Benefits

Receives local, over-the-air, digital/HDTV broadcasts via antenna. Eliminates common interference problems for DVD-like picture quality. No service or subscription fees.

Reduces peripheral screen reflections & glare by over 60% compared to standard tubes. Offers a wider effective viewing area from any angle. Detail clarity adds realism.

Simplifies connecting other devices such as a DVD player or satellite receiver. Dual-functional inputs offer additional versatility.

Offer quick connect & disconnect of another device such as a digital camera or game system. A/V outputs simplify connection to an audio device or home theatre system.

Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.

Allows disabling of front panel controls to prevent small children from changing settings.

Allows selection of up to 5 channels to be programmed into a favorite list which is selectable with one button on the remote.
