Federal Communications Commission Statement

This equipment has been tested and found to comply with the limits of a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/Relocate the receiving antenna.

2. Increase the separation between the equipment and receiver.

3. Connect the equipment into an outlet on a circuit which is different from what the receiver is connected to.

4. Consult the dealer or an experienced radio/TV technician for help.

> ⚠️ **Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user authority to operate the equipment.**

Warnings and Precautions

To prevent any injuries, the following safety precautions should be observed in the installation, use, servicing and maintenance of this equipment.
Before operating this equipment, please read this manual completely, and keep it nearby for future reference.

WARNING	This symbol is intended to alert the user to avoid the risk of electric shock. This equipment must not be disassembled by anyone except qualified service personnel.
CAUTION	This symbol is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.

	To reduce the risk of fire or electric shock, do not expose this equipment to rain or moisture. ▪ TO REDUCE THE RISK OF ELECTRIC SHOCK, ▪ DO NOT REMOVE COVER (OR BACK). ▪ NO USER-SERVICEABLE PARTS INSIDE. ▪ REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.
	Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Important Safety Instructions	
	This symbol indicates caution points.
	This symbol indicates actions that should not be done.
	This symbol indicates actions that must be performed.

	▪ Do not place the equipment on any uneven or unstable carts, stands, tables, shelves etc. The equipment may fall, causing serious injury to children or adults and serious damage to the equipment itself.
	▪ Use only a cart or stand recommended by the manufacturer. This equipment and recommended cart or stand should be handled with care. Quick stops, excessive force, and uneven surfaces may cause the equipment and cart/stand to overturn.

	▪ Do not disable the 3-wire grounding type plug. The grounding pin on the 3-prong plug is an important feature. Removing the grounding pin will increase the risk of damaging the equipment. ▪ If you can not fit the plug into the electrical outlet, contact an electrician to install a grounding outlet. ▪ Always operate this equipment from the type of power source indicated on the rear of the serial/model plate. ▪ Never overload wall outlets and extensions.

2

- Use and handle the power cord with care. Do not place any heavy objects on the AC power cord.

- Do not pull the AC power cord. Do not handle the AC power cord with a wet hand.

- Do not touch the power cord and antenna cable during lightning.
- Remove the plug from the wall outlet, if the equipment will not be used for a long period of time.

- Do not place, use or handle this equipment near water.

- Never expose the equipment to liquid, rain, or moisture.
  Seek for service if any of the above is spilled into the equipment.

- Do not expose the equipment to extreme temperature or to direct sunlight, as the equipment may heat up and suffer damage.

- Do not install the equipment near any heat sources such as radiators, heat registers, stoves, or any other apparatus that might produce heat.

- Do not attempt to service the equipment yourself.

- Opening and removing the covers may expose you to dangerous voltage or other hazards and may void your warranty. Refer service to qualified personnel.

- Do not place or drop any other objects on top.

- Do not insert anything into the ventilation holes of your equipment.
  Inserting any metal or flammable objects may result to fire or electric shock.

- Protect the power cord from being walked on or pinchrd particularly at plugs ,convenience receptacles, and the point where they exit from the apparatus.

- Do not place the equipment on uneven or unstable carts, stands, tables, shelves etc. The equipment may fall, causing serious injury to children or adults and serious damage to the equipment itself.
  Always place the equipment on the floor or on a surface that is sturdy, level, stable and strong enough to support the weight of the equipment.

- Do not block any ventilating openings. Leave an open space around the equipment.
  Never place the equipment :
  on a bed, sofa, rug, or any other similar surfaces; too close to drapes/curtains/walls, in a bookcase, built-in cabinet, or any other similar places that may cause poor ventilation.

- Unplug this apparatus during lightning storms or when unused for long periods of time.

- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

- Always remove the power cord from the outlet before cleaning the equipment.

- Never use liquid or aerosol cleaners on the equipment.
  Clean only with a soft dry cloth.

- Only use attachments/accessories specified by the manufacturer.

Antenna Safety Instructions

If an outdoor antenna is connected, follow the precautions below:

▪ An outdoor antenna should not be located in any area where it could come in contact with overhead power lines, or any other electric light or power circuits.

▪ When installing an outdoor antenna system, extreme caution should be taken to prevent contact with power lines. Direct contact with power lines may be fatal and should be avoided at all costs.

Section 810 of National Electrical Code (NEC) provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

TABLE OF CONTENTS

Chapter 1
Introducing the LCD TV

Key Features

Various Audio/Video terminals for external equipment connection
- 2 sets of composite A/V input terminals
- 1 set of S-VIDEO terminals
- 2 sets of component Video input terminals
- 1 VGA/ Audio input terminals
- 2 HDMI/Audio input terminals
- 1 set of Audio(L/R) output terminals
- 1 Headphone terminal

Built-In Slot-type DVD Player
- Supports DVD/SVCD/VCD/CD compatibility.

Built-in SD Card Reader
- Allows access to digital content stored on a SD card.

Built-In USB Connector

The built-in TV tuner to receive HD ATSC
- This function allows the reception of HD broadcasting without the addition of a set top box.

High Definition Multimedia Interface (HDMI)
- High Definition Multimedia Interface (HDMI) is a small, user-friendly interconnect that can carry up to 5 Gbps of combined video and audio in a single cable. This system eliminates the cost, complexity and confusion of multiple cables used to connect current A/V systems.

HDTV Component Video Inputs
- Offers the best video quality for DVD (1080i, 720p) and digital set-top-box (1080i, 720p) connections.

3D Digital Noise Reduction
- This function can digitally reduce image noise to provide better picture quality.

Film-Mode Detection (3:2 Reverse Pull Down)
- This function can automatically detect content derived from film and adjust the interlacer's frame matching to provide a more natural-looking, clearer image of the moving picture.

Package Contents

Make sure all of the following contents are included.

☑   LCD TV

☑   Bottom Stand /
Screw Driver and Screws (4)
☑   Remote Control/
AAA Batteries x 2

☑   VIDEO Cable

☑   Component Cable
☑   Power Cord

☑   AUDIO Cable
☑   Warranty Card

☑   User's Manual

☑   Quick Start Guide

☑   Stand Assembly Guide

These items are all you need to set up and operate the LCD TV in its basic configuration.

⚠   Make sure all of the above contents are included in the package. If you are missing
any items, please contact the Polaroid customer service department.

Setting Up Your LCD TV

How to install the TV Stand

Read all instructions before continuing with the stand installation.

> ⚠ **Attach the Stand the TV with the bottom foam packaging material still attached.**

a. Lift foam packaging material from the top of the LCD out of the box.
b. Lift LCD out of the box, with the bottom foam packaging material still attached, and place onto a stable surface.
c. Remove protective bag from LCD unit, but DO NOT remove the bottom foam packaging material from the TV.
d. Locate the place on the back of the TV to attach the stand. Secure the stand to the LCD with all six screws.

8
How to remove the TV Stand

If you prefer to mount your new Polaroid TV on a wall instead of attaching it to the stand, please reference the instructions included in the wall mounting kit (sold separately).

ENGLISH

⚠ **Verify your TV's model and be sure to use the wall mounting kit specified for your TV model only. Contact your technician for assistance when installing the wall mounting kit.**

❶ To prevent damaging the surface of the LCD TV, place the TV on a soft cloth.

Soft cloth
❷ Remove the screws of the table stand and detach the table stand from the TV.

Soft cloth

Table stand
❸ Align the holes on the wall mounting hook units with the corresponding holes on the rear of the TV and fasten four screws.

4 screws (supplied with the wall mount kit)

Wall mounting hook unit (supplied with the wall mount kit)

Soft cloth
How to setup the TV

❶   Use a supplied antenna cable to connect the VHF/UHF signal to the LCD TV's ANT. terminal (refer to page18-22).

❷   Connect the AC power cord at the back of the TV and connect the power cord to wall outlet.

❸   Insert the 2 batteries supplied in remote control.

Step1   Slide the back cover up to open the battery compartment of the remote control.
Step2   Insert two AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment. Slide the cover back into place.
⚠   **Do not use caustic cleaners (porcelain, stainless steel, toilet, or oven cleaner etc.) on the remote, as it may suffer damage.**

❹   Connect other an external AV device (refer to page23-31).

Connects to the AUDIO(L/R) input jacks on AV equipment.

AUDIO OUT-DIGITAL-OPTICAL/COAXIAL
Connects to the DIGITAL AUDIO jack on the digital/standard 5.1 audio system.

HDTV/TV AIR/CABLE
Connects RF input from VHF/UHF antenna or cable to receive high/standard definition television.

AC IN
Connects to the AC power cord.

13

Your Remote Control

This package includes a Polaroid remote that enables control of up to four devices.
To select a device, simply select one of the following device mode controls: TV, CBL/SAT, DVD/VCR, or AUDIO.
1 ⏻		Turns the LCD TV on and off
2	**SET UP**	Remote control universal code setup. For more information on setting up your remote control, please see the "Programming Your Remote Control" section (refer to page 56)
3	**TV**	Controls the LCD TV/Built-in DVD/USB / SD card reader.
	CAB/SAT	Controls Cable Converter or Satellite Receiver
	DVD	Controls DVD player or Video player
	AUX	Controls Audio Amplifier
4	**SLEEP**	Cycles through the LCD TV sleep time: OFF/10/20/30/40/50/60/90/120 mins
5 ● ‖ ▶ ■ ⏮ ⏪ ⏩ ⏭		Other device function keys
6	**VOL+-**	Increases and decreases volume
7	**CH▲▼**	Change channel up and down
8	**ASPECT**	Cycles through Wide mode settings: NORMAL/FULL/WIDE/ZOOM
9	**MUTE**	Pressing once mutes audio. Pressing again restores audio
10	**LAST**	Returns to previously selected channel
11	**GUIDE**	In TV mode, pressing GUIDE displays the Program Guide on the screen

14
⑫	**PIP**	Other device function key
⑬	**MENU**	Displays the OSD menu on the screen.
⑭	**◄ ► ▲ ▼,OK**	Cycles through OSD options and selects individual menu items. OK confirms option settings
	OK	In TV mode, pressing OK to display a channel list
⑮	**INFO**	Displays information on the LCD TV screen such as input source, channel, program title.
⑯	**CC**	Cycles through the Closed Caption: ▪ Analog Closed Caption:OFF/CC1/CC2/CC3/CC4/Text1/Text2/Text3/Test4 ▪ Digital Closed Caption: Allow to set the digital closed caption
⑰	**EXIT**	Exits the OSD menu
⑱	**0-9/ENTER**	Pressing a number selects a channel. Following selection, pressing ENTER activates the channel, or channel activates automatically in 3 seconds
⑲	**INPUT**	Pressing **INPUT** to display a source list, use ▲ ▼ to select the video equipment connected to the video inputs of your LCD TV:

Input Source
- TV(CABLE/AIR)
- VIDEO1 (SIDE)
- VIDEO2 (REAR)
- VIDEO3 (S-VIDEO)
- VIDEO4 (YPbPr1)
- VIDEO5 (YPbPr2)
- DVD
- USB
- CARD READER
- VIDEO6 (HDMI1)
- VIDEO7 (HDMI2)
- COMPUTER(VGA)

▪ In TV mode, use with 0-9 and ENTER buttons to select a digital channels.

Effective range:
The remote can control the LCD TV from up to 5m away, if pointed directly at the receiver.

Controlling The Built-in DVD

Press the TV button once to activate the built-in DVD control keys, the following functions are preset to operate the built-in DVD:
1	**DVD MENU**	Press to display the menu of a DVD disc.
2	⏮ ⏭	While playing, press to jump to the previous/next chapter or track.
3	◀◀ ▶▶	Pressing this button during playback advances/reviews playback; speed increases with each pressing: 2x/4x/8x/16x/32x
4	▶	Normal playback.
5	◼	While playing, press this button to stop playing.
6	⏸	While playing, press this button once to pause playing, press once again to resume playing.
7	**VOL+-**	Increases and decreases volume.
8	**ASPECT**	Cycles through Wide mode settings: NORMAL/FULL/WIDE/ZOOM
9	**MUTE**	Pressing once mutes audio. Pressing again restores audio.
10	**GUIDE**	Displays the Built-in DVD Setup Menu on the screen.
11	◀ ▶ ▲ ▼,OK	Cycles through Built-in DVD OSD options and selects individual menu items. **OK** confirms option settings
12	**INFO**	Displays current information on screen during playback.
13	**EXIT**	Press this button to eject the disc.

16

Controlling The USB Storage and SD Card Reader

Press the TV button once to activate the built-in USB and SD Card Reader control keys, the following functions are preset to operate the USB Storage and SD Card: For more information on setting up your USB storagnd adn card reader, please see the "Using the USB Storage and SD Card Reader" section.
1	DVD MENU	Press to display FILE MENU.
2	◄◄ ►►I	Press to go to the next or previous image.
3	►	Normal playback.
4	■	Press to display the thumbnail album.
5	❚❚	While Slide show, press this button once to pause playing, press once again to resume playing.
6	VOL+-	Increases and decreases volume.
7	ASPECT	Cycles through Wide mode settings: NORMAL/FULL/WIDE/ZOOM
8	MUTE	Pressing once mutes audio. Pressing again restores audio.
9	◄ ► ▲ ▼,OK	In FILE MENU and thumbnail album, Press to move the highlight bar to a file, then press **OK** to confirm the selected file.
	► ▼	While image displaying, press to rotate an image 90 degrees in a clockwise or counterclockwise.

17

Chapter 2
Installing the LCD TV

Refer to the owner's manual of any external equipment to be connected.
When connecting any external equipment, do not connect any AC power cords to wall outlets until all other connections are completed.

Connecting a TV Cable or an Antenna

Antenna Connection

The antenna requirements for good color TV reception are more important than those for a black & white TV reception. For this reason, a good quality outdoor antenna is strongly recommended.
The following is a brief explanation of the type of connection that is provided with the various antenna systems.

■ **A 75-ohm system is generally a round cable (not included) with F-type connector that can easily be attached to a terminal without tools.**

F-type connector

75-ohm coaxial cable (round)

■ **A 300-ohm system is a flat twin-lead cable (not included) that can be attached to a 75-ohm terminal through a 300-75-ohm adapter (not included).**

300-ohm twin-lead cable (flat)

Use one of the following two diagrams when connecting an outdoor antenna.
A: Shows how to use a VHF/UHF combination outdoor antenna.
B: Shows how to use a separate VHF and/or UHF outdoor antenna.

Cable TV (CATV) Connection

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electrical Code (NEC) that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building accurately, or as close to the point of cable entry as possible. Use of this TV for other than private viewing of programs broadcasted on UHF, VHF or transmitted by cable companies for the use of the general public may require authorization from the broadcast/cable company, and/or program owner.

- **A 75-ohm coaxial cable connector is built into the set for easy hookup. When connecting the 75-ohm coaxial cable to the set, connect the 75-ohm cable into the ANT. terminal.**

- **Some cable TV companies offer premium pay channels. Since the signals of these premium pay channels are scrambled, a cable TV converter/descrambler is generally provided to the subscriber by the cable TV company.**

This converter/descrambler is necessary for normal viewing of scrambled channels.
(Set your TV to channel 3 or 4, typically one of these channels is used. If this is unknown, consult your cable TV company.)
For more specific instructions on installing cable TV, consult your cable TV company.
One possible method of connecting the converter/descrambler provided by your cable TV company is shown in the diagram below.

RF switch

VHF/UHF IN
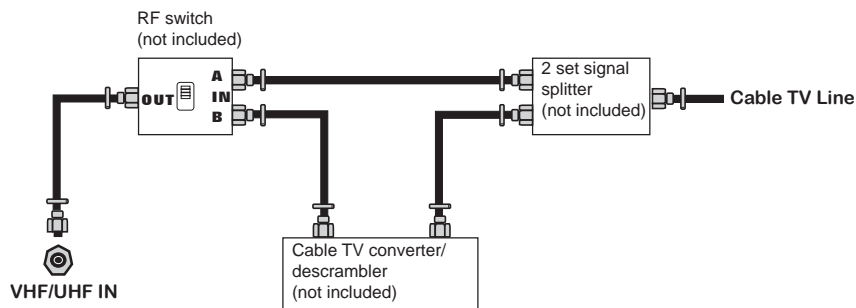

- **The RF switch (not included) is required to provide two inputs (A and B). Setting the RF switch to position A allows viewing of all unscrambled channels by using the TV channel keys.**

- **Setting the RF switch to position B allows viewing of all scrambled channels via the converter/descrambler by using the converter channel keys.**

➊ Use a supplied antenna cable to connect the TV signal to the LCD TV's TV CABLE terminal.
➋ Connect the AC power cord at the back of the TV and connect the power cord to wall outlet.
This TV is equipped with a safety fuse. In the event of an electrical storm or power outage the safety fuse is designed to protect your TV. If your TV has no power, check the fuse by prying the cover off, following the illustration below.
If the fuse is blown, visit your local hardware store and ask for a 4A 250V - 5x20mm Time Lag Fuse (Slow Blow) to replace the fuse.

Firm Plastic Prying Tool
(Using a metal tool may cause shock)

Back of TV

4A 250V
5x20mm
Fuse

⚠ **BE SURE TO UNPLUG AC POWER CORD BEFORE REMOVING THE FUSE.**

➌ Press the ⏻ button on the remote to turn on the LCD TV.

⚠ **Always disconnect the LCD TV from the main voltage when the LCD TV will not be used for a long period of time. The POWER button on the front panel is only used for switching the LCD TV into standby, it does not disconnect the device from the main voltage. To completely disconnect the main voltage, please remove the power plug from the socket.**

4 Press the **INPUT** button on the remote to display the Input List. Use the ▲ ▼ buttons to select **TV** and press the **OK** button.

Connecting a PC

Rear of TV

AUDIO Cable

VGA Cable

PC
➊ Use a D-SUB cable to connect the PC's D-SUB output jack to the LCD TV's VGA input jack. Use an audio cable to connect the PC's audio output jacks to LCD TV's.

➋ Connect all AC power sources, before turning on the power switch of the LCD TV or other connected equipment.

➌ Press the ⏻ button on the remote to turn on the LCD TV.

➍ Press the Input button on the remote to select COMPUTER.

Connecting an Audio Receiver or a Dolby Digital 5.1 Sound System

For better sound quality, you may want to use a Home Theater/Stereo System.

NOTE: If you have a Home Theater/Stereo System that you would like to use with your new TV, we recommend that you do NOT use your TV's audio output for this connection. For the best sound quality, our product testing has shown that you should connect your Home Theater/Stereo System directly to your A/V device. I.E. You should connect your Home Theater/Stereo System to your DVD player, Cable/Satellite box or other AV equipment. Although not recommended, if you prefer to use the TV audio output to make this connection to your Home Stereo System, please follow the instructions below.
❶   **Connecting to Audio Receiver:**
Use an audio cable to connect the audio receiver's audio LINE IN jacks to LCD TV's AUDIO OUT jacks.

❷   **Connecting to Digital 5.1 Sound System:**
METHOD A:
Use a coaxial cable to connect the audio amplifier's COAXIAL IN jacks to LCD TV's COAXIAL OUT jacks.

❸   Connect all AC power sources, before turning on the power switch of the LCD TV or other connected equipment.

**❹**   Press the ⏻ button on the remote to turn on the LCD TV.

Chapter 3
USING THE FEATURES

Using The Built-in DVD

❶ Turn your LCD TV on.

❷ Insert a disc (DVD, VCD, SVCD, or audio CD).
NOTE: The printed side of the disk should face the front of the TV.

▪ **TO INSERT A DISC**
Any of the following disc types can be played on the DVD player: DVD-Video/DVD R/RW/SVCD/VCD/CD/CD-R/CD-RW.

▪ **TO REMOVE A DISC**
When removing the disc, do not attempt to pull it from its slot. Please push the **EJECT** button as illustrated below.

Insert

Push
❸ Press the **Input** button on the remote, use ▲▼ to select **DVD** and press the **OK** button.

Power Source		AC110~220V, 50/60HZ, 2.2A
Power Consumption		180 W, standby < 1 W
Dimension		27.30 w x 21.78 h x 3.86 d inches
WEIGHT		34.94 LB

PROGRAMMING YOUR REMOTE CONTROL

Your remote lets you control four devices with one easy-to-use, compact unit. After installing batteries, you can program the remote to control your Universal TV, VCR or DVD, Cable or Satellite Receivers, Amplifier or Tuner, and Auxiliary devices. To do so, follow the instructions in "Programming a Device". For best results, please read and follow all the remaining instructions. Keep this guide for future reference.

A Quick Look at Programming a Device

To control VCR or DVD, Cable or Satellite Receivers, Amplifier or Tuner, and Auxiliary devices, follow these steps. Before proceeding, find the codes for the devices you want to program in "Manufacturer's Codes" on the right side of this page and write them down or highlight them.

> ⚠ **To program a DVD Player, TV/DVD Combo, TV/VCR/DVD Combo, portable DVD player, or mobile DVD player, use the DVD key.**

❶ Turn on the device (for example, DVD player) and, if needed, load media (for example, a DVD).

❷ Press a device key (VCR/DVD, CBL/ SAT, or AUX).

❸ Press and hold **SET UP** until the red LED blinks twice; then release.

❹ Enter the first 4-digit code for your device. The LED blinks once as each digit is entered. If the code is correct, the LED blinks twice.

> ⚠ **If the LED does not blink twice, repeat steps 2 to 4 and try entering the code again.**

❺ Aim the remote at the device and press ⏻ . The device should turn off. If it does not, repeat steps 3–5, trying each code for your brand until you find one that works. If you cannot find a code that works, see "Searching for Your Code".

❻ Repeat steps 1–5 for the other devices you want to control. For future reference, write down each working device code below:
AUX Code:
CBL Code:
CD Code:
DVD Code:
SAT Code:
TNR Code:
VCR Code:

❼ Press set to save and exit.

56

Searching for your Code

If your device does not respond to the remote after trying all codes listed for your brand, or if your brand is not listed, try searching for your code:

❶   Press a device key once.

❷   Press and hold **SET UP** until the red LED blinks twice; then release.

❸   Enter **9-9-1**, then the device group number (0= Cable, 1= TV, 2= VCR, 3= Audio). The LED blinks twice.

❹   Aim the remote at the device and press ⏻ . The remote sends IR codes from its library to the selected device, starting with the most popular code first. If the device responds, go to step 7.

❺   If the device does not respond, press CH▲. The remote will try the next code. Continue until the device responds. Press **CH▼** to try the previous code.

❻   To search for other device codes, repeat steps 1 to 5.

❼   Press **SET UP** to save and exit.

Checking the Codes

If you have set up the remote using the procedure in "Searching for Your Code", you may need to find out which four-digit code is operating your equipment.

For example, to fi nd out which code is assigned to your TV:

❶   Press **TV** once.

❷   Press and hold **SET UP** until the red LED blinks twice; then release.

❸   Enter **9-9-0**. The LED blinks twice.

❹   To view the code for the first digit, press 1. Count the LED blinks (for example, three blinks = 3), and write down the number in the appropriate code listing in step 8 under "Programming a Device".

> ⚠   **If a code digit is 0, the LED does not blink.**

❺   Repeat step 4 for the four remaining digits, using 2 for the second digit, 3 for the third digit, and 4 for the fourth digit.

Changing Volume Lock

The remote comes preset to allow independent volume control of each selected device (Global Volume Unlock). However, you may change the Volume Lock setting to Global Volume Lock so that one device's volume will control volume in all other modes. After that, you can perform Individual Volume Unlock on a selected device to set its volume control for independent operation or Global Volume Unlock to remove all volume locking.

57

Changing Volume Lock

The remote comes preset to allow independent volume control of each selected device (Global Volume Lock). However, you may change the Volume Lock setting to Global Volume Lock so that one device's volume will control volume in all other modes. After that, you can perform Individual Volume Unlock on a selected device to set its volume control for independent operation or Global Volume Unlock to remove all volume locking.

Locking Volume Control to One Mode (Global Volume Lock)

❶ Press and hold **SET UP** until the red LED blinks twice; then release.

❷ Enter **9-9-3** and then press the mode key for the device you want to control volume (for example,TV). The LED blinks twice. Now when you press VOL+, VOL-, or Mute, the selected device (for example, TV) will control the volume regardless of the current mode.

Unlocking All Volume Control (Restoring Global Unlock)

❶ Press and hold **SET UP** until the red LED blinks twice; then release.

❷ Enter **9-9-3** and then press VOL+. The LED blinks four times.
Volume is now independently controlled for all programmed devices.

Unlocking a Single Device's Volume Control

❶ Press a device key (TV, VCR/DVD, CBL/ SAT, or AUX).

❷ Press and hold **SET UP** until the red LED blinks twice; then release.

❸ Enter 9-9-3 and then press VOL-. The LED blinks four times. Volume is now independently controlled for the selected devices.

Troubleshooting

PROBLEM	SOLUTION
LED does not blink when you press a key.	▪ Replace battery with new AAA size battery.
LED blinks when you press a key, but device does not respond.	▪ Make sure the remote is aimed at your device and is not more than 15 feet away
LED blinks one long blink.	▪ An entry error has occurred (for example, wrong key). Try entry sequence again.
Remote does not control devices or commands are not working properly.	▪ Try all listed codes for the device. Make sure the device operates with an infrared remote control.
CH▲, CH▼, and LAST do not work for your RCA TV.	▪ Due to RCA design from 1983 to 1987, only the original remote control will operate these functions.
No volume on a device.	▪ See "**Changing Volume Lock**".
Channels do not change properly.	▪ If the original remote control required you to press **Enter** to change channels, press **Enter** on this remote after entering the channel number.

CARE
• Keep the remote dry. If it gets wet, wipe it dry immediately.
• Use and store the unit only in normal temperature environments.
• Handle the remote gently and carefully. Don't drop it.
• Wipe the remote with a damp cloth to keep it looking like new.
