Do not use the unit in places that are extremely hot, cold, dusty or humid.

contains a low

Place the unit on a flat and even surface. Do not restrict the air flow of the unit by placing it in a place with poor air flow, by covering it with a cloth, or by placing it on carpeting.

To avoid magnetized, do not place the unit near speaker or magnet.

Do not use this unit in direct sunlight or leave the unit in a closed automobile (or yacht, etc) where it would be exposed to high temperatures above 104°F (40°C).

No naked flame sources such as lighted candles should be placed on the car power adaptor and main unit. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases,

shall be placed on apparatus.

On Safety

When connecting or disconnecting the car power adaptor, grip the plug and not the cord itself. Pulling the cord may damage it and create a hazard When you are not going to use the unit for a long period of time, disconnect the car power adaptor.

When left in a heated room where it is warm and damp, water droplets or condensation may form inside the unit. When there is condensation inside the unit, the unit may not function normally. Let the unit stand for 1 to 2 hours before turning the power on, or gradually heat the room and allow the unit to dry before use.

Do not block the ventilation openings or holes. (If the ventilation openings or holes are blocked by a newspaper

or cloth, etc., the heat may not be able to get out.) Do not operate the unit in a confined space, such as a bookcase or built-in cabinet, allow about 4 inch (10cm) of

free space all around the unit for adequate ventilation.

Rating Plate Location

Ventilation Warning

The rating plate is located on the rear of unit.

FCC Statements

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in are residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful nterference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measure

- Regrient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

 Should any trouble occur, disconnect the car power adaptor and refer servicing to a qualified technician
 The AC/DC adaptor is used as disconnect device.

A contract of OR should be easily accessed during intended use. The AC/DC adaptor of apparatus should not be obstructed OR should be easily accessed during intended used.

To be completely disconnect the power input, the AC/DC adaptor of apparatus shall be disconnecte

Important Safety Instructions

Keep these instructions. Heed all warnings.

Follow all instructions.

Do not use this apparatus near water.

Clean only with a dry cloth. Do not block the ventilation openings. Install in accordance with the manufacturer's instructions.

8. Do not install near any heat sources such as radiators, heat registers, stoyes, or other apparatus (including amplifiers) that produce heat. 9. Do not defeat the safety purpose of the polarized or grounding - type plug. A polarized plug has two

blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

- 11. Only use attachments/accessories specified by the manufacturer
- 12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
