To record voice memos, select "record" from the main menu.

Press or the [M] button to start recording.

To pause recording, press or the [M] button again.

Press to save the recorded file.

Press to view and playback voice memos.

Legal information

In the settings menu you can customize various player settings such as power usage, language, display settings and more.

Adjust the "Backlight Time" and "Power off" options to extend and optimize battery performance.

FCC Part 15:

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Re-orient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver. connected.
Consult the dealer or an experienced radio/TV technician for help.

Do not attempt to repair or modify this equipment.

Warning: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

"This device complies with Part 15 of the FCC Rules. Operation is subject to the following (1) this device may not cause harmful interference, and (2) this device must cauge any interference received, including interference that may cause

Shielded USB cables must be used with this unit to ensure compliance with the Class B FCC limits.

PLR IP Holdings, LLC, its licensees and affiliates, fully supports all electronic waste

initiatives. As responsible stewards of the environment, and to avoid violating established laws, you should properly dispose of this product in compliance with all applicable regulations, directives or other governances in the area where you reside. Please check with local authorities or the retailer where you purchased this product to determine a location where you can appropriately dispose of the product. You may also go to HYPERLINK "http://www.polaroid.com" www.polaroid.com and reference About / Electronic Recycling to learn more about the specific laws in your area and to locate a collection facility near your home.

If your electronic device has internal memory on which personal or other confidential data may be stored, you may want to perform a data sanitization process before you dispose of your device to assure another party cannot access your personal data. Data sanitization varies by the type of product and its software, and you may want to research the best sanitization process for your device before disposal. You may also check with your local recycling facility to determine their data sanitization procedures during the recycling process.

Troubleshooting

Can not power on • The battery may be exhausted, please recharge the battery.

Files can not be transferred to the player • Check if the driver is installed correctly in the computer by

disconnecting and then reconnecting the player to the computer • Check the connection between the player and PC, and confirm the USB cable is properly connected.

No sound from the headphones • Please ensure the volume is turned up, and the headphones are

properly connected.

• Check if the format of music file is supported by the player.

• Check if there is enough memory and battery capacity.

Display is in the wrong language
• Please ensure you selected the correct language from the "Settings" menu.

I cannot display my .jpg files

The buttons do not work • Slide the **[POWER]** switch to the right to unlock the player.

loading the images. Try to eliminate them by saving the file with another name. Resetting the player

Many digital cameras and image editing softwares add hidden data to the .jpg files. This data can prevent the player from

If the player malfunctions, you can use the reset function to

• To reset the player, take a metal pin (such as the end of a paperclip), and push it into the RESET hole to restart the player.
