PROGRAMMABLE MEMORY

Playing Titles/Chapters in a Favorite Order

You can combine your favorite titles/chapters and play them in the order you determine

Press the MEMORY button and the following display appears. Select the items in the order you want by pressing the number buttons. Each time you press the Cursor buttons (V, A, V), the space is highlighted. Highlight where you want to enter, then press the corresponding number buttons.

3. Press the Cursor buttons (, , , , ,) to move the highlighted bar to

"Play", then press the **OK** button. The DVD player starts memory playback. To resume normal playback from memory playback

a) Press the **MEMORY** button.
b) Press the Cursor buttons (▼, ♠, ◀ ▶) to move the highlighted bar to Title number "Clear All", then press the **OK** button. All the input programs will be cleared.
c) Press the ▶ **PLAY** button to resume normal playback.

. If the title or chapter numbers you entered is not permitted by the DVD, after you press the OK button, it will restore to - - -. You should re-enter correct numbers.
Some discs may not permit memory playback operation.

If you select repeat during memory playback, the DVD player repeats the current memory playback.
 If you press the MEMORY button while the display appears on the TV screen, the display disappears.
 The programmed selections will be cleared when you open the disc tray or turn off the DVD player.

PLAYING A DISC

Stopping Playback

Press the **STOP** button at the location where you want to interrupt playback. To resume playback at the position where the disc was stopped, press the PLAY button.

If you press the STOP button twice, the unit's memory will be cleared and pressing the PLAY button will reset the disc to the beginning.

Zooming into an image

While a disc is playing, press the ZOOM button to enlarge the image in several levels.

 While an image is zoomed, you can use the ▲, ▼, ◀ or ▶ CURSOR button to shift the view and display the part you want.

 To return to normal view, press the ZOOM button until the Q 1 → Q 2 → Q 3 → Q Off shows. The screen will return to normal.

When you reach the edge of the image, the display will not shift anymore in that direction.

Skipping (Forward / Reverse)

Press the PREV button to go back to current or previous chapters/tracks.

Press the NEXT button to advance chapters/tracks

· For audio CDs, use the number buttons on the remote control to jump immediately to the desired

Fast Forward / Fast Reverse

 Press the SEARCH → or SEARCH ← button when a disc is playing. Each time you press the SEARCH ▶ or SEARCH ◀ button, the playback speed changes in the following sequence: \longrightarrow x2 \longrightarrow \Longrightarrow x4 \longrightarrow \Longrightarrow x16

 $44x2 \rightarrow 44x4 \rightarrow 44x8 \rightarrow 44x16$

2. Press the PLAY button when you reach the desired point to resume normal playback.

· The unit mutes sound and subtitles during reverse and forward scan of DVDs.

The fast playback speed may differ depending on the disc.

1. Press the SLOW button on the remote in play mode.

. Each time the SLOW button is pressed, the speed of slow-motion playback changes in the following sequence:

 $1 \triangleright 1/2 \rightarrow 1 \triangleright 1/4 \rightarrow 1 \triangleright 1/6 \rightarrow 1 \triangleright 1/8$

2. Press the PLAY button to return to normal playback speed.

Audio Selection

On some DVDs, the sound is recorded in two or more formats. Follow the directions below to select the preferred language and sound system

1. While a disc is playing, press the AUDIO button to show the current audio format number. e.g.

□ 2/4 □ D 2 Ch Eng

2. Press the AUDIO button repeatedly to select the desired audio format. Notes:

If only one audio format is recorded on the DVD, the number does not change.

 Some DVDs allow you to change audio selections only via the disc menu. If this is the case, press the MENU button and choose the appropriate language on the disc menu.

PLAY MODES FOR CD OR JPG DISC

When playing CD / JPG discs, you can modify the Play Modes through the Toolkit which appears on the screen. Press the ◀ / ▶ button to navigate between the windows and the ▲ / ▼ button to select files/ tracks or play mode items. Then press the OK button.

1. Press the Cursor buttons (▼ ▲ ◀ ▶) to select "Edit mode" then press the OK button.

2. Use the Cursor buttons (▼ ▲ ▼ ▶) to select tracks/files shown on the left hand side of the window. Press

the **OK** button to confirm the selected tracks/files. "\scriv" will appear in front of the selected tracks/files.

Select "Add to program", then press the **OK** button. " " will disappear from the screen. It means that the tracks/files you have selected are added into the "Program view"

Select "Program view" to view programmed files. To add more files by "Browser view" follow the steps.
 Press the ► PLAY button to start the program playback.

The Toolkit has the following play mode items:

Repeat (Off / Track / All): Off: Resumes normal playback Track: Repeats the current track/file.

All: Repeats all files on the current folder or all tracks on the disc.

· Mode (Normal / Shuffle / Music intro): Normal: Resumes normal playback. Shuffle: Plays back tracks/files in random order

Music intro (for Audio CD only): Only plays back the first 10 seconds of all the tracks on the current folder/disc.

Edit mode: Program operation works only when "Edit mode" is selected.

Program view: To view tracks/files in the "Program view" list. It is disabled when the "Program view" list is empty.

Add to program: Add files/tracks to the "Program view" list. It is disabled if the "Edit mode" is not selected Browser view: To view files/tracks in the original view list.

 Clear program: Delete the files/tracks in the "Program view" list.
 Select a file/track or more you want to delete in complete stop mode (press the ■ STOP button twice).
 Use the Cursor buttons (▼, ▲, ◄, ►) to select tracks/files you want to delete, a "✓" will appear beside the deleted file/track. Select "Clear program" and then press the OK button. It is disabled if the "Edit mode" is not selected.

Note: The program will be deleted if the disc door is opened, or selected files are deleted by selecting "Clear program"

REMOTE CONTROL

Using the Remote Control

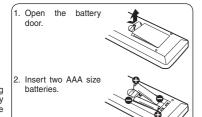

- Point the remote control at the REMOTE SENSOR located on the unit.
- When using this unit in very bright light, the infrared REMOTE CONTROL SENSOR may not work properly
- · The recommended effective distance for remote operation is about 16 feet (5 meters)

Battery Replacement

When the batteries become weak, the operating distance of the remote control will be greatly reduced and you will need to replace the batteries.

- · If the remote control is not going to be used for a long time, remove the batteries to avoid WARNING: damage caused by battery leakage corrosion.
- When discarding batteries, environmental problems must be considered and local rules or laws governing the disposal of these batteries must be strictly followed.

To Change Remote Batteries

- Do not dispose of the battery in fire or it may explode or leak. Batteries shall not be exposed to excessive
- heat such as sunshine, fire or the like

CAUTION:

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type

MAINTENANCE

A defective or soiled disc inserted into the unit can cause sound to drop out during

- playback. Handle the disc by holding its inner and outer edges. Do NOT touch the surface of the unlabeled side of the disc Do NOT stick paper or tape on the surface.
- Do NOT expose the disc to direct sunlight or excessive heat.
- Clean the disc before playback, Wipe the disc from the center outward with a cleaning cloth.
- NEVER use solvents such as benzine or alcohol to clean the disc.
- · Do NOT use irregular shaped discs (example: heart shaped, octagonal, etc.). They may cause malfunctions

Cleaning the Unit

- Be sure to turn the unit off and disconnect the AC power cord before maintaining the unit.
- Wipe the unit with a dry soft cloth. If the surfaces are extremely dirty, wipe clean with a cloth that has been dipped in a weak soap-and-water solution and wrung out thoroughly, then wipe with a dry
- · Never use alcohol, benzine, thinner, cleaning fluid or other chemicals. Do NOT use compressed air to remove dust

- 5 -

Important Note

Before transporting the unit, remove the disc from the disc compartment.

Specifications and external appearance are subject to change without notice. Printed in China

- Heed all warnings
- Follow all instructions
- Do not use this apparatus near water Clean only with a dry cloth.
- Do not block any of the ventilation openings Install in accordance with the manufacturer's instructions
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that nroduce heat Do not defeat the safety purpose of the
- polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prona. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your AC power outlet consult an electrician for replacement of the obsolete outlet.
- 10. Protect the AC power cord from being walked on or pinched particularly at plugs convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer.

tip-over.

 Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury from

Portable Cart Warning

- Unplug this apparatus during lightning storms or when unused for long periods of
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as the AC power cord or plug is damaged, liquid has spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

DISC FORMATS

Compatible Discs

This DVD Player is capable of playing the following types of discs

DVDs, Audio CDs, CDs and JPEG files on them. Before you put a disc in the player, make sure it is compatible. You can't play the following types of discs: Laserdiscs, CD-I, CD-ROM (computer-only discs), DVD-ROM, or discs recorded using other broadcast standards (i.e., PAL or SECAM); CD-G discs. Note: Some discs may not be compatible due to laser pickup, recording formats, and software used. Some technologies and methods used for JPEG file recording on CD-Rs can prevent optimal playback of these files on your DVD player by degrading the quality and/or the ability of the player to read the file

Region Management Information

This unit is designed and manufactured to respond to the Region Management Information that is encoded on DVDs. If the region number printed on the DVD does not correspond to the region number of this unit, it cannot play that disc.

The region number of this unit is 1.

- Press to repeat chapter or title of a DVD. Press to repeat single track or whole CD.

Disc Function or Operation that is Not Available

When the appears on the screen, it indicates that the function or operation attempted is not available at that time. This occurs because the DVD manufacturer determines the specific functions of DVDs. Certain functions may not be available on some DVDs. Be sure to read the documentation provided with the DVD.

Icons Used on DVDs

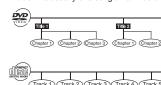

Note: When playing back a CD-G (Graphics) or CD EXTRA disc, the audio portion will be played. but the graphic images will not be shown.

Title, Chapter and Tracks

 DVDs are divided into "titles" and "chapters". If the disc has more than one movie on it, each movie would be a separate "title". "Chapters" are sections of titles.

 Audio CDs are divided into "tracks". A "track" is usually one song on an Audio CD.

Numbers identify each title, chapter, and track on a disc. Most discs have these numbers recorded on them, but some do not.

Notes on Unauthorized Discs

You may not be able to play some DVDs on this unit particularly if they were purchased from outside your geographic area or made for business purposes

SOUND SYSTEM

Dolby Digital

Dolby Digital is a technology developed by Dolby Laboratories. Soundtracks encoded in Dolby Digital can reproduce from one to 5.1 discrete channels of excellent quality audio.

The unit automatically recognizes the Dolby Digital bitstream and can output this multi-channel signal through the COAXIAL digital audio outputs. The unit also provides a downmix suitable for twochannel listening though the analog audio outputs. An additional Dolby Digital decoder is required for reproduction of the discrete multi-channel soundtracks available on many DVDs.
