Rotating Clock/Timer/Thermometer/Calendar

RadioShack www.radioshack.com

Your RadioShack Rotating Clock/Timer/Thermometer/Calendar is a versatile tool you can use any time. Simply rotate the clock to announce and display the time, a count up or countdown timer, the current temperature, and the date. 63-1128

OWNER'S MANUAL

Please read before using this equipment.

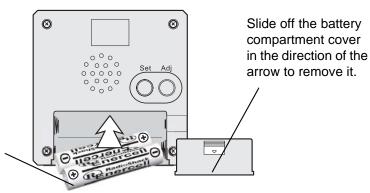

Rear View

INSTALLING BATTERIES

SETUP

Your clock requires two AAA batteries (not supplied) for power.

Insert two AAA batteries into the compartment as indicated by the polarity symbols (+ and -) marked inside. Then replace the cover.

CAUTION

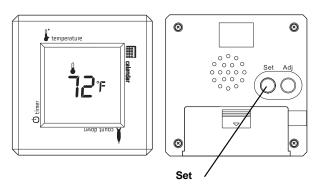

- Use only fresh batteries of the required size and recommended type.
- Do not mix old and new batteries, different types of batteries (standard, alkaline, or rechargeable), or rechargeable batteries of different capacities
- If you do not plan to use the clock for a month or more, remove the batteries. Batteries can leak chemicals that can destroy electronic parts.

TURNING THE SOUND ON OF OFF

Rotate the clock so **temperature** is on top of the clock, then press Set on the back of the clock to turn the sound on or off. The clock beeps when you turn on the sound.

CAUTION

- Do not place the clock in direct sunlight.
- · Do not place the clock near electrical appliances or heating or air conditioning vents and radiators.
- Do not place the clock in water or in a

- location where it is likely to get wet.

OPERATION

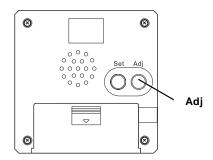

Remove the protective film from the display before using the clock.

USING THE THERMOMETER

Rotate the clock so **temperature** is on top of the clock. The current temperature appears and the clock announces the temperature.

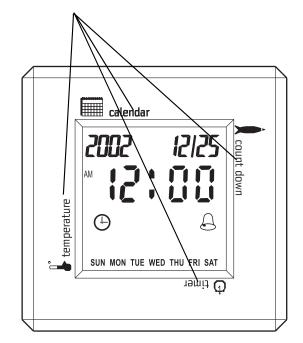

CHANGING THE DEGREE FORMAT

You can view the temperature in either Fahrenheit (F) or Celsius (C) format. To change the degree format, rotate the clock so temperature is on top of the clock. Then press Adj on the back of the clock. C (Celsius) or F (Fahrenheit) appears.

CONTROLS & FEATURES

Rotating Display — Lets you select the function you want (calendar, countdown timer, count-up timer, or temperature) by simply rotating the clock.

Temperature Display Selection — You can easily set the clock so it displays temperature in Fahrenheit (F) or Celsius (C).
