CAUTION

Some of the following information may not apply to your particular product; however, as with any electronic product, precaution should be observed during handling and use

- · Read these instructions
- Keep these instructions. Heed all warnings
- Do not use this apparatus near water.
- Clean only with dry cloth. Do not block any ventilation openings. Install in accordance with the manufacturer's
- instructions. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete
- outlet. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer. Use only

with the cart, stand tripod, bracket

or table Portable Cart Warning specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination

to avoid injury from tip-over. Unplug this apparatus during

IMPORTANT SAFETY INSTRUCTIONS
PLEASE READ AND SAVE THIS FOR FUTURE REFERENCE lightning storms or when unused

for long periods of time. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate

normally, or has been dropped.

ADDITIONAL SAFETY INFORMATION

- Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Always leave sufficient space around the product for ventilation. Do not place product in or on a bed, rug, in a bookcase or cabinet that may prevent air flow through vent
- Do not place lighted candles. cigarettes, cigars, etc. on the product.
- Connect power cord only to AC power source as marked on the

product Care should be taken so that objects do not fall into the

- product. Do not attempt to disassemble the cabinet. This product does
- not contain customer serviceable components. The marking information is located at the bottom of
- apparatus. To be completely disconnect the power input, the main plug of apparatus shall be disconnected from the mains.
- Main plug is a disconnect device The main plug should not be obstructed OR should be easily
- accessed during intended use The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths,
- curtains etc. No naked flame sources such as lighted candled should be placed
- on the apparatus. Attention should be drawn to the environmental aspects of
- battery disposal.
 The use of apparatus in moderate climates.

safety feature.

Any battery may present a risk of fire, explosion, or chemical burn if abused. Do not try to charge a battery that is not intended to be recharged do not incinerate

- and do not puncture Non-rechargeable batteries, such as alkaline batteries, may leak if left in your product for a long period of time. Remove
- the batteries from the product if you are not going to use it for a month or more.

 If your product uses more than one battery, do not mix types and make sure they are inserted
- correctly. Mixing types or inserting incorrectly may cause them to leak.
- Discard any leaky or deformed battery immediately. They may cause skin burns or other personal injury.
 Please help to protect the
- environment by recycling or disposing of batteries according to federal, state, and local

FCC Information

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into ar outlet on a circuit different from that to which the receiver is connected.

· Consult the dealer or an experienced radio/TV technician

Changes or modifications not expressly approved by Audiovox could void the user's authority to operate the equipment

Before you begin

Battery back-up operation The power failure protection circ will not operate unless battery is

No worry battery backup When the battery backup function the digital display will not light, however, the wake function still occurs during the power interruption if remaining battery power is

Normal operation will resume after AC power is restored so you will not have to reset the time or wake.

Install battery as follow:

- Remove battery compartment door (located at the bottom of the radio) by applying thumb pressure to the tab on battery door and then lift the door out and off the cabinet.
- 2. Connect a 9-volt battery (not supplied) to the connector plug

3. When finished, wait for about 5

exit clock setting mode

seconds or press CLOCK SET to

Power failure indicator When AC power is interrupted (disconnected) for a short period of time, both time and alarm settings will change (unless battery is installed). After AC power is restored (reconnected), the Digital Display will blink to indicate that power was interrupted and you should readjust the time and alarm settings.

Alkaline (NEDA 1604A/ IEC 6LR61) battery is commended. Carbon zinc battery may be used but memory holding time will be substantially reduced. Memory holding time for a fresh alkaline battery is approximately 8 hours (if radio or alarm are not operated) which should take care of short, nuisance-type AC power failures. To preserve battery life, the unit should remain plugged into an AC outlet. As the battery gets older, its voltage drops and n may be lost. Be sure to replace the battery periodically. Battery should be removed if the unit will be stored for more than one month. Leaky battery can badly damage the clock radio.

General controls

Clock

Setting clock 1. Press CLOCK SET once. The current clock time flashes on the display

2. Press I or ▶ to set the clock time. The time decrements or increments will follow by a faster rate when you press and hold the buttons. AM or PM indicator also lights beside the time on the

Radio

Switching on Press RADIO ON to turn on the

Switching band Slide the BAND/AM•FM switch on the right of the unit to select AM or FM band.

Tuning radio Rotate the **TUNING** dial on the right of the unit to select radio frequency

Antennas AM Antenna - A built-in ferrite rod antenna eliminates the need for an outside antenna for AM reception. Rotating the unit slightly may improve reception of distant AM stations

as your FM antenna. The power cord picks up moderate to strong stations and eliminates the need for an external antenna in most strong signal areas. Be sure the power cord is stretched out to its full length. Do not coil or bunch the cord togethe Changing position of the power cord may improve reception.

FM Antenna – The power cord acts

Built-In AFC - The Built In Automatic Frequency Control (AFC) works only on FM. It helps reducing drift on FM reception and keeping the radio locked in on the FM station to which it is tuned.

When tuning in FM stations, you may notice that the station you are tuning can be well-tuned on two or three nearby points on the dial Always tune carefully at the loudest and clearest point.

CD player

Listening to CD 1. Lift open the CD compartment

- 2. Insert a disc and close the door. Press ►II to select CD mode and start CD playback.
- Press ►II to pause playback and press again to resume. 4. Adjust volume to your desired
- 5. Press I◀ or ▶ I to skip backward or forward a track. Press and hold to search through a track.
- Press to stop playback. 7. Press RADIO ON to listen to the radio or **OFF** to turn off the unit

Wake function Setting wake time

1. Press WAKE TIME once. The current wake time flashes on the

also lights beside the time on the display. When finished, wait for about 5 seconds or press WAKE TIME to exit wake time setting mode. The Wake to Alarm mode (read

below) will be automatically activated whenever the wake time has been set.
