operation.
In accordance with FCC requirements, change or modifications not expressly approved by Thomson Inc. could void the user's authority

or modifications not expressly approved by Thomson Inc. could void the user's authority to operate this product. This device generates and uses radio frequency (RF) energy, and if not installed and used properly, this equipment may cause interference to radio and television reception. If this equipment does cause interference to radio or television reception (which you can determine by turning the equipment off and on), try to correct the interference by one or more of the following measures:

• Reorient the receiving antenna (that is, the antenna for the radio or television that is "receiving" the interference.

• Plug the unit away from the equipment that is receiving interference.

• Plug the unit into a different wall outlet so that the unit and the equipment receiving interference are on different branch circuits. If these measures do not eliminate the interference, please consult your dealer or an experienced radio/felevision technician for additional suggestions.

Also, the Federal Communications Commi has prepared a helpful booklet, "How To Identify and Resolve Radio TV Interference Problems." This booklet is available from the U.S. Government Printing Office, Washington DC 20402. Please specify stock number 004-000-00345-4 when ordering copies. This product complies with DHHS Rules 21 CFR Subchapter J. Applicable at the date of manufacture.

Connections

External Connections

The AC power plug is polarized The AC power plug is polarized (one blade is wider than the other) and only fits into AC power outlets one way. If the plug won't go into the outlet completely, turn the plug over and try to insert it the other way. If it still won't fit, contact a qualified electrician to change the outlet, or use a different one. Do not attempt to bypass this safety feature.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

Have a Blast-Just Not in your Make sure you turn down the volume on the unit before you put on headphones. Increase the volume to the desired level only after headphone are in place.

Main plug is used as the disconnect device, it shall remain readily operable and should not be obstructed during intended used. To be completely disconnected the apparatus from supply mains, the main plug of the apparatus shall be disconnected from the mains socket

Precautions

- Water and Moisture Do not use this product near water for example, near a bathtub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like. Do not spill liquids on your Portable DVD or its components as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. To clean your Portable DVD use a soft slightly damp cloth. Always allow all the components to dry completely before using again.
- liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning. Heat The product should be placed away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat. Do not expose the Portable DVD or any of its components to extreme heat or cold. Do not expose the player to direct sunlight.
- sunlight.
 Attachments Do not use attachments
- Attachments Do not use attachments not recommended by the product manufacturer as they may cause hazards. Servicing Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel. AC/DC power adapter cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.

Slide **ON/OFF** switch to turn on the player. The DVD logo appears on the
