adjustments. Sets to warm to enhance hotter colors such as red, or set to cool to see less intense colors with more blue.	Cool/Warm/Normal
	3D Y/C	Selects 3D comb filter on/off, normally please select On.	On/Off
VGA Set (for PC mode) Component Set (for Component mode)	H-Pos	Adjusts the horizontal position of the image.	▶ : rightward ◀ : leftward
	V-Pos	Adjusts the vertical position of the image.	▶ : upward ◀ : downward
	Clock	Adjusts the sample frequency.	
	Phase	Improves the focussing of stable image.	
	Setting	Selects and activates Preset to reset the adjusted values to original factory values.	

Troubleshooting

Before calling for repair service, check the following items for possible remedies to an encountered symptom.

Symptoms	Check item
No power	<ul style="list-style-type: none"> • Check that the AC power cord is plugged into the mains socket. • Unplug the power cord, wait for 60 seconds. Then re-insert plug into the mains socket and turn on the unit again.
No picture	<ul style="list-style-type: none"> • Check video connections at the rear of the unit to see if it is properly connected to the unit. • Adjust the contrast and brightness settings. • Select a correct input. • Is a non-compatible signal being input?
Good picture but no sound	<ul style="list-style-type: none"> • Increase the VOLUME. • Check that the unit is not muted.
Good sound but poor color	<ul style="list-style-type: none"> • Adjust the contrast, color and brightness settings.
Poor picture	<ul style="list-style-type: none"> • Sometimes, poor picture quality occurs when an activated S-VHS camera or camcorder is connected while another activated peripheral is connected. In this case, switch off one of the peripherals. • Check whether the room is too bright.
Horizontal dotted line	<ul style="list-style-type: none"> • This may be caused by electrical interference (e.g. hairdryer, nearby neon lights, etc.). • Turn off the equipment.
Remote operation fails.	<ul style="list-style-type: none"> • This remote control is a universal remote control. If the remote control does not work correctly when operating the monitor, try pressing the TV button. • Check whether the batteries are working. Replace if necessary. • Clean the remote control sensor lens on the unit. • Do not use the remote control under strong or fluorescent lighting. • The batteries should be inserted with polarity (+, -) aligned.
Snowy picture and noise	<ul style="list-style-type: none"> • Check the A/V connections.
No stable or not synchronized VGA picture	<ul style="list-style-type: none"> • Check if you have selected the correct VGA mode in your PC.
No output from one of the speakers	<ul style="list-style-type: none"> • Adjust Balance in the SOUND menu.
Control buttons do not work.	<ul style="list-style-type: none"> • Unplug the power cord, wait for a few seconds. Then re-plug the power cord and turn on the unit again.

Do not use in hot and cold rooms (locations)

- When the unit is used in rooms (locations) with low temperature, the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the PDP panel to malfunction.

(Storage temperature: 0°C to +50°C Working temperature: 5°C to +40°C)

Note:

If your problem is not solved, turn your unit off and then on again.
Never attempt to repair a PDP TV yourself.

Plasma Display panel

Symptoms	Check item
Some parts of the screen do not light up.	The plasma display panel is manufactured using an extremely high level of precision technology, however, sometimes some parts of the screen may be missing picture elements or have luminous spots. This is not a malfunction.
After-images appear	Do not allow a still picture to be displayed for an extended period, as this can cause a permanent after-image to remain on the Plasma Display. Examples of still pictures include logos, video games, computer images, teletext and images displayed in 4:3 mode. Note: The permanent after-image on the Plasma Display resulting from fixed image use is not an operating defect. This product is not designed to display fixed images for extended periods of time.
Snapping sounds may be heard from the display unit.	This sound is produced when the cabinet expands or contracts due to variations in temperature and is not a malfunction.

Cleaning and Maintenance

The front of the display panel has been specially treated. Wipe the panel surface gently using only a cleaning cloth or a soft, lint-free cloth.

- ☑ If the surface is particularly dirty, soak a soft, lint-free cloth in a weak detergent solution and then wring the cloth to remove excess liquid. Use this cloth to wipe the surface of the display panel, then wipe it evenly with a dry cloth, of the same type, until the surface is dry.
- ☑ Do not scratch or hit the surface of the panel with fingernails or other hard objects. Furthermore, avoid contact with volatile substances such as insect sprays, solvents and thinner, otherwise the quality of the surface may be adversely affected.

If the cabinet becomes dirty, wipe it with a soft, dry cloth.

- ☑ If the cabinet is particularly dirty, soak the cloth in a weak detergent solution and then wring the cloth dry. Use this cloth to wipe the cabinet, and then wipe it dry with a dry cloth.
- ☑ Do not allow any detergent to come into direct contact with the surface of the Plasma Display.
- ☑ If water droplets get inside the unit, operating problems may result.
- ☑ Avoid contact with volatile substances such as insect sprays, solvents and thinner, otherwise the quality of the cabinet surface may be adversely affected or the coating may peel off. Furthermore, do not leave it for long periods in contact with articles made from rubber or PVC.

Specifications

Power supply: AC 100-240V 50/60Hz

Programming your Remote Control

Introduction

Your remote lets you control four devices with one easy-to-use, compact unit. After installing batteries, you can program the remote to control your Universal TV, VCR or DVD, Cable or Satellite Receivers, Amplifier or Tuner, and Auxiliary devices. To do so, follow the instructions in "Programming a Device". For best results, please read and follow all the remaining instructions. Keep this guide for future reference.

A Quick Look at Programming a Device

To control VCR or DVD, Cable or Satellite Receivers, Amplifier or Tuner, and Auxiliary devices, follow these steps. Before proceeding, find the codes for the devices you want to program in "Manufacturer's Codes" in pages 35-47 and write them down or highlight them.

NOTE: To program a DVD Player, TV/DVD Combo, TV/VCR/DVD Combo, portable DVD player, or mobile DVD player, use the **DVD** key.

1. Turn on the device (for example, DVD player) and, if needed, load media (for example, a DVD).
2. Press a device key (**VCR/DVD**, **CBL/ SAT**, or **AUX**).
3. Press and hold **SET** until the red LED blinks twice; then release.
4. Enter the first five-digit code for your device. The LED blinks once as each digit is entered. If the code is correct, the LED blinks twice.
◆**NOTE:** If the LED does not blink twice, repeat steps 2 to 4 and try entering the code again.
5. Aim the remote at the device and press **Power**. The device should turn off. If it does not, repeat steps 35, trying each code for your brand until you find one that works. If you cannot find a code that works, see "Searching for Your Code".
6. Repeat steps 15 for the other devices you want to control. For future reference, write down each working device code below:
AUX Code:
CBL Code:
CD Code:
DVD Code:
SAT Code:
TNR Code:
VCR Code:
7. Press set to save and exit

Searching for your Code

If your device does not respond to the remote after trying all codes listed for your brand, or if your brand is not listed, try searching for your code:

1. Press a device key once.
2. Press and hold **SET** until the red LED blinks twice; then release.
3. Enter **9-9-1**, then the device group number (0= Cable, 1= TV, 2= VCR, 3= Audio). The LED blinks twice.
4. Aim the remote at the device and press **Power**. The remote sends IR codes from its library to the selected device, starting with the most popular code first. If the device responds, go to step 7.
5. If the device does not respond, press **CH+**. The remote will try the next code. Continue until the device responds.
◆**NOTE:** Press **CH-** to try the previous code.
6. To search for other device codes, repeat steps 1 to 5.
7. Press **SET** to save and exit.

Checking the Codes

If you have set up the remote using the procedure in "Searching for Your Code", you may need to find out which four-digit code is operating your equipment.

For example, to find out which code is assigned to your TV:

1. Press **TV** once.
2. Press and hold **SET** until the red LED blinks twice; then release.
3. Enter **9-9-0**. The LED blinks twice.
4. To view the code for the first digit, press **1**. Count the LED blinks (for example, three blinks = 3), and write down the number in the appropriate code listing in step 8 under "Programming a Device".
◆**NOTE:** If a code digit is **0**, the LED does not blink.
5. Repeat step 4 for the four remaining digits, using **2** for the second digit, **3** for the third digit, **4** for the fourth digit, and **5** for the fifth digit.
6. To check for other device codes, repeat steps 15, substituting the device key for **TV**.

Changing Volume Lock

The remote comes preset to allow independent volume control of each selected device (Global Volume Unlock). However, you may change the Volume Lock setting to Global Volume Lock so that one device's volume will control volume in all other modes. After that, you can perform Individual Volume Unlock on a selected device to set its volume control for independent operation or Global Volume Unlock to remove all volume locking.

Locking Volume Control to One Mode (Global Volume Lock)

1. Press and hold **SET** until the red LED blinks twice; then release.
2. Enter **9-9-3** and then press the mode key for the device you want to control volume (for example, **TV**). The LED blinks twice. Now when you press **VOL+**, **VOL-**, or **Mute**, the selected device (for example, **TV**) will control the volume regardless of the current mode.

Unlocking All Volume Control (Restoring Global Unlock)

1. Press and hold **SET** until the red LED blinks twice; then release.
2. Enter **9-9-3** and then press **VOL+**. The LED blinks four times.

Volume is now independently controlled for all programmed devices.

Unlocking a Single Device's Volume Control

1. Press a device key (**TV**, **VCR/DVD**, **CBL/ SAT**, or **AUX**).
2. Press and hold **SET** until the red LED blinks twice; then release.
3. Enter **9-9-3** and then press **VOL-**. The LED blinks four times.

Volume is now independently controlled for the selected devices.

Troubleshooting

PROBLEM: LED does not blink when you press a key.

SOLUTION: Replace battery with one new 3.3 V 2032 Lithium battery.

PROBLEM: LED blinks when you press a key, but device does not respond.

SOLUTION: Make sure the remote is aimed at your device and is not more than 15 feet away.

PROBLEM: LED blinks one long blink.

SOLUTION: An entry error has occurred (for example, wrong key). Try entry sequence again.

PROBLEM: Remote does not control devices or commands are not working properly.

SOLUTION: Try all listed codes for the device. Make sure the device operates with an infrared remote control.

PROBLEM: **CH+**, **CH-**, and **LAST** do not work for your RCA TV.

SOLUTION: Due to RCA design from 1983 to 1987, only the original remote control will operate these functions.

PROBLEM: No volume on a device.

SOLUTION: See "Changing Volume Lock".

PROBLEM: Channels do not change properly.

SOLUTION: If the original remote control required you to press **Enter** to change channels, press **Enter** on this remote after entering the channel number.

CARE

- ◆ Keep the remote dry. If it gets wet, wipe it dry immediately.
- ◆ Use and store the unit only in normal temperature environments.
- ◆ Handle the remote gently and carefully. Don't drop it.
- ◆ Wipe the remote with a damp cloth to keep it looking like new.
