On Placement

۲

- Do not use the unit in places that are extremely hot, cold, dusty, or humid. The ventilation should not be impeded by
- covering the ventilation openings with items such as newspaper, table-cloths, curtains, On Safety

- When connecting or disconnecting the AC power cord, grip the plug and not the cord itself. Pulling the cord may damage it and create a hazard
- When you are not going to use the unit for a long period of time, disconnect the AC power
- No naked flame sources such as lighted candles should be placed on the AC power cord and the unit.
- Leave a minimum of 10cm around the apparatus for ventilation
- Attention should be drawn to the environmental aspects of battery disposal.
- Use of apparatus in moderate climates. On Condensation
- When left in a heated room where it is warm and damp, water droplets or condensation may form inside the unit. When there is condensation inside the unit, the unit may not function normally. Let the unit stand for 1 to 2 hours before turning the power on, or gradually heat the room and let the unit dry before use.

Rating Plate Location

Should any trouble occur, disconnect the AC power cord and refer servicing to a gualified technician. Main plug is used as the disconnect device, it shall remain readily operable and should not be obstructed during intended use. To be completely disconnected the apparatus from supply mains, the main plug of the apparatus shall be disconnected

SETUP AND CONNECTIONS ΤV

CONNECTING TO A TV The unit can be connected to your TV in several different ways, depending on the design of your TV.

Note: Use only one of the below listed connection method for connecting to your TV.

A. RCA AUDIO/VIDEO JACKS Use the Audio/Video cable (included)

Connect the VIDEO OUT and left/right AUDIO OUT jacks on the unit to the VIDEO IN and left/right AUDIO IN jacks on your TV.

B. CONNECTING TO A DISPLAY (Using a

For TVs that support it, HDMI can provide the best quality audio and video output (depending on media source), and so is the preferred connection type. The HDMI cable incorporates both audio and video signals, so you will have just one cable running from the unit to your TV. Using the HDMI cable (not included), connect the HDMI OUT jack on your unit to the HDMI IN jack on your TV or HDMI-compatible display.

720p (progressive) 10801 (interlace)

1080p (progressive

- Note · Refer to your owner's manual to the connected TV as well.
- When you connect the DVD player to your TV, be sure to turn off the power and unplug both units from the wall outlet before making anv connections

HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks o HDMI licensing LLC.

CONNECTING TO OPTIONAL EQUIPMENT (AMPLIFIER)

A ANALOGUE CONNECTION Using an audio/video cable, connect the left/right AUDIO OUT jack on your unit to the AUDIO IN jack on your other source.

B DIGITAL CONNECTION

Using a coaxial digital audio cable (not included), connect the DIGITAL COAXIAL OUT jack or your unit to the DIGITAL AUDIO IN jack on your other source

- When you connect the unit to other equipment, be sure to turn off the power and unplug all of the equipment from the wall outlet before making any connections. If the external equipment is television and this audio system is close to it, you may experience the
- interference if the tuner function is selected while the television is working
- Refer to the instruction manual of the connected equipment as well.

USING USB PORT

You can connect a USB flash driveS (not included) to the USB port on the unit to play DivX[®] movies as well as picture files.

Plug the USB flash drive into the USB port on the unit. Press SOURCE button to select USB mode

For operation of file playback on the USB flash drive, please refer to the section "PLAYING Div $X^{(B)}$ VIDEO OB PICTUBE FILES"

- It is recommended USB flash drive is plugged when the unit is in STANDBY mode. It does not support USB harddisk mass storage device, multi-card reader and other USB computer peripheral.
- It only supports USB flash drive (FAT32/16 max. capacity 32G bytes, video bitrate is 7Mbps). Make sure your USB flash drive or SD card is FAT16/FAT32 file system. All other file system will not be supported

USING SD CARD SLOT

You can connect a Secure Digital (SD) card (not included) to the memory card slot on the unit to play DivX movies as well as picture files.

Plug the SD card fully into the memory card slot on the unit until it clicks.

Press SOURCE button to change to memory card mode. It reads the information of the SD card and playing the picture and/or sound files For operation of playing files on the SD card, please refer to the section "PLAYING DivX[®] VIDEO OR

PICTURE FILES"

- It is recommended the SD card is plugged when the unit is in STANDBY mode.
- · If the SD card is oriented incorrectly, it will not go fully into the slot. Do not apply force when inserting the SD card.
- To remove the SD card, push the CD card into the slot and then slowly remove your finger, the lock is released and the SD card is pushed out.

PLAYING A DISC

This user manual explains the basic instructions or operating this unit. Some DVDs are produced in a manner that allows specific or imited operation during playback. Therefore, his unit may not respond to all operating ommands. THIS IS NOT A DEFECT. Please

refer to the instructions accompanying the specific DVD in question for more infor about the options available on that DVD may appear on the screen during operation It means that the desired operation is n permitted by the unit or disc.

Playing a Disc

- Press the STANDBY / ON button to turn on the unit. (See CUSTOMIZING THE FUNCTION SETTINGS before proceeding to step 2).
- Press the OPEN/CLOSE button to open the disc tray. Place a disc onto the disc tray with the label side up.
- Press the ▲ OPEN/CLOSE button to close the disc tray. It takes a short while for your unit to load the disc. After loading, for most DVDs, the unit will automatically take you main menu or start
- 5. If the unit does not automatically start playing the DVD, press the PLAY button.

Pausing Playback (Still Mode)

Press the **II PAUSE** button on the remote. To resume normal playback, press the **PLAY** button. Each time you press the **II PAUSE** button, the picture advances one frame.

Stopping Playback

- Press the STOP button at the location where you want to interrupt playback. To resume playback at the position where the disc was stopped, press the **PLAY** button.
- If you press the STOP button twice, the unit's memory will be cleared and pressing the PLAY button will reset the disc to the beginning.

Zooming into an image

- While a disc is playing, press the **ZOOM** button to enlarge the image in several levels.
 While an image is zoomed, you can use the ▲, ▼, ◀ or ► CURSOR button to shift the view and display the part you want.
- To return to normal view, press the ZOOM button repeatedly until the O : Off is displayed.
- When you reach the edge of the image, the display will not shift anymore in that direction.

Skipping (Forward / Reverse)

- Press the REV button to go back to current or previous chapters/tracks.
- Press the **INEXT** button to advance chapters/tracks.
- · For audio CDs, use the number buttons on the remote control to jump immediately to the desired track number.

Fast Forward / Fast Reverse

- 1. Press the SEARCH I or SEARCH I button when a disc is playing. Each time you press the SEARCH ► or SEARCH ◄ button, the playback speed changes. 2. Press the PLAY button when you reach the desired point to resume normal playback
- The unit mutes sound and subtitles during reverse and forward scan of DVDs
- · The fast playback speed may differ depending on the disc

Slow-motion Play

()

- 1. Press the SLOW button on the remote in play mode.
- · Each time the SLOW button is pressed, the speed of slow-motion playback changes Press the ► PLAY button to return to normal playback speed.

Audio Selection

- On some DVDs, the sound is recorded in two or more formats. Follow the directions below to select While a disc is playing, press the AUDIO button to show the current audio format number.
- 2. Press the AUDIO button repeatedly to select the desired audio format.
- If only one audio format is recorded on the DVD, the number does not change Some DVDs allow you to change audio selections only via the disc menu. If this is the case, press
- the MENU button and choose the appropriate language on the disc menu. You can select different audio channels on an Audio CD by pressing the AUDIO button repeatedly.

Subtitle Selection

- 1. While a DVD is playing, press the SUBTITLE button to display the current language setting. 2. Press the SUBTITLE button repeatedly to select the desired subtitle language. You can turn
- subtitles off by pressing the SUBTITLE button repeatedly until the "Off" is displayed.

- Some DVDs are set to display subtitles automatically, and you cannot turn them off even if you set the subtitle function to off.
- · During some scenes, the subtitles may not appear immediately after you select your desired scene. · The number of subtitle languages recorded differs depending on the disc. If only one language is
- recorded, the language does not change. This function can only be used for discs on which subtitles have been recorded in multiple
- languages · Some DVDs allow you to change subtitles only via the disc menu. If this is the case, press the
- MENU button and choose the appropriate subtitle on the disc menu.

Angle Selection

DRC288SU IB ENG.indd 2

Some DVDs contain scenes which have been shot from a number of different angles. For these discs the same scene can be viewed from each of these different angles.

- 1. While you are playing a DVD with different angles recorded, press the **ANGLE** button to view the number of current angles available.
- Press the ANGLE button repeatedly to change the scene to the next recorded angle. After approx. two seconds, playback will continue from the new angle you selected
- · If no button is pressed within 10 seconds, playback continues without changing the current angle.
- This function can only be used for discs on which scenes shot from multiple angles have been recorded

- 6 -

If only one angle is recorded, (X) is displayed

Display Function

While the disc is playing, press the **DISPLAY** button on the remote control repeatedly to display

Aspect Ratio

Depending on the format of the DVD disc, you can choose the picture format (aspect ratio) best suited the format of your TV screen

When wide-screen video is played in this mode on a conventional scree black bands appear at the top and bottom of the screen.

4:3 PS

· When wide-screen video is played, this mode clips the right and left sides of the image so that it can be viewed on a conventional screen. Some wide-screen DVDs that do not permit Pan Scan mode playback are automatically played in letterbox mode (black bands that appear at the top and bottom of the screen)

This is the correct mode for playing wide-screen videos on the unit or other external wide-screens

Note

- The displayable picture size is preset on the DVD. Therefore, the playback picture of some DVDs may not conform to the picture size you select. When you play DVDs recorded in the 4:3 picture size only, the playback
- picture always appears in the 4:3 picture size regardless of the Aspect Ratio setting. Select 16:9 to conform to the LCD screen on the unit. Always be sure that
- your Aspect Ratio conforms to the actual TV in use if you connect the unit to a TV.

HDMI Res. (Resolution)

You can set the HDMI Res. (Resolution) to be Auto, 480p, 720p, 1080i or 1080p, according to the connected TV

- Select the HDMI resolution according to the performance of the connected TV.
- If the Video out is not set to HDMI, you cannot select the HDMI Res

JPEG Interval

To set the JPEG Interval for slide show playback. Select Off to disable the slide show feature.

- 9 -

Plavs back one file at a time.

- 5 seconds Plays back images in the form of a slide show at 5 seconds interval.
- 10 seconds Plays back images in the form of a slide show at 10 seconds interval. 15 seconds Plays back images in the form of a slide show at 15 seconds interval

- DivX(R) VOD or Screen Saver. 4. Press ▶ button, then use ▲ / ▼ button to select the

Default

Note: It will take 3-5 seconds to reset the DVD player to the factory default.

View DivX(R) VOD

DivX[®] Registration

DivX[®] registration code allows you to rent and purchase movies using the DivX[®] VOD service from the internet. This menu setting will display the registration code of your unit as follows:

Go to the website http://vod.divx.com to activate your DivX registration code.

This website will also give you information on how to purchase and download movies, and how to enable video content to be played on your product. You will have the options of transferring content to a USB flash drive, SD card or disc (CD-R/RW, DVD+R/-R or DVD+RW/-RW) for playback on your product

Note

- This registration code is for DivX[®] Video-On-Demand only. Do not apply this code for other applications or websites.
- If you have already registered this product, selecting the View DivX(R) VOD setting will allow you to deregister (deactivate) the product for DivX playback - we recommend you DO NOT deregister

Screen Saver

To turn on or off the screen saver (screen protection to prevent image burn).

Note: When you leave the unit in DVD stop mode for approxiamtely 5 minutes, the screen saver of the unit automatically appears if you set the Screen Saver to On mode. To turn off the screen saver press the PLAY button

Specifications and external appearance are subject to change without notice. Note: See section 3 (on other side of this sheet) for Troubleshooting Guide.
